

# BEVERLEY BLARNEY

Edition 368 June 2015 No Charge

# Airfield Lights Activated

The "Light Up The Strip" campaign culminated in a community gathering at the Airfield on Wednesday 29<sup>th</sup> April 2015. Approximately 150 people attended the official launch of the Solar Runway Lighting, held on the RFDS transfer area outside the main hangar at the Beverley Airfield.

While the crowd enjoyed a free sausage sizzle, they were treated to an aerial display second to none, with local pilot, John Barrett-Lennard completing circuits over the airstrip as a precursor to what can only be described as a jaw-dropping, and for some, stomach turning, display of aeronautics. RAAF Flight Lieutenant, Ray Werndly, a Beverley resident in the mid 70's during part of his childhood, amazed the crowd in his PC9.

During the official ceremony, Shire President Dee Ridgway spoke of Mr John Lane, President of the Beverley St John Ambulance who has been the driving force behind this project to purchase and install solar runway lighting for the purposes of the Royal Flying Doctor Service (RFDS) and of Mr Graeme McDonald who was instrumental in ensuring the correct design and specifications for the project.

Together with funding from the Regional Airports Development Scheme (RADS), which is administered by the Department of Transport and funded through the State Government's Royalties for Regions program, the local St John Ambulance, the Shire of Beverley and funds raised by the community of Beverley and beyond, the RFDS is now able to conduct operations between dusk and dawn. Michael Bleus, RFDS chief pilot, praised all involved for taking the initiative to value add to the services of emergency health care for the local and surrounding districts. In the last year the RFDS had 16 call outs to the Beverley Airfield.

St John Ambulance Regional Manager for the Wheatbelt, Kalie Gladwin, highlighted the benefits this project will have for neighbouring towns that do not have airfield lighting.

Shire of Beverley CDO, Kathryn McLean, emphasised the benefits of collaboration within a community and highlighted the ongoing cooperation received from the Beverley Soaring Society throughout this project and their support to enable the RFDS to operate when required.

To conclude the official ceremony, Chief Pilot, Michael Bleus, activated the lights for the first time allowing local pilots, Alan Sattler and John Barrett-Lennard to take off and for John to return safely, guided by the new lights and illuminated windsock.

**Below:** Solar lights activated for the first time and the crowd assembled for the official launch of the emergency lights. Photo's courtesy of Hollie Smith

Beverley Blarney, Edition 368 – June 2015 1

President Report

### June 2015

#### Workforce Planning

The Shire of Beverley has recently undertaken a review of its workforce planning requirements, taking into account strategic. operational and legislative responsibilities which will be realized within the Shires' current staffing budget allocation. Achieving organisational outcomes is reliant on a workforce with appropriate capacity, skills and knowledge and is a continuous process.

#### <u>сстv</u>

Council has been successful in securing funding for installation of CCTV surveillance in Vincent street near Memorial Park. This area has been a source of ongoing and costly vandalism.

#### Tourism Planning Workshops

Thanks to those community members who participated in the recent Community Tourism Planning Workshops where it was explored WHY develop tourism planning, HOW it can be sustainably progressed under a Planning Framework and WHAT can be done with the assets we have. Ideas around branding were also discussed. The Workshops reinforced the Tourism Steering Committee's conclusions that there could be economic and social benefit in a planned approach. There will be more opportunities for community feedback at the Beverley Show and in a proposed questionnaire.

#### Main Roads Meet and Greet

Beverley Shire recently hosted a "Meet and Greet" for regional road group members with Main Roads Regional Manager Craig Manton. Shires represented along with Beverley included Corrigin, Cuballing, Kondinin, Lake Grace, Wickepin and Williams.

#### Round 1 National Stronger Regions Application Unsuccessful

Beverley's application into round one of the Federal National Stronger Regions Fund for the Community Centre project was unsuccessful. Feedback has been requested and the CEO, Community Development Officer and Shire President have attended a follow-up information session in preparation for a refined submission to round two which closes at the end of July.

#### Road Maintenance

The maintenance grader has been busy since the rain, recently out west on Edison Mill road. If you are aware of maintenance issues such as the washout near bridge 3197 on the York Williams road which was threatening to undermine, please report them to the Shire office for investigation. (Hopefully we get some more rain soon!)

#### Avondale Collection – Honorary Museum Director

Council has supported a proposal to engage an honorary museum director for the Avondale Collection to progress its recording and management, establishing a link between the Shire and the Avondale Farm Project Association (AFPA) who have been invaluable in continuing overseeing and maintaining the collection.

In 2009 Council agreed to become custodian of the museum collection when the National Trust (WA) took over responsibility of the property from the Department of Agriculture and there was concern it would be dispersed as part of that process. The Shire is currently developing a management agreement with AFPA to formalize their role on behalf of the community. If you would like to become involved as an Avondale volunteer and member of AFPA please contact AFPA President Jo Johnson on 0417 951 513

#### **Electronic Scoreboard**

The electronic scoreboard has been installed at the recreation ground. Staff recently were receiving instruction on its use when local identity Mary Blechynden happened to be walking the oval. Unbeknown that the testing was in progress, she was most surprised to be receiving messages such as "hello Mary" and "enjoy your walk"! The scoreboard was christened by the ladies

hockey club in their game against Jennacubbine on Saturday 23<sup>rd</sup> May. As with other Council facilities use of the electronic scoreboard can be booked through the Shire.

#### Visitor Centre Relocation

The number of volunteers available to keep the Visitor Centre open on a regular basis has been dwindling and Council has supported a move for it to be relocated to the Community Resource Centre, ensuring a daily service during office hours. Volunteers are still invaluable to meet and greet at the museum, particularly on the weekends. During the week if there is no-one in attendance at the museum a key can be requested for self-viewing by visitors. Please contact the CRC if you are interested in helping out.

#### **Community Grants**

Keep an eye out for the next round of Community Grants which will be advertised in the July Blarney.

#### Local Health Advisory Group

The Local Health Advisory Group is your link between the health services in Beverley and our community and the group is seeking some new members. If you are interested in becoming involved please contact Chairman Cr Keith Murray ph 9646 0737 or Health Services Manager Michelle Bauer at the hospital 9646 3200.

#### **Airfield Lighting Project**

The airfield lighting project has been completed and the official "Turning on of the Lights" was held on Wednesday 29<sup>th</sup> April. (The lights have already been required by the RFDS). Congratulations to John Lane and the Beverley St John Ambulance for driving this project and to the community for an incredible fundraising effort.

Dee Ridgway Shire President

### SIGNIFICANCE ASSESSMENT OF AERONAUTICAL MUSEUM

In order to plan for the future of the Aeronautical Museum, a Significance Assessment of the collection will be completed, beginning in July 2015.

The assessment will highlight:

- strengths and weaknesses in the collection;
- history, context and value to communities of the collection; and
- provide recommendations for management of the collection;

and will include collation and storage of relevant documents and stories associated with the collection.

AND YOUR HELP IS REQUIRED!

Many of the items in the collection have no supporting paperwork or "story" so all current and past museum volunteers, donors and supporters are asked to contact Kathryn McLean as soon as possible with any information or documentation pertaining to the current collection.

NB no new items will be accessioned during this process.

Contact Kathryn McLean, CDO, Shire of Beverley, PO Box 20, Beverley WA 6304, Ph (08) 9646 1200

This Shire of Beverley project has been supported by

Government of Western Australia Department of Regional Development

### SALE OF SCRAP BY TENDER

### JARRAH FLOOR BOARDS

Approximately 110sqm of old and used jarrah bearers, joists and floorboards. Located at the rear of the Beverley CRC Building. Inspection by appointment, please contact Daryl 0427 461 200 Monday – Thursday, 9.00am – 3.00pm only. Tender is based on As Is/Where Is and the successful tenderer is to arrange removal within 14 days of tender acceptance.

> Tender to be received in a sealed envelope by 4pm Wednesday 17 June at the Shire Office 136 Vincent Street (PO Box 20), BEVERLEY, WA 6304. No tender necessarily accepted.

#### Time To Say Goodbye to Beverley From Lyn Kay

After 10<sup>1</sup>/<sub>2</sub> years in Beverley it is time for me now to move on, first I will be house sitting in Busselton for 2 months and then I don't know where - but ready for a new journey.

I have been on a very emotional rollercoaster ride for the last 4 years and my house will be going on the market soon - hopefully!

To all the youth and children in the Wheatbelt, thanks for sharing the most amazing ride with lots of excursions, camps, disco's, school balls, Active After School, boxing classes, Nyoongar Sports, wheelchair basketball and lots more. To have a job in the community that opened up so many doors for young people to thrive, I never thought I would meet so many wonderful people through work.

Also, a very big heartfelt thanks to my volunteers who helped me over the 7 years when I ran the Beverley Youth Centre - Robyn Cusack, Darren White, Shane Greenmount, bus driver Ted Strahan, Karaoke Queen Debbie Eastwell, Morgen and Police at the time - Paul (Bear), Kerry Brindle and Darryl Hagan.

I would also like to thank sincerely the Shire of Beverley for your ongoing trust and belief in me, Beverley District High School, local community groups, community members, Local Drug Action Group and families who helped with donations of sporting equipment, lounges, pool tables, games and wonderful support, it truly meant the world to me!

Lyn's Gym at the Court House - with over 30 years experience in the fitness industry, this was a fantastic time in Beverley for me. First we started in my carport, but thankfully the numbers started to rise and I moved down to the Court House to lay some law and order on my participants! This proved difficult with some of them giving me a hard time - Walter Swan (84 years old) always stirring me up with others. I also introduced them to Reebok Sporting gear! Great sing alongs to the music DVD's playing in the background whilst I put them through their paces. Lots of seniors, youth and community attending, also from surrounding towns made it enjoyable and the best "Job in Town"!

I would like to thank HACC for asking me to exercise their clients, so much fun and I have never taken a 104 year old until then, inspirational and loved the "cuppa" and chats afterwards.

A special thanks to the boxing group, although we are only a small group, you stuck with me for over 5 years. Truly inspirational and your support with my tears, pain and heartache through the most difficult journey of my life, I will never forget your kindness, support and love. Thanks Lois, Judy, Graham, Ange, Nikki, Ali, Tess and others who attended at times.

To all the friends and acquaintances I made whilst here, I would love to stay in touch and hear about your continuing journeys. I would also like to thank Robyn and Alan Cusack who have been by my side, listening, supporting,

feeding and helping me during the difficult times, especially over the last couple of years. Your friendship is special and I will cherish it forever.

My wonderful neighbours, Maureen Cole, Derick and Irene Birch, the love and support you have shown me since I moved to Beverley has been unbelievable, you will always be special in my heart forever.

Thanks to lifelong friends, Jeff, Julie, Bruce and John, you are definitely what friendship is all about, the occasional phone call, message or meal just to show your care.

I would like to thank my mum and dad for their wonderful support and love. I invited them up to Beverley to live with me nearly 3 years ago but did not know that I would be losing my house. It has been difficult for them to see my heartache but the unconditional love of parents is something I have always had and am so lucky to have them in my life.

Lastly, my sons Michael and Shane and families, I love you with all my heart - thanks.

I will be having a BBQ on Saturday June 20th at my house - 32 Great Southern Highway Beverley to say goodbye, if you would like to call in, even for a cuppa or drink, I would love to see you After 4pm, please BYO drinks, meat and salad.

# **SHIRE OF BEVERLEY**

# **KERBSIDE PICK UP**

# **JUNE 2015**

Council will provide a GREEN WASTE and BULK WASTE Collection for residential properties within the townsite boundary commencing on the following date:

# MONDAY, 8 JUNE 2015

## WILL REMOVE

Thanking my wonderful family and friends for your lovely cards, good wishes, flowers, phone calls and gifts for my 90th Birthday.

Your surpríses have left lovely memoríes.

Shírley Carr

# Thank you

Stan and Carole Dorman, Michael and Anne Woods sincerely thank all those wonderful volunteers who gave up their Sunday afternoon to attend our fire on 3rd May.

With the strong wind, it required an effort to control and fortunately no real damage.

A special big thank you to our energetic fire officer, Paul Schilling.

Thank You

On behalf of Glenda Tasker and her family, we wish to thank Dr Oley and all of the caring staff at Beverley Hospital.

Thank you to the Beverley Men's Shed for all of their generous support throughout the recent illness and passing of David Tasker.

Beverley is certainly a caring community.

Government of Western Australia Department of Health WA Country Health Service

#### BEVERLEY HEALTH SERVICE Home and Community Care (HACC)

Working together for a healthier country WA

May has been a very busy month once again at the Day Centre with outings to the Narrogin Garden Centre and Café for a buffet lunch and a trip to Northam to see the vibrantly painted wheat bins.

We have also been entertained by the Beverley Line Dancers and a guest pianist who led us in a sing along with the Lodge residents.

Clients and volunteers were busy finishing lots of woollen items which were either raffled or sold at Australia's Biggest Morning Tea, held in conjunction with the school.

A respectable sum of \$1047.00 was raised by these sales and donations made for a cuppa on the day. This has been donated to the Cancer Council of Western Australia.

NATIONAL VOLUNTEER'S WEEK is observed in May and Beverley Health Service hosted a "thank you" morning tea to acknowledge all of our volunteers who so generously donate their time to assist the Beverley community by delivering meals on wheels, transporting clients to medical appointments and helping the Day Centre clients.

Once again, a sincere thank you for all you do for your community.

Anyone interested in becoming a volunteer please contact Beverley Health Service office on 9646 3200 Monday to Friday.

#### Farewell Dorothy <u>TUESDAY 30<sup>TH</sup> JUNE from 10:00am to 11:30am</u> (St John Ambulance Hall)

Beverley Health Service would like to extend an invitation to all HACC clients present and past and HACC volunteers to a farewell morning tea for our Home and Community Care Coordinator, Dorothy Sampson, who will be retiring at the end of June.

Please contact the Health Service on 9646 3200 if you will be attending (for catering and seating purposes). The Health Service would like to wish Dorothy a happy and productive retirement. We thank her sincerely for her dedication to contributing to the wellbeing of HACC clients and the community at large. Dorothy has done this over many years. We will all miss her!

The Centre Based Day Care will be having a stall on Friday 19<sup>th</sup> June at the Lions kiosk (next to IGA) selling winter warmers - scarves, beanies and blankets (some in footy colours) and produce .

#### Proceeds of this stall will be donated to Motor Neurone Disease Foundation

Our Values: Community | Compassion | Quality | Integrity | Justice

All welcome to

York Garden Club

OPEN DAY Church of Chríst Hall

# WEDNESDAY 01 JULY 10.00am - 2.30pm

- Tea & Coffee
   Light morning tea \$2
- Soup with bread \$2

Come along and enjoy the fun!!

#### CONGRATULATIONS Beverley's Everyday Hero

Valery Seeber proudly participated in the HBF Run for a Reason on Sunday 24 May 2015, with thousands of people raising much needed funds for charities.

She walked 12kms and her official time was 1:36:15. Initially her target was to raise \$1,000 but in the end she went over her target raising a total of \$1,322.50 that goes towards Lifeline WA.

Valery has alluded that she may even run next year. A big congratulations from the Beverley community on doing such a marvellous job.

# **AIRSTRIP LIGHTING CELEBRATIONS**

On Wednesday, April 29th, the long awaited official ceremony to commemorate the installation of the new airstrip lights took place at the local airstrip among a crowd of more than 100 attendees. This ceremony was the culmination of approximately 18 months of keen planning and a well-supported fundraising campaign. While everyone enjoyed a free sausage sizzle, RAAF Flight Lieutenant Ray Werndly delighted the crowd with an impressive aerial display in a PC-9, a single-engine, low-wing, tandem-seat, and turbo-prop training aircraft. This was a highlight of the evening with Ray flying all the way from the Pearce Air Base especially for the event and there were lots of 'oohs' and 'aahs' heard among the crowd. Kathryn Mclean, Community Develop Officer for the Shire of Beverley, officiated the ceremony which included speeches by Shire President Dee Ridgway, RFDS Chief Pilot Captain Michael Bleus, and SJA Regional Manager Kalie Gladwin. At the closing of the official speeches, Michael Bleus was given the honour of 'flicking the switch' to light up the strip and the crowd erupted in applause as the lights came on for the first time. Local pilots John Barrett-Lennard, flying a Cessna 150, and Alan Sattler, flying a Vans RV6, then took off from the strip with John coming back around to land again, guided in by the new lights for the first time.

There are many people who deserve to be acknowledged for making this achievement possible. Firstly, John Lane, our very own sub-centre President, whose vision to see lights installed at the local airstrip was followed up with action and a passion to see it through to the end. His passion was contagious and soon others, seeing the benefit this would make to our community, eagerly came 'on board'. Thanks must also go to the Shire of Beverley for their generous contribution with site works and labour, Graeme McDonald for his expertise as an electrical engineer, the Beverley Soaring Society, the Beverley community who raised a massive \$45 000, and many others who gave so generously. It was also a delight to see the Sandgropers Chapter of the CMCA attend the evening in a continued show of their support, having given generously to the project a year ago.

The installation of lighting at our airstrip will not only benefit the community of Beverley but also surrounding towns whose airstrips are not yet able to be used at night. Last year, the RFDS came to Beverley 16 times to attend to daytime emergencies. Now, thanks to the successful Light up the Strip campaign, we are ready should we require them for night-time operations also, when the RAC chopper is unavailable.

RFDS Chief Pilot Captain Michael Bleus flicks the switch.

Local pilot, John Barrett-Lennard prepares to land using the airstrip lights to guide him down.

#### TIMELY INSTALLATION

On Thursday May 14<sup>th</sup>, just two weeks after the official ceremony, the lights were turned on again to allow the Royal Flying Doctor plane to land on the airstrip after dark. Though we'd rather not have these emergencies, it is very satisfying to see the benefit of the lights in such a short time. John was super-excited and took this photo so you could all see the benefit of your generosity.

St John Ambulance Beverley Sub Centre PO Box 152, Beverley WA 6304

# BEVERLEY HISTORICAL SOCIETY

Time is passing by very quickly and here we are again writing for another edition of the Blarney.

Attendance was down at our last meeting, but we still had a good meeting.

The Garden and Tree Society have been busy in the garden at the Museum. Among the plantings that they have done are two Anzac Grevillea's. We think that planting them is a wonderful idea and when they start to flower it will be a wonderful reminder of those men who fought in WWI. The garden has also acquired two beautiful bird baths. We are sure that the birds will have a wonderful time. Many thanks to the society for their wonderful generosity.

A Bev Smith from the Eastern states was in Beverley for a family reunion. She has written a book titled "Our Smith's", and she has kindly donated a copy to us. It seems there are Smiths and Smiths but they are not related.

We have also received a book titled "A Story of Colin Charles Schilling" Colin died in January 2015.

Our local author Fred Bremner has written book number four. The title of this one is "Bulldozing the Avon". He was kind enough to give us a copy. You can obtain your own copy of Fred's book, advertising to the right of this page.

The next meeting of the Historical Society will be held on Monday 08 June at 2pm at the Dead Finish Museum.

Gail Alabach Hon. Secretary Enquiries: bhsdeadfinsih@gmail.com

# STATE BUDGET: NO FAULT INSURANCE SCHEME

MEDIA RELEASE 15 May 2015

Local Member Mia Davies MLA has said the introduction of a no-fault catastrophic insurance scheme was the right thing to do, especially for those families struggling to cope with a lifetime of medical bills and care as a result of a motor vehicle accident.

The cost of the scheme, announced in the State Budget, will be a maximum of an additional \$99 in the first year for a family vehicle registration.

She said there had been wide Government consultation on the issue and on balance the community was supportive of the initiative.

"I acknowledge that this is an additional cost impost for vehicle owners, however the State Government issued a Green Paper prior to making the decision to canvas the concerns of the public and provided opportunity for feedback over a 10 week period," Ms Davies said.

"We had a wide ranging public debate which resulted in over 2,300 responses, a majority of which were supportive of a no-fault scheme."

She said the cost of providing lifetime care for people catastrophically injured in motor vehicle accidents was estimated to be an average of \$4 million per person over the course of their lifetime.

The cost of compulsory third party insurance (on a family vehicle) including the new no fault component will be about \$415 from 1 July 2016.

Member for the Agricultural Region Hon Paul Brown said this compared favourably to the cost of CTP insurance in other Australian jurisdictions including South Australia (\$476), Victoria (\$487), Northern Territory (\$531), New South Wales (\$612) and the Australian Capital Territory (\$603).

He said he and his colleagues were conscious of the impact on certain sectors, particularly agriculture and small business.

"We acknowledge that regional motorists have more road accidents proportionally than metropolitan motorists and therefore will be overrepresented in the new no-fault CTP scheme. This new scheme will provide welcomed cover for those regional motorists that are injured catastrophically," Mr Brown said.

In relation to farm businesses, concessions of up to 50% on charges exist in the current Compulsory Third Party (CTP) scheme for vehicles used for farming purposes and farmers are able to obtain seasonal CTP insurance (other professions do not have access to this).

In addition, the Insurance Commission of Western Australia will be lowering the cost of CTP business vehicle rates to be the same as private vehicle classes to reflect their claims experience which will provide some relief to small businesses.

Indicative costs for farm vehicles and trailers are attached.

Class Description	Farm vehicles included in this class	Indicative no fault premium (inc GST and insurance duty)
Private and Business Use Motor cars	Any motor car licensed under <i>Regulation 8 of the Road Traffic (Charges and Fess)</i> <i>Regulations 2006</i> and issued with number plates in accordance with regulation 8 of those Regulations as a farm vehicle shall be entitled to a rebate of 50 per cent of this premium.	\$49.50
Private and Business Use wagons	<ul> <li>(Any wagon licensed under Regulation 8 of the Road Traffic (Charges and Fees) Regulations 2006 and issued with number plates in accordance with regulation 8 of those Regulations as a farm vehicle shall be entitled to a rebate of 50 per cent of this premium on the understanding that such vehicle will not be entitled to a further rebate under Class 2(f) and vice versa).</li> <li>(f) Effective for policies commencing from 1 January 2004, any vehicle within this class with tare weight of 2,500 kilos or more owned by a farmer and used solely or principally for carrying the products of, or requisites for, the owners' farming business, shall be entitled to a rebate of 50 per cent of this premium.</li> </ul>	\$45.50

We can visit you in your home or at your place of business if more convenient.

Please call Mark Thomas on 0429 471 166 to discuss your needs.

#### <u>CWA - BEVERLEY BRANCH</u> <u>COUNTRY WOMEN'S ASSOCIATION</u>

**May meeting** was a very busy one with quite a deal of business and as the Agenda for State Conference had arrived, we took the time to go through the motions as set out. Much discussion took place and as there will be a copy of that Agenda in the June edition of "The Country Woman", members are reminded to go through it in your own time and the Branch will vote on the motions at the June meeting.

Progress is being made with the celebration of the 90th Anniversary of the Beverley Branch to be held in August - more details will be available in the July edition of Beverley Blarney.

It has recently come to my notice that there was a Branch of the CWA of WA at West Dale which commenced about 1922. We thank the ladies who made the information available to us and we look forward to taking a copy of those minutes for CWA history research.

This year's country of study is TIBET. We sincerely hope that there was not too much disaster felt in those parts of Tibet though we understand that the countries around Nepal were very aware of the magnitude of the earthquake.

There will not be the usual light lunch following the June meeting. Next meeting of the Beverley Branch will be held at the CWA Rooms on Thursday 11th June from 10.00am with Morning Tea and general discussion, followed by the normal monthly meeting.

# Beverley Garden and Tree Society

O his month we didn't have our usual meeting at the Dead Finish, but took a little trip to Dawson's Nursery where members strolled around the roses and other plants. A truly wonderful display of roses, fruit trees, herbs and potted flowers of all species. We lunched at the outdoor tables, then moved just up the road to buy two bird baths for the museum garden. These were loaded in to the accompanying trailer and then we drove up to the native nursery on the way home. Packing the additional buys into the trailer and bus took a bit of finesse but we managed and arrived home late in the afternoon.

During the next few days the bird baths were installed and for this we thank Ken and Robbie for the proficient job. They look gorgeous and so do the bird baths! A busy bee took place later in the week and we planted all the plants we bought and some more donated by Betty Cable. We have put in more natives down near the compost heap and spruced up the potager garden. The back garden on the museum wall has been tidied and succulents put in for ease of care. All in all it looks pretty splendid.

Not much housework has been done as members will have been busy planting and weeding getting ready for the much hoped for rain. Fingers crossed!

Those of you gardening at home will be putting in the usual things for this time of the year. Brassicas and broad beans can still go in Artichokes seedlings go in at this time and asparagus. An asparagus bed is a really easy care food source as once they are growing they only need cutting back and feeding once a year and the plants last for years. Cape gooseberry plants can go in now too and if anyone needs a few I have lots and can leave them at the CRC for you. Gooseberry jam and gooseberry sauce on roast pork Mmmm!

It is always fun to try something new and this year I have put in some purple cauliflower seeds and ornamental kale. They're not up yet but I look every day. Ornamental kale can be seen in the museum potager garden for those of you that haven't yet seen them.

Remember the show in August and grow something to exhibit, or just nurse a pot or basket to show. Citrus fruit is in abundance and marmalade is on the agenda, or try making your own dried peel for pot pourri or just to eat.

Next meeting Tuesday 2 June at 10.00am at Dead Finish Museum.

Happy gardening everyone !!

**BEVERLEY ELECTRICAL SERVICES**

#### **BRIDGE - Card Game**

If you would like to come along and enjoy a game of bridge.

We welcome all new members to join us. WHEN: Mondays TIME: 1.00pm WHERE: CWA Hall

132 Vincent Street, Beverley P: 9646 1600 F: 9646 1295 E: beverley@crc.net.au W: www.beverley.crc.net.au OPENING HOURS: 8.30am - 4.00pm

### CRC NEWS

BOOK LAUNCH

The book launch on Wednesday 06 May at the centre was very well received by the Beverley community. Linda and Mike were very pleased to see that the numbers at this launch had doubled from the previous year. Feedback from the event was exceptional with many of the attendees raving about her new book and to have the opportunity to meet an author. For those of you that were not able to make the evening but would like to purchase either one of her books the centre has copies available at the front reception counter for \$26.99each.

#### CURRY COOKING CLASS

The Spice Up your Life curry cooking class, hosted at Beverley District High School proved to be a very successful with 13 people attending. Cooking and catering guru Dalene went through the basics of spices, powders and how to make the heat of your curry suit your family as well as providing a display of goodies that you can use, then came the cooking. Each attendee was to provide meat of their choice, which saw a broad variety from pork, chicken to vegetarian, everyone got to go home with what they had created including other curry recipes to try, including accompaniments to enjoy alongside curries.

Dalene will be hosting more cooking classes in the future, so be sure to keep your eye out for advertising or register your expression of interest and we can notify you when dates have been set.

#### LEGO CLUB

LEGO Club has definitely returned with numbers and volume increasing weekly. The group are currently working on a group project that they hope to display at the Act-Belong-Commit Beverley Show. The club is run on Monday's during the school term from 2.45pm - 3.45pm. The club is a great way for kids to increase their hand and eye coordination and build their hand strength. \$2 per session which includes a delicious afternoon tea.

#### CRC MEMBERSHIPS

Annual Memberships are per financial year starting 01 July ending 30 June, If you are already a member renewal forms will be posted to you soon, if you are interested in becoming a CRC member call into the centre to find out the benefits we have various types of memberships such as Basic \$5, Individual \$25, Community Group \$40 and Business \$65. Please note, that if you are a business that wishes to have a listing on the www.beverleywa.com website you must be a business member of the CRC.

#### CRC EVENTS

#### Family Day Care Workshops at the Community Resource Centre

#### Monday 29 June - 10.30am - 12 noon

If you have ever wondered about what Family Day Care is, then here is your opportunity to find out. The workshop will cover the rules and regulations, what the family day care scheme is and the benefits plus first hand experience from educators. A light lunch will follow the workshop and all are welcome but you must RSVP Ashleigh on 9646 1600 or beverleybulletin@westnet.com.au

#### Westlink Broadcasts

#### \*\*New to Westlink\*\*

Friday 05 June - 3.30pm (30 minutes)

The Garden Guru's - Join Trevor Cochrane and the team as they give tips on feeding your plants to get bets growth, introduce some plant varieties and give tips on growing veggies, amazing gardens and stunning plants. Contact Amor 9646 1600 or beverley@crc.net.au

#### Mad Men's Muster 2015

#### Monday 24 August

We are not giving to much away at the moment in regards to guest speakers but you will be surely impressed by the 2015 line up. The event will be free and there will be delicious food, plenty of laughs and yes once again it's a chick free event!! Be sure to reserve the date on your calendars and be set for another great day with the fellas.

#### GYM MEMBERSHIP

Gym memberships can be obtained from the Shire office or from www.beverley.wa.gov.au Beverley Gym, is located at The Old Courthouse, Vincent Street

# BEVERLEY STATIONARTS Station Gallery and Platform Theatre News

### Station Gallery

After such a hectic April, it has been relatively quiet on the home front during the month of May. The printing press we borrowed from C.Y. O'Connor Institute has been returned to Northam thanks to the generosity and muscle of Barry Knight and Fred Bremner – much appreciated.

Restorations to the Station building have not commenced as Shire is awaiting approval from the State Heritage Office, but it shouldn't be long now before we see some movement at the station!

It's a while since the railway carriage (ZJA Brakevan) at the Station got a mention. Much as we like the look of it in its distressed state, it is in need of restoration. If anyone in the community is interested in giving of their time (paid or voluntary) to restore the carriage guided by a conservation plan drawn up by an historian, heritage and museum professional some years ago, please contact one of the Station Arts committee, or leave your name and contact details at the Shire.

# Artist-in-Residence

Charlotte O'Shea has well and truly commenced the AiR (Artist-in-Residency) Grants Programme at the Beverley School which is funded by The Australian Government, The Australia Council for the Arts, Department of Culture and the Arts Government of Western Australia, Department of Education, Government of Western Australia, Artsedge. Artsedge grants offer schools the opportunity to work with artists across all disciplines of the arts. <u>www.artsedge.dca.wa.gov.au</u>

Australian Government

Department of Culture and the Arts Department of Education

Charlotte is being assisted by Jenny Broun and they are working with the school during terms two and three. The school art room is abuzz Mondays and Tuesdays as students from Pre Primary through to Year10 explore the theme 'Sustainability' through various art techniques involving model making, small sculpture, collage, painting and drawing. The students are collecting and incorporating recycled re-useable materials into their work. Thanks to the enthusiasm of the school community we can hold off on the donations of such materials for the time being - the art room stores are packed to the ceiling!

Many aspects of sustainability are being explored... sustainable power, water usage, fashion, building etc. The artworks created will be displayed at the Annual Beverley Agricultural Show on the 22<sup>nd</sup> August 2015. Monday after school art classes are also being held at the school's art room.

Charlotte is residing at the Shire house in Dawson Street for one or two nights per week, with painter Mandy Evans sharing the accommodation for the month of May, happily working from the residence.

For further information on residencies check with Artist in Residence Coordinator Marylou Hutchinson on 96471027 / 0427085511 or email: <u>hutchinson@wn.com.au</u>

#### Artists in Residence programme for 2015:

June: Charlotte O'Shea - AiR at School

July/August: Charlotte O'Shea - AiR at School (Janet Pfeiffer postponed to April next year)

September/October: Charlotte O'Shea - AiR at School

October: (Sally Watts & 2 or 3 other visual artists postponed to April next year)

November: Hilly Coufreur - visual artist

December: Sue Brook-Roberton - visual artist

#### **Beverley Station Singers**

The Station Singers have been invited to join the celebration of the inaugural Desert Heart Song Festival in the City of Kalgoorlie Boulder, Friday 14 to Sunday 16 August 2015 when choirs from around Western Australia will muster for a vibrant weekend of singing and friendship. This event is hosted by the Two Up Two Down Community Choir, based in Kalgoorlie Boulder. At this stage ten from Beverley will be heading to Kalgoorlie for a weekend of fun.

Two new members were welcomed at the last meeting and there is always room for more. Kelly Newton Wordsworth directs the group on a monthly basis (\$35pp) - the next meeting being Wednesday 10<sup>th</sup> June at 7pm in the Green Room of the Platform Theatre at the Station.

Anyone interested in joining the singing group contact Tracey Fleay- Mob: 0409 481 029 or E: <u>traceyfleay@hotmail.com</u>

#### **Platform Theatre**

If any community group is looking to raise funds please keep it in mind that the Platform Theatre is available for events such as movie nights. With just a minimal hire cost of screen and projector, it makes for an easy fundraiser.

#### Calendar of Events:

September: Saturday 12<sup>th</sup> - Country Choir Bash presented by Voice Moves. November: Saturday 7<sup>th</sup> - Rolling Stones and Rock Montage Tribute December Saturday 19<sup>th</sup> Family Christmas Concert

If you would like to be included on the email list for notification of coming events (so you can forward to friends), email secretary Sarah Miller miller@reachnet.com.au

#### **Beverley Station Arts Membership**

To become a member of Beverley Station Arts Inc (Friend of the Station) please see Treasurer Pauline at the Newsagency, phone 96461042. Membership forms can also be downloaded from <u>www.beverleywa.com</u> (NB cheques to be made payable to Beverley Station Arts) and send to PO Box 112, Beverley 6304.

#### The Station garden is available for public use at any time, just open the gates and enjoy!

<u>Station Gallery Open Hours</u> (CLOSED TILL FURTHER NOTICE) Jenny Broun, President, Beverley Station Arts: 9646 1500 / 0419 040 063 / <u>brounj@westnet.com.au</u>

#### www.abs.gov.au ABN: 26 331 428 522

I am writing to inform you that the Australian Bureau of Statistics (ABS) will be conducting address canvassing in the Shire of Beverley. This work is to develop the ABS Address Register, a comprehensive list of physical addresses and land use in Australia. The ABS Address Register will be used to support population statistics including the Census of Population and Housing.

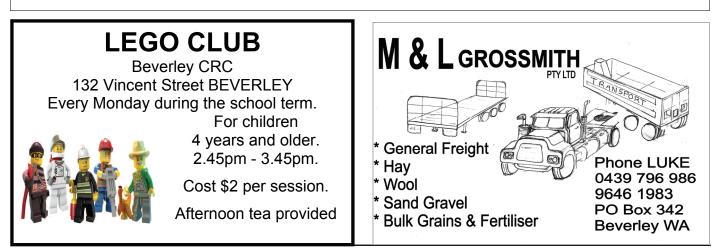

ABS Officers will have official ABS field identification visible at all times. They will be walking and observing physical addresses and will not make contact with residents in private dwellings. At no stage will the ABS be collecting personal information. However, ABS Officers may need to approach businesses to seek additional information.

ABS Officers will be in the field between May and September.

If you have any questions, or would like additional information regarding the field exercise, the ABS is currently undertaking please phone the National Information Referral Service on **1300 135 070** Monday to Friday between 9am and 5pm (EST).

Kind Regards,

Paul W Taylor Director, Address Canvassing Australian Bureau of Statistics

- Our website is now fully operational - order on line!
- Tree guards and fertiliser pills
- Tree planting service available

E-mail: <u>sales@talbotnursery.com.au</u> or phone/fax Lisa on 9646 1716. A very appreciative audience came to Linda J Bettenay's talk held at the warm and welcoming Beverley CRC on May 6<sup>th</sup>. Bettenay was the guest speaker and her topic found great resonance with this group of enthusiastic locals.

Bettenay revealed some background behind her newly released novel: 'Wishes For Starlight' - a story which resonated strongly with the audience. In her talk she explained how this story came from her father's and grandfather's memories and although it is historical fiction it's also grounded in factual events. The central character, Starlight, was a deaf mute Aboriginal, born in the 1890s in Canning Mills, Western Australia, a thriving timber town.

'Starlight was discovered living in a chook pen and fighting dogs for scraps by three remarkable children. Their actions result in the aboriginal boy being adopted by the community and over the next thirty years their friendship and loyalty enabled Starlight to survive in this time of prejudice and disadvantage,' explained Bettenay.

'Wishes For Starlight' is steeped in our pioneering history: when the orchards, the dams and the timber mills were being established, when typhoid epidemics threatened daily survival and fears of forest fires, destitution and starvation were very real. A time when the Zig Zag railway was built, the horse and cart reigned and barn dances provided entertainment,' Bettenay said.

Bettenay has tied in many themes and events of the time into her novel; the difficulties of migrants, the challenges faced by women and the marginalisation of anyone who was not 'normal'. She explained that in this period 'The War to End all Wars' accounted for the loss and mutilation of many soldiers while also seriously impacting those 'left at home' but it also allowed for the blossoming of mateship.

The audience was also entranced by the unbelievable true story behind Linda's first book 'Secrets Mothers Keep' which occurred in Wubin and Dalwallinu.

Linda revealed how her husband Mike only recently discovered that his grandfather had been murdered and grandmother, mother and two aunts had been savagely assaulted and so unearthed a carefully kept secret that had existed in the family for over 80 years. She also explained how she had researched the story, discovering strange links across the globe which assisted her to develop a complex set of extraordinary characters and bring this pioneering yarn to life.

'I was impressed with the warm welcome I received. What an amazing group of supportive locals. Special thanks to organisers Amor and Ashleigh for their organisation and support. Sharing the joy behind my books is a fulfilling experience,' Bettenay said.

If you would like to know more about Linda's Books or for details on events or purchasing the book go to www.lindasbooks.com.au or for details on the author tours visit her facebook page <u>www.facebook.com/lindasbookswa</u>.

# **BEVERLEY MEDICAL PRACTICE**

Providing quality health care to the Beverley community and surrounding areas.

#### The Beverley Medical Practice would like to welcome our newest team members:

#### Lynley - Practice Nurse

#### Trish – Practice Nurse

Kristen – Medical Receptionist

#### **Doctors Availability**

#### Dr. Norah Kalibbala

Monday 9:00am – 4:00pm and alternate Thursdays 10:00am - 4:00pm (By appointment only)

#### Dr Olay Omoniyi

Monday 9:00am – 5:00pm Wednesday 9:00am – 5:00pm Thursday 9:00am – 5:00pm Friday 9:00am – 5:00pm By appointment only

#### Dr. Remi Adebayo

Tuesday 8:30am – 5:30pm (By appointment only)

#### Fees and billing arrangements

- Health Assessments.

Allied health services provided in conjunction with Beverley Health Services and Wheatbelt GP Network include: Home and community care services, community child health nurse, Aboriginal health worker, nutritional advice, OT for school and community, visiting Podiatry, Optometrist, Diabetic clinic, Dietician, Physiotherapist and counselling services.

#### FLU SEASON IS JUST AROUND THE CORNER HAVE YOU HAD YOUR VACCINATION YET?

**Results** - Your doctor will advise when they expect your results to arrive at the practice. Please call reception to confirm your results are available and make an appointment to review them with your Doctor. **Home Medicine Review-** are you taking more than 12 doses of medication a day, experienced a change in your medical condition eg: falls, cognition or physical function. Talk to your Doctor about a referral for a HMR.

*Care outside normal opening hours* When the Beverley Medical Practice is closed you can always get medical attention by calling afterhours GP on **1800 022 222** or by attending the Beverley District Hospital, located in Sewell Street Beverley where experienced staff will triage the patient and contact the on call Doctor. **For all Emergencies call 000.** 

#### **Beverley Opportunity Shop**

The Hospital Auxiliary committee would like to thank all the people of Beverley who have been donating and continue to donate, to the Op Shop. Without you we would not be able to operate and offer affordable pre loved items for sale. Thank you also to the faithful customers who continue to support us, returning week after week for a bargain. Your money has been put to some very good causes.

So far this year funds have been made available by the committee to purchase 4 round dining tables for the Alex Miles Lodge. Approval has been given to purchase a wall mounted flat screen TV/DVD for the day room at the Hospital, 2 shower curtains, 1 each for the Hospital and Lodge, craft, games and pamper pack for use by the Occupational Therapist, teleconferencing equipment for the local primary health services e.g. Physio and Speech Therapists.

We have been extremely lucky to have received a considerable donation from the Morbinning Catchment Group on their disbandment, plus we have also been the recipients of another very generous donation from an anonymous donor. These monies will go a very long way towards paying our weekly rental. Thank you to you all.

By working together we can continue to provide benefits to assist our local health system and ultimately our community.

#### "Talk to a Mate" Men's Wellbeing WACFL Round

The Regional Men's Health Initiative partnership with the West Australian Country Football League (WACFL) to sponsor a round of football enters its second year. This Men are hardwired to be "problem solvers" and we like to partnership brings us into contact with 25 football associations and 150 senior country football leagues and helps deliver our key message to a younger demographic problem or weakness. of men (predominately aged 16-40) throughout regional WA. The "Talk to a Mate" Men's Wellbeing Round will be It is well known that problems shared are often problems held over the weekend of 13<sup>th</sup> and 14<sup>th</sup> June 2015.

#### Why is this Important?

It is important for us to talk about issues in our life and/or tell our story so we understand that we are not alone and that it is safe to chat. As blokes we quite often isolate As men we need to encourage help seeking behaviour ourselves and don't talk to anyone about our stuff. One and be prepared to be the one to "Talk to a Mate" when of the problems we have is we don't identify who our true we know he is down or experiencing difficulties. It isn't mates are in the good times, this can then lead to rocket science and it does work. isolation and loneliness in bad times.

#### Who are our Mates?

We say as blokes we have three broad categories of mates who we can talk to about our personal stuff. These Get down and support your local football team, become usually come under the categories of a mentor, a partner involved and remember ... before it all gets too much ... or a peer. These mates are more often than not different Talk to a Mate!! from the associates and mates that we play sport with and/or socialise with. How many blokes do you know Owen and the Team that have no one to talk to?

What is the benefit of talking to a Mate? It's about sharing our story and realising the value of just

talking and in appreciating that there are other men out there experiencing similar things (we are not alone). I have never met a bloke yet that hasn't wanted to tell his story (no matter what the issue) and sometimes we just need the right environment.

work alone. We often have an attitude that if we disclose we have a few problems someone will exploit our

halved. Helping men to overcome isolation (by disclosing issues) helps build resilience and can therefore lower the chances of us becoming completely overwhelmed when difficulties and disappointments head our way.

"Talk to a Mate" Men's Wellbeing Round will be over the weekend 13<sup>th</sup> and 14<sup>th</sup> June 2015.

#### VALENTI LAWYERS PROPERTY & COMMERCIAL LAWYERS

#### SUCCESSION PLANNING - A SERIES OF COMMENTARIES [3]

You may recall that in our past commentaries I looked at the sensitivities of succession planning and the need to properly prepare for the process with the assistance of your accountant.

This commentary deals with the technical issues of transfer duty and landholder duty and how they impact upon intergenerational transfer of land assets and business assets from a farming perspective.

The *Duties Act 2008* (WA) (**Act**) came into force in 2008 and brought with it a regime that broadened the revenue base for the State government in terms of the types of transactions that were captured by the Act and the duty payable thereon. However, one of the aspects of the old *Stamp Act* that was retained was the exemption from duty of transactions involving the transfer of farming land and assets from one generation to the next.

Under the Act, a transfer of land attracts transfer duty. Further, a transfer of shares in a land rich company attracts landholder duty. A company is land rich if, at the time of transfer of the shares, it owns land that has a <u>gross</u> value of \$2 million or more. In some instances, businesses attached to the land owned by the company and sold are also the subject of landholder duty.

It can be seen that a transfer of land between individuals or shares in a land rich company is likely to attract transfer duty or landholder duty subject to what I set out later in this commentary. Few farms in Western Australia would be worth less than \$2 million and thus landholder duty is, subject to what I set out below, relevant.

Notwithstanding what I have set out above, the State government recognised that to impose transfer duty and/or landholder duty upon a transfer of farming land and assets within a family would work against undertaking such intergenerational asset change and perhaps even the viability of agricultural pursuits in Western Australia.

To the end, the State government has provided an exemption from transfer duty and landholder duty in certain circumstances when the farming assets are transferred provided that the underlying use of the farming land and assets continue uninterrupted by the transfer and there is no such change for five years after the transfer.

Whilst it is an exemption, the transferee, who is liable for the duty, must provide certain information to the Commissioner of State Revenue before the Commissioner grants the exemption. Our experience shows that quite comprehensive requisitions can be issued to the taxpayer/transferee and a lot of time and effort is spent by the taxpayer and his or her lawyer and accountant in complying with those requisitions. However, it is important that the information requested by the Commissioner of State Revenue be made available to the Commissioner of State Revenue be made available to the Commissioner of State Revenue in order to receive the benefit of the exemption from duty provided by the Act.

In conclusion, it is clear that provided accounting and legal advice are received prior to any steps being taken to achieve a transfer of farming assets and, further, proper documentation is prepared by your lawyer, with the assistance of your accountant, the Act presents no real hindrance to the effective transfer of farming assets between generations.

Of course, if we can be of any assistance in relation to your succession planning, please contact us.

#### Beverley Community Information and Paralegal Services BCS

By this time all the readers will be aware that the BCS office at the Town Hall will be closed. Our sincere thanks to all of the Shire staff for their support over the last 20+ years. A special thanks to our current CEO Steve Gollan and all the elected Councillors and indoor staff.

On community matters and issues, please look out for my car. Do not leave a message on my home phone. Witnessing of documents by a Justice of the Peace, I will do so on request. I have had discussions with Mr Steve Gollan regarding providing a service by a JP, the place, dates and time will be published in the July Blarney edition.

For witnessing of Court documents I will be carrying my stamp at all times.

Nuisance Calls: This month I have received some calls in the early hours, my phone has been monitored and the calls are being traced. It is an offence under the Federal Telecommunications Act and the local police will be handling the matter. Once the caller has been identified, due to the latest technology even if the phone rings for one or two seconds, the caller can still be traced.

Mal G Roberts.

# <u>Cyanobacteria bloom</u> warning for <u>Avon River</u> in Beverley

### 25 May 2015

The Shire of Beverley is issuing a warning for people to avoid contact with a cyanobacteria bloom that has formed in the Avon River in Beverley. The bloom is defined by a bright orange to yellow discolouration in the water.

Contact with, or ingestion of affected water may cause some ill health effects and skin irritation, we are recommending that recreational activities such as swimming, wading, playing and shellfish collection in the Avon River in Beverley should be avoided. particularly where discolouration is still visible". Fish and crabs are not affected by the bloom, but should be washed in clean fresh water and cooked.

In consultation with the Department for Health, the Shire of Beverley has placed health warning signs at the main access points leading into the affected waterway.

The Department of Water and the Shire of Beverley will continue to monitor the bloom at this location and provide advice on levels to the Department of Health.

Further information regarding blooms and recreational water quality can be found by visiting: http://

www.public.health.wa.gov.au/2/6 39/2/environmental waters.pm at the Department of Health website.

#### **CRANA Aboriginal Corp. Inc.**

In May 2015, another meeting of 50 Aboriginal elders and government ministers was held in Broome.

The main topics were:

- ⇒ Changes to the Australian Constitution, in regards recognising indigenous as the first people.
- ⇒ Land Rights
- $\Rightarrow$  Culture
- $\Rightarrow$  Identity
- $\Rightarrow$  Native Title concerns
- $\Rightarrow$  Health
- $\Rightarrow$  Education
- $\Rightarrow$  Housing
- ⇒ Closing Down of 170 indigenous communities.

Our PM Mr Abbott is firm on the mantra "changes to the constitution need a referendum, which, will be held at the next federal election", let's wait and see.

Current research in May 2015, 75% of Australians will support changes to the constitution as recognising indigenous identity in the Australian constitution as the 1st people.

One can only hope that justice is seen to be done for indigenous persons, thereby giving them some legal status, in the constitution.

SERVICE

#### Avondale Warden

Work on the Avondale stable roof has now been completed and the tired leaky one is long gone. The place looks and smells amazing. The internal timber was oiled with a linseed base mix so it will keep the nasty termites away. It smells great and hopefully will outlast us all.

We have sadly said goodbye to the lovely Quilting ladies who were based out here at Avondale and have now moved into town, I will definitely miss having these regular visitors out here.

Avondale queries: Monica on 0427 477 734

#### Avondale Farm Project Associate (AFPA)

#### **AFPA Clydesdales**

The beloved AFPA Clydesdales have had a rather busy past couple of weeks with vet visits. Robbie who feels he needs to be in the spotlight all of a sudden, has been suffering from stiffness on the rather cold and windy mornings and nights. He is getting a bit of arthritis poor old chap. He has also been diagnosed with ocular squamous cell carcinoma and it's in both of his eyes. This is usually only in what they call the 3<sup>rd</sup> eye lid but for him it's also in the lower eye lid and part of his eye ball. Sadly at this stage it looks like it's inoperable and will need some form of treatment. Comet also has this cancer, but it's only in his left eye and only the 3<sup>rd</sup> eye lid which can be operated on. The boys will be taken to the vet again on Tuesday 26<sup>th</sup> May when we will get a prognosis and some options around a management plan. We will keep everyone updated on the progress after the vet visit.

Over these past couple of weeks a lovely lady from our community has come to the rescue transporting the boys down to Belvoir Equine Hospital in the Swan Valley. AFPA would like to acknowledge Pauline Appelbee who has donated her time, horse truck and fuel towards transporting these two rather large boofheads to the vet. Thank you so much Pauline, your support has been invaluable.

AFPA would also like to give a big thank you to Avondale Warden Monica Van Der Snoek, and to committee member Mitch Kerr and her mum Kath who have all spent many hours looking after Robbie and Comet. AFPA would like to acknowledge Monica's offsider Erin who has helped make sure that Comet does not steal Robbie's medicated feeds at night. The boys now have their winter PJ's on every night which will hopefully help keep them nice and warm.

#### AFPA Cake stall.

On Saturday, June 13<sup>th</sup> we will be holding a cake stall next to the IGA to help raise funds for the ongoing treatment of our two lovely clydesdales. Any donations will be greatly appreciated. Please call Mitch Kerr on 043 992 7724 or Monica 0427 477 734 if you are able to help out. Any form of donation will be greatly received. We will have a raffle for firewood and another raffle for a lovely horse head statue that has been donated to us.

#### **AFPA Battery Drive**

We are also seeking old truck, tractor and car batteries which may be cluttering up your place. This is a 2<sup>nd</sup> fundraiser which we will have going for Robbie and Comet's treatment. We know this is a busy time of the year for all the farmers in the area and AFPA will arrange to pick them up from you.

#### **Opening Hours**

AFPA Volunteers will be opening Avondale on the West Australia Day long weekend May 30 and 31 and on the Monday June 1. As usual, we will also be open on the third weekend of June which is June 20 and 21. Opening hours are 10am to 4pm each day. Come out and have a look around, we are just 6kms out of town on Waterhatch Road. AFPA volunteers look forward to meeting you.

#### **Hello Everyone**

of flannos. Yes, winter's here and with the onset of I'll get back to you when I have an answer. the cold comes some dodgy fashion choices, and all As a side note, if you are going to ride your bike (in the above are just me (except for the onesie, I don't the right places) then please be careful. Almost 12 possess one, honest). Speaking of the weather, well months ago I went to a fatal accident in York done to Ali Lewis for winning the prize of a slice of involving an off road motorbike and more recently chocolate cake for getting the answer to my pop we had the tragedy at the motorcross track. Off road poser last month. 'Always take the weather with you' bikes can be and are dangerous so I don't need to by Crowded House was what I was prattling on state the obvious do I ???? about. When I finally get around to actually providing the cake to her I'm sure she'll confirm how nice it Scams is.....

#### What's been happening ????

I know I often say we aren't in the middle of a crime instead either contact us or contact Scamnet on spree and this has been confirmed this week by the http://www.scamnet.wa.gov.au/scamnet/ latest Wheatbelt District crime figures. Due to many About WA ScamNet-Contact us.htm. factors, not least the community cooperation we've had, our sometimes 'intrusive' approach to crime The latest one is an email which purports to be from prevention and detection and sheer hard work by the Australian Federal Police and demands (in everyone, we've managed to reduce crime in our shocking English) that you've been issued with a little bit of the world by 44%. This is the best in the traffic infringement. Don't whatever you do click on Wheatbelt and as a community we can all take credit the link in the email, it'll goose up your computer for this so I reckon we all need a pat on the back. (that's a technical phrase). The AFP never send out Whilst I don't really like throwing statistics around I emails like that and even if they did they'd use can also tell you that we are, on a jobs per officer correct English (you would hope). ratio, the busiest police station in the Wheatbelt (the bags under my eyes are proof of that !!!).

As for actual crime itself, we've had very little over click send soon. the last few weeks. We are investigating a few protracted incidents which are taking up some of our If you need a laugh then let I'll let you into a bit of time but for sheer numbers we are well down.

laurels. We have to remain vigilant and look out for August the 30<sup>th</sup>. So, if you see us lugging our each other and let us know when something substantial frames around please don't throw pies or concerns vou. We are all ears !!!!

#### Off road motorbikes

Oh dear, where do I start? This issue has kept us on on how our training is getting on. So far it's going our toes recently. According to some who've been in great, Nick managed to run 4kms around town and I Beverley much longer than I have, this problem has managed to put my running shoes on so yeah, we're been going on since 1984. The sound of noisy 2 travelling well..... strokes has been in my head like an annoying buzzing fly. I fully appreciate that these machines Take care everyone, I'm off to have my eyes tested but with are great fun responsibility. Basically, if anything is deemed to be out for a run..... a road then you can't ride on it without the bike being registered and you must wear protective Ian & Nick. equipment. The problem is sometimes it isn't

obvious what a road is (by definition) and that's where we have an issue. I'm making a few enquiries Ugg boots. Onesies. Dodgy beanies. Flannos on top into where and when people can ride and I promise

Here goes for a bit of cut and paste :- once again, please keep an eye out for scams, particularly email ones. Don't click on anything you think might be iffy,

#### Gotta dash.....

Yes I'm late again with The Blarney so I've got to

news. Nick and I have noticed our trousers seem to have shrunk, particularly the waistband. As a result Still, despite all the above, we still can't rest on our we've entered ourselves in the City to Surf run on doughnuts at us, they'd only distract us. Disparaging comments I can take but as is obvious I'm keen on anything wrapped in pastry. We'll keep you updated

ownership comes and to think up some more excuses why I can't go

Thank you to the people of Beverley

G'day the good folk of Beverley. I would like to pass on the thanks and gratitude of me and my new wife, to you, the friendliest place in WA. We can hardly put into words, the welcome and hospitality we were afforded by everyone we came across. I know it can't have been easy, what with, not only it being another couple of Poms moaning about the heat and the spiders, but. more importantly, lan Connell's brother.

We met some fantastic people, ate some fantastic food, drank some (lots) of beer, and, more importantly, felt like we belonged. Added to this, we had all of our wedding photos taken in your beautiful town, something that really touched Kate (the latest Mrs Connell), as she is from Beverley, United Kingdom.

Once again, and finally I hear you say, many thanks to the good people of Beverley. You helped make our holiday that extra bit special. Oh, as a final final note, the weather was fantastic while we were over there, regardless of what some might have said. All the best, and hopefully, see you all again soon.

From Andrew & Kate Connell.

# **Beverley School News**

It has been a particularly busy and entertaining month at Beverley District High School. Thank you and congratulations to Mrs Murray and her helpers, parents and community volunteers, and especially our fantastic students on all their lion-hearted efforts in our cross-country carnival, held in fine but windy conditions on 17 May.

#### **Circus Challenge Fun Day**

All our students enjoyed watching and participating in the Circus fun day, and practised their coordination and performance skills to demonstrate that they're really all just clowns at heart.

#### Scitech Incursion: Beyond the Beaker

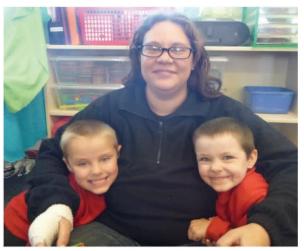

Year 6 to 10 students took part in an interactive science session, and learned about how science can lead to rewarding careers in a range of areas.

#### **Pre-Primary Mothers' Day Afternoon Tea**

Our pre-primary mothers and grandmothers took the opportunity to relax and enjoy some TLC provided by the pre-primaries and their teachers.

Playgroup

June...halfway through the year and the start of winter. With the cooler temperatures you may notice a decline in pasture growth rates. It may be necessary to move stock from paddocks with low levels of food on offer (FOO), to protect these from overgrazing and ensure good growth rates in spring. In some cases supplementary feeding may be required.

Stock with young will also need to be monitored to ensure they have access to plenty of shelter during inclement weather, this will reduce the risk of animals getting hypothermia. If stock are in an area prone to flooding, waterlogging or without natural or manmade shelter consider moving them if severe weather is forecast.

Now is a great time to clean up your orchard. As the last of the apples are harvested, ensure you pick up any unwanted fruit and start spray programs to reduce carryover of fungal, bacterial and mite issues. Start pruning stone and pome fruit once the last of the leaves have fallen. Leaf fall can be hastened by use of appropriate nutrient foliage sprays.

Damper weather might lead to food spoiling quicker, if you are finding that food is spoiling before you get to use it consider preserving, drying, freezing, cooking or juicing your fresh produce. This will help you save money, reduce throwing out food and enable you to take advantage of seasonal fruit and vegetables.

The best time to plant deciduous fruit trees, like a pples, pears and stone fruit, is when they are dormant, in winter. Evergreen fruit trees, like citrus, avocadoes and olives, establish well when planted in autumn, so they have three seasons to develop their root system before the heat of summer.

Slaters are a beneficial creature in the garden however when their numbers explode they can cause damage to your plants. To keep slater numbers to a reasonable level use minimal compost and remove objects which give shelter, such as empty pots and stacks of timber. You may also want to consider putting traps out near vulnerable plants, by hollowing out an orange halve or filling a pot with potato peeling this can lure slaters away from young plants. Or provide a protective barrier by making a collar out of the empty pots.

Our seasonal e-newsletter keeping you on top of what you need to know for the coming season will be emailed out in May. Sign up now at <u>agric.wa.gov.au/smalllandholder-information-service-e-newsletter</u> to start receiving your copy.

For more information on other small landholder events, visit our SLIS Facebook page (<u>facebook.com/</u><u>DAFWAsmalllandholders</u>) or website (<u>agric.wa.gov.au/</u><u>slis</u>). Until next time, Jodie.

#### 2015 RAC Wheatbelt Regional Netball Carnival

The Beverley Junior Netball Team proudly represented their town on Sunday 17 May playing in the 12's and under division at the Northam Recreational Centre. The girls played Cunderdin, Corrigin, Quairading, Northam and Kalamunda unfortunately they did not make the finals but they had a great day playing netball with many laughs. Congratulations to all of the girls. The event sponsor was the RAC Elephant in the Wheatbelt a road safety campaign targeting the issue of too many lives are lost on Wheatbelt roads. The club will be brainstorming ideas for a grant application to assist in raising awareness of this growing problem. #### Healthy Body – Healthy Mind By Valerie Gunsch

Dip. C.N.C. Mac. H.V. P.P. Clinical Nutritionist, Profemme Practitioner Email: healthylivingbev@westnet.com.au

Our topic for this month is juicing. Let's get you prepared for a lifetime journey to successful juicing. This page is for you if you are new to fresh fruits and vegetables juicing. Once you understand the true benefits of juicing you are ready to begin. Take heed of the following juicing basics to see the marvellous effects juice will have on vour overall health:

There are basic things you need to know about juicing before you can start. I will explain the first steps, the important facts, the juicing basics. Juicing is about a changed lifestyle that you choose, towards a new and healthier you. Juicing can add some variety to your diet while helping you get more of the necessary nutrients from fruits and vegetables. Investing in a juicer is obviously necessary. There are many different machines available depending on what you can spend. A good juicer can cost you a few hundred Dollars however the initial amount you spend will be a great investment in your health. On the internet you can find a lot of information and juicers in all shapes and sizes. In our household we use the Vital Max Oscar 900; this is a masticating juicer, very powerful, quiet and easy to clean however it is on the expensive side. So you have to find the one which suits your budget. We have discovered a great store in Perth, where we go since years to buy all our kitchen gadgets. The name of the business is WA Hospital Supply in Balcatta. The service and knowledge is first class. Visit the store and I am sure you will not be disappointed (by the way we do not receive any commission for mentioning this place) but it is very rare to find good service today. So go and have a look and tell me I am wrong! A juicer works by using special blades, which chop up your fruits or vegetables into tiny pieces and spin them in a way to separate the juice from the pulp, which eliminates the majority of the juicing once a day, you do it first thing in fibre.

There are many healthy benefits of drinking fresh juice and it is a great way to add nutrients from the fruits or vegetables that you normally wouldn't eat. Juices retain most of the vitamins, minerals and plant chemicals (phytonutrients) that would be found in the whole versions of those foods. It is easy to make fresh juice at home with a juicer. Valuable compounds called flavonoids and anthocyanins are abundant in a variety of fruits and vegetables and guard against oxidative cellular damage. Damages to your cells are the cause of so many illnesses. However, beware of the claims that juicing is the only way to stay

healthy, that you should avoid solid foods, or that juicing is a substitution for a medical diagnosis or treatment. There is not much research out there that proves that juicing is healthier than eating the whole thing. However, juicing does make them easier to consume on a regular basis and they are easy digested. Unlike food, juices are for the most part, digested and absorbed in the juice as well. Also, before juicing wash stomach. They are fantastic for people with digestive problems because the digestion is actually being done for you. Provided that you can drink and absorb water, you can drink and absorb fresh juice. Green juices are the most nutritionally potent, so it is good to develop a taste for them! Initially though, for the beginner, they can be a bit daunting because we are not exactly used to drink bitter green juice. It is nothing wrong if you add one small piece of fruit, maybe a little pineapple, or an apple or pear, only small pieces, you can also add some sweet vegetables such as beetroot and carrot.

Although this will give you a juice that has a higher glycaemic index, which is not ideal, but it will help you to get started. You can then gradually reduce the quantities of these ingredients as you progress, until your chard, celery, some cabbage leafs red or taste buds adapt to the green juice 'straight'. It takes only a couple of weeks or so to Bananas are not good for juicing; however actually change your tastebuds. You are Grapes are very nice, throw in the one with aiming for straight green juice. You can live on juice alone for a period of time but ultimately we have a digestive system that is designed to eat food and not just juice, and we need some fibre to make the digestive system work properly. Children sugar level. So make it green - remember thrive on nutritionally dense juices; there are no contraindications for giving juices to children. However in the beginning, diluted 50:50 with filtered water makes sure, juices do not cause a spike in blood sugar levels I have juice in the afternoon, a beetroot, and therefore an insulin surge. By getting carrot, mint and ginger replaces very often a them into juicing, you can be sure that you cup of tea when my energy is lower. There are setting them up with a fantastic health- are wonderful books around on juicing and habit that will give them a stronger immune on the internet you get heaps of free ones. system, more energy and concentration. What could be better?

I generally recommend that if you are only the morning and have that juice as your breakfast (or, for athletes and 'fast-burners') first thing in the morning, than breakfast. This routine fits easily with most people's over some ice cubes and enjoy. See Recipe daily routine. If you are facing serious health challenges, and are juicing 2 or 3 times daily, I suggest that you do Happy Juicing wheatgrass at 8 am, then green juice at 9am, then green juice again at 11am, then green juice again at 4pm. Try to change the greens for different juices. Drink your juices away from your meals by having them at least half an hour, better one hour before eating. When making your own juice, try to make only as much as you can consume at one time. Start with making a small amount and increase the quantity after you have got

used to the taste. Don't store your juice for hours in the fridge, they will deteriorate quickly and this would be a waste. Juice that isn't consumed right away can harbor bacteria and cause food poisoning. Exposure of the drink to air, bacteria and other pathogens can not only make you sick but threaten the nutritional value of the your hands; clean your fruit/vegetables thoroughly to remove any dirt, pesticides or bacteria. I strongly advise you to use only organic fruits and vegetables. You don't want to have pesticides and chemicals with your juice. Make sure your cutting board and utensils are clean as well and use one board for cutting up fruits and vegetables only. Don't ever use the board where you cut your meat, cheese or other produce. Cross contamination can be deadly, so be very careful and clean when preparing your juice. Start slowly with juicing; try it perhaps once or twice a week in the beginning. Observe how you feel after a glass of juice. Your tastebuds will let you know. Personally I like to have a juice every day. Make most of your juice as green as possible. I always have Kale, spinach, green, ginger and only half a piece of fruit. the seeds, grape seeds are very nutritious. If using citrus fruit peel only the outer skin, the white part is highly nutritious. You do not want too much of sweetness in your juice because it might increase your blood green is clean! Sometimes I start in the morning with a green juice such as Wheatgrass or Spirulina; it gives me such a boost right in the early morning. Sometimes better So please try it, it will do you really good. And if you can not afford a good juicer right now, you can trow all ingredients in your blender, add a bit of water (1/2 cup)and blend it on high for 30 seconds (not longer otherwise your juice heats up and the goodness is gone), strain it through a cloth or milk bag, squeeze out the juice, poor Corner for some Juice ideas.

Valerie Gunsch

## **Recipe Corner**

Supplied by Valerie Gunsch E: healthylivingbev@westnet.com.au

#### Juice No 1

- 2 carrots unpeeled.
- 1 small beetroot unpeeled,
- 2 apples unpeeled.
- 1 celery stick,
- 1 orange peeled,
- 1 cm slice of ginger peeled.

Feed the vegetables and fruit through a juice maker. Pour juice over crushed ice and serve immediately.

#### Juice No 2

1 medium orange, peeled and quartered 3 kale leaves including stalks 1 medium carrot, unpeeled 1 large beet unpeeled and cut into wedges to feed through the tube 1 cm piece peeled fresh ginger Ice cubes

Feed through the tube, pour over ice if desired and serve immediately.

#### Juice No 3 Healthy Green Juice – my favourite!

- 2 green apples, halved 4 stalks celery including leaves 1 cucumber 6 kale leaves  $\frac{1}{2}$  lemon peeled
- 1 inch piece fresh ginger peeled

Feed through the tube, pour over ice if desired and serve immediately.

# Beverley Playgroup

We are a fun place for babies and children aged 0-4 years old to come and meet new friends, learn from each other, problem solve, play with new toys and equipment, practise their social skills and learn the meaning of 'share'. It's not all

about the children though, it's great for the adults to socialise, share tips and enjoy a cuppa as well. We are always welcoming new members. You are entitled to 3 free sessions before joining as a member. Children don't have to be brought in by a parent, it can be a grandparent, aunt etc. New members are always welcome !!

## We have been busy the last couple of months....

The kids have been busy, doing a lot of painting lately! Painting pots that were sold at our street stall, painting mini boxes as a Mother's Day gift and painting butterflies for the show mural. They have also made beautiful window art with pressed flowers for Mother's Day. And have been getting outside to use some of our brand new equipment for activities such as sack jumping, egg and spoon balancing, ten pin bowling and target throwing. As per usual the blocks, cars, drawing, gluing, puzzles, dress ups, bikes and ride-ons, see-saw and the big playground have been popular! The Mums, Dads and Grandparents who come along have also enjoyed meeting new friends over a cuppa.

### Easter

We had great morning, finishing off our Easter egg baskets and then some dancing. While we were busy dancing, the Easter Bunny visited us and left us lots of Easter Eggs to find in the playground. Lots of very excited squeals were shortly followed by absolute silence as the Easter Eggs were enjoyed.

## **Car Seat Checks**

During March we had a visit from Elouise Hawkins & colleagues (Wheatbelt Health Promotion Officers) to conduct free safety checks of baby and child car seats. These were very comprehensive checks that took about 30 minutes per seat! Straps were tightened, suggestions were made and some seats were re-fitted so they complied with their car regulations. Thank you for coming to Beverley Playgroup Elouise & team.

## Lotterywest Grant

A few people to thank here.... Starting with Lotterywest, for awarding Beverley Playgroup the grant money to buy much needed new toys and equipment. To Jenette Loud for completing and submitting the application, and to Hollie Smith & Narelle Bailey for spending the money on behalf of Playgroup. Not an easy task when your shopping list is so long and some of the items on it were rather large in size. We are very lucky to have lots of new gear now. Thank You, Thank You!!

## Fundraising for our move to the School

We are fundraising for our proposed move into the MOASH building at the school. Thank you to Wendy Moore and Aliesha Murray for their positivity and guidance during the initial planning stages of this project. There are a number of things that need to be put in place or changed to make this a safe and appropriate venue to run Playgroup from. Moving Playgroup to the school grounds should have lots of positive outcomes for the children, as we are able to work more closely with the school. More thank yous... Thank you to the Playgroup members who helped cater the lunch at the Amenities Building when the UWA students visited Beverley and also to the members who catered morning tea for the recent Early Years Network meeting. Thank you to all those fabulous people who baked so many wonderful goodies and made such generous donations towards our street stall held in April.

## Winners!!

The winner of the \$100 note raffle at the street stall - Congratulations Lew Shaw The winner of our Mother's Day raffle drawn 7<sup>th</sup> May – Congratulations Judy Moulton

## **Beverley Show Mural**

We are doing an enchanted garden themed mural this year. We have just started some of the craft activities towards making this. There are many more to be done! Make sure you get along to Playgroup so your child can have their work displayed on the mural.

#### What is Lyme disease?

Lyme disease (also known as Lyme bareliasis) is an infectious disease transmitted by ticks or other insects. The bacteria that causes Lyme disease, comes from a group called Barelia burgdorferi sensu lato. At least twenty species are known to infect humans and cause disease. They are part of the spirochete family, which have a distinctive corkscrew shape (see image 1).

#### What are the symptoms and signs?

Lyme disease can have three stages: 1: early, 2: disseminated/ dispersed and 3: chronic. Symptoms can appear within days, weeks or months. Different areas of the body are affected in varying degrees and symptoms come and go. They may include: Dermatological; a rash of variable size and shape, sometimes a bullseye shape (erythema migrans, see image 4). A skin condition called acrodermatitis chronica atrophicans. General; fever, sweat attacks, prolonged tiredness, sore throat, stiff neck, muscle and joint pain. Neurological; muscle twitches, tingling, numbness, light and noise sensitivity, headache, dizziness, Bell's palsy and muscle weakness. Arthritic; unexplained joint swelling and painful joints. Psychological; confusion, difficulty concentrating, forgetfulness, disorientation, dyslexia, depression, paranoia, panic attacks, anxiety, hallucinations. Respiratory & cardiovascular: cough, shortness of breath, heart failure, rib soreness, chest pain, Gut: nausea, vomiting, constipation, diarrhoea,

Images: 1. Depiction of Borrelia as a spirochete. 2. Depiction of the three different forms of Borrelia in the body as: A. Spirochete outside red blood cells. B. Spirochete inside a nerve cell. C. Cyst form outside red blood cells. D. Cyst form inside a nerve cell. B. Cell wall deficient form inside a nerve cell.

#### Information about ticks

Ticks feed only on blood and are described as '<u>nature's dirty needles'</u>. The most common tick associated with bites is the paralysis tick. Other species include the bush tick and brown dog tick (see image 6). Ticks go through four stages in their life cycle; egg, larvae, nymph and adult (see image 5). Ticks have eight legs in the nymph and adult stages (six as larvae) and are related to spiders and mites.

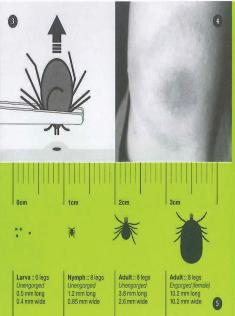

#### What if I have been bitten?

Don't panicl <u>If you are bitten by a tick it doesn't always mean you</u> will get ill as not all ticks carry the disease. Make sure the tick is removed as quickly as possible and in the correct way. If you get a rash or you feel ill after a tick bite, this may indicate a Borrelia infection, see your doctor immediately. Some people may also have an allergic reaction to the tick and may require antihistamines.

#### How do you remove a tick?

Use high-quality pointed tweezers or specific tick-removal devices that are available in your pharmacy. Grab the tick by the mouth parts very close to the skin, and pull gently upwards (see image 3). Don't crush the tick, as this will expel its gut contents into you and increase the risk of infection. <u>Don't apply chemicals</u> (eg. methylated spirits, petroleum jelly or kerosene) as this may cause more toxins and bacteria to be released.

Images: 3. Safe removal of a tick. 4. Erythema migrans (EM) or bullseye rash. 5. Comparison of tick size and life stages.

#### Treatment

Many Australian doctors are not familiar with treating Lyme disease and there is an urgent need to provide training. If affected, see a doctor that is aware of Lyme disease. Always keep your GP involved and informed. Lyme disease is a bacterial infection and is treated with antibiotics. Other medicines may also have a place in treatment. Early treatment is crucial for full recovery. If treatment is delayed the risk of developing chronic Lyme disease is increased. Chronic Lyme treatment is complex, usually long-term and is further complicated by immunosuppression by the Lyme bacteria.

#### Testing for Lyme

Tests for Lyme disease are difficult as they have not yet been developed to suit the Australian situation. They can give negative results due to the immunosuppressive nature of Borrelia. A negative result doesn't mean absence of the disease. Research in this area, is vital to establish correct diagnosis.

#### Co-infections

A tick bite can deliver not only the Lyme bacteria but a raft of other parasitic, bacterial and viral infections, such as Rickettsia, Babesia and Bartonella. The co-infections complicate the illness and treatment of Lyme disease. It is vital that appropriate antibiotics are used to treat co-infections for recovery.

#### West farmers clear the air on the business case for carbon farming

Kondinin Group has successfully held six farmer workshops for WA farm-based businesses considering carbon offsets projects in March and April.

Farmers from mixed farming, cropping, livestock and forestry growing, together with agricultural and farm management consultants attended the workshops in Geraldton, Carnamah, Dowerin, Merredin, Narrogin and Katanning.

In the workshops, participants worked through key steps for building a business case for a farmbased business considering participation in the Emissions Reduction Fund (ERF). Each delegate received a 200+ page workshop manual covering economics, ERF methods, legal and regulatory contacts and taxation considerations.

Kondinin Group's Project Manager Nilay Gencturk said "The delegates used an excellent carbon farming business manual written by economists and lawyers, with two Excel templates to carefully work through different cost and revenue scenarios. This hands-on part of the workshop really helped farmers to step through all the pros and cons to quantify the risks and recognise all the benefits of carbon farming and ERF participation."

"A farmer considering participation in the ERF needs to know all the facts before deciding whether a carbon farming project is going to be right for them. The workshop discussions certainly were highly regarded by the farmers who attended" says Gencturk.

The Australian Farm Institute presented five workshops. Director, Mick Keogh said "Farmers should consider carbon farming as an additional farm enterprise that may complement their current enterprises."

An ERF project should be approached with the same degree of caution and research as they would any other new enterprise. Like any farm enterprise, carbon farming presents opportunities and challenges, which need to be well understood before decisions are made."

"The workshops provided a useful first step in the process of gaining a sufficient understanding in order to make an informed decision about whether an ERF project would work as part of a farm business."

"The workshops provide a valuable explanation of how ERF projects work, and also provide some universally relevant material about enterprise budgets."

"The manual is also a very useful reference for farmers who have attended a workshop and would like clarification on specific issues" said Keogh.

Jo Wheeler delivering extension for Western Australian No-Tillage Farmers Association Inc. (WANTFA) about the ERF to WA growers said "Creating a project can be a complicated process; the more help a farmer or landholder gets along the way could help the success of a project."

The 2015 Season is now in full swing, with many of our games being played in Beverley. The oval is looking fantastic, so why not pop down for home games to see all the action. This year the competition has seen only 6 teams register, meaning we will play each team 3 times over the course of the year.

#### Round 1 Beverley vs York Vipers 2<sup>nd</sup> May

We were lucky enough to open the season with a home game, as previously the first game was always held in Northam. The girls took the opportunity to go out hard and not let any 'first game nerves' get in the way. The first half showed a very strong Beverley side, but an equally persistent York team. The second half proved that our fitness levels need to be worked on, but the game was played in very warm conditions....some would say a perfect sunny autumn day. The girls came off winners, in a fantastic start to the season. We welcome back Emma Davey and welcome newcomers Bec Sims as our fabulous new goalie and Mirika Winmar who scored our first goal!

Beverley 2; York Vipers 1 Goals Scorers Mirika Winmar 1; Kathryn McLean 1;

#### **Award Winners**

Kelly Mann - Captains Award - Sponsored By: Garry and Sarah Miller, Beverley Transport Bec Sims - Coaches Award - Sponsored By: Trevor and Amanda McLean, Waterbrae Pastoral Co.

#### Round 2 Beverley vs Aces 9<sup>th</sup> May

With another home game, the girls were looking at making it 2 from 2....and that's exactly what they did! A brilliant game by all accounts as the girls played some fantastic hockey. The bad news, our Captain Kathryn McLean and Vice Captain Chantelle Meade suffered injuries which saw them sidelined for the remainder of the game. We wish you a speedy recovery!!

Beverley 2; Aces 0 Goals Scorers Mirika Winmar 2

#### **Award Winners**

Karlee Morrell - Captains Award - Sponsored By: Garry and Sarah Miller, Beverley Transport Mirika Winmar - Coaches Award - Sponsored By: Trevor and Amanda McLean, Waterbrae

#### Round 3 Wongan Drifters vs Beverley 16<sup>th</sup> May

Our first away game for the season saw the girls travel to Northam. With challenging weather conditions facing them (it was very cold and wet!!), it didn't stop the girls from going out strong and continually putting pressure on the Drifters. Even though we had plenty of opportunities to score in the first half, we just couldn't quite get there. The second half saw Emily Miller, goal shark, score 2 goals! The teamwork between the girls really showed, resulting in a win....3 out of 3 is just the start to the season we wanted.

## **Beverley Netball Club**

The Beverley Netball Club has had a great start to the 2015 season with both teams playing a round robin in Brookton on Friday 01 May against both Pingelly and Brookton teams. The evening was an eye opener for the new players but never the less a fantastic introduction to the season. The teams took the community bus, which as always proved to be a team bonding experience.

The first fixtured game of the season was on Saturday 09 May, which saw both Beverley teams Hunters vs Spinners go head to head at the opening of the Pingelly courts. Derby's are always intense but for the first round the Spinners won 26 - 12. Well done to both teams on your efforts.

As a club we endeavour to offer our members as many off court opportunities to socialise and bond, so we will be hosting the Players Tea again this season. Keep Saturday 06 June free and we will see you at the Amenities Building at 6pm, partners and kids are welcome to join us too.

Please bring a casserole to share and your own drinks and take the opportunity to have a chat and a laugh off the court.

#### **General Club Information**

Trainings are on every Wednesday at 6.00pm at the courts.

**Team contacts** Hunters - Nat Ashworth 0429 491 039 Spinners - Jess Fleay 0427 181 029 Please be sure to let your team contact if you are unable to play a game.

The next committee meeting is on Tuesday 09 June at 7.00pm for a 7.15pm start at the Amenities Building.

# **Beverley Football Club - Home of the Redbacks**

and

Featured Events:

Sunday 14<sup>th</sup> June – AFA Round 10 (Talk to a Mate): Beverley vs. York at Beverley; Saturday 4<sup>th</sup> July – AFA Round 12 (Drink Drive is never OK): Beverley vs. Kellerberrin/Tammin at Beverley;

6:00pm, Saturday 4th July - Beverley Redbacks: "Americano Night" at the Beverley Amenities Building.

It's been a busy start to the season for the Beverley Football Club, and after a run of five straight games, which resulted in three wins and two losses, the bye came as a welcome relief for those players either carrying or still recovering from injury. It was also very timely as the heavens opened during our last home game against Federals.

The Beverley Football Club extends our deepest sympathy to Bruce and Chris Mann, and family, on the passing of Chris' mother, Christina Jeffrey on Saturday 2<sup>nd</sup> May.

## **Beverley Horse and Pony Club**

At our May rally we trialled a new arrival time so that we could get all the equipment out and set up before 8.30am so the rally could start on time. This seemed to work well, still needs fine tuning but it was lovely to see our dressage arena out and set up along with our jumps. We all managed to get soaked with rain bringing the equipment back in, and some of the girls were lucky enough to get drenched during their jumping lessons too. Unfortunately we've been having a few different issues with our jumps truck this year but hope to have it all sorted out before our training day that we're holding in June.

Bronte with her second place ribbon and prize.

Bronte and Vicky attended Dryandra Pony Clubs two day event on the 25 and 26 April and we are very pleased to share that Bronte came home with a very well deserved SECOND place in the 45cm E grade 12 years and under. Well done Bronte! Both riders had a fantastic weekend and learnt a lot. Vicky returned to Dryandra on the 10 May for the Dryandra Regional Equestrian Association Inaugural Show Horse and Dressage Championships, where she competed in the Preliminary dressage.

Kip has had a very busy month out and about on her ponies and is a great representative for our club. Kip visited Wooroloo Horse and Pony Club for a rally. On Mother's Day she also attended Toodyay Gymkhana, this was a

very successful day for Kip with one major highlight winning the Under 17 Champion Rider. She and Tealah went to Wooroloo Show where Kip riding Gwain received Champion Pony and Tealah riding Woody received Reserve Champion Pony. Well done to all the riders out Amy and Tom in the rain

The club would like to extend a huge thank you to Tess and Tealah Hawke who marched in the ANZAC dawn service. Good luck to the riders attending the Avon Zone 2DE one the 20 and 21 June and to those attending the Avon Valley ODE on 28 June. Our next rally is on Sunday 14 June; please arrive before 8.00am for set up and to be ready for an 8.30am gear check. New members are always welcome; please contact Mrs Pauline Appelbee if you are interested on 9647 1181 or at appelbees@skymesh.com.au

Happy Riding
