9.1 Development Application: Special Events (Tractor Pull & Lawnmower Racing) - Lot 397 (Reserve 3378 – Old Racecourse), Vincent Street

Submission To:	Ordinary Council Meeting 27 November 2024
Report Date:	15 November 2024
Applicant:	WA Tractor Pull Association Inc – Sheryl Burton & Donna Scatella
File Reference:	ADM 0155/VIN 1621
Author and Position:	Stefan de Beer, Manager of Planning
Previously Before Council:	26 February 2019, 23 February 2021, 22 February 2022, 22 November 2022 and 28 November 2023
Disclosure(s) Of Interest:	Nil
Attachments:	Application letter & associated documentation

SUMMARY

An application for Special Events (Tractor Pull & Lawnmower Racing) on Lot 397 (Reserve 3378) Vincent Street – (the Old Racecourse), had been received. The application will be recommended for approval.

BACKGROUND

A comprehensive application has been received from the *Western Australian Tractor Pull Association Inc.* (WATPA – Sheryl Burton & Donna Scutella), inclusive of amongst others an *Event Management Plan, Safety Risk Assessment Plan, Current Emergency Evacuation Procedure Maps, 1st Aid Location Map, Beverley Tractor Pull Procedures & Assessment Forms* used by WATPA, that covers all proposed event dates.

The subject property is the Old Beverley Racecourse – located on Lot 397 (Reserve 3378) Vincent Street, is zoned *Reserve – Recreational* and is 42.9ha in extent. The Shire is the custodian of the land through a Management Order.

Numerous successful Tractor Pull & Lawnmower Racing events had been held at this location in the past. This application for Development Approval was invited as it is not considered that these events can be regarded as *exempted development* under Section 61 of the *Planning and Development (Local Planning Schemes) Regulations 2015* (Development for which development approval not required).

A previous Planning Approval issued by Council in November 2023 for the 2024 events has now expired.

It is proposed to conduct events (as per the submission letter) on the following dates:

- 29th March 2025: Busy Bee/Test and Tune;
- 10th May 2025: Event;
- 1st June 2025: Event;
- 28th June 2025: Event;
- 28th September 2025: Event.

As per the submission, activities and general times of operation will be between 8am to 5:30pm.

Permission is also requested for pre-event set-up and post event clean-up days as per the submission. Camping for all events is requested for competitors within the designated areas shown on the maps submitted.

COMMENT

In previous years the events have attracted a substantial number of out-of-towners and residents of Beverley. It is an established event in the Beverley Community Calendar and is regarded as an important attraction from a tourism perspective. It has always been well planned and run and for this reason should be encouraged to remain.

From a land use perspective the property is regarded as being ideally located for a use of this nature.

CONSULTATION

Internal consultation was had with the Building Surveyor/Environmental Health Officer as well as the Community Emergency Services Manager during the 2021 application process. Applicable comments received are quoted below:

Building Surveyor/Environmental Health Officer:

1. *Any Public Event that charges an entry fee is required to have a "Public Building", (Public Event) Approval under the Public Health Act 2016.*
2. *Any Public Event applications are to be lodge three, (3), months prior to the event commencing, to allow sufficient time for assessment and approval.*
3. *Any temporary public camping is to be approved prior to the temporary camping being carried out under the Caravan Parks and Camping Grounds Act 1995 (only applicable if there is camping for more than 3 days in any month).*
4. *Any temporary public camping applications are to be lodged one, (1), month prior to the use of the land as a temporary camping ground, to allow sufficient time for assessment and approval.*
5. *Any application for a Public Event shall address, where applicable, each requirement under the Department of Public Health, "Concerts and Mass Gatherings Guidelines".*
6. *Any associated, event or live entertainment, is to address any additional, relevant requirements listed in the "Concerts and Mass Gatherings Guidelines".*
7. *Any required Liquor Licensing is to be addressed and approved where applicable.*
8. *Any requirements of Police or Emergency Services are to be addressed and complied with, where applicable.*
9. *Fire and Bushfire risks including requirements for emergency evacuation are to be addressed in the application. Particular attention should be given to minimising fire risk from surrounding grass and vegetation, and having appropriate fire-fighting facilities to extinguish fire from these risks/sources.*
10. *A site plan indicating all facilities, attractions, medical and first aid provision, emergency points, fire-fighting equipment, drinking water provision, toilet facilities, shower facilities, camping facilities, parking and other relevant information is to be submitted with the application.*
11. *Temporary structures and stages information is to be provided in detail, including engineer's certification, erection manuals, certificates of insurance and certificates of installation by a competent person once installed.*

12. *Temporary electrical installations are to be certified by a licensed electrician prior to use.*
13. *Any food sold, must be by a business or group who is registered with a Local Government as a Food Business under the Food Act 2008, or if not currently registered must be registered with the Shire of Beverley at least one, (1), month prior to the event and have approved food preparation premises or facilities.*
14. *Any event/event organisers, are to be affiliated with the relevant official motorsport body.*
15. *Motor sports are inherently dangerous and the Health Act 1911 defines those that have spectator viewing as public buildings. Spectators must be protected from competition vehicles and any debris that may emanate from the race area. The types of barriers will vary significantly between the different sports.*

There are critical safety elements to be considered and addressed in any proposal, including and not limited to:

- Spectator safety.*
- Competitor safety.*
- Officials safety.*
- Vehicle safety.*

Community Emergency Services Manager:

CESM submitted following comments:

- *The Shire of Beverley might be in its Restricted Burning period as declared under Section 18(5) of the Bush Fires Act 1954. During a Restricted Burning period a Permit is required to Burn or to light a fire.*

Should Council resolve to approve this application, it will be recommended that the above comments be taken into consideration when framing conditions of planning approval and advice notes.

Public Notification:

It was not deemed required to advertise the application for public comments again, as this was done for the 2019 Development Application. No concerns or objections were received by the Shire during the 2019, 2021, 2022, 2023 or 2024 event seasons.

Many similar events have occurred on this property previously. It is submitted that matters of concern could be managed by the imposition of appropriate conditions of planning approval and monitoring of the compliance thereof.

The event will aid in economic development and economic diversification in the Shire of Beverley. Direct economic enhancement will occur due to catering for the needs of the substantial number of persons attending the event. Indirect economic benefit will come from raising the profile of Beverley throughout the state and making Beverley a tourist destination. As such the event will aid in economic diversification in Beverley.

Entertainment options in Beverley may be considered limited for the younger age groups. This event will provide an entertainment option comparable with those in the metropolitan area and not generally available in Beverley. As such the event will aid in enhancing the amenity of the Shire.

Event Management Plan

The proposal contains an Event Management Plan (inclusive of an Emergency Evacuation Plan, Fire Management Plan, First Aid/Medical Evacuation Plan, Traffic Management Plan, Waste Management arrangements, Camping Arrangements, Management of Environmental Impacts, as well as a Western Australia Tractor Pull

(WATP) Risk Action Plan. Should Council approve the application it will be recommended that compliance with the overall Event Management Plan and the WATPA Risk Action Plan be made conditions of approval.

Conclusion

The application to conduct the Tractor Pull and Lawnmower Racing events is supported due to:

1. Diversification of economic activity;
2. Enhancement of amenity through provision of generally unavailable entertainment options;
3. Raising the profile of the Shire of Beverley;
4. Economic benefit to the local economy.

STATUTORY ENVIRONMENT

The application may be considered consistent with the Shire of Beverley's Local Planning Scheme No. 3.

FINANCIAL IMPLICATIONS

There are no financial implications relative to this application.

STRATEGIC IMPLICATIONS

- Strategic Pillar: 1. Economy
 4. Civic Leadership
- Strategic Priorities: 1.3 Beverley attractions and experiences promoted
 4.3 Responsible planning

POLICY IMPLICATIONS

There are no policy implications relative to this application.

RISK IMPLICATIONS

It is considered that the proposal has insignificant risks.

Consequence	Insignificant	Minor	Moderate	Major	Catastrophic
Likelihood					
Almost Certain	Medium (5)	High (10)	High (15)	Severe (20)	Severe (25)
Likely	Low (4)	Medium (8)	High (12)	High (16)	Severe (20)
Possible	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
Unlikely	Low (2)	Low (4)	Medium (6)	Medium (8)	High (10)
Rare	Low (1)	Low (2)	Low (3)	Low (4)	Medium (5)

Risk Rating	Action
Low	Monitor for ongoing improvement.
Medium	Comply with risk reduction measures to keep risk as low as reasonably practical.
High	Review the risk and take additional measures to ensure risk is low as reasonably achievable.
Severe	Unacceptable risk level, reduction measures must be introduced before proceeding.

VOTING REQUIREMENTS

Simple Majority

OFFICER'S RECOMMENDATION & COUNCIL RESOLUTION

M2/1124

Moved Cr Brown

Seconded Cr Martin

That Council resolve to grant planning approval for Tractor Pull and Lawnmower Racing events at Lot 397 (Reserve 3378) Vincent Street – (the Old Racecourse), 29 March 2025, 10 May 2025, 1 June 2025, 28 June 2025 and 28 September 2025 subject to the following conditions and advice notes:

Conditions:

- 1. Planning approval for the events at Lot 397 (Reserve 3378) Vincent Street – (the Old Racecourse), is valid for the dates submitted in the application or alternative dates through mutual written agreement with the Shire CEO.**
- 2. Dates and times for pre-event setup and post event pack up/clean up shall be as per the Event Management Plan.**
- 3. Development shall be carried out only in accordance with the terms of the application as approved herein and any approved plan, prepared by the applicant and endorsed by Council's Shire Planner.**
- 4. The submitted Event Management Plan (inclusive of the Emergency Evacuation Plan, Fire Management Plan, First Aid/Medical Evacuation Plan, Traffic Management Plan, Waste Management arrangements, Camping Arrangements, Management of Environmental Impacts and Risk Action Plan) are to be complied with at all times, for the entire period of this approval.**

Advice Notes:

Note 1: Nothing in the approval or these conditions shall excuse compliance with all relevant written laws in the commencement and carrying out of the development.

Note 2: The applicant is advised that where applicable, a building permit is required prior to commencement of any building works.

Note 3: The applicant is advised that any Public Event is required to have a "Public Building" (Public Event) Approval under the *Public Health Act 2016*.

Note 4: The applicant is advised that any Public Event applications are to be lodge three (3) months prior to the event commencing, to allow sufficient time for assessment and approval.

Note 5: The applicant is advised that any temporary public camping is to be approved prior to the temporary camping being carried out under the *Caravan Parks and Camping Grounds Act 1995*.

Note 6: The applicant is advised that any required Liquor Licensing is to be addressed and approved where applicable.

Note 7: The applicant is advised that any temporary structures and stages information is to be provided in detail, including engineer's certification, erection manuals, certificates of insurance and certificates of installation by a competent person once installed.

Note 8: The applicant is advised that temporary electrical installations are to be certified by a licensed electrician prior to use.

Note 9: The applicant is advised that any food sold, must be by a business or group who is registered with a Local Government as a Food Business under the *Food Act 2008*, or if not currently registered must be registered with the Shire of Beverley at least one (1) month prior to the event and have approved food preparation premises or facilities.

Note 10: The applicant is advised that any event/event organisers, are to be affiliated with the relevant official motorsport body and are to have evidence of approval and endorsement from that body.

Note 11: The applicant is advised to submit written proof to the Shire of sufficient Public Liability Insurance for the event, one week prior to the event occurring.

Note 12: The applicant is advised that the Shire of Beverley might be in its Restricted Burning Times as declared under Section 18(5) of the *Bush Fires Act 1954*. Restricted Burning Times vary and should be checked by the applicant. During Restricted Burning Times a Permit is required to Burn or to light a fire during this period.

Note 13: If an applicant is aggrieved by this decision there is a right of review by the State Administrative Tribunal in accordance with the *Planning and Development Act 2005* Part 14. An application must be made within 28 days of the determination.

Western Australian Tractor Pull Association Inc

(WATPA Inc)

Chief Executive Officer
Shire of Beverley
Vincent Street
BEVERLEY WA 6304

11th November 2024

Dear Mr Gollan, Shire President and Councillors,

The Western Australian Tractor Pull Association would like to submit our dates for the 2025 Season held at The Old Beverley Racecourse.

The Dates below have been chosen by the Club, subject to your approval and will traditionally begin with our Busy Bee Clean Up and Test & Tune/Event.

29 th March 2025	Busy Bee, Test & Tune/Event
10 th May 2025	Event
1 st June 2025	Event
28 th June 2025	Event
28 th September 2025	Event

This up-coming season will see our main focus being on Club Members Tractors and Lawnmowers. Although we are open to future options moving forward, for now we will concentrate on the growth of our own Club.

The Club asks that you kindly consider the above dates and we as a club are aware that all are subject to any health directives regarding Covid 19 should any arise.

Attached is our proposal including an Event Management Plan, Safety Risk Assessment Plan, Current Emergency Evacuation procedure maps, 1st Aid Location Map and Assessment forms used by WATPA.

We look forward to another successful season, working with the Council, to keep our Family Orientated Sport within the Shire of Beverley.

Yours sincerely

Sheryl Burton
Outgoing Secretary

WA Tractor Pull Association

9.2 Development Application – Rural Pursuit (keeping of a horse) - 3 (Lots 236 & 237) Nicholas Street, Beverley

Submission To:	Ordinary Council Meeting 27 November 2024
Report Date:	15 November 2024
Applicant:	Jennine Williams
File Reference:	NIC 51731
Author and Position:	Stefan de Beer, Manager of Planning
Previously Before Council:	Nil
Disclosure(s) Of Interest:	None
Attachments:	Locality Map, Property Management Plan

SUMMARY

Council has received an Application for Planning Approval for a *Rural Pursuit* (the keeping of a horse) on 3 (Lots 236 & 237) Nicholas Street, Beverley. It will be recommended the application be approved.

BACKGROUND

The subject properties are respectively 1.2571 ha (Lot 236), and 6,981 m² (Lot 237) in extent, zoned *Rural Residential* in terms of the *Shire of Beverley Local Planning Scheme No. 3 (LPS3)* and contains an Outbuilding on lot 236.

The proposal is to keep a single horse as referenced in the submitted property management plan.

A *Rural Pursuit* Land Use is a discretionary use in the *Rural Residential* Zone meaning that the use is not permitted unless the local government has exercised its discretion by granting development approval.

COMMENT

A *Rural Pursuit/Hobby Farm* is defined as follows in LPS3:

“means any premises, other than premises used for agriculture — extensive or agriculture — intensive, that are used by an occupier of the premises to carry out any of the following activities if carrying out of the activity does not involve permanently employing a person who is not a member of the occupier’s household —

(a) the rearing, agistment, stabling or training of animals;

(b) the keeping of bees;

(c) the sale of produce grown solely on the premises.”

Subject land:

The subject site is zoned *Rural Residential* and is 1.9552 ha in extent total (for both subject lots). It contains an outbuilding on lot 236. The proposal is measured against the guidance afforded by Council’s *Stocking Rates Policy*.

Stocking Rates Policy:

The purpose of Council’s *Stocking Rates Policy* is to provide a guide for the assessment and determination of applications for Planning Approval involving the keeping of livestock on, amongst others, *Rural Residential* zoned properties. It is not

the intention of the policy to be applied rigidly, but that each application be examined on its merits, with the objectives and intent of the policy the key for assessment.

The main objectives of the *Stocking Rates Policy* directives are to:

- Ensure that livestock keeping is undertaken in a sustainable manner;
- Ensure that the keeping of livestock does not have a significant negative impact on the natural environment;
- Ensure that the keeping of livestock does not impact detrimentally on the health and/or amenity of adjoining land owners.

Base Stocking Rate:

Council's *Stocking Rate Policy* provides for the calculation of the Dry Sheep Equivalent (DSE) for any particular property which is proposed to be used for the keeping of livestock. From this calculation a determination can be made as to how many animals (stock) of a particular type can be accommodated.

Even though the applicant did not provide a calculated DSE for the property, Shire Planner calculated the DSE for the subject property to be approximately **9.77 DSE** using the following formula:

Base Stocking Rate⁽¹⁾ X usable area⁽²⁾ = **9.77 DSE**

(I.E. 5 X 1.9552 ha = 9.77 DSE)

Where ⁽¹⁾: The Base Stocking Rate for the Shire of Beverley, as per the Policy, is 5 DSE.

And ⁽²⁾: The usable area was calculated by estimating the area, as submitted by the applicant, where the one horse will be kept, as depicted in the accompanying site plan.

Using the animal equivalents table in the Shire's *Stocking Rates Policy* it can be seen that the subject site does not yield a sufficient DSE to be able to accommodate the single horse proposed.

Using the DSE calculations in the Policy as a guideline, a **DSE of 10** would have been required for the subject property to be able to accommodate the 1 horse (10 DSE x 1).

The *Stocking Rates Policy* can permit though, with Council's discretion, proposals for *Rural Pursuit* land uses in excess of the Base Stocking Rate, where applicants submit a **Property Management Plan** which demonstrates that pasture improvement, nutrient and waste management methods are addressed.

Property Management Plan:

The applicant submitted a *Property Management Plan* that addresses areas of concern as required by the Council's *Stocking Rates Policy*. Please refer to the attachment.

Stabling of the animal:

The applicant submitted that there are trees on the property for shelter and that the intention is to construct a lean-to in time for additional shelter.

Fencing:

The Council’s *Stocking Rates Policy* requires certain fencing standards including electric fencing and warning signage. Should Council resolve to approve the application, it will be recommended that the agistment areas be fenced as per the *Stocking Rates Policy*.

Conclusion:

Shire Planner is of the opinion that with appropriately framed Conditions of Planning Approval and adherence thereto, the proposed development can be well managed, and will be recommending approval.

CONSULTATION

The application was advertised to all immediate surrounding neighbours, with no submissions received at closing of the advertising period.

STATUTORY ENVIRONMENT

The application may be approved under the Shire of Beverley’s Local Planning Scheme No. 3.

FINANCIAL IMPLICATIONS

No specific financial implications.

OFFICER'S RECOMMENDATION & COUNCIL RESOLUTION

M3/1124

Moved Cr Davis

Seconded Cr Brown

That Council resolve to grant planning approval for a Rural Pursuit (keeping of a horse) at 3 (Lot 236 & Lot 237) Nicholas Street, Beverley, subject to the following conditions and advice notes:

Conditions:

- 1. Development shall be carried out only in accordance with the terms of the application as approved herein and any approved plan, prepared by the applicant and endorsed by Council's Shire Planner.**
- 2. The agistment area shall be appropriately fenced as per the Stocking Rates Policy, including the installation of electric fencing, with appropriate signage, to the satisfaction of the Shire.**
- 3. The number and type of animal shall be limited to one horse only.**
- 4. The Rural Pursuit shall be carried out in accordance with the submitted Property Management Plan, to the satisfaction of the Shire.**
- 5. Where an existing animal kept on the property expires, it shall not be replaced without the further approval of the Shire having first being sought and obtained.**
- 6. Every part of the subject site used for the Rural Pursuit land use must be maintained in a hygienic and clean condition, free from odour, flies and vermin.**
- 7. Measures shall be taken to prevent, as far as practicable, stormwater run-off and manure spillage unto neighbouring properties.**
- 8. All manure is to be regularly collected and disposed of to the satisfaction of the Shire's Environmental Health Officer.**

Advice Notes:

Note 1: If the development the subject of this approval is not substantially commenced within a period of 2 years, or another period specified in the approval after the date of determination, the approval will lapse and be of no further effect.

Note 2: Where an approval has so lapsed, no development shall be carried out without the further approval of the local government having first been sought and obtained.

Note 3: Nothing in the approval or these conditions shall excuse compliance with all relevant written laws in the commencement and carrying out of the development.

Note 4: The applicant is advised a building permit is required prior to commencement of any building works.

Note 5: The carrying on of the development must not cause a dust nuisance to neighbours. Where appropriate and practicable such measures as installation of sprinklers, use of water tanks, mulching or other land management systems should be installed or implemented to prevent or control dust nuisance, and such measures shall be installed or implemented within the time and in the manner directed by the Shire's Environmental Health Officer if it is considered that a dust nuisance exists.

Note 6: The applicant is advised that where in the opinion of Council the livestock keeping is causing adverse environmental, health or amenity impacts, the Council may by written notice (giving clear reasons) require the owner of the land to:

- (a) take action to temporarily or permanently reduce the number of stock kept on the land; or
- (b) remove all the stock from the land either temporarily or permanently; or
- (c) rectify the adverse impacts of the livestock keeping.

Note 7: If an applicant is aggrieved by this decision there is a right of review by the State Administrative Tribunal in accordance with the Planning and Development Act 2005 Part 14. An application must be made within 28 days of the determination.

PROPERTY MANAGEMENT PLAN FOR HORSE

3 Nicholas St, BEVERLEY WA 6304

My written statement that addresses the following (where applicable):

- The number and type of stock; **x1 Standardbred Gelding Horse 15.3 Hands**
- Stabling practices; **No stables built – A lean to horse shelter will be erected down the track but there are trees for him to shelter**
- Collection, storage and disposal of manure, including fly management and odour control; **Manure will be picked up twice daily and bagged for either giving away or clean easy disposal and also some will be used for the fertilising of current trees on property once dried.**
- Nutrient management plan; **There is currently water run through the property where I will water down areas for 10 minutes x3 times weekly by use of a sprinkler.**
- Pasture management techniques, including type and condition of pasture, rotation of pasture; **I will have the property regularly maintained with small fenced off areas to help growth.**
- Fertiliser application rates; **The property will stay fertilised and harvested when required to assist in regrowth and watered**
- Irrigation; **There is water on the property and will have a sprinkler system set up to keep healthy growth and feed which will also help with Dust control;**
- Weed control; **Weeds will regularly be checked and pulled and will ensure all hay on property is tested for weeds**
- Water availability and use; **Water is connected and will water down x3 times a week for 10 minutes during summer only. A free standing water bath is already in place for the horse to have fresh water, checked twice daily.**
- Soil type. **Soil type is Loamy**

9.3 Development Application: Sea Container Bar/Storage – Beverley Station Arts – 120 (Lot 426 - Reserve 47116) Vincent Street, Beverley

Submission To:	Ordinary Council Meeting 27 November 2024
Report Date:	18 November 2024
Applicant:	Beverley Station Arts Inc.
File Reference:	VIN 50049
Author and Position:	Stefan de Beer, Manager of Planning
Previously Before Council:	Date if it has been before Council or Committee
Disclosure(s) Of Interest:	Nil
Attachments:	Application Letter, Site Plan & Sea Container Photos

SUMMARY

An application has been submitted to place a 10ft Sea Container at the Beverley Railway Station precinct to provide an additional Bar Facility/Storage space. Subject property located at 120 (Lot 426) Vincent Street, Beverley. The application will be recommended for approval.

BACKGROUND

The proposal is to place and use a 10ft Sea Container as an additional Bar Area at the Beverley Railway Station precinct. See attached application letter.

Application Site Details

The subject lot is described as follows:

- 120 (Lot 426) Vincent Street in extent 4,205m² - contains the existing State Heritage Listed Beverley Railway Station, Platform Theatre and public parking area.

The lot is Zoned *Local Scheme Reserve 'Railways'* pursuant to the Shire of Beverley Local Planning Scheme No 3 (LPS 3). The Shire of Beverley has a Management Order over the subject land.

Heritage Listing

The place was entered into the State Register of Heritage Places in 1996 and therefore requires Council's consideration through a planning application for the development proposed.

COMMENT

The proposal is recommended for approval as the proposed placement of the Sea Container is such that it is regarded to have minimal impact on the aesthetics of the precinct, whilst addressing practical issues with the serving of beverages during Beverley Station Arts functions.

Should Council resolve to approve the application, it will be recommended that Conditions of Planning Approval be imposed that will require the Sea Container to be painted/rendered in such a fashion so that it is in harmony with the particular precinct, to the satisfaction of the Shire. In this regard, the proposal to have an Art Competition to choose an appropriate rendering for the exterior of the Sea Container, is noted.

CONSULTATION

The application was not referred to the State Heritage Office for assessment as the proposal does not have any impact on the existing State Listed Building.

STATUTORY ENVIRONMENT

Shire of Beverley Local Planning Scheme No. 3.

FINANCIAL IMPLICATIONS

There are no financial implications relative to this application.

STRATEGIC IMPLICATIONS

Strategic Pillar: 2. Community
Strategic Priorities: 2.1 High quality arts and cultural experiences
2.2 Preservation and protection of local heritage

POLICY IMPLICATIONS

There are no policy implications relative to this application.

RISK IMPLICATIONS

It is considered that the proposal has insignificant risks.

To: Stefan de Beer

Manager of Planning and Development Services

Shire of Beverley

Dear Stefan,

On behalf of Beverley Station Arts I wish to apply for approval to install a 10ft sea container at the Station Precinct on the north side of the train carriage for the purpose of a bar solely to be used by BSA for our functions.

We presently operate with a portable bar and large eskies which is very time consuming to set up and pack away. Left over alcohol is kept in the Station Kiosk fridge where there is the risk of burglary as the building is not very secure, and also theft with the door open during events. Plus it can cause health and safety problems when sharing the facility with food catering staff. And the double handling of stock to and fro our portable bar before and after events is a concern. The BSA committee has therefore decided that a sea container would be the safest option for alcohol storage as well as functioning as a bar for our events.

The container we hope to purchase was previously used as a safe and is in great condition. It is fully insulated with lights and circuit breaker plus camera inside, and safe flooring. We will need to install a solar roof vent, an air conditioner, and a hydraulic strut servery. Its exterior, presently painted white, we hope will be rendered through competition for an art narrative with a train theme.

Please find attached planning application. Also attached is a marked-up drawing of the siting proposal for the Sea Container/Bar with some info on dimensions.

Hopefully this application meets with Shire's approval.

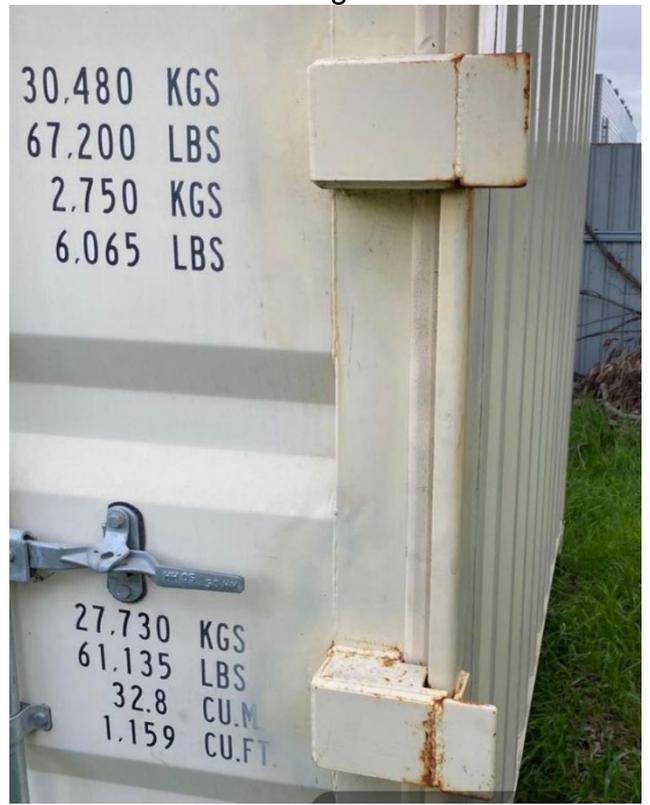

Yours sincerely

Jenny Broun

Chair, Beverley Station Arts

9.4 Development Application: Tree Farm – 1834 (Lot 400), York-Williams Road

Submission To:	Ordinary Council Meeting 27 November 2024
Report Date:	20 November 2024
Applicant:	Garry Spouge – Landowner: Mining Motor Trimmers Pty Ltd (Consultant: Woodland Services)
File Reference:	YOR 51217
Author and Position:	Stefan de Beer, Manager of Planning
Previously Before Council:	No
Disclosure(s) Of Interest:	None
Attachments:	Management Plan for Tree Farm

SUMMARY

An application for a *Tree Farm* on 1834 (Lot 400) York-Williams Road, had been received. The application will be recommended for approval.

BACKGROUND

An application was received from Garry Spouge to establish a *Tree Farm* on 1834 (Lot 400) York-Williams Road.

The application is accompanied by a justification statement and a comprehensive Management Plan - see attached. This includes a Reforestation Plan, Fire Management Plan and species planting schedule.

The applicant has engaged *Woodland Services* to prepare the Management Plan for the proposal. *Woodlands Services* will also carry out the tree planting for the project.

The applicant submits that they intend to continue mixed farming practices on the better agricultural land and would like to re-introduce a mixed species planting of native trees and shrubs on the areas of the property that have not recently been used for farming. The applicant submits that areas not used for farming are evident by the untilled areas of the satellite imagery in the development application. The proposed planting area is currently estimated at 33 hectares.

The background statement in the submitted documentation states that the planting proposed will be part of a Carbon Sequestration Project which will operate under the Australian Government's Carbon Credit Unit Scheme (ACCU Scheme).

The application documentation states that there are no plans at the present moment to harvest any of the species in future.

The subject property is located at 1834 (Lot 400) York-Williams Road, is zoned *Rural* pursuant to the *Shire of Beverley Local Planning Scheme No. 3 (LPS3)* and is 76.2269 ha in extent. It contains a shed and water tank.

Pursuant to LPS3, a *Tree Farm* means:

land used commercially for tree production where trees are planted in blocks of more than one hectare, including land in respect of which a carbon right is registered under the Carbon Rights Act 2003 section 5.

A *Tree Farm* is a discretionary Land Use in the *Rural Zone* which means that the use is not permitted unless the local government has exercised its discretion by granting development approval.

COMMENT

When considering the application for a *Tree Farm* the guiding documents for assessment are the following:

- *Shire of Beverley Local Planning Scheme No. 3 (LPS3)*,
- *Local Planning Policy on Tree Farms (Policy)*.

Shire of Beverley Local Planning Scheme No. 3 (LPS3):

The subject property is located in the *Rural Zone*. Pursuant to LPS3, the Objectives of the *Rural Zone* are as follows:

- *To provide for the maintenance or enhancement of specific local rural character.*
- *To protect broad acre agricultural activities such as cropping and grazing and intensive uses such as horticulture as primary uses, with other rural pursuits and rural industries as secondary uses in circumstances where they demonstrate compatibility with the primary use.*
- *To maintain and enhance the environmental qualities of the landscape, vegetation, soils and water bodies, to protect sensitive areas especially the natural valley and watercourse systems from damage.*
- *To provide for the operation and development of existing, future and potential rural land uses by limiting the introduction of sensitive land uses in the Rural zone.*
- *To provide for a range of non-rural land uses where they have demonstrated benefit and are compatible with surrounding rural uses.*

In response to the above Objectives the applicant submitted the below statement:

The scheme objectives for the Rural Zone are to preserve broad acre agricultural activities as primary land uses whilst allowing other land uses compatible with the primary use. Additionally, environmental qualities of the landscape, vegetation, soils and water bodies are to be maintained and enhanced.

The planting proposed for Ydontcha Too will be part of a carbon sequestration project, the YdontchaTwo Project, which will operate under the Australian Government's Australian Carbon Credit Unit Scheme (ACCU Scheme). Under this Scheme, Garry Spouge who is the both the owner of the land and owner of the project will plant tree and shrub species native to the local area on the land that is not currently considered as viable agricultural land.

Shire Planner agrees with the proposition that the proposal is aligned with the Objectives of the *Rural Zone*. The expressed intent to plant less agriculturally viable parts of the subject property is specifically noted, and supported.

Local Planning Policy: Tree Farms (Policy):

The Shire of Beverley Local Planning Policy on Tree Farms states the following as Objectives of the Planning Policy:

- *Achieve a consistent efficient and equitable system for assessing and approving tree farm applications;*
- *Encourage tree farm developers to adhere to industry guidelines and standards as specified in relevant codes of practice and other documents; and*

- *Identify specific issues that the Shire wish to see addressed in the planning and development of tree farms.*

As per the Policy Statement, a Management Plan is required for a Tree Farm that provides details of the way in which a Tree Farm will be developed and managed and aims to demonstrate the means by which the principles of environmental care, cultural and fire management objectives are achieved.

The applicant submitted a Management Plan which, as per the abovementioned Policy Directives, included an Establishment Plan, ongoing Management Plan and a Fire Management Plan.

Shire Planner submits that the submitted statements and Management Plan sufficiently addresses the directives of the above Policy, and the application will be recommended be approved.

CONSULTATION

No external consultation was considered required.

STATUTORY ENVIRONMENT

The application may be considered consistent with the Shire of Beverley's Local Planning Scheme No. 3.

FINANCIAL IMPLICATIONS

There are no financial implications relative to this application.

STRATEGIC IMPLICATIONS

Strategic Pillar: 3. Environment
 4. Civic Leadership
Strategic Priorities: 3.3 Natural resources are sustainably managed
 4.3 Responsible planning

POLICY IMPLICATIONS

There are no policy implications relative to this application.

RISK IMPLICATIONS

It is considered that the proposal has insignificant risks.

Consequence	Insignificant	Minor	Moderate	Major	Catastrophic
Likelihood

VOTING REQUIREMENTS

Simple Majority

OFFICER'S RECOMMENDATION

That Council resolve to grant planning approval for a Tree Farm at 1834 (Lot 400) York-Williams Road subject to the following conditions and advice notes:

Conditions:

1. Development shall be carried out only in accordance with the terms of the application as approved herein and any approved plan, prepared by the applicant and endorsed by Council's Shire Planner.
2. The submitted Management Plan are to be complied with at all times, to the satisfaction of the Shire.
3. On the Shire's request, a report shall be presented to the Shire indicating compliance of the Tree Farm operations with the submitted Management Plan and relevant Codes of Practise.
4. Prior to harvesting, a Harvesting Management Plan shall be submitted to the satisfaction of the Shire, where applicable.

Advice Notes:

Note 1: Nothing in the approval or these conditions shall excuse compliance with all relevant written laws in the commencement and carrying out of the development.

Note 2: The following Codes of Practise shall apply to this Tree Farm, where applicable:

- Code of Practice for Timber Plantations in Western Australia (Forest Industries Federation (WA) Inc., 2014)
- Guidelines for Plantation Fire Protection (FESA, 2011) – now DFES
- Code of Practice for the use of Agricultural Chemicals in Western Australia (2005, Agriculture Western Australia).

Note 3: The applicant is advised that where applicable, a building permit is required prior to commencement of any building works.

Note 4: If an applicant is aggrieved by this decision there is a right of review by the State Administrative Tribunal in accordance with the *Planning and Development Act 2005* Part 14. An application must be made within 28 days of the determination.

COUNCIL RESOLUTION

M5/1124

Moved Cr Ridgway

Seconded Cr Brown

That the item lay on the table until the 18 December 2024 Ordinary Council Meeting to allow Council to review the updated Management Plan submitted 27 November 2024.

2. Project and Objectives

Background

Landowner Garry Spouge purchased Lot 400 DP55711, “Ydontcha Too” on 1834 York-Williams Rd in April 2024. The property is less than 20 kms from Beverley and currently consists mostly of cleared unimproved pastures and remnant paddock trees. It is the owner’s understanding that the property has been cropped on the good soils and possibly grazed on the poorer sandy clays in recent years.

The landowner intends to continue mixed farming practices on the better agricultural land and would like to re-introduce a mixed species planting of native trees and shrubs on the areas of the property that have not recently been used for farming. The areas not used for farming are evident by the untilled areas of the satellite imagery in Figure 1. The proposed planting area is currently estimated at 33 hectares.

The 76 hectare property is Zoned ‘Rural’ within the Shire of Beverley Local Planning Scheme No. 3. According to the Scheme, permissibility of Tree Farms as a land use is discretionary (D), meaning that the use is not permitted unless the local government has exercised its discretion by granting development approval.

The scheme objectives for the Rural Zone are to preserve broad acre agricultural activities as primary land uses whilst allowing other land uses compatible with the primary use. Additionally, environmental qualities of the landscape, vegetation, soils and water bodies are to be maintained and enhanced.

The planting proposed for Ydontcha Too will be part of a carbon sequestration project, the YdontchaTwo Project, which will operate under the Australian Government’s Australian Carbon Credit Unit Scheme (ACCU Scheme). Under this Scheme, Garry Spouge who is the both the owner of the land and owner of the project will plant tree and shrub species native to the local area on the land that is not currently considered as viable agricultural land.

This management plan will describe the project in further detail in accordance with the Shire of Beverley Local Planning Policy: Tree Farms.

3. The YdontchaTwo Project

As part of the plan to increase local biodiversity and farm resilience in a drying climate, Garry Spouge would like to revegetate parts of Ydontcha Too on the less agriculturally viable parts of the property evident in Figure 1. On the property, the re-introduction of trees and shrubs will boost the forage and habitat diversity for existing local plant and animal species. The planting will increase the ecological buffer between existing remnant vegetation to the east of the property and cleared land, as well as connecting isolated paddock trees with larger areas of remnant vegetation. To help fund the costs of the planting, Garry has registered the planting with the Australian Carbon Credit Unit (ACCU) Scheme.

The block planting is currently estimated at 33 ha with the bulk of the planting proposed to occur in the eastern-most paddock adjacent to the York-Williams Rd, which consists of deep gravelly sands. The planting will extend west on the southern boundary, ensuring at least 100m of cleared land will be between the planting and the shed (Map 1 – Fire Management Map). The planting will follow the northern boundary from the east to the drainage lines bound by the properties to the north and west. Areas that have not been cropped in recent times will be prioritised for tree planting.

It is the intent that the planting will enhance the habitat and biological linkages between the existing fragments of vegetation whilst allowing traditional agricultural practices to continue.

The Ydontcha Too property sits within the Goonaping vegetation complex, dominated by open forests of *Eucalyptus marginata* (Jarrah) and *Eucalyptus wandoo* (Wandoo) on the sandy gravels, low woodland of *Banksia attenuata* on dry sandy sites and *Banksia-Melaleuca* on the moister sandy soils (Mattiske Vegetation Survey, 1998). The only native vegetation noted on the property are large and isolated Wandoo, Marri and Jarrah. Small fragments of remnant

bushland sit across the York-Williams Rd to the east of Ydontcha Too and become more distant surrounding the property to the north, south and west.

Re-introducing native trees and shrubs into the farming landscape will broaden existing connections between these remnant fragments of vegetation on and adjacent to the property. It is expected the planting will increase habitat and forage for the native flora and fauna. Very importantly, *Banksia* species will be planted in the gravelly sands adjacent to the York-Williams Rd in the hope that these trees will provide a preferred source of forage for the endangered black cockatoos. Water quality downslope of the planting is also expected to increase during recharge rain events by reduce sheet erosion and immobilising saline discharge from the soil profile.

In accordance with best practice and the ACCU Scheme Methodology, the Carbon Credits (Carbon Farming Initiative) (Reforestation by Environmental or Mallee Plantings—FullCAM) Methodology Determination 2014, the planting will aim to reflect the structure and composition of the surrounding intact the native woodlands. Species to be included in the planting are *Eucalyptus wandoo*, *E. loxophleba* subsp. *loxophleba*, *E. marginata*, *Corymbia calophylla*, *Banksia* and *Melaleuca* species. These species were identified as existing on the property or on nearby roadside reserves. A list of the species proposed to be planted is detailed in Appendix C.

The planting operations will be managed and implemented by Woodland Services, owned and operated by Dan and Jodi Wildy. Woodland Services have worked extensively throughout the central and northern wheatbelt providing tree planting services, plantation and project management for more than 17 years. Garry Spouge will be the manager of the project.

The required permanence period for the carbon project will be up to 30 years from the 1st September 2024, the date of project declaration by the Clean Energy Regulator.

The configuration of the planting will be in a block formation with small compartment sizes, firebreaks and internal tracks. Plantation management and firebreaks will be compliant with the Code of Practice for Plantations in Western Australia, the Guidelines for Plantation Fire Protection (FESA 2011) and Shire regulations. Although a revision of the FESA guidelines is in progress, it has not been finalised. The Guidelines suggest a 10 m bare earth perimeter firebreak. There will a 15m setback on external boundaries incorporated into the proposed planting area to allow for a 10m bare earth firebreak (Map 1).

A screenshot from the Map of Bushfire Prone Areas (<https://maps.slip.wa.gov.au/landgate/bushfireprone/>) indicate that the eastern parts of Ydontcha Too have the potential to be impacted by bushfire from existing remnant and vegetation on the roadside of the York – Williams Rd and the vegetation on property immediately to the east of the road. Additional tree planting on the property will by default increase the potential area susceptible to bushfire attack on and adjacent to the property. However, the planting area will be developed with fire management and fire mitigation strategies in order to reduce the susceptibility to bushfire attack.

At this point in time there is no intent to harvest the trees at the end of the project, therefore this planting will not have any associated use of haul trucks on local roads for a tree harvest.

Current area prone to bushfire attack (<https://maps.slip.wa.gov.au/landgate/bushfireprone/>) Refer to the fire management plan (Section 11) for more info regarding fire protection.

4. Document scope

This document contains the details and maps of Ydontcha Too, with plans for establishment and longer term management as a result of the revegetation work, as well as a plan to manage the risk of fire.

5. Relevant codes of practice

In addition to the laws of Western Australia, the following are relevant:

- Code of Practice for Timber Plantations in Western Australia (Forest Industries Federation (WA) Inc., 2014)
- Guidelines for Plantation Fire Protection (FESA, 2011) – note that the agency FESA has now changed names to 'DFES'
- Code of Practice for the use of Agricultural Chemicals in Western Australia (2005, Agriculture Western Australia).

6. Site features

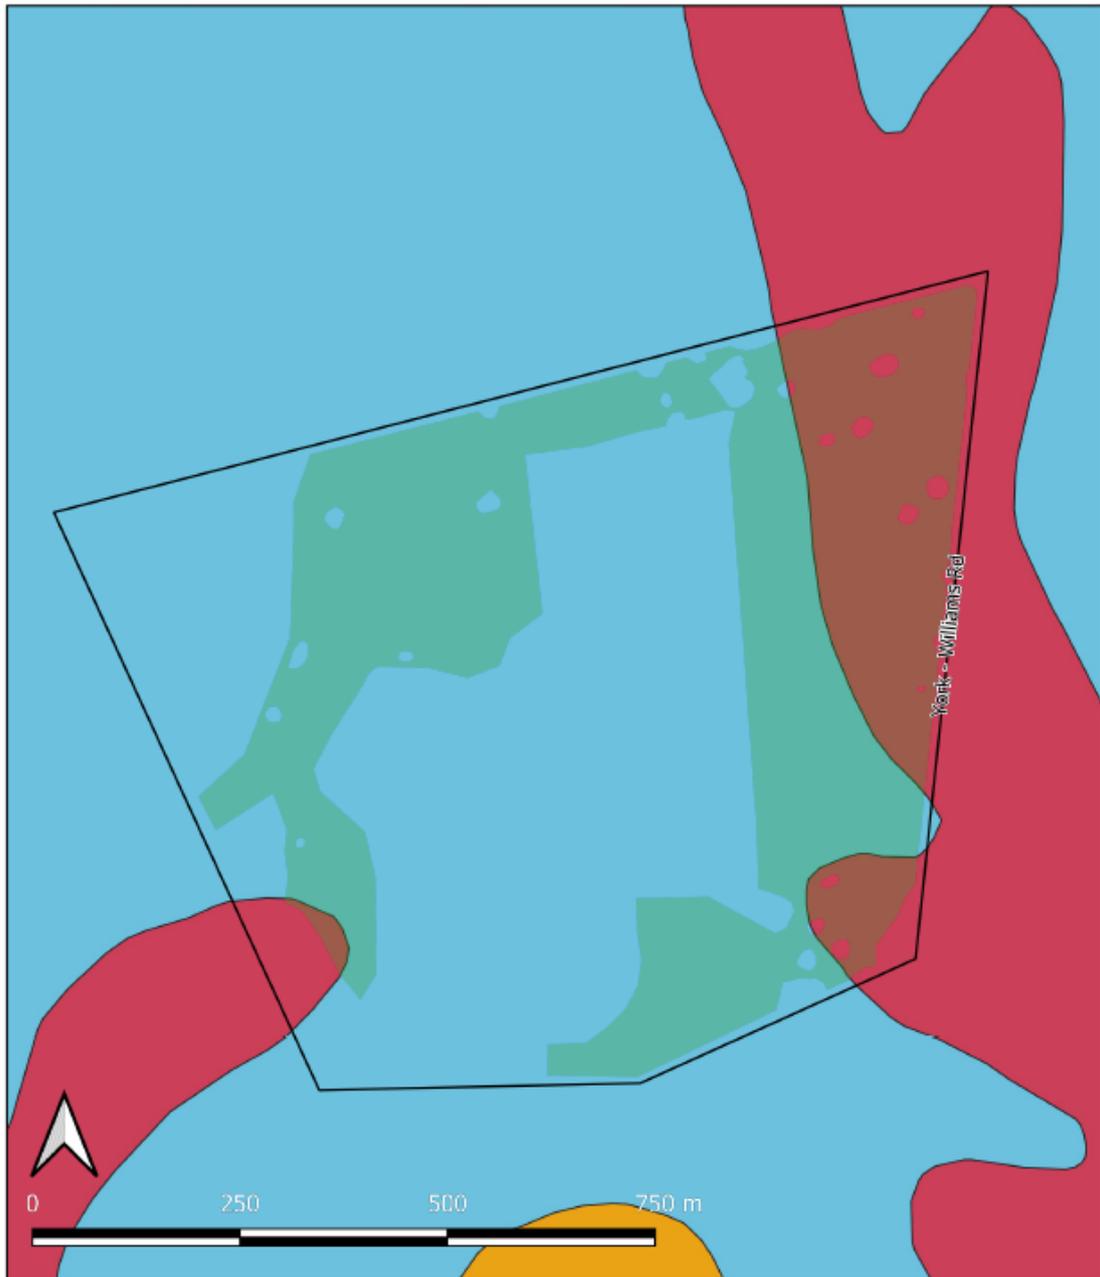

Topography: Gently sloping with a general north-east facing aspect

Soil description: Shallow sands to gravelly sands over clay

The Department of Primary Industries and Regional Development (DPIRD) has mapped land capability for 5 broad land uses for the south-western agricultural area of Western Australia. The land capability assessment method identifies possible physical, chemical and degradation constraints to land use on particular soils and landscapes.

DPIRD land capability – grazing: The majority of the farm is classified as B1 for grazing (DPRID land capability) indicating the land has a greater than 70 % chance of growing moderate to high quality pasture (Figure 2a).

DPIRD land capability – cropping: The majority of the farm is classified as C2 for cropping (DPRID land capability) indicating the land has more than 70 % low to very low capability for cropping (Figure 2b).

7. Reforestation overview

Integration of trees into the landscape on Yondontcha Too

The small parcels of arable land on Ydontcha Too are not of sufficient scale to cover costs to implement traditional agricultural practices. Arable areas can be leased to neighbours, whilst the less viable areas can be planted to trees. Generation of carbon credits from the planting will recover the costs of the planting and property management.

The aims for the selection of land for revegetation are to:

- Target lower-productivity agricultural soils on the property (see photos 1,2), i.e. without recent cropping history
- Will connect and buffer plantings to existing isolated trees and remnant vegetation
- Screen the property from the York-Williams Rd
- Include sufficient revegetation land to make the project viable.

Photo 1 – Unimproved pasture on lower sloped adjacent to York – Williams Road.

Photo 2 – Adjacent to western boundary, unimproved pasture adjacent to parts of the property previously cropped

Proposed planting area

Note: Firebreaks have been built into the planting areas as a 15 m setback from the property boundary.

8. Management of the reforestation

A reforestation plan for the site will continue to develop in terms of detail after further site assessment. This will include the refinement of the description of target site conditions, which will likely be based on natural occurrence of remnant vegetation on similar soils nearby. This will likely involve Wandoo and Jarrah-Bankisa dominated vegetation types.

There are short and long-term activities required to achieve the reforestation goals. This will preclude detrimental factors (grazing by hooved animals, water erosion, rabbit activity), and include activities such as ongoing management, fire risk suppression. The risk of the threats to the planting are assessed in Table 1.

Establishment

Forest establishment activities will be focussed on re-introducing trees, shrubs, and understorey species to the land, allowing time and natural vectors to add further herbaceous species to the mix.

Basic elements of establishment silviculture on reforestation sites are (i) species selection, (ii) ground cultivation techniques, (iii) water harvesting techniques i.e. V-or W- shaped planting lines are always used to accumulate rainfall, (iv) timing of operations, (iv) weed control, and (v) techniques to deal with site-specific issues, such as exclusion of kangaroos and rabbits.

For mixed species reforestation, direct seeding is often used for the establishment of species which have a life cycle which is geared towards regeneration by seed (seed usually abundant, and germinates reliably). Conversely, many long-lived species do not regenerate by seed easily, or would require larger amounts of seed than is readily available, and these are grown in nurseries and planted as seedlings. This usually includes larger overstorey eucalypt and melaleucas in southern Western Australia. For this reason, both direct seeding and seedling establishment may be used to re-establish a forest at Ydontcha Too.

Layout of revegetation areas

Planting compartments are less than 30 ha in size in line with the Guidelines for Plantation Fire Protection (DFES, 2011). Refer to Map 1 for further detail regarding the areas to be planted and compartment size.

Plantings will involve rows typically at a maximum of 6m spacing. These will be curved to follow the contour to allow rainfall to infiltrate and to minimise water and wind erosion.

Cultural heritage sites

There are no known heritage places on Ydontcha Too. The Avon River, a registered site is approximately 3.5 kms to the south-east at it's closest point. 'Bald Hill' and 'The Barracks' are currently lodged as places and sit more than 5 kms to the north-east (Aboriginal Heritage Places_DPLH_001, Appendix A).

Buffer zones and setbacks

The layout of the plantings aim to avoid having revegetation corridors near farm infrastructure (see Figure 2, Section 11). In any event minimum setbacks will be 50m from non-habitable sheds and 100m from habitable houses as per DFES/FESA guidelines. There are no other significant natural or built features on the property that require a formal buffer.

Access and firebreaks to within and surrounding the proposed planting will be in accordance with the Shire of Beverley Firebreak Notice, the Code of Practice for Timber Plantations in Western Australia (FIFWA, 2014) and the Guidelines

for Plantation Fire Protection (DFES, 2011). Location of tracks and firebreaks are in the Fire Management Map and Plan for Ydontcha Too (Section 11).

Ground preparation plan

Two systems are likely to be used across the site.

- Lines created with a scalper and ripper, which can contain direct seeded species with or without seedlings that have been raised in a nursery. Direct seeding lines are designed to create an even and controlled seed bed for accurate seed placement, with a water-harvesting 'V' profile.
- Seedling-only lines which are scalped, deep ripped and formed to create water-accumulating shapes ahead of the winter rains using Chatfield tree planter.

Erosion considerations

Site preparation takes into account the likelihood of erosion from wind or water. Contour site workings can be used to minimise water erosion, and the presence of continuously curving lines prevent very large areas being exposed in the event of a damaging wind. Presence of weed material on unplanted inter-rows is seen as beneficial in holding topsoils in the event of damaging winds.

Management of competitive plant species during establishment phase

Native perennial species, i.e. the plants being established as part of the establishment phase, are usually slower growing in the first year than winter-active annual pasture species, and can be choked out and killed in the first spring by moisture competition from more these aggressive annual species.

During establishment operations, light topsoil scalping will remove competitive annual species from near the establishing woodland species in the first year. Herbicide at label rates may be used prior to planting as a broadacre application to knock down competitive weed species in the inter-rows.

After establishment, a light ground cover of mixed pasture species ("weeds") between planting rows can be beneficial in providing a micro-climate for establishing trees over the summer months, including protection from wind events. The subsequent build up of dead weed material promotes soil biological processes and water infiltration following any rain.

Existing recent regrowth

The presence of existing native regrowth in some areas of the revegetation sites can be detrimental to establishing seedlings, since the perennial plants are very effective at depleting soil moisture levels in the soil which would otherwise be relied on by the newly established seedlings for survival during the first summer.

The intention is not to clear existing young regrowth vegetation but work around it. Areas with heavy regrowth may receive supplementary infilling with additional species.

Remnant vegetation

Remnant vegetation on the property consists of large isolated Wandoo and Jarrah trees that will not be disturbed or cleared. Planting rows do not generally go under the canopy of these trees in order to avoid root damage. New plantings of similar species will adjacent to the trees should enhance the longevity of the existing remnant vegetation. Larger stands of remnant vegetation will have the minimum 6m bare earth firebreak as specified in the DFES Guidelines for Plantation Fire Protection (DFES, 2011).

Planting of seedlings

Seedlings will be planted at a density of approximately 500-800 per hectare in winter 2025.

Seedling quality is one of the critical factors affecting the likelihood of success. Seedlings will be sourced from experienced nurseries with a proven track record operating in regional WA. The current species list for the planting can be viewed in Appendix C.

Nutrition

Soil testing may be used to gain knowledge on site mineral levels and salinity levels. Small amounts of conventional fertilizer, slow release fertilizer, or carbon-rich compost material may be added during the ground preparation phase as a result of this testing.

Insect management

Monitoring in the months following the establishment is critical to identify issues that can be altered by management practices.

In the unlikely event that monitoring and assessment indicates that foliar application of pesticides are required, these will be through ground based application by authorised providers at label rates.

Disease

Diseases in new plantings trees will be monitored at routine inspections, and if control measures are required they will be in line with industry practices.

Survival assessment and replanting

As well as ongoing monitoring, plantings will be surveyed for survival approximately 8 months following planting. This will identify any infill and replanting that will be required the following winter.

Monitoring and compliance of the planting is a requirement for the ACCU Scheme offset reports. Submission of offset reports are required at a maximum every five years to receive carbon credits.

Table 1. YdontchaTwo Project – Risk assessment, potential threats to plantation, community and surrounds

Plantation years 4 - 6		Moderate	Moderate	Local	Moderate	Unlikely/ possible	Low/medium
Plantation years 6+		High – Very High	Low	Local	Moderate	Unlikely/ possible	Low/medium

9. Longevity of planted woodlands

The woodland and shrublands being re-created are intended to remain into the future without harvest.

Restoration inherently involves the use of natural processes over time to allow the planted woodlands to grow and develop and match the site.

Natural agents such as the incursion of seeds and spores in wind and through animal movement will slowly contribute to the biodiversity of the site. Animals and fungi will return naturally.

Natural thinning, where the most well-suited species eventually dominate in the variety of micro-sites within the restoration area, is an inevitable process. It is expected that some trees will die out over time, while others most suited to the particular planting site will survive and dominate.

There may be an ability to incorporate species that are useful for traditional indigenous harvest, such as fruits, nuts and wood products.

10. Ongoing management

A critical component of restoring natural woodlands is setting up systems to enable natural processes to continue through time, such as new seedling recruitment, and protection from damaging processes.

This involves aspects such as ongoing monitoring, ensuring that cloven-hooved animals (goats and sheep) are able to be effectively excluded, cool burning can be considered, rabbits, foxes and feral cats can be controlled, and fire risk management can be carried out as required.

Monitoring

Regular monitoring of the property and the plantings will be carried out, with emphasis on frequent checks through the early establishment phase, and in the lead up to and during the fire season. This includes general property inspections as well as forest health surveys.

Grazing

Grazing (agistment) has been used in the past for controlling fire risk in plantations, but long-term observations and experience in the rangelands of the Murchison, have increasingly shown the negative influence of grazing of sheep on long-term woodland health.

Excessive livestock grazing can cause episodic and severe wind erosion. On heavier soils, grazing can cause the soil to be packed by hard-hooved sheep, causing run off rather than infiltration after rain. New germinating native species are often eaten before they can establish. Changes occur gradually so can't be noticed, but long-term exclusion observations show dramatic differences in biodiversity values and restoration success between long-ungrazed and grazed woodlands.

To balance these issues with fire risk management, short intensity and highly controlled grazing may be used as a tool for reducing high fuel loads.

Fencing will be maintained at a level which is adequate for the management of stock and protection on the plantings on the property. Horses are currently and will continue to graze in the paddocks adjacent to the planted area to maintain grassy fuels loads.

Patchwork burning

While difficult to operationalise, the long-established practice of patch-work low-intensity burning can be beneficial to the goals of the woodland restoration once established seedlings have grown to a size to withstand the impact of low intensity fire. This practice reduces build-up of fuel loads to dangerous levels and stimulates germination of some species. Small patchwork burning giving a mosaic effect across the site enhances the diversity of habitats and ecosystems within the restoration area. Cool season burning will likely feature as an aspiration in the restoration plan.

Feral animal control

Feral animal control (foxes, rabbits) will be carried out as required by law.

Fire management

Fire management is addressed separately below.

11. Fire management plan

Aim

The aim of the fire management plan is to create a documented reference point for plantation fire management at Ydontacha Too. This plan refers to the tree plantation areas and associated firebreaks.

This section should be used primarily by the Landowner and project manager, Garry Spouge or the nominated personnel to manage fire risks on the properties.

The plan should be reviewed and updated periodically as contact details may change, and goals of land use and approaches to fire management may be updated from time to time.

Reference documents are the Shire of Beverley Firebreak Order 2024/25, Guidelines for Plantation Fire Protection (2011) and the Code of Practice for Timber Plantations in Western Australia (2014).

Contact details

Owners and primary contact

Garry Spouge: 0418 901 401

Local Government Authority

Shire of Beverley

Fire Brigade contact details 2024

Brigade: Dale – Kokeby 5

Officer: Jack Barrett Lennard

Ph: 0412 310 340

Significant infrastructure

On the property

Shed – access from southern boundary, 20,000 L water tank, two dams. There are no powerlines on the property.

Shed will be 100 m or more from the plantation area.

Surrounding the property

Southern Boundary - house 300 m from the closest part of the planting.

Northern Boundary - house 500 m from the closest part of the planting.

Western Boundary – house 400 m from the closest part of the planting.

There are no known significant developments planned adjacent to Ydontcha Too.

Fire appliances and availability

800 L fire-fighting unit on trailer – on standby at shed

Water points

On site

-Two dams currently on site – available water most of the summer but may dry out

- One dam proposed to be built, location still to be finalised.

-Fire water will be maintained on site permanently. Available water tank includes 1 x 20,000 L -Adjacent to the shed.

Off site

-An overhead standpipe is situated in the town of Beverley on Brooking St, approximately 24 kms by road from Ydontcha Too. This will be ground-truthed (Watercorp spatial database; Water Standpipe_WCORP_071).

Fire maps

The fire map compliant with the FESA Guidelines for Plantation Fire Protection will be updated to reflect changes in the planted area once establishment is complete and prior to the first summer following establishment. Maps will be placed in a brightly painted cylinder ('map tube') at the main access into the plantation.

Vehicle access and firebreak construction

Plantation access design has been carried out with reference to the FESA Guidelines for Plantation Forest Protection.

The following approach is planned:

* Proposed tracks will make use of existing tracks where these are usefully positioned, or establish new tracks to minimise potential for long term erosion issues on the site where possible. Currently proposed internal tracks are shown on the map in Map 1.

* Additional access is in the form of boundary firebreaks and access around the perimeters of the planting areas.

* Setbacks from the property boundary will be 15m.

* Firebreaks on property external boundary of 10m width to be maintained as bare earth, as per FESA Guidelines for Plantation Fire Protection (2011).

* Some tracks will also serve as the network of internal firebreaks of 6 m width, which will be maintained throughout the planted area.

Firebreak maintenance

Firebreak maintenance requirements will be periodically assessed through the fire season, with the aim of maintaining them to specifications of the relevant Fire Break Notice during the required fire season period (Appendix B).

Firebreaks will be maintained primarily through the use of herbicides at label rates, or via mechanical cultivation.

Power transmission lines

There are no power transmission lines on the property.

Potential ignition sources and measures to reduce hazards

Potential ignition sources are

- Lightning
- Vehicles/machinery on the properties
- Powerline faults on neighbouring properties
- Fires from activities on the properties such as welding/angle grinding
- Neighbouring fires such as hop-overs from stubble burns

Measures to reduce fire hazards include

- Restricting access to unwanted traffic
 - Implementing a policy of closing boundary gates to deter passers-by entering the property
- Possible use of periodic grazing so that livestock trample and eat grassy weeds
- Maintaining bare areas around the buildings through use of herbicide in winter
- Checklist for annual works program regarding the plantation and fire protection (Appendix B)

Fire detection, reporting and initial response

Fire detection traditionally relies on all people in the area being vigilant for smoke.

At the first sign of smoke, the local bush fire brigade should be immediately contacted. The number is available to be called (contact details above).

An alternative is to contact 000.

Initial response and attack of fires will be through the local bush fire brigade network due to the fact that speed of response is a significant factor in suppression of fires. The fire units on standby and the personal resources of Garry Spouge will be useful in the event of larger fire, or for mop up and fire ground monitoring. Signs indicating the location of water for fire-fighting will be located at relevant intersections of the property.

Garry Spouge recently made contact with the local brigade, will be part of the Brigade group chat and will do the Rural Fire Awareness course before becoming more active within the brigade. The local brigade officer is aware of the intent of the property during the coming years.

What do you want to do?

Appendix B. Checklist of annual activities to reduce bushfire risk from plantation

- Check and maintain external firebreaks, 15 m with 10m bare earth. Make sure trafficable. Take photos of firebreaks for record-keeping
- Check and maintain internal firebreaks, 6 m. Make sure trafficable. Take photos of firebreaks for record-keeping
- Ensure dedicated tracks are trafficable
- Check fire units and pumps, ready for standby
- Check turnarounds at dam and access to water for fire-fighting is safe
- Meet with local brigade prior to start of restricted burning season. Discuss access to property if not on site during a fire event.
- Check fuel levels in plantation and remnant vegetation. Record method and results from checks.
- Check map tube has current map in good condition. Review and update maps, replace in Shire, local brigade, and map tube

APPENDIX C. Proposed species list for the Ydontcha Two Project.

Genus	Species
<i>Acacia</i>	<i>acuminata</i>
<i>Acacia</i>	<i>saligna</i>
<i>Acacia</i>	<i>lasiocarpa</i>

11. FINANCE

11.1 Monthly Financial Report

Submission To:	Ordinary Council Meeting 27 November 2024
Report Date:	19 November 2024
Applicant:	N/A
File Reference:	N/A
Author and Position:	Simon Marshall, Deputy Chief Executive Officer
Previously Before Council:	N/A
Disclosure(s) Of Interest:	Nil
Attachments:	October 2024 Financial Reports

SUMMARY

Council to consider accepting the financial report for the period ending 31 October 2024.

BACKGROUND

There is a statutory requirement that the Local Government is to prepare, each month, a statement of financial activity reporting on sources and applications of its funds and to present the statement to Council.

Council adopted a budget variance reporting parameter of 10% on budgeted items of \$10,000 or greater at the July 2024 Ordinary Meeting, item 11.4.

COMMENT

The monthly financial reports for the period ending 31 October 2024 have been provided and include:

- Financial Activity Statement by Nature;
- Statement of Net Current Assets;
- Statement of Financial Position; and
- Investment of Surplus Funds Report.

STATUTORY ENVIRONMENT

Section 6.4(1) of the *Local Government Act* provides that a local government is to prepare an annual financial report for the preceding financial year and such other financial reports as are prescribed.

Regulation 34 of the *Local Government (Financial Management) Regulations* requires a Statement of Financial Activity to be prepared each month which is to contain the following details:

- (a) annual budget estimates;
- (b) budget estimates to the end of the month;
- (c) actual amount of expenditure and revenue;
- (d) material variances between comparable amounts in (b) and (c) above; and
- (e) the net current assets at the end of the month to which the statement relates (i.e. surplus / (deficit) position).

The Statement is to be accompanied by:

- (a) explanation of the composition of net current assets, less committed assets and restricted assets;

- (b) explanation of the material variances; and
- (c) such other information considered relevant by the local government.

FINANCIAL IMPLICATIONS

All revenue and expenditure, unless disclosed in the notes to material variances, are as per the 2024/25 Budget.

STRATEGIC IMPLICATIONS

- Strategic Pillar: 1. Economy
 2. Community
 3. Environment
 4. Civic Leadership
- Strategic Priorities: 1.1 Safe, efficient and connected transport network
 2.3 Active and Healthy Community
 3.3 Natural resources are sustainably managed
 4.1 Community and customer focus
 4.2 Continuous organisational improvement
 4.3 Responsible planning

POLICY IMPLICATIONS

AF004 – Investing Surplus Funds

RISK IMPLICATIONS

It is a requirement of the *Local Government (Financial Management) Regulations 1996* that a Statement of Financial Activity is prepared within two months of the end of the reporting period. This report mitigates the risk of non-compliance.

Consequence	Insignificant	Minor	Moderate	Major	Catastrophic
Likelihood					
Almost Certain	Medium	High	High	Severe	Severe
Likely	Low	Medium	High	High	Severe
Possible	Low	Medium	Medium	High	High
Unlikely	Low	Low	Medium	Medium	High
Rare	Low	Low	Low	Low	Medium

Risk Rating	Action
Low	Monitor for ongoing improvement.
Medium	Comply with risk reduction measures to keep risk as low as reasonably practical.
High	Review the risk and take additional measures to ensure risk is low as reasonably achievable.
Severe	Unacceptable risk level, reduction measures must be introduced before proceeding.

VOTING REQUIREMENTS

Simple Majority

OFFICER'S RECOMMENDATION & COUNCIL RESOLUTION

M6/1124

Moved Cr Martin

Seconded Cr Davis

That the monthly financial report for the month of October 2024 be accepted and material variances be noted.

CARRIED 6/0

SUMMARY

Council to consider authorising the payment of accounts.

BACKGROUND

The following list represents accounts paid by authority for the month of October 2024.

COMMENT

Unless otherwise identified, all payments have been made in accordance with Council's 2024/25 Budget.

STATUTORY ENVIRONMENT

Regulation 12 of the *Local Government (Financial Management) Regulations* provides that:

- (1) A payment may only be made from the municipal fund or the trust fund —
 - (a) if the local government has delegated to the CEO the exercise of its power to make payments from those funds — by the CEO; or
 - (b) otherwise, if the payment is authorised in advance by a resolution of the council.
- (2) The council must not authorise a payment from those funds until a list prepared under regulation 13(2) containing details of the accounts to be paid has been presented to the council.

Regulation 13 of the *Local Government (Financial Management) Regulations* provides that:

- (1) If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared —
 - (a) the payee's name;
 - (b) the amount of the payment;
 - (c) the date of the payment; and
 - (d) sufficient information to identify the transaction.
- (2) A list of accounts for approval to be paid is to be prepared each month showing —
 - (a) for each account which requires council authorisation in that month —
 - (i) the payee's name;
 - (ii) the amount of the payment; and
 - (iii) sufficient information to identify the transaction;

and

- (b) the date of the meeting of the Council to which the list is to be presented.
- (3) A list prepared under sub regulation (1) or (2) is to be —
 - (a) presented to the Council at the next ordinary meeting of the council after the list is prepared; and
 - (b) recorded in the minutes of that meeting.

FINANCIAL IMPLICATIONS

Unless otherwise identified, all payments have been made in accordance with Council’s 2024/25 Budget.

STRATEGIC IMPLICATIONS

Nil

POLICY IMPLICATIONS

Authority to Purchase – All acquisitions should be in accordance with budget provisions or to a maximum specified cost.

RISK IMPLICATIONS

Failure to present a detailed listing in the prescribed form would result in non-compliance *Local Government (Financial Management) Regulations 1996*, this report mitigates the risk of non-compliance.

Consequence	Insignificant	Minor	Moderate	Major	Catastrophic
Likelihood					
Almost Certain	Medium	High	High	Severe	Severe
Likely	Low	Medium	High	High	Severe
Possible	Low	Medium	Medium	High	High
Unlikely	Low	Low	Medium	Medium	High
Rare	Low	Low	Low	Low	Medium

Risk Rating	Action
Low	Monitor for ongoing improvement.
Medium	Comply with risk reduction measures to keep risk as low as reasonably practical.
High	Review the risk and take additional measures to ensure risk is low as reasonably achievable.
Severe	Unacceptable risk level, reduction measures must be introduced before proceeding.

12. ADMINISTRATION

12.1 Proposed Disposal of Lot 230 Vincent Street, Beverley

Submission To:	Ordinary Council Meeting 27 November 2024
Report Date:	21 November 2024
Applicant:	Maya & Fabian Houbrechts
File Reference:	VIN 1137
Author and Position:	Simon Marshall, Deputy Chief Executive Officer
Previously Before Council:	Information Briefing September 2024, OCM 30 October 2024.
Disclosure(s) Of Interest:	Nil
Attachments:	Nil

SUMMARY

Council to consider the disposal of Council owned land at Lot 230 on Deposited Plan 33113, Vincent Street, Beverley to Maya and Fabian Houbrechts for \$10,000.00.

BACKGROUND

The applicants are the owner of 71 Vincent Street (Lot 9) and would like to purchase the lot adjacent to their property on the East side (Lot 230). Mr and Mrs Houbrechts have made a written offer of \$10,000.00.

Lot 230 Vincent Street was acquired by the Council in June 2019 due to non-payment of rates.

The property has no building or strategic value to the Shire and therefore management are recommending approval to give public notice of the disposal. A market appraisal has been sought from Elders Real Estate (attached under separate cover).

Costs associated with any potential sale are estimated to be \$1,500.00 in settlement fees associated with the transaction.

At the 30 October 2024 Ordinary Council Meeting it was resolved:

That Council;

1. gives local public notice, by way of the November 2024 edition of the Beverley Blarney, of the proposed disposal of Lot 230 Vincent Street to Maya and Fabian Houbrechts as per the requirements of section 3.58 of the *Local Government Act 1995* for the amount of \$10,000.00 with the sum to be net of any estimated fees payable; and
2. invites submissions regarding the proposed disposal for 14 days following the publication of the advertisement; and
3. will consider any submissions and consider approving the sale of Lot 230 Vincent Street at the November 2024 Ordinary Council Meeting.

Council gave public notice of the disposal, and now must consider all submissions prior to agreeing to dispose of the property.

COMMENT

Public notice was given in the November issue of the Beverley Blarney (available in hardcopy and online) and was advertised as a public notice at the Shire Office.

At the close of business, 4pm Friday 15 November 2024, no submissions were received.

Council may now consider there was no comment of any kind in relation to the disposal.

STATUTORY ENVIRONMENT

Part 3, Division 3, Section 3.58 of the *Local Government Act 1995*:

3.58. Disposing of property

- (1) In this section —
dispose includes to sell, lease, or otherwise dispose of, whether absolutely or not;
property includes the whole or any part of the interest of a local government in property, but does not include money.
- (2) Except as stated in this section, a local government can only dispose of property to —
 - (a) the highest bidder at public auction; or
 - (b) the person who at public tender called by the local government makes what is, in the opinion of the local government, the most acceptable tender, whether or not it is the highest tender.
- (3) A local government can dispose of property other than under subsection (2) if, before agreeing to dispose of the property —
 - (a) it gives local public notice of the proposed disposition —
 - (i) describing the property concerned; and
 - (ii) giving details of the proposed disposition; and
 - (iii) inviting submissions to be made to the local government before a date to be specified in the notice, being a date not less than 2 weeks after the notice is first given;and
 - (b) it considers any submissions made to it before the date specified in the notice and, if its decision is made by the council or a committee, the decision and the reasons for it are recorded in the minutes of the meeting at which the decision was made.
- (4) The details of a proposed disposition that are required by subsection (3)(a)(ii) include —
 - (a) the names of all other parties concerned; and
 - (b) the consideration to be received by the local government for the disposition; and
 - (c) the market value of the disposition —

- (i) as ascertained by a valuation carried out not more than 6 months before the proposed disposition; or
 - (ii) as declared by a resolution of the local government on the basis of a valuation carried out more than 6 months before the proposed disposition that the local government believes to be a true indication of the value at the time of the proposed disposition.
- (5) This section does not apply to —
- (a) a disposition of an interest in land under the *Land Administration Act 1997* section 189 or 190; or
 - (b) a disposition of property in the course of carrying on a trading undertaking as defined in section 3.59; or
 - (c) anything that the local government provides to a particular person, for a fee or otherwise, in the performance of a function that it has under any written law; or
 - (d) any other disposition that is excluded by regulations from the application of this section.

CONSULTATION

Council, Shire of Beverley Housing Strategy, Public Notice and any Submissions potentially received.

FINANCIAL IMPLICATIONS

\$10,000.00 Unbudgeted income, less settlement fees.

STRATEGIC IMPLICATIONS

Strategic Pillar: 4. Civic Leadership
Strategic Priorities: 4.1 Community and customer focus
4.3 Responsible planning

POLICY IMPLICATIONS

Shire of Beverley Housing Policy

RISK IMPLICATIONS

Medium (9) – Procedural and reputational. It is considered that the public notification of disposal of property procedures are adequate to mitigate any risk.

Consequence	Insignificant	Minor	Moderate	Major	Catastrophic
Likelihood					
Almost Certain	Medium (5)	High (10)	High (15)	Severe (20)	Severe (25)
Likely	Low (4)	Medium (8)	High (12)	High (16)	Severe (20)
Possible	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
Unlikely	Low (2)	Low (4)	Medium (6)	Medium (8)	High (10)
Rare	Low (1)	Low (2)	Low (3)	Low (4)	Medium (5)

Risk Rating	Action
Low	Monitor for ongoing improvement.
Medium	Comply with risk reduction measures to keep risk as low as reasonably practical.
High	Review the risk and take additional measures to ensure risk is low as reasonably achievable.
Severe	Unacceptable risk level, reduction measures must be introduced before proceeding.

VOTING REQUIREMENTS

14.2 Late Item - Road Dedication: York – Williams Road for Replacement of Bridge 3197

Submission To:	Ordinary Council Meeting 27 November 2024
Report Date:	25 November 2024
Applicant:	Main Roads WA
File Reference:	ADM 0010
Author and Position:	Stefan de Beer, Manager of Planning
Previously Before Council:	No
Disclosure(s) Of Interest:	Nil
Attachments:	Application Letter & Land Maps

SUMMARY

A request has been received from Main Roads WA seeking a Council resolution to dedicate land as a Road Reserve. It will be recommended the request be granted.

BACKGROUND

The subject sites are located on Lot 63 (two sections) & Lot 501, respectively on Certificates of Title 2140/443 & 2210/776 and zoned 'Rural' in terms of the Shire of Beverley Local Planning Scheme No. 3 (LPS 3).

As per the attached letter, Main Roads approached the landowners and other affected parties and arrangements for land acquisitions are proceeding. To enable the land to be dedicated as road, it is a requirement of the *Land Administration Act 1997* that local governments resolve to dedicate the required land as road reserve.

The road dedication is required to complete bridge 3197 replacement works.

COMMENT

The proposal is consistent with the aims of LPS 3 and is recommended to be approved.

CONSULTATION

Council.

Main Roads has commenced discussion with the affected landowners for land acquisition and other parties.

STATUTORY ENVIRONMENT

Land Administration Act 1997.

FINANCIAL IMPLICATIONS

There are no financial implications relative to the Shire regarding this application. Main Roads is responsible for any associated costs that may arise.

STRATEGIC IMPLICATIONS

Strategic Pillar: 1. Economy

4. Civic Leadership

Strategic Priorities: 1.1 Safe, efficient and connected transport network

4.3 Responsible planning

POLICY IMPLICATIONS

There are no policy implications relative to this application.

RISK IMPLICATIONS

Not proceeding with the road reserve dedication will delay the required improvements to the bridge which may lead to safety issues with the current bridge.

Consequence	Insignificant	Minor	Moderate	Major	Catastrophic
Almost Certain	Medium (5)	High (10)	High (15)	Severe (20)	Severe (25)
Likely	Low (4)	Medium (8)	High (12)	High (16)	Severe (20)
Possible	Low (3)	Medium (6)	Medium (9)	High (12)	High (15)
Unlikely	Low (2)	Low (4)	Medium (6)	Medium (8)	High (10)
Rare	Low (1)	Low (2)	Low (3)	Low (4)	Medium (5)

Risk Rating	Action
Low	Monitor for ongoing improvement.
Medium	Comply with risk reduction measures to keep risk as low as reasonably practical.
High	Review the risk and take additional measures to ensure risk is low as reasonably achievable.
Severe	Unacceptable risk level, reduction measures must be introduced before proceeding.

VOTING REQUIREMENT

Simple Majority

OFFICER'S RECOMMENDATION & COUNCIL RESOLUTION

M10/1124

Moved Cr Ridgway

Seconded Cr Maxwell

That Council resolve to dedicate the land the subject of Main Roads Land Dealing Plans 2460-081, 2460-082 and 2460-083 as a road pursuant to section 56 of the *Land Administration Act 1997*.

CARRIED 6/0

Our Ref: 14/4006

22 November 2024

Mr Stephen Gollan
Chief Executive Officer
Shire of Beverley
136 Vincent Street
BEVERLEY WA 6304

Dear Sir

REPLACEMENT OF BRIDGE 3197 – TALBOT BROOK YORK WILLIAMS ROAD IN THE SHIRE OF BEVERLEY

Attached for consideration by the Council are Land Dealing Plans 2460-081, 2460-082 & 2460-083 depicting land required for bridge replacement works at Bridge 3197. For the project to proceed, the land required for road purposes on the enclosed copies of these plans is sought for inclusion into the road reserve.

Main Roads approached the landowners and other affected parties and arrangements for land acquisitions are proceeding. To enable the land to be dedicated as road, it is a requirement of the *Land Administration Act 1997* that local governments resolve to dedicate the required land as road reserve.

It would be appreciated if Council could consider the matter at its next meeting and provide the following statement in a letter to Main Roads marked to my attention. This meets the requirements of the Department of Planning Lands & Heritage (DPLH) who will manage the dedication of the land.

“Council at its ordinary meeting held on (Day Month Year) passed a resolution for the dedication of the land the subject of Main Roads Land Dealing Plans 2460-081, 2460-082 & 2460-083 as a road pursuant to section 56 of the Land Administration Act 1997.”

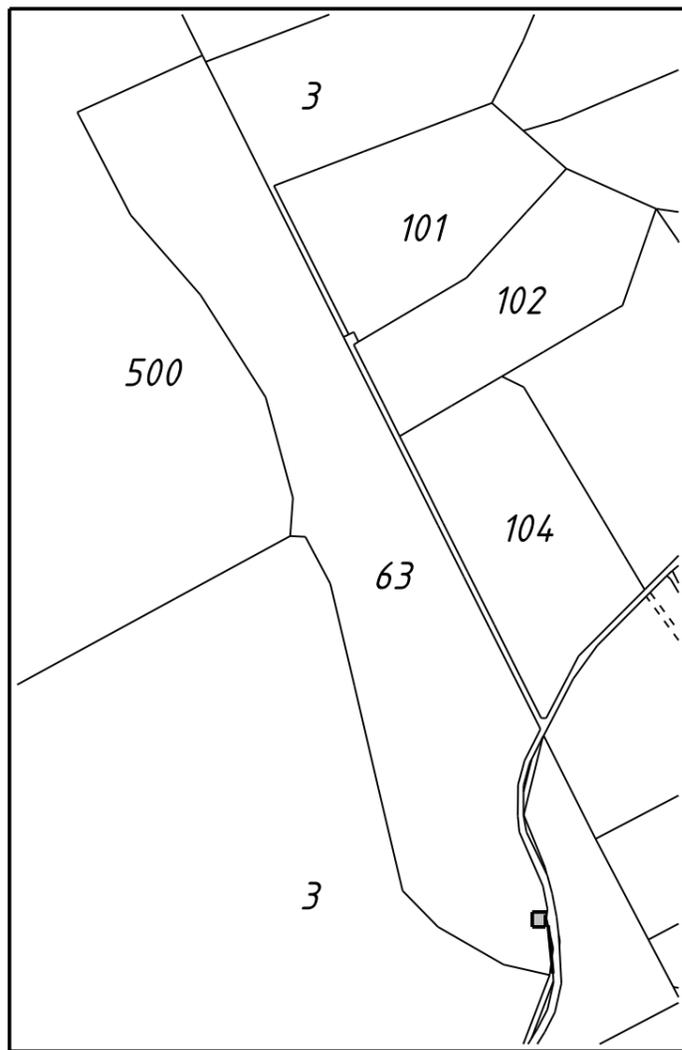

In addition, can the Shire please include a copy of the minutes of the Council meeting relating to this resolution for DPLH records. Main Roads will be responsible for costs and claims that may arise from the dedication action.

If you require further information, please contact me on 0407 445 339.

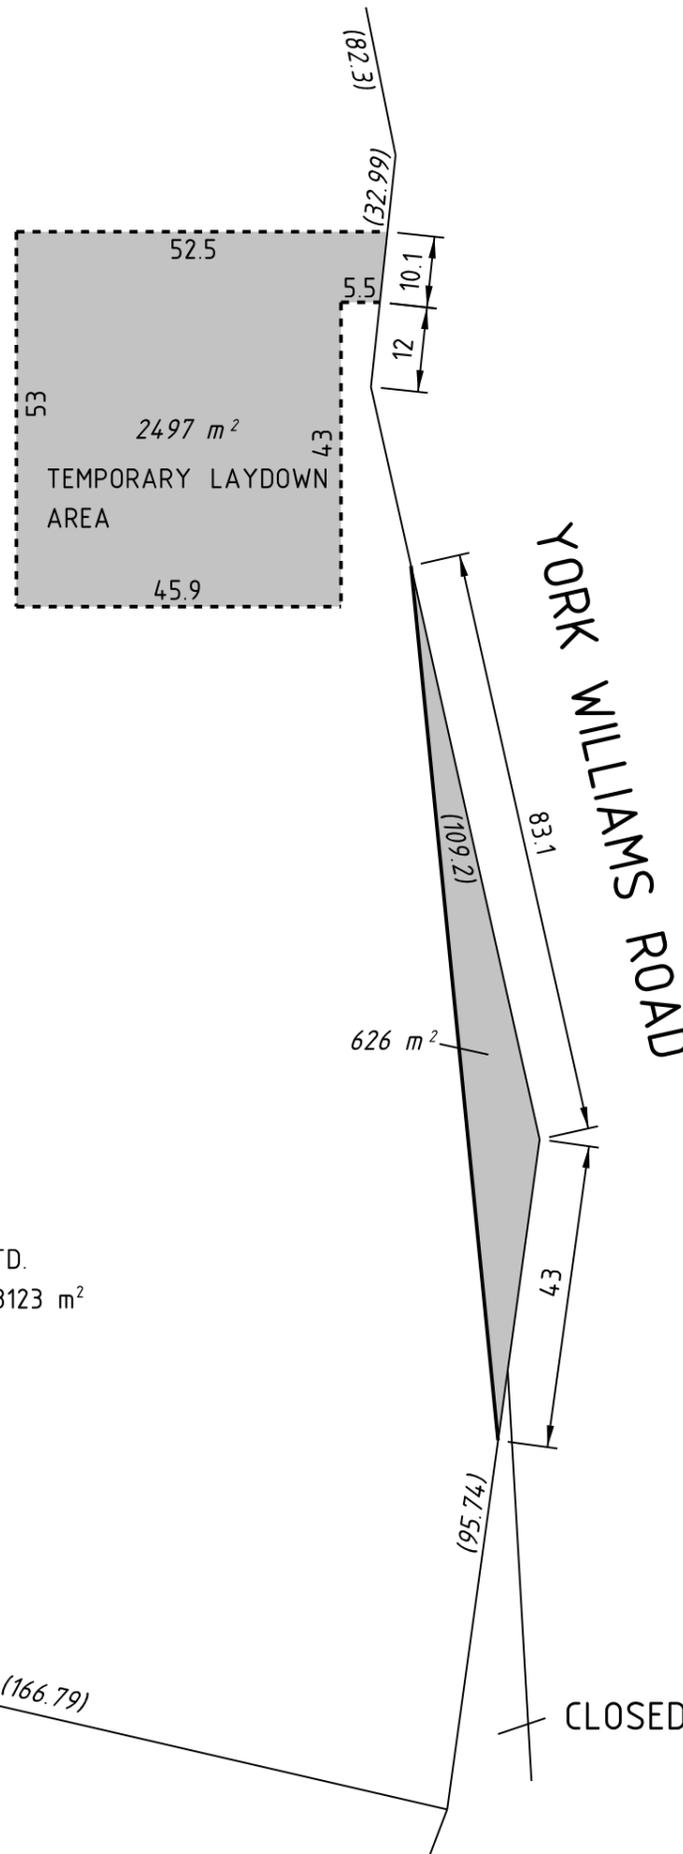

Yours faithfully

F Mattaboni
