# SHIRE OF BEVERLEY PRESIDENT'S REPORT

## Election Results for Shire of Beverley

With the elections now behind us, I am pleased to report that the successful candidates are, Mrs. Dee Ridgway, Mr. Chris Lawlor, and Mr. Darryl Brown. I would also like to thank Mr. Barry Shardlow for nominating for these elections and showing a willingness to participate in local government. A reminder to everyone that at this election the Shire began the process of reducing total Council numbers from 9 to 7. The Council will now stand at 8 until 2025.

The pleasing thing about this election was that 669 votes were received, the biggest turnout ever for a Shire election. Of these votes 5 were deemed informal.

Notwithstanding this pleasing aspect of the election, it could be said it was the only pleasing aspect of it. Mrs. Natalie Ashworth was the official Returning Officer and had to undertake a significant amount of training in preparation for dealing with the election. Council Chambers resembled Houston Space Centre on Saturday night. Simon Marshall and Ali Lewis were also in attendance to conduct the count. The count took 2 hours to complete and we then had to wait for a further hour and a half before the Electoral Commission was able to give the all clear on the final result. However, the Electoral Commission did not formally declare the result until Sunday morning.

A big thank-you to Natalie Ashworth for all her efforts, especially as the count on Saturday night meant she missed most of her daughter's 21<sup>st</sup> birthday celebrations! Thank you also to Simon and Ali for their time and efforts.

Until now, elections have been conducted in-house and the night of the count has been one where the community are welcomed to attend and where refreshments are shared at the conclusion. Much more of a community atmosphere. The results are also known as soon as the counting has concluded.

Optional preferential voting did not deliver a 'fairer' result. Neither did it deliver a sense of community involvement. The postal voting did deliver a greater community participation, which can only be a good thing. BUT ALL OF THIS AT A COST TO THE COMMUNITY OF \$18,000+!

As a result of all this, Council will review the whole process and take their concerns to the Central Country Zone and WALGA to get support for any changes Council might deem appropriate.

Finally though, thank you to everyone who chose to return a postal vote even though voting at Local Government elections is NOT compulsory.

## Other Matters

- A new Disability Access and Inclusion Plan (DAIP) for 2023 – 2028 is being developed. Submissions for this closed on 27<sup>th</sup> October but there will be 2 workshops to further develop this. Both workshops will be held on Thursday 2<sup>nd</sup> November. The first at 10:30am in the meeting room at Cornerstone and the second at 6:00pm in the Amenities building at the oval. It would be very much appreciated if those wanting to attend could please register their interest by ringing the Shire office on 9646 1200.
- A Master Trails Plan is being developed with assistance of Tredwells. An on-line survey can be found at <https://www.surveymonkey.com/r/BeverleyTrailsMasterPlan> for your contribution.
- Further information on the progress of the Stage 1 work to the swimming pool has been received with some dismay. The original indicative cost of this work was received at \$1.2 million. Based on this, Council was prepared to raise a new loan of \$1 million to cover the bulk of the cost. Since the October Blarney Report, the indicative cost of this work has now risen from \$1.2 million to \$2.9 million without any seeming reason?? For those who can remember, conditions today are similar to 1973!

# Bushfires and water supply

## A message for fire fighters

Before  
you hook into  
the water supply  
call us 24/7 on  
**13 13 75**

### What to do in an emergency...

Before you hook into the water supply system, **call us on 13 13 75** (24/7). If we know where you're headed, we may be able to help maintain supply or provide an alternative location that has better pressure.

Unfortunately, there is no guarantee that we can prolong water supply or pressure, and experience has shown that once a town is threatened, supply and pressure are at risk.

**Hydrant location** – if you are unsure where the closest hydrants are located, please contact DFES or our Operations Centre on 13 13 75, who will provide you with the exact locations.

**Testing** – if you intend to test hydrants in your area, please let us know first, in the event of any discoloured water complaints from nearby properties.

**Broken hydrants** – any issues with hydrants should be reported up through DFES. DFES will contact Water Corporation and a work order will be actioned immediately.

**Reminder to the community** – help us spread the word that people cannot rely on mains water during a bushfire due to the risk of power cuts, fire damage and extreme demand.

# Water supply in a bushfire

This information could save your life

While leaving high-risk bushfires is the safest option, if you plan to stay and defend your home, you must have an **INDEPENDENT** water supply and pumping capability. This typically requires water tanks of at least 20,000 litres, pump and generator.

This is required as mains water supply and pressure cannot be guaranteed during a bushfire due to the risk of power cuts, fire damage and extreme demand.

Use the Department of Fire and Emergency Services resources to develop your personal bushfire plan: [mybushfireplan.wa.gov.au](http://mybushfireplan.wa.gov.au). You can also download the My Bushfire Plan app via the App Store or Google Play to access your bushfire plan anytime - even without an internet connection.

To support bushfire plans, if you have groundwater bore access to surface water, you can take and store emergency water without it counting against your annual entitlement. For more information on this, and for the location of emergency bushfire water supplies in dryland agricultural areas, visit the Department of Water and Environmental Regulation website.

## Drinking water

We recommend you keep a supply of drinking water on hand throughout summer in case your water supply is interrupted.

## Assistance for customers affected by bushfire

After a bushfire, we can assist you with issues such as damaged water meters and payment difficulties. If you have been affected by bushfire please call us on **13 13 85**.

The Emergency WA website **[emergency.wa.gov.au](http://emergency.wa.gov.au)** provides emergency information and community safety warnings. Call **000** in a life-threatening emergency or the SES **132 500** for emergency assistance.

**MAKE YOUR  
BUSHFIRE PLAN**

A bushfire plan can help keep you and your family safe.  
Create one now in under 15 minutes.  
[mybushfireplan.wa.gov.au](http://mybushfireplan.wa.gov.au)

## Mains water supply cannot be guaranteed during a bushfire

Water Corporation is prepared for bushfire season. However, we cannot guarantee that water pressure or water supply will be maintained in the event of a bushfire. Extreme demand, fire damage and power cuts can all result in a total loss of water.

If you plan to stay and defend your property during a bushfire, you must have your own independent water supply and pumping capability. You cannot rely on mains water.

Details and resources about how to prepare for bushfire season can be found at [mybushfireplan.wa.gov.au](http://mybushfireplan.wa.gov.au)

## WHAT WE'VE BEEN UP TO...

### STEM WORKSHOP

The highly anticipated STEM workshop finally took place this month. The group created their own teleidoscopes, learning about light optics and patterns.

### POUR ART

The Community Garden was buzzing with creativity as all the kids gathered to participate in an artful adventure. They not only had a blast but also learned a new painting technique of pouring art. Each child left with their own artwork they crafted.

### CANVA WORKSHOP

We hosted basic and advanced workshops for Canva, we covered the fundamentals, hacks and tricks to enhance their advertising and improve their social media skills.

### OCTOBER ART & CRAFT CLUB

Our group of junior artists created Halloween Village Luminaries. They painted and decorated large glass jars, ready for Halloween. The group had a great time crafting, ready for the spooky season.

### DYING TO KNOW - FUNERAL PLANNING INFO SESSION

Thank you to Pamela from Purslowe Tinetti Funerals Northam and Danielle from Bailiwick Legal for providing this valuable information session for our community. They shared expert insights into end-of-life planning, funeral arrangements, wills, estate planning, and a Q&A session.

## HIDDEN NARRATIVE

### Depression Awareness Month

We appreciate everyone who participated in our depression awareness initiative, the Hidden Narrative; Empowering Voices Against Depression. The community anonymously shared stories that our staff brought to life and we shared on our social media.

We felt privileged to have special guest, Howard Lance, a mental health advocate, who generously shared his personal journey and invaluable insights with us. If you'd like to view these stories please visit our Instagram account.

## November is Lung Cancer Awareness Month

### Did you know?

Lung cancer is the third most common cancer affecting both women and men in Western Australia.

In 2019, 693 Western Australian men and 564 Western Australian women were diagnosed with lung cancer.

### Common symptoms of lung cancer include:

- Coughing or spitting up blood (once or more)

Or, for more than four weeks:

- A new cough or change to your usual cough
- A lot of chest infections
- Finding it hard to breathe
- Losing weight without trying
- Not feeling hungry
- Pain in your chest and/or shoulder
- Feeling tired or lacking energy
- Changes to your voice, such as hoarseness or croaky voice

If you have coughed up blood, even if it was just once, it's important to tell your doctor, clinic nurse or Aboriginal health worker straight away.

If you have had any of the other symptoms for more than four weeks, tell your doctor, clinic nurse or health worker. It doesn't mean you've got lung cancer – often these symptoms turn out to be something less serious. But it's important to tell your health professional and get checked out to be safe.

If it is lung cancer, the earlier it's found, the earlier it can be treated.

For more information about lung cancer symptoms, visit [www.findcancerearly.com.au](http://www.findcancerearly.com.au) or call the Cancer Council Information and Support Line on 13 11 20.

## Ants in your plants, and pavers?

Left to right: example of letter with sampled ants. Sampling ants using clear sticky tape. Coastal brown ants (*Pheidole megacephala*).

### Want to know what your problem ants are and how to control them? You've come to the right place.

There are thousands of ant species in Australia, and most are difficult to identify without a microscope and specialist knowledge. There are very effective baits for some species, while others require control using sprays. Other species rarely need any control and can be left alone. Unless you know the species of ant, control can be guesswork, which can waste your time and money, and involve the unnecessary use of pesticides.

By submitting samples for identification, you can learn about the species of ants at your property and how to control them, plus you'll contribute to ant surveillance in WA. Detections in recent years of exotic and problematic species such as the African black sugar ant, red imported fire ant and browsing ant, is a testament to the ability of ants to arrive in WA via freight and cargo. Their rapid detection provides the best chance of eradication and prevents the economic, social and environmental impacts caused by these ants.

For ant identification services, we request that only dead specimens are submitted. This will prevent any unintended spread of the ants, whilst keeping the postie happy!

### Sampling instructions

- Brush ants into a sealed container, Ziplock bag or collect ants using the sticky side of transparent tape and fix this gently to a piece of paper.
- Place sample in the freezer for 1-2 hours to kill any live ants.
- Label samples with the collection location e.g. backyard, kitchen, bathroom, driveway etc., and include a note with your name, address, contact number and email address.
- Deliver or post to: Pest and Disease Information Service (PaDIS), Department of Primary Industries and Regional Development, 3 Baron-Hay Court, South Perth WA 6151.

Any suspected exotic ant species should be reported for biosecurity screening to the Department of Primary Industries and Regional Development.

Further information can be found at [agric.wa.gov.au](http://agric.wa.gov.au) by searching for 'ant control', or by contacting the Pest and Disease Information Service.

# WARRIOR WELLBEING ARTICLE

## Political Correctness – Is It a Strain on Our Wellbeing?

BY THE REGIONAL MEN'S HEALTH INITIATIVE  
November 2023

Political correctness is a doctrine which holds forth the proposition that it is entirely possible to pick up a bit of shit by the clean end. In my opinion, political correctness is a major inhibiting factor when interpreting bureaucracy and applying common sense (often the ingredient missing out of lots of decision making) in our daily life. This ultimately can affect our wellbeing.

Bureaucracy on its own does have its place, however at times it can limit how we do things because of the many layers of rigid rules that can complicate getting the job done on the ground. This occurs in everyday life whether completing tedious processes, filling out pages of paperwork, or dealing with a system that appears to be more focused on processes rather than helping achieve an outcome.

When a disaster strikes (i.e. catastrophic fires, floods and droughts) or personal health and safety issues arise in our life, layers of bureaucracy are not always helpful, they can exacerbate an already tense environment. We have spoken to many blokes who feel both frustrated and restricted in their reactions to these disasters because of the many layers of procedures that had to be adhered to. Common sense was taking second place!

The point about the effects of this political correctness doctrine, is that it enshrines both bureaucracy and common sense and quite often masks/dilutes what should be done and said and can also inhibit robust discussions.

Blokes, by our own nature are hard wired to be action orientated i.e. we want to solve problems, and we want to do stuff now. Once this is stifled by political correctness, a few things can start to happen:

- normal stress can become distress;
- short cuts can be taken (with increased risk);
- our natural problem-solving process is inhibited;
- blokes shut down and stop seeking help (we go into our cave and don't come out);
- It creates an *us* versus *them* mentality.

So where have we gone wrong and how can we make changes?

- Don't allow political correctness to mask what should be done and said. Sometimes we must be critical and blunt about our processes to keep them relevant and up to date;
- Bureaucracy should facilitate what we do, not dictate how we do it (not create barriers and thus frustrate people who are trying to deal with a challenging situation at the coal face);
- The common sense rule should be applied to everything we do. I repeat, apply it to everything we do;
- People/communities have the innate ability to band together and deal with stressful situations. This should be fostered thus empowering individuals and communities rather than disempowering through micro-management and removing them from vital decisions regarding their own lives and local community;
- Language is always important. Appropriate language that can be understood needs to be used. A robust discussion is vital to air all points of view and to prevent mistakes being repeated.

Remember at the end of the day we are responsible for our own wellbeing. Hopefully these suggestions, encourages communities to claim back some responsibility and ownership. This would bring about positive change not only in blokes lives but the whole of the community.

**PRESIDENTS REPORT 2023.**

Well, my first year as President has come to an end. It was a first for me to be President of a committee that is so active and boy at times I found myself drowning - but here we are, I survived.

Thanks to Glenys Lane for officiating our 2023 Annual General Meeting.

After recovering from all the work involved in the Spring Back to Beverley Celebrations last September, we had a lovely visit to the Rectory in York, Phillip showed us around and finished with a lovely afternoon tea; very enjoyable and we made the paper. We ended the year with a lovely lunch at the Freemasons Tavern, it was very enjoyable and sociable.

It was decided this year to venture out and do some maintenance in the district of Beverley's old school sites. We had 4 bus trips over a period of couple of months – pulling weeds, whipper snipping, spraying, polishing the plaques and for us newbies learning where they all are. Thanks to all the volunteers, Mark for driving the bus and to Beverley Shire for giving 3 of our trips at no charge for the bus.

We have also had the annual visit from the Year 2s which is always enjoyable. Thanks to the community helpers on the day.

The theme at the Beverley Show was Educate and Innovate so we had a display and write ups on early schooling and inventions. Beverley District High School celebrated 150 years of schooling on 15<sup>th</sup> September which was very well attended, congratulations to them for all the work they put in.

Attendances at the Museum this year have been great. We have had 8 buses with 218 visitors, Sundays we have had 252 visitors and 24 on odd days total 494 for the year.

Before the Beverley Show we decided to have the 1946 Beverley Book reprinted and special thanks to Anne for organizing this.

In February this year we farewelled Vida Whale who had done entered a lot of our info onto the Mosaic program and with help from the committee during January entered most of the items on display into the system. Morag and I are slowly entering the photos in every Monday for a couple of hours, still have heaps to go. The committee behind the scenes are always busy with requests of research information (sorry I am no good at that) and heaps of maintenance – thanks Adam.

Special thanks to our Vice President Joy Smith who steps in when ever she is in town. Secretary Morag Whitney where would I be without you. Treasurer Leonie Taylor, she keeps our finances in order from afar. To all members for their help with rosters, busy bees, etc. Bill Whitney for auditing our books.

Glenys Petchell.

## Auslan at Beverley DHS

(Australian Sign Language) is the language of the Australian Deaf community and is the main form of communication for people who are deaf or hard of hearing. This language uses a mixture of hand gestures and facial expressions to convey meaning.

Students in Years 1 - 8 have been studying Auslan as their LOTE (Language other than English). Students have been learning to read and use the fingerspelling alphabet, and to sign common words. The students enjoy participating in Auslan and are eager to put new vocabulary into sentences to engage in basic conversations with their classmates. I have been impressed with how quickly the students learn. I really enjoy seeing them sign "Hello", "Good morning", "Good afternoon" and "How are you?", whenever they see me at school.

## **Artists-in-Residence at the Station**

### **Artists-in-Residence during October:**

The first half of the month we welcomed back **Alan Pickering** who, when not manning the Gallery, spent his time painting plein air resulting in an amazing 17 artworks some of which you'll find for sale at the East End Gallery. The pic below is Alan painting on a glorious spring day at Deep Pool.

**Barbara Troncone** (below) was AiR from mid Oct and preferred to paint in the studio as the days became hotter. She also took away with her some beautiful fresh works. And she joined the locals for a hit of tennis! But Barb's time here was cut short as her car was broken into at the Station carpark on Sat 21 which unnerved to stay on. Such a shame - she was looking forward to tennis again with the locals! On Fri 20 we

had primed Barb to run a workshop for the Destination Perth visitors in town, but as she came down with a stomach bug that morning she couldn't. However, we managed to inspire the group with a selection of wildflowers which they painted onto a bookmark – a little memento of Spring in the Wheatbelt.

Just look at those satisfied faces with their bookmarks!

### **Artist-in-Residence during November:**

**Jennifer Hill** is a water colour and acrylic artist who takes inspiration from nature and the world around us. One of Jennifer's specialties is pet portraits and she loves to capture the beauty and fun of animals and birds. Jennifer was born on a small farm in Cornwall England which probably contributed to her love of nature and animals. She has

lived in WA since moving to Australia as a child. Her interest in art began as a small child watching her father's talents for drawing. She began painting 10 years ago and has entered many exhibitions throughout WA including two of her own solo exhibitions. Sales from these events are now hanging in private collections in Australia and Europe. Jennifer is a member of the Wanneroo Joondalup Art Society and currently Treasurer of TRYCAN (Two Rocks Yanchep Culture & Arts Network). Please visit the Station Gallery to peruse Jennifer's works for sale, and feel free to join her for weekly 'Open Studio' mornings – just bring along whatever art or craft you are working on for a chat over a coffee. Check dates at the Gallery.

**Station Gallery Open Hours: 11.00am – 3.00pm**  
Thursday, Friday, Saturday, and Sunday

## GALLERY EXTENSION on the PLATFORM

This coming month there will be extra movement at the Station – in the form of building construction on the platform adjacent to the present gallery. This new space will become known as the Platform Gallery and will house the Shire Collection which is presently in stored in the southernmost room – and we can't wait to get them out of there and hanging for all the public to see!

## BeSASS

**Beverley Station Arts Singers** is a FREE community choir which continues to meet weekly on **WEDNESDAYS** for around an hour and a half from **6pm – 7.30pm** in the Green Room of the Platform Theatre. Kelly Shaw and Jo Sims share the role of Musical Director.

Presently we are deciding what songs and carols to sing at the Community Christmas Concert on 23 December, and prior to that on 12 Dec at the Frail Aged Lodge. Singing is wonderful for the soul and in a choir means community and interpersonal connection and you forget about the challenges of daily life. So, sing for fun! Anyone wishing to join this friendly choir of BeSASS please contact Hazel Martin who coordinates the group - Ph: 0438 843 333. There is no charge - all we ask is that you become a member of Beverley Station Arts (\$30/year) by the third week of attending BeSASS.

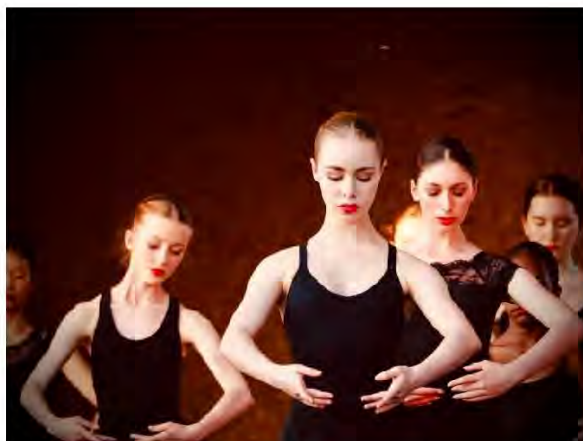

## PERFORMING ARTS

## BALLET at Sundown in Beverley

Friday 6 October was such a wonderful balmy evening and the WA Youth Ballet had the audience, young and old, spellbound by their beauty and grace. The pics that follow were captured by Hazel Martin:

## BEVERLEY COMMUNITY CHRISTMAS PARTY

SATURDAY 23 DECEMBER

Circus workshop; Santa & his friends; Solo Flight; Carols by Candlelight; and Mr Snotbottom...

Kids will be thrilled with the hysterically deesgusting kids comedian brimming with all the ooey, gooey yucky things kids love!

Prior to Mr SnotBottoms's show, and a visit by Santa, a circus workshop for the children will be lead by the amazing 'Natural Wings' Dawn Pascoe who at sunset will perform her aerial act "Solo Flight" on the silks and dance trapeze. Her style of aerial dance is unique, creative and raw.

Are you having trouble getting through on the phones, your calls are important to us, sometimes our staff are extremely busy dealing with other clients. Did you know you can book appointments online to save phone waiting times? please head to our website [Beverleymedicalpractice.com.au](http://Beverleymedicalpractice.com.au) or use the health engine app.

COVID Vaccines - as the Beverley community have been outstanding with their responsibility to attending for all their recommended doses, and with our commitment to reduce wastage and maximise doses we are now maintaining a waiting list for those who may need a further vaccination. This has been due to the logistics of ordering and storing the vaccine in the rural area, please check in for our next vaccination day.

Remember the best way to avoid COVID is to ensure you are vaccinated, wash your hands frequently with soap and water for 20 seconds, use alcohol-based hand sanitiser, cover your cough and sneezes dispose of your tissues and wash your hands after, wear a mask and physical distancing, stay home, and follow the health direct rules if you have symptoms.

The Beverley Medical Practice is committed to providing quality health services to Beverley and surrounding areas. As part of our commitment to the community we support and assist up and coming medical health professionals. We have a number of student GP's attending clinics both onsite and virtually. These Student GP's are from Notre Dame, UWA and Curtin University. If you are interested in assisting us by allowing one of our students to sit in on your consult or attend a virtual clinic over the phone, please let our staff know. You may also advise staff if you would prefer not to have them in attendance.

Care outside normal opening hours - When the Beverley Medical Practice is closed you can always get medical attention by calling Ready Care 1800 225 523 or Calling health direct 1800 222 222 or by attending the Beverley District Hospital, located in Sewell Street Beverley where experienced staff will triage the patient and contact the on-call Doctor

# ST JOHN AMBULANCE

## BEVERLEY SUB CENTRE

The First Aid Course held in October was again successful, and congratulations to those that renewed or gained their First Aid Certificate. It is envisaged that the Sub Centre will run a course every 4 months and possibly the next course will be mid to late February when everyone is home from holidays and getting back into the normal swing of life. So if you want to update, renew or just do your first - First Aid Course - keep watching for the Ads in the Blarney, Bulletin or signage around town early in the New Year.

Crew call outs have once again been at a premium for the months of September and October. You may have seen or heard the helicopter and plane come in a couple of times. These people are amazing and take a lot of pressure off Volunteers when they arrive at a scene.

Training for the Crews will finish for the year at the end of November. We have held 20 training nights throughout the year and have had 95% attendance which is a superb achievement, that the Volunteers commit to attend twice a month, which keeps their skills current.

The 'Fit Test' that a number of Volunteers attended to went very well and we now know which mask, each volunteer needs to wear should we need to use one.

Kitchen renovations are on the move again, and it is hoped that early in the new year it will have been started to have it all revamped. This has been a long time coming but there has been numerous hold ups for those involved this past few months, but it is all a go again.

Sub Centre is open Tuesday and Friday from 9am to 2pm, just look for the Red St John flags on display at the front of the Sub Centre to indicate the Office is open.

We are always on the look-out for new Volunteers, if you think it's your 'thing', come along to a Training night to help you decide about becoming an Ambulance Volunteer. Training is first and third Tuesday of each month from 7pm to 9pm.

All financial members are part of our committee.

Annual fee is \$10.00 and are due now.

We are getting down to the pointy end of the year with only approx. 5 – 6 Sundays the Museum is opened until March next year.

We have scheduled in another Bus Trip of the Churches in Beverley which will be very interesting. Next year we have two bus trip planned and when a little closer will keep you all informed.

Next meeting is Monday 13th November at 1.30p.m. We will be meeting at the Town Hall at 11am to view archives in Bio Box followed if interested BYO lunch at Museum.

New members are always welcome so if you have interest in local history, please come and join our small group. We can be contacted on [bhsdeadfinish@gmail.com](mailto:bhsdeadfinish@gmail.com)

## Beverley C.W.A

Well, another month has gone by, and the ladies are getting ready for the busy season.

Last month we had the Ladies from **King's Park Fashion** come down with their amazing range of clothes. We also held a fashion parade to showcase what they had brought down. The models, as always, were absolutely fantastic and we can't thank you enough. We look forward to seeing what the Ladies will bring with them next time.

On **Wednesday the 8th of November**, we will have our **Community Morning Tea** at the rooms, **Free to all** who wish to come along for a cuppa and an enjoyable morning out. We look forward to seeing you there.

Our **next meeting** will be held on November 15th, 9.30am for morning tea and meeting starts at 10.00am.

Until next time, the ladies will be busily getting ready for that time of the year, raffle, cake stall (which means yummy homemade goodies). So stay safe and cool (if possible) and see you all soon.

# *BEVERLEY AG MACHINERY MUSEUM NEWS.*

*Our item for the month is a McCormick-Deering W-6 Tractor kindly donated by Vin Szczecinski, in 2016 he had handed it over to the Beverley Men's Shed where a group of devoted members carried out a comprehensive restoration bringing it back to working order again, alas the 'open air' parking was not a realistic location given its bright new red coat of paint, so on July 4 2017 Mr Szczecinski donated it to the Ag Museum where it can be appreciated by the public.*

*And talking of the public, after meeting a couple of old friends from Nungarin in Town, on Sunday October 15 John Hawke opened the collection for a private viewing for 16 people from the Busselton Caravan Club, and with many of the group having 'worked the land' the Shearing shed proved very popular.*

*Although visitor numbers were very low at our*

*monthly*

*meet up on Saturday October 21, much knowledge was gleaned from Peter (Beverley Hardware) on the history of the Museum Shed and its erection and the two extensions that he took part in.*

*He introduced his grandson*

*to the collection, hopefully he will become a recruit in years to come. Both Peter and Bernie Howell (and their partners/relatives) took a trip down memory lane, recalling their time spent at the Museum with Bernie's Fordson and the 'little red Fergie' X35 Tractor both being of personal interest to them.*

*We would like to thank the Beverley Shire for restoring a flow of water to the sink in the workshop, it was nice to wash our hands inside again and for their support with our restoration efforts. Also thank you to the National Trust for their work outside of the building including the new drainage pipe under the side entry path.*

*Paul continued his work on the International C30 Truck carrying out more electrical work and taking measurements for securing the newly fabricated step.*

*Bob and John A refitted the 'Stationary Engine area' safety fences after the Shire had attended to the underground stormwater pipes. Gerry established the Brake Master Cylinder would need to be removed from the Holden Ute and given the location of it not the best job to do, rolling around on the ground at 74 years of age, we may need to encourage some younger people to join the group!*

*After removing and cleaning the Spark Plugs, Gerry also found that the Bedford Truck misfire seems to only be present once it has warmed up, so possibly a mechanical issue, which sounds like it could be expensive given her age, but she runs and being a 6 cylinder, the 'uninitiated ear' would never tell the difference.*

*With a change in the seasons and the warmer weather our group will be holding its final meet up and public Museum opening on November 18 which will be the last chance for the public to view our collection this year.*

*You do not need to have a farming or mechanical background to join us, just an appreciation of the history involved in the collection, even after all these years since the collection was brought together in 1979 there is still a lot of historical fact finding and record keeping to be done (clean work), so if you feel you can help in this way and to find out more about the Beverley Ag Machinery Museum or to book a private viewing appointment ring John on 9646 0768.*

The Descendants of Martin Stone are holding a picnic gathering in Stirling Square, Guildford from 10am until 3.00pm on Sunday 12th November 2023. It is a family picnic day, so a great chance for everyone to put on their family colours, bring a picnic lunch, chairs and table and catch up and have fun .

We are following on from the most successful Reunion held in York in 2018, where over 500 descendants attended.

Martin Stone was on the first convict ship "Scindian" to come out from England in 1850. By 1855 he was working for a farmer in York and married Emma Bagshaw. There was 12 children born to Martin and Emma and many of them settled in the Beverley area.

We would love to see as many descendants as possible attend the picnic. Gazebos can be put up but must be weighted with sandbags. There will be games for the children, opportunities to update your family trees., as well as some small displays.

My husband Les Clulow is a descendant of James Richard and Susannah Carr (nee Stone) and we would like to catch up with as many of this side of the family as possible. Other family Members are Ernest Arthur Stone, John William Stone, Joseph Stone, Emily Stone/ married Heal, Mary Ann Stone/married Hubble, Elizabeth Stone/ married McMeekin, Henry Herbert Stone, Fanny Stone/ married Bates , James Richard Stone, Alfred Atherton Stone, Frederick Thomas Stone.

Any enquiries please contact Pam Clulow 0408 955 792 email: [lclulow@wn.com.au](mailto:lclulow@wn.com.au)

# thank you.

WAS AMAZING. THANK YOU

# Beverley Men's Shed

A modern theory in life to avoid certain memory loss is to use the other side of your brain by adjusting how you carry out certain actions, so to add more diversity to the lives of those who are restricted in their abilities we will often visit other 'Men's Sheds' or even our own members will share with us somewhere different to meet up.

September 19 those who wanted to journey out to an outer suburb were able to share morning tea at our member Grant's place, where he showed us around his property allowing us to view his Collectables and Hobbies including examples of his very talented metal fabrication skills, many thanks Grant.

Often other groups in the community will request our assistance with their activities, one such request came from Motor Cycling WA who required additional personnel at The Northam

Motor Cross  
Championships  
held on Sunday  
October 8

where several of our members were allocated tasks from working at the entry gate, crowd control and score keeping, although it was an early start with a long day, everyone enjoyed themselves and were looked after nutritional wise. You can see from the photo there were big smiles all round and the camera is still intact!

***Photo credit to The Dakar Press Team.***

Men's Sheds are often stereotyped to 'old age', this is certainly not the case, for those younger guys who would like the opportunity to share our knowledge and equipment you are welcome to join us, skills are there to be shared and often the old can learn from the young, although Tuesdays is our meeting day, members are allowed use of the premises 'after hours' for those still working.

After a visit to Peter at T Bone Butchers (always buy local) and securing some more meat vouchers, on the Saturday mornings of October 7 & 14 Bob held a raffle at the Lions Kiosk where other members joined him selling tickets and chatting to friends and the public with the proceeds being split equally between The Royal Flying Doctors Service (our charity of choice) and the Beverley Men's Shed.

The draw was held at 12 noon once all the tickets were sold, sorry to those who arrived as the last ones were being swiped up, but there will be another chance to take part again next month, check your local Bulletin for details.

Winners were---

First Prize went to Billy T who won the equivalent of about 16 sheep at today's prices, meat value voucher of \$100.00.

Second prize of a \$50.00 meat voucher went to 'Gem'.

Third prize was a \$25.00 meat voucher, with the winner (a local icon) spotted 'rushing down the pavement' astride his trusty 'Gopher' on his way to watch the local Cricket Match, initially he wanted us to do a redraw, but when told of the meat voucher we noticed 'drool' coming from the side of his mouth as he reflected on the last steak he had bought at T Bone, well done Izzy.

The fourth and very much a mystery prize went to Dave T.

Congrats to all the winners.

Many thanks to all those who continue to support our efforts, your donations to the RFDS and ticket purchases are always welcome and let's not forget those who stand around not only selling tickets, but also bringing a smile to many faces.

Alas it is a fact of life that 'coin' is not used as much these days, although in the past many of us have often put our loose change into a jar or tin, so why not seek out those hidey holes and assist your community by making sure your car/pocket weighs a little heavier when you see raffles being advertised in your town, Bob has his final one for the year in November, see the Bulletin for details.

## HOCKEY AND NETBALL BUS TRIP!

The final hockey event for 2023 was a resounding success. The Hockey and Netball Clubs embarked on an epic bus adventure, cruising from Beverley to York, Whitegum, Greenhills, and back to the home base! These girls didn't just show up – they rocked outfits ranging from AFL stars to tennis champs and even a touch of "Shayne Warn" glamour.

As the journey unfolded, drinks flowed, and games galore filled the bus with laughter and cheers. The Hockey girls decided to dip their toes into the world of netball, getting a crash course on the rules.

Meanwhile, the netball squad had a blast discovering that a "sweeper" isn't just someone who cleans floors, but a legit position on the hockey field!

But the highlight of the day? You won't believe it! A wacky Netball vs. Hockey fashion parade that left everyone in stitches. And yes, that parade is a group chat exclusive – we wouldn't want to cause anyone any embarrassment!

Massive thankyou to Ashton, the mastermind behind this fabulously fun day, and a dedicated member of the Hockey Club committee. Huge shoutout to Emily, our bus driver, who not only navigated the roads like a pro but also endured our spectacularly terrible-yet-enthusiastic singing! To all who joined in on the laughter and drinks – thank you for making this adventure one for the books!

Opening Day 2023/24 was a cracker! ✨ Thanks to all the committee and members for their work with the lead up to opening day. Our club patron, Keith Murray only needed one ball to officially open our season.

The wonderful Keith O'Brien was back to start our junior coaching with 54 juniors hitting the courts. This year we are running little Hot Shots (3-5 years) and they all gave their first session a big thumbs up.
