#### **President's Introduction**

I have pleasure in presenting the Shire of Beverley 2014/15 Annual Budget to our resident and ratepayer community.

Overall the increase in rates for this financial year will be 6.0 percent. This level will enable existing service levels to be maintained and a number of new initiatives to be funded whilst continuing to allocate additional funds to renew the Shire's infrastructure.

The rate increase has been kept in line with the rating strategy.

The proposed budget includes a number of substantial initiatives, including:

- \* Town Hall Roof Replacement;
- \* Recreation Ground Lighting, Scoreboard & Picnic Area Upgrades;
- \* Road Infrastructure;
- \* Old School Building Stabilisation.

The capital works program for the 2014/15 year is expected to be \$3.806 million. Of the \$3.806 million capital funding required, \$2.314 million will come from Council operations and sale of assets, \$1.012 million from external grants and the balance of \$0.48 million from reserves. The capital expenditure program has been set and prioritised based on needs and sound business cases for each project.

Highlights of the Capital Works program include:

*	Infrastructure - Roads	\$ 1,705,451
*	Plant and equipment	\$ 1,160,470
*	Recreation Ground Lighting, Scoreboard, Picnic Area	\$ 290,640
*	Old School Building Stabilisation	\$ 170,000
*	Town Hall Roof Replacement	\$ 150,000
*	Furniture and Equipment	\$ 78,000

The Annual Budget compiled by the Shire is progressive and financially responsible.

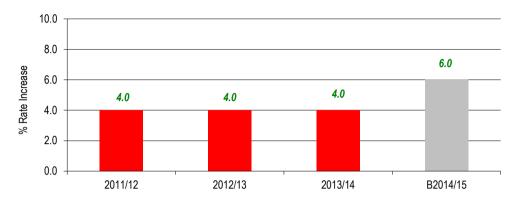

Residents and other interested members of the community are welcome to view the adopted Annual Budget at the Shire's Administration Centre or on our website; www.beverley.wa.gov.au.

Cr Dee Ridgway Shire President

### **Chief Executive Officer's Summary**

The Annual Budget for the 2014/15 financial year seeks to balance the demand for services and infrastructure with the community's capacity to pay. The key budget information provided below is about the rates, operating result, service levels, cash and investments, capital works, financial position and key strategic activities of the Council.

#### 1. Rates

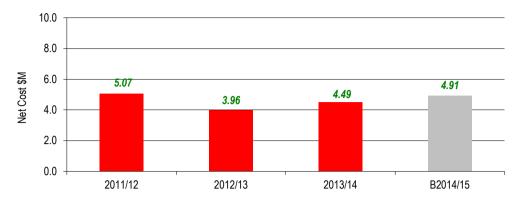

It is proposed that general rates increase by 6.0% for the 2014/15 year, raising total rates of \$2.424 million. The minimum rate is set at \$739.00 pa and will yield \$155,891.

#### 2. Operating result

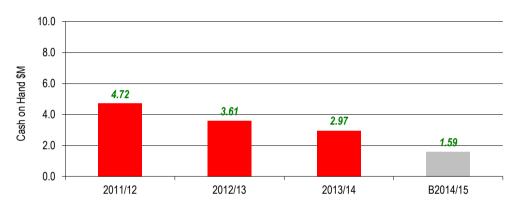

The expected operating result for the 2014/15 year is a surplus of \$0.814 million, which is an increase of \$0.281 million over 2013/2014.

#### 3. Services

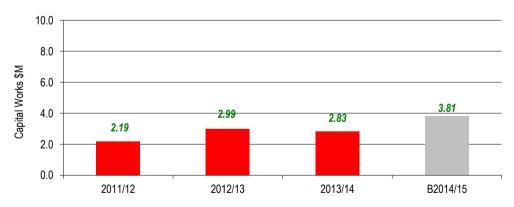

The cost of services to be delivered to the community for the 2014/15 year is expected to be \$4.912 million which is \$0.422 million more when compared to 2013/14.

#### 4. Cash and investments

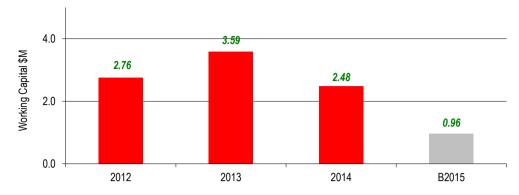

Cash and investments are expected to decrease by \$1.381 million during the year to \$1.585 million as at 30 June 2015.

#### 5. Capital works

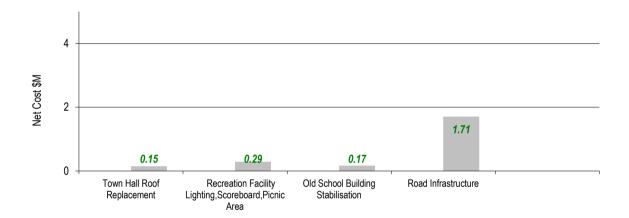

The capital works program for the 2014/15 year is expected to be \$3.806 Million. Of the \$3.806 million capital funding required, \$2.314 million will come from Council operations, \$1.012 million from external grants and the balance of \$0.48 million from reserves. The capital expenditure program has been set and prioritised based on needs and sound business cases for each project.

#### 6. Financial position

The net current assets are expected to decrease by \$1.524 million to \$0.959 million.

#### 7. Major Projects

The Annual Budget includes a range of activities and initiatives to be funded that will contribute to achieving the strategic objectives specified in the Strategic Community Plan. The above graph shows the level of funding allocated in the budget to achieve the strategic objectives as set out in the Plan.

The Annual Budget has been developed so that it is financially responsible. More detailed budget information is available throughout this document.

#### S. Gollan Chief Executive Officer

### **Budget Processes**

This section lists the budget processes to be undertaken in order to adopt the Annual Budget in accordance with the Local Government Act 1995 and its Regulations.

The preparation of the budget begins with Officers preparing the operating and capital components of the annual budget. A draft consolidated budget is then prepared and various iterations are considered by Council at informal briefings. A 'proposed' budget is prepared in accordance with the Act and submitted to Council for approval.

The budget is required to be adopted by 31 August in each year. The key dates for the budget process are summarised below:

udget Process	Timing
Officers prepare operating and capital estimates for inclusion in the	Feb - May 2014
Budget.	
Council considers draft Budget at informal briefings.	June & July 2014
Proposed Budget is submitted to Council for approval.	July 2014
Copy of adopted Budget submitted to the Department.	August 2014
	Officers prepare operating and capital estimates for inclusion in the Budget. Council considers draft Budget at informal briefings. Proposed Budget is submitted to Council for approval. Copy of adopted Budget submitted to the Department.

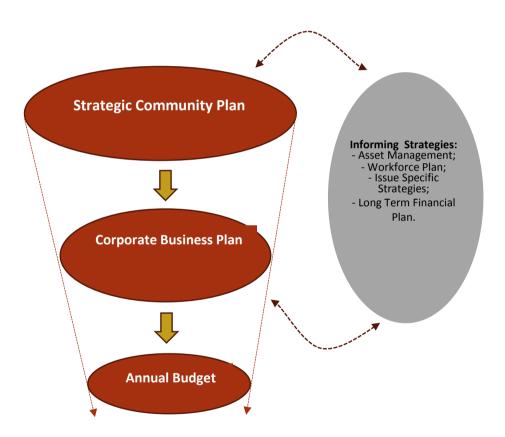

#### 1. Linkage to the Council Plan

This section describes how the Annual Budget links to the achievement of the Council Plan within an overall planning framework. This framework guides the Council in identifying community needs and aspirations over the long term (Strategic Community Plan), medium term (Corporate Business Plan) and short term (Annual Budget) and then holding itself accountable (Audited Statements).

#### 1.1 Integrate Planning Framework

A Strategic Community Plan (SCP) was prepared and adopted by Council in 2012, the SCP outlines the over arching objectives and strategies that guide Council's decision making process. The Corporate Business Plan (CBP) was prepared and adopted by Council in 2013 and summarises the financial and non-financial impacts of the objectives and strategies presented in the SCP and determines the sustainability of these objectives and strategies. The Annual Budget is then framed, taking into account the activities and initiatives included in the plans which contribute to achieving the strategic objectives specified.

The timing of each component of the planning framework is critical to the successful achievement of the planned outcomes. The planning will guide the preparation of the CBP and Annual Budget.

Outputs: Plans, monitoring and annual reporting Measurement and Reporting

#### 1.2 Our purpose

#### **Our Vision**

Our Shire will be:

- \* A place of enhanced community;
- \* A place that values its past and history;
- \* A place that is welcoming and friendly;
- A place that is safe, relaxed and peaceful; and
- \* A place to live, work and visit.

#### **Our Aim**

\* To sustain and build population and to ensure the delivery of sustainable services to our community.

As an innovative and accountable organisation, The Shire of Beverley will promote vibrant democracy and provide high-quality services.

#### **Our Values**

The Shire of Beverley has a clear strength in the bond and affinity between its Councillors, the community and staff. Staff support the community leadership and governance role of Councillors, and work together to achieve the commitments of the Corporate Business Plan. Having all the Shire's Council staff practice the following organisational values enhance the quality of this partnership:

- Service Our citizens, community and service users are the focus of all our actions.
- Accountability We are responsible for our actions, which are open to review.
- Innovation We encourage and seek new ideas in finding solutions.
- **Teamwork** We share our skills, knowledge and experience as part of a team and work together towards achieving Council's goals.
- Recognition We promote the achievements and efforts of others
- Safety We look after our environment and the welfare of others.
- Integrity We are open and honest and work to the best of our ability.
- Respect We acknowledge the opinions of others and their rights and differences.

#### 2. Activities and Initiatives

This section provides a description of the activities to be funded in the Budget for the 2014/15 year and how these will contribute to achieving the strategic objectives specified in the Strategic Community Plan.

#### **Activities**

Activity	Description Revenue (	Expenditure)
		Net Cost \$

#### Initiatives

- \* Town Hall Roof Replacement
- \* Recreation Ground Lighting, Scoreboard, Picnic Area Upgrade
- Road Infrastructure
- \* Old School Building Stabilisation

#### 3. Budget Influences

This section sets out the key budget influences arising from the internal and external environment within which the Council operates.

#### 3.1 Snapshot of Beverley Shire Council

Beverley is a vibrant and diverse rural community with a population of approximately 1,700. Located in the western central Wheatbelt region of Western Australia, Beverley is less than 130km east of Perth. The Shire is home of a highly productive broad acre farming industry with a smaller diversified agricultural base, such as perennial horticulture, also finding a home here.

First permanently settled by Europeans in the second half of the 19th Century, Beverley has a long and proud history. This pride prevails today as one of only a few rural communities in the state that is growing. Located on the banks of the famous Avon River, the town of Beverley is an attractive place to visit and live in. All services and facilities expected of a progressive community are available, including high quality educational and medical establishments.

#### 3.2 External influences

In preparing the 2014/15 Annual Budget, a number of external influences have been taken into consideration, because they are likely to impact significantly on the services delivered by Council in the budget period. These include:

- Consumer Price Index (CPI) increases on goods and services of 3.5% per annum;
- Reduced funding from State and Federal governments; and
- Prevailing economic conditions impacting on investment interest rates and debt collection.

#### 3.3 Internal influences

As well as external influences, there are also a number of internal influences which are expected to have a significant impact on the preparation of the 2014/15 Annual Budget. These matters have arisen from events occurring in the 2013/14 year resulting in variances between the forecast actual and budgeted results for that year and matters expected to arise in the 2014/15 year. These matters and their financial impact are set out below:

- Budget surplus for the 2013/14 financial year ended 30 June 2014; and
- Minimal staff turnover

#### 3.4 Budget principles

In response to these influences, guidelines were prepared and distributed to all Council officers with budget responsibilities. The guidelines set out the key budget principles upon which the officers were to prepare their budgets. The principles included:

- Existing fees and charges to be increased in line with CPI or market levels
- Grants to be based on confirmed funding levels
- New revenue sources to be identified where possible
- Service levels to be maintained at 2013/14 levels
- Salaries and wages to be increased in line with Average Weekly Earnings
- New initiatives which are not cost neutral to be justified through a business case
- Real savings in expenditure and increases in revenue identified in 2013/14 to be preserved
- Operating revenues and expenses arising from completed 2013/14 capital projects to be included.

#### 3.5 Legislative requirements

Under the Local Government Act 1995 ("the Act"), Council is required to prepare and adopt an annual budget for each financial year. The budget is required to include certain information about the rates and charges that Council intends to levy as well as a range of other information required by the Local Government (Financial Management) Regulations 1996 ("the Regulations") which support the Act.

The 2014/15 Annual Budget, which is included in this report, is for the year 1 July 2014 to 30 June 2015 and is prepared in accordance with the Act and Regulations. The budget includes statutory statements being a budget operating, budget statement of financial activity, budget statement of cash flows, budget rate setting statement, budget statement of rating information and notes forming part of the annual budget. These statements have been prepared for the year ended 30 June 2015 in accordance with Accounting Standards and other mandatory professional reporting requirements and in accordance with the Act and Regulations. It also includes detailed information about the rates and charges to be levied, the capital works program to be undertaken and other financial information, which Council requires in order to make an informed decision about the adoption of the budget.

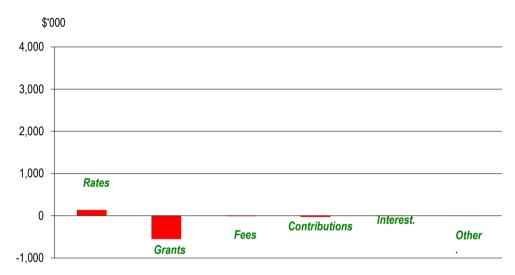

The budget includes consideration of a number of long term strategies to assist Council in considering the Budget in a proper financial management context. These include the Strategic Community Plan, Corporate Business Plan, Long Term Financial Plan, Rating Strategy and Other Long Term Strategies including borrowings, asset management plans and the workforce plan.

### 4. Analysis of Operating Budget

This section analyses the expected revenues and expenses of the Council for the 2014/15 year.

### 4.1 Operating revenue

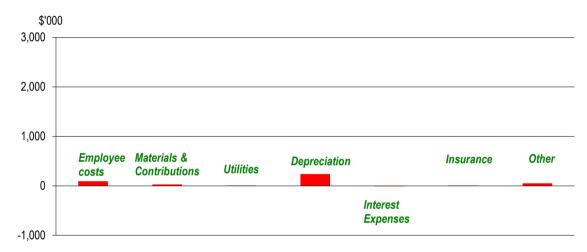

Revenue Types	Budget 2013/14 \$'000	Budget 2014/15 \$'000	Variance \$'000
Rates - General	2,287	2,424	137
Grants and Subsidies	2,998	2,445	(553)
Fees and Charges	464	455	(9)
Contributions and Reimbursements	220	192	(28)
Interest Earned	125	120	(5)
Other Revenue	66	64	(2)
Total operating revenue	6,160	5,700	(460)
Net gain on sale of assets	0	43	43

**REVENUE** 

### 4.2 Operating expenditure

Expenditure Types	Budget 2013/14 \$'000	Budget 2014/15 \$'000	Variance \$'000
Employee Costs	1,689	1,783	94
Materials and Contracts	1,012	1,040	28
Utilities	225	230	5
Depreciation	925	1,163	238
Interest Expenses	66	55	(11)
Insurance	195	201	6
Other Expenses	400	451	51
Total operating expenditure	4,512	4,923	411
Net loss on sale of assets	33	6	(27)

**EXPENDITURE** 

#### 5. Analysis of Budgeted Cash Position

This section analyses the expected cash flows from the operating, investing and financing activities of Council for the 2014/15 year. Budgeting cash flows for Council is a key factor in setting the level of rates and providing a guide to the level of capital expenditure that can be sustained with or without using existing cash reserves.

The analysis is based on three main categories of cash flows:

- Operating activities Refers to the cash generated or used in the normal service delivery functions
  of Council. Cash remaining after paying for the provision of services to the community may be
  available for investment in capital works, or repayment of debt
- Investing activities Refers to cash generated or used in the enhancement or creation of
  infrastructure and other assets. These activities also include the acquisition and sale of other assets
  such as vehicles, property and equipment
- **Financing activities** Refers to cash generated or used in the financing of Council functions and include borrowings from financial institutions and advancing of repayable loans to other organisations. These activities also include repayment of the principal component of loan repayments for the year.

#### 5.1 Budgeted cash flow statement

	Budget	Budget	Variance
	2013/14	2014/15	
	\$'000	\$'000	\$'000
Cash flows from operating activities			
Receipts	. ـ ـ ـ ـ ـ		
Rates - General	2,287	2,424	137
Grants and Subsidies	2,998	2,445	(553)
Fees and Charges	464	456	(8)
Contributions and Reimbursements	371	294	(77)
Interest Earned	125	120	(5)
Other revenue	67	64	(3)
-	6,312	5,803	(509)
Payments			/= <del></del> -
Employee Costs	(1,696)	(1,783)	(87)
Materials and Contracts	(918)	(906)	12
Utilities	(226)	(230)	(4)
Interest Expenses	(66)	(56)	10
Insurance	(195)	(201)	(6)
Other expenses	(400)	(451)	(51)
	(3,501)	(3,627)	(126)
Net cash provided by operating activities	2,811	2,176	(635)
Cash flows from investing activities			
Proceeds from sales of property, plant & equip	247	306	59
Repayment of loans and advances	11	12	1
Deposits	0		0
Payments for property, plant and equipment	(5,289)	(3,806)	1,483
Net cash used in investing activities	(5,031)	(3,488)	1,543
Cash flows from financing activities			
Finance costs	0		0
Proceeds from borrowings	0		0
Repayment of borrowings	(66)	(70)	(4)
Net cash used in financing activities	(66)	(70)	(4)
Net decrease in cash and cash equivalents	(2,286)	(1,382)	904
Cash and cash equivalents at the beg of the year	3,607	2,966	(641)
Cash and cash equivalents at end of the year	1,321	1,584	263

### 6. Analysis of Capital Budget

This section analyses the planned capital expenditure budget for the 2014/15 year and the sources of funding for the capital budget.

### 6.1 Capital works

Capital Works Areas	Budget 2013/14 \$'000	Budget 2014/15 \$'000	Variance \$'000
New works			
Land and Buildings	1,328	862	(466)
Infrastructure Roads	2,352	1,705	(647)
Infrastructure Recreation Facilities	544	0	(544)
Infrastructure Other	20	0	(20)
Plant and Equipment	940	1,161	221
Furniture and Equipment	105	78	(27)
Total new works	5,289	3,806	(1,483)
Total capital works	5,289	3,806	(1,483)
Represented by:			
Asset renewal	2,247	2,247	0
New assets	2,300	812	(1,488)
Asset expansion	742	747	5
Total capital works	5,289	3,806	(1,483)

### 6.2 Funding sources

	Budget	Budget	Variance
Sources of funding	2013/14	2014/15	
	\$'000	\$'000	\$'000
New works			
External			
Grants - Capital	2,221	1,012	(1,209)
Proceeds on sale of assets	247	306	59
	3,161	1,318	(1,843)
Internal			
Reserve Funds	400	480	80
Own Resources (Incl. Loans)	2,421	2,008	(413)
<u> </u>	3,952	2,488	(1,464)
Total new works	7,113	3,806	(3,307)
Total funding sources	7,113	3,806	(3,307)

### 7. Rating Strategy

This section considers the Council's rating strategy including strategy development and assumptions underlying the current year rate increase and rating structure.

#### 7.1 Strategy development

In developing the plan for the future, rates and charges were identified as an important source of revenue, accounting for 42.6% of the total revenue received by Council annually. Planning for future rate increases has therefore been an important component of the planning process.

However, it has also been necessary to balance the importance of rate revenue as a funding source with community sensitivity to increases. The following table shows rate increases over the last five years .

	Rate
Year	Increases
2010/11	3.00%
2011/12	4.00%
2012/13	4.00%
2013/14	4.00%
2014/15	6.00%
Average increase	4.20%

#### 7.2 Current year rate increase

In order to maintain service levels and a strong capital expenditure program, general rates will increase by 6% in 2014/15 raising a total revenue of \$2.424 million.

Year	Rate Increase %	Total Rates Raised \$'000
2010/11	3.00%	2,021
2011/12	4.00%	2,113
2012/13	4.00%	2,204
2013/14	4.00%	2,287
2014/15	6.00%	2,424

#### 7.3 Rating structure

Council has established a rating structure which is comprised of the following elements. These are:

- \* Gross Rental Values
- \* Unimproved Values
- \* Minimum Rate

Striking a proper balance between these elements provides equity in the distribution of the rate burden across residents.

### 8. Other Strategies

This section sets out the strategies that have been taken into account when the Council formulates it's plan for the future and annual budget.

#### 8.1 Borrowings

Borrowings was identified as an important funding source for capital works programs. In the past, Council has borrowed to finance infrastructure projects. No borrowing have been included as a funding source for initiatives incorporated in the plan for the future and annual budget. This will result in a reduction in debt servicing costs. Reserves will be used as an alternate funding source to maintain the capital works programs.

For the 2014/15 year, Council has decided not to borrow. The table below details loan borrowings outstanding over a five year period.

Year	New Borrowings \$'000	Principal Paid \$'000	Interest Paid \$'000	Balance 30 June \$'000
2010/11	0	34	19	282
2011/12	0	36	17	246
2012/13	1,000	38	14	1,208
2013/14	0	67	66	1,141
2014/15	0	70	56	1,071

#### 8.2 Infrastructure

The Council has prepared Asset Management Plans, which sets out the capital expenditure requirements of the Council for the future by class of asset and will be a key input to the long term financial plan. It predicts infrastructure consumption, renewal needs and considers infrastructure needs to meet future community service expectations.

#### 8.3 Long Term Financial Plans

The Long term Financial Plan was completed in August 2013 and forms an important part of Council's integrated planning process. The LTFP has been aligned with Council's Strategic Community Plan and Corporate Business Plan and forms the basis for the preparation of annual budget.

The LTFP will covers a 10 year planning period from 2012-13 to 2022-23 and will cost the community's aspirations against the financial realities.

This page has been intentionally left blank.

#### Notes:

All fair value adjustments relating to remeasurement of financial assets at fair value through profit or loss and (if any) changes on revaluation of non-current assets in accordance with the mandating of fair value measurement through Other Comprehensive Income, is impacted upon by external forces and is not able to be reliably estimated at the time of budget adoption.

Fair value adjustments relating to the re-measurement of financial assets at fair value through profit or loss will be assessed at the time they occur with compensating budget amendments made as necessary.

It is anticipated, in all instances, any changes upon revaluation of non-current assets will relate to non-cash transactions and as such, have no impact on this budget document.

This statement is to be read in conjunction with the accompanying notes.

#### NOTE: (1) THE OBJECT AND REASON FOR GENERAL AND MINIMUM RATE

Council has imposed a general rate of **0.101037** GRV and **0.008659** UV and a minimum rate of **\$739.00** pa, as Council perceives it to be a "reasonable" minimum level of rates which all ratepayers in its district should pay. The minimum rate reflects the basic cost incurred by the Council in servicing each lot or dwelling in its district.

#### (2) RATES LEVIED IF NO MINIMUM RATE OF \$739 PA WAS IMPOSED

				\$ 2,541,825	

#### 1. SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of Preparation

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this budget are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the budget has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

#### The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 10 to this budget document.

#### (b) 2013/14 Actual Balances

Balances shown in this budget as 2013/14 Actual are as forecast at the time of budget preparation and are subject to final adjustments.

#### (c) Rounding Off Figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

#### (d) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions.

Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

#### (e) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a Gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

#### (f) Superannuation

The Council contributes to a number of Superannuation Funds on behalf of employees.

All funds to which the Council contributes are defined contribution plans.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (g) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in the statement of financial position.

#### (h) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

#### (i) Inventories

#### General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### Land Held for Resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

#### (j) Fixed Assets

Each class of fixed assets within either property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

#### Mandatory Requirement to Revalue Non-Current Assets

Effective from 1 July 2012, the Local Government (Financial Management) Regulations were amended and the measurement of non-current assets at Fair Value became mandatory.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (j) Fixed Assets (Continued)

The amendments allow for a phasing in of fair value in relation to fixed assets over three years as follows:

- (a) for the financial year ending on 30 June 2013, the fair value of all of the assets of the local government that are plant and equipment; and
- (b) for the financial year ending on 30 June 2014, the fair value of all of the assets of the local government -
  - (i) that are plant and equipment; and
  - (ii) that are -
    - (I) land and buildings; or
    - (II) infrastructure:

and

(c) for a financial year ending on or after 30 June 2015, the fair value of all of the assets of the local government.

Thereafter, in accordance with the regulations, each asset class must be revalued at least every 3 years.

In 2013, Council commenced the process of adopting Fair Value in accordance with the Regulations.

Relevant disclosures, in accordance with the requirements of Australian Accounting Standards, have been made in the budget as necessary.

#### Land Under Control

In accordance with Local Government (Financial Management) Regulation 16(a), the Council was required to include as an asset (by 30 June 2013), Crown Land operated by the local government as a golf course, showground, racecourse or other sporting or recreational facility of state or regional significance.

Upon initial recognition, these assets were recorded at cost in accordance with AASB 116. They were then classified as Land and revalued along with other land in accordance with the other policies detailed in this Note.

Whilst they were initially recorded at cost (being fair value at the date of acquisition (deemed cost) as per AASB 116) they were revalued along with other items of Land and Buildings at 30 June 2014.

#### Initial Recognition and Measurement between Mandatory Revaluation Dates

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to subsequent revaluation of the next anniversary date in accordance with the mandatory measurement framework detailed above.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (j) Fixed Assets (Continued)

#### Revaluation

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

#### Transitional Arrangement

During the time it takes to transition the carrying value of non-current assets from the cost approach to the fair value approach, the Council may still be utilising both methods across differing asset classes.

Those assets carried at cost will be carried in accordance with the policy detailed in the *Initial Recognition* section as detailed above.

Those assets carried at fair value will be carried in accordance with the *Revaluation* Methodology section as detailed above.

#### Land Under Roads

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

#### Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (j) Fixed Assets (Continued)

Major depreciation periods used for each class of depreciable asset are:

**Buildings** 30 to 50 vears Furniture and Equipment 4 to 10 years Plant and Equipment 5 to 15 years Infrastructure Sealed roads and streets clearing and earthworks not depreciated construction/road base 40 years original surfacing and major re-surfacing - bituminous seals 15 years Gravel roads clearing and earthworks not depreciated construction/road base 40 years gravel sheet 20 years Formed roads (unsealed)

clearing and earthworks not depreciated construction/road base 40 years Footpaths - slab 20 years

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained surplus.

#### Capitalisation Threshold

Expenditure on items of equipment under \$2,000 is not capitalised. Rather, it is recorded on an asset inventory listing.

#### (k) Fair Value of Assets and Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a guide:

Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (k) Fair Value of Assets and Liabilities (Continued)

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

#### Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

#### Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

#### Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

#### Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

#### Valuation techniques

The Council selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Council are consistent with one or more of the following valuation approaches:

#### Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (k) Fair Value of Assets and Liabilities (Continued)

#### Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

#### Cost approach

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

As detailed above, the mandatory measurement framework imposed by the Local Government (Financial Management) Regulations requires, as a minimum, all assets carried at a revalued amount to be revalued at least every 3 years.

#### (I) Financial Instruments

#### **Initial Recognition and Measurement**

Financial assets and financial liabilities are recognised when the Council becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Council commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

#### **Classification and Subsequent Measurement**

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is calculated as:

- (a) the amount in which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments and any reduction for impairment; and
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (I) Financial Instruments (Continued)

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

#### (i) Financial assets at fair value through profit and loss Financial assets are classified at "fair value through profit or loss" when they are held for trading for the purpose of short term profit taking. Assets in this category are classified as current assets. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss.

#### (ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Loans and receivables are included in current assets where they are expected to mature within 12 months after the end of the reporting period.

#### (iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Council's management has the positive intention and ability to hold to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Held-to-maturity investments are included in current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as non-current.

#### (iv) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for impairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in current assets, where they are expected to be sold within 12 months after the end of the reporting period. All other available for sale financial assets are classified as non-current.

#### (v) Financial liabilities

Non-derivative financial liabilities (excl. financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in the profit or loss.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (I) Financial Instruments (Continued)

#### **Impairment**

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

#### Derecognition

Financial assets are derecognised where the contractual rights for receipt of cash flows expire or the asset is transferred to another party, whereby the Council no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

#### (m) Impairment of Assets

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another standard (e.g. AASB 116) whereby any impairment loss of a revaluation decrease in accordance with that other standard.

#### 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### (m) Impairment of Assets (Continued)

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting this budget, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2015.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

#### (n) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Council prior to the end of the financial year that are unpaid and arise when the Council becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

#### (o) Employee Benefits

#### **Short-Term Employee Benefits**

Provision is made for the Council's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Council's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Council's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

#### Other Long-Term Employee Benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations or service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Council's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Council does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

# 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (p) Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

### (q) Provisions

Provisions are recognised when the Council has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

# (r) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where the Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for sale where it is held as non-current based on the Council's intentions to release for sale.

# (s) Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current budget year.

### (t) Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in this budget document relate to the original budget estimate for the relevant item of disclosure.

### 2 OPERATING, REVENUES AND EXPENSES

The Net Result as reported in the Annual Budget includes:

Adopted Budget		Actual	Adopted Budget
2013/14		2013/14	2014/15
\$		\$	\$
	Charging as Expenses		
924,853	Depreciation on Non-Current Assets	1,119,915	1,162,810
	Crediting as Income		
	Profit/(Loss) on Sale of Non-Current Assets		
0	Land	0	0
0	Buildings	0	0
(32,500)	Plant and Equipment	10,801	37,000
0	Furniture and Equipment	0	0
(32,500)		10,801	37,000

\$697.00 pa	- Minimum Rate	\$739.00 pa

### The Objects and Reasons for General and Minimum Rate

Council has imposed a general rate of **0.101037** GRV and **0.008659** UV and a minimum rate of **\$739.00** pa, as Council perceives it to be a "reasonable" minimum level of rates which all ratepayers in its district should pay.

The minimum rate reflects the basic cost incurred by the Council in servicing each lot or dwelling in its district.

For additional information on the rates levied refer to the "Statement of Rating Information".

#### **Specified Area Rates**

No specified area rates will be levied during the year 2014/15.

#### 13 SERVICE CHARGES

No service charge will be levied during the year 2014/15.

### 14 INFORMATION ABOUT DISCOUNTS, INCENTIVES, CONCESSIONS AND WRITE OFFS

The following discount on rates is offered to those who pay their rates in full within 35 days of the date of service appearing on the rate notice.

GENERAL	RATES	DISCOUNT	FOR	EARLY	PAYMENT OF RATES:	RATE 10%	VALUE \$210,771

### 15 INTEREST CHARGES FOR THE LATE PAYMENT OF RATES CHARGES

- (1) Pursuant to Section 6.51 of the Local Government Act and Financial Management Regulation 27(a) the Shire of Beverley has imposed the following rate of interest applicable for the late payment of rates and rubbish charge to apply as follows:
  - (a) Where no election has been made to pay the rate and rubbish charge by instalments due
    - (i) after it becomes due and payable;
    - or
    - (ii) 35 days after the date of issue of the rate notice

which ever is the later.

(b) Where an election has been made to pay the rate & rubbish charge by instalments and an instalment remains unpaid after its due and payable.

The rate of interest to apply is 11% and the estimated revenue from the imposition of the interest amounts to \$7,500 for the 2014/15 financial year.

(2) Pursuant to Section 6.45 of the Local Government Act and Financial Management Regulation 27(c) the due date of each instalment is as follows:

1st Instalment Monday 8th September 2014 2nd Instalment Monday 10th November 2014 3rd Instalment Monday 12th January 2015 4th Instalment Thursday 12th March 2015

Charges on instalment Plan is \$10.00 Administration Charge and rate of interest of 5.5%, the estimated revenue from the imposition amounts to \$7,500 for the 2014/15 financial year.

(3) No interest is charged under Section 6.13 of the Local Government 1995 for the late payment of money other than rates.

# 16 FEES AND CHARGES INFORMATION
