**SHIRE OF BEVERLEY
PRESIDENT REPORT - FEBRUARY 2017**

Waste Water Reuse

Commissioning of Reuse Water to the oval is nearing completion with final testing underway.

Vincent St Bridge Refurbishment

The Vincent Street bridge has been recommended for \$3,876,000 funding from the Roads to Recovery Programme. Work includes design and construction and is expected to be fully funded by the Federal Government in the 2017/2018 financial year.

Grants

The Shire has been successful with a Royalties for Regions Community Chest application and will receive \$27,834 toward the Beverley "Flying through History" project to provide interpretation panels around the Vampire jet in Hunt Road and a scale model and short film history of the Silver Centenary.

The National Trust WA was successful with an application to the Royalties for Regions Regional Grants Scheme for \$200,000 to upgrade the 6 existing houses at the State Heritage listed Avondale farm.

Preparation of documentation to seek tenders for the Beverley Cornerstone is underway. This will include options to stage the project and enable Council to review funding arrangements.

Council

After a break in January the first Ordinary Meeting of Council for 2017 will be held on Tuesday 21st February commencing 3pm. A later start time is being trialed and the meeting is being held on the third Tuesday instead of the regular fourth to enable Elected Member attendance at regional training. As a matter of interest the next Local Government Elections will be held in October 2017.

Congratulations

Congratulations to staff member Ben Treasure on completion of his Certificate II in Horticulture.

Beverley Blarney

Favourable comments are often received from visitors (and locals!) regarding the Beverley Blarney, which again was the case when members of WA Government Grants Commission visited Beverley in November.

Finally best wishes from Councillors and staff to the CEO who recently turned 50!

Dee Ridgway
Shire President

Cleaning tips

The following tips will help to ensure your difficult-to-clean eligible farm chemical containers will be accepted for recycling at your local *drumMUSTER* collection centre.

Suspension concentrates (Atrazine, Simazine, etc)

- ✓ Rinse your container immediately after use to ensure any chemical residue does not dry
- ✓ Use methylated spirits to remove dried residue. If this doesn't work, fill the container with water and soak for at least 24 hours before rinsing.

Oil-based chemicals (ULVs, LVs)

- ✓ Follow specific instructions on the product label or contact the manufacturer for further assistance

Other chemical residues

- ✓ Rinse container immediately after use as all chemical residues are much harder to remove when dry
- ✓ Some containers may require additional rinsing (more than three rinses)
- ✓ A brush or high pressure hose may be required to clean stubborn or dried chemical residue

✓ **ELIGIBLE CONTAINERS WITH DIRT, RUST AND DYE STAINS ARE NOT CONSIDERED HAZARDOUS AND ARE THEREFORE ACCEPTED AT *drumMUSTER* COLLECTION CENTRES**

For more information on container cleaning contact your local Agsafe accredited farm chemical reseller or visit

www.drummuster.com.au

drumMUSTER

drumMUSTER makes it easy

Recycling your eligible farm chemical containers with *drumMUSTER* is easy - all you need to do is follow these simple steps:

- ✓ Triple or pressure rinse your chemical containers **IMMEDIATELY** after use

- ✓ Pour the **RINSE WATER** back into your spray tank

- ✓ Make sure **ALL** chemical residue is removed

- ✓ **REMOVE LIDS** to allow your containers to **DRY** thoroughly. Take lids **SEPARATELY** to collections

- ✓ Metal containers should be **PUNCTURED** from the top through the bottom

- ✓ **DELIVER** your eligible clean empty containers to your local *drumMUSTER* collection centre

For details on *drumMUSTER* collections in your area contact your local Council or visit the *drumMUSTER* website at:

Every name is called a noun
AS field and fountain street and town;

In place of noun the pronoun stands,
AS he and she can clap their hands;

The adjective describes a thing,
AS magic wand or bridal ring;

The verb means action, something done,
To read and write, to jump and run;

How things are done the adverbs tell,
AS quickly, slowly, badly, well;

The preposition shows relation,
AS in the street or at the station;

Conjunctions join in many ways,
Sentences, words or phrase and phrase;

The interjection cries out "Hark!"

Phone: 9646 3333 Crime Stoppers: 1800 333 000

Hello Everyone,

January has flown by!

February sees the return of children to school, so please remember to slow down around the school zones and observe the 40km hr speed limit.

I am happy to report Beverley has been crime free for 2017. To say I'd be ecstatic if it stayed that way, would be an understatement. As I previously mentioned, working together is integral to keeping our community safe and so I thank you for your efforts and information provided to us in the past and encourage you to continue to do the same.

We like to be as proactive as possible and so with this in mind, our attention over the next few months will be on firearms, specifically, security. We will be conducting inspections on all firearms cabinets within the Beverley sub-district. Our intent is to educate and ensure compliance so that none of these firearms finish up in the wrong hands.

We will provide you with written notice of our intention and phone prior to arrange a mutually agreeable time to conduct these inspections. So if you need to check if your cabinet is compliant, you can visit www.police.wa.gov.au Look under the heading About Us/Our Agency/Police Licensing Services/Firearms/Firearms Storage for information about minimum specifications for storage cabinets.

Alternatively, you can drop into the station, we have free copies of Firearms Regulations 1974 Schedule 4 – specifications for storage cabinets or containers.

RECOMMENDATIONS

If there is anything you would like to know about policing and or crime related and you would like us to consider for discussion/publishing in next month's Blarney, please email you ideas to Beverley.Police.Station@police.wa.gov.au

DID YOU KNOW?

The penalty for the driver of a motor vehicle failing to wear a seatbelt is **\$550** and **4 demerit points**. So make sure you buckle up and stay safe.

Take care,
Sergeant Karen Berry

RAISING MONEY TO THE CEILING FOR RFDS

Greenhills Inn has been raising money to the ceiling to raise funds for the Royal Flying Doctor for over a year now.

The fun way of fundraising requires participants to throw money on the ceiling in the bar with a 50 cent piece and a thumb tac.

The money was removed on 01 January 2017 with an amount totalling of \$3,370.

Apryl said *'We would like to thank everyone for contributing to such a great cause. This is a fantastic amount and beat our last effort of \$2,075 in 2015. Everyone has a story to tell about how the Flying Doctors has helped them or a friend. They are an important part of our community.'*

Greenhills Inn will continue to throw money on the ceiling for the Royal Flying Doctor Service in 2017 and hope the amount will grow!

AUSTRALIA SAYS "THANK YOU FIREYS"

Right across our great country, our heroic fire fighters go out to battle fires all year round - putting their lives on the line to save ours and our properties.

Many of these fire fighters are away from their families for days on end, sometimes longer to keep our families and communities safe. They leave their loved ones at home hoping that these brave men and women will return to them safely.

National Red Balloon Day is a 100% charity organisation, which was founded in January 2014, as a way for all Australian's to give praise and thanks to our nation's fire fighters. Our first THANK YOU FIREYS day was a huge success on 28th February 2014.

On the 28th February 2017, we will once again be asking all Australians to show their support to our courageous men and women by flying a red balloon from their mailbox, fence, workplace etc as a simple measure to say 'Thank You Fireys'.

It's such a simple way to let our Aussie Fireys know that we acknowledge the efforts they put in all year round.

Together with the sale of 'Thank You Fireys' Red Balloons, and other merchandise which is available through our website, www.nationalredballoonday.org, we hope to not only thank our fire fighting heroes, but to assist in raising funds. All profits from this fund raising event will go directly back to the state from which the item/s is purchased. You can also donate directly through our website.

Fire Services from each state and territory of Australia have been contacted in order to establish a fundraising partnership, either with their service or a nominated charity of their choice. To date we have raised \$59638.56 that has gone directly back to fire services right across the country.

Please show your support by sparing some room in your newspaper/s to help us spread the word so that many more Australian's can become aware of our National Day of thanks. If you have a Facebook page, we would also appreciate you sharing our Facebook page:

<https://www.facebook.com/NationalRedBalloonDay>

If you require further information, please contact our Event Director – Jody Hardiman by emailing info@nationalredballoonday.org or phoning 0409 439660.

February is Ovarian Cancer Awareness Month

- Ovarian cancer is the growth of abnormal cells in one or both ovaries. Left untreated, ovarian cancer can spread to other parts of the body.
- Ovarian cancer is the 9th most common cancer affecting women in Australia and the leading cause of gynaecological cancer deaths in Australia. Each year in Australia, approx. 1300 women are diagnosed with ovarian cancer approx. 1000 women die.
- 70% of women with ovarian cancer are diagnosed at an advanced stage of disease.
- Only 40% women with ovarian cancer survive five years beyond their diagnosis.

Risk factors

- getting older: women over 50 are more likely to develop ovarian cancer than younger women (average age at diagnosis is 63). However, ovarian cancer can affect women of all ages.
- inheriting a faulty gene (gene mutation) increases the risk of ovarian cancer
- having a strong family history of ovarian cancer, breast cancer, or some other cancers, including bowel and endometrial cancer. It is important to remember that only around 5-10% of all ovarian cancers are due to inherited factors
- endometriosis, when the tissue lining of the uterus (the endometrium) is found outside the uterus
- hormonal factors such as early puberty, late menopause or the long-term use of hormone replacement therapy (HRT)
- Your risk of ovarian cancer is increased if you smoke, are overweight or obese, don't exercise, drink alcohol or have a poor diet.

Symptoms

- Ovarian cancer can be difficult to diagnose in its early stages as symptoms can be non-specific or similar to those of other diseases. Symptoms include:
- a swollen, bloated abdomen
- pressure, discomfort or pain in the abdomen
- heartburn, nausea and bloating
- changes in toilet habits (e.g. constipation, diarrhoea, frequent urination due to pressure, increased flatulence)
- tiredness and loss of appetite
- unexplained weight loss or weight gain
- changes in your menstrual pattern or postmenopausal bleeding
- pain during sex

It is important to know these symptoms, but it is equally important to know ovarian cancer often develops without symptoms. What's more, having these symptoms does not mean you have ovarian cancer, as they may be caused by other conditions. However, if you do have any of these symptoms you should see your doctor as soon as possible.

For more information and/or to book a talk about the prevention of cancer for your community please ring 9574 5392

EMERGENCY & SMARTPHONE APP

Australia's Triple Zero Awareness Working Group has developed a smartphone app for iOS, Android and Windows devices to:
provide the caller with information about when to call Triple Zero
provide the caller with information about who to call in various non-emergency situations

- State Emergency Service (SES) (132 500)
- Police Assistance Line (131 444)
- Crime Stoppers (1800 333 000)
- Health Direct Australia (1800 022 222)
- [National Relay Service](#)
- assist the caller to dial the relevant number
- display the GPS coordinates of the phone's location that the caller can read out to the emergency operator.
- The app is free of charge and available for download from iTunes, Google Play and Windows Stores.

Other emergency-related apps

There is a range of other publically available apps that claim to assist callers in an emergency. Some of these apps simply provide information about who to contact, while others claim to assist callers in requesting emergency assistance or to provide information about the caller's location to an emergency service organisation.

If you are considering using one of these apps, be aware that:

- not all of them can do what they claim and could delay emergency assistance
- the only way of contacting Triple Zero (000) is with a voice call—you cannot use SMS, email, instant messaging, video calling or social media to contact emergency services via Triple Zero (000)
- apps are not able to automatically provide details of your location to Triple Zero (000) or an emergency service organisation—however, you can read out your GPS coordinates to the emergency operator if they are provided on your smartphone.

You should not rely on any smartphone app as your only way of requesting emergency assistance. In an emergency it is always best to call Triple Zero (000) direct.

TRIPLE ZERO KIDS CHALLENGE

The Triple Zero Kids Challenge game is designed for children of kindergarten and primary school age and consists of nine safety scenarios. The estimated game-play time is one hour, but can be played in shorter intervals. You can access the game & more information for parents & teachers by visiting the website: <http://kids.triplezero.gov.au/>
The Game has 'closed captions' for those players who do not have a sound card, cannot use their computer's audio or who may have hearing difficulties. Just click on the icon in the top right-hand corner of each game scenario to activate closed captions. The game relies on narrative and voice-prompts. On starting the game, the children will be asked to enter their postcode. You can assist by having this available to them. At the beginning of the game, children will see a scrolling 'credit screen' of logos of supporting emergency services and agencies. Please assure them that this is normal. You might challenge them to identify the ones applicable to their area.

Successful completion of a safety scenario generates a 'reward' for children in the form of a print-out or certificate. Please ensure that these can be printed for the children from the computers they are using.

CAN YOU HELP YOUR COMMUNITY?

The Beverley sub centre is run by volunteers and is looking for willing volunteers to continue their dedicated service to the Beverley Community.

No matter where you live, you can make a positive impact in the Beverley Community. With St John, you'll learn new skills like endorsed first aid qualifications, build strong relationships with new people you meet, and work with emergency services to make a real contribution to your community. You'll also receive a range of fantastic benefits.

When you volunteer with St John, you'll be part of the welcoming team that's changing lives.

And the first life that will change is yours.

CWA Beverley Branch

CWA has been in recess for the summer since our December meeting and lunch together.

We are now starting towards the new year with renewed enthusiasm as we start to plan for the coming year.

We encourage new and/ or prospective new members to come and share all or any part of our day.

The Country Women's Association members have contributed much to the community of Beverley over the past 93 years and we hope to be able to contribute even more in the future. We need your help!

Our next meeting will be on Wednesday 22nd February at 10.00am for morning tea followed by our normal Monthly meeting. There will be a **"Bring and Share" lunch**.

The **Annual General Meeting** will be held after lunch with some social activity to follow.

Builders announced; four Wheatbelt Health Service refurbishments

York, Southern Cross, Moora and Beverley Health Services are one step closer to receiving refurbishments with the selection of builders announced for each site. The following builders have been chosen:

- York Health Service – ADCO Constructions
- Southern Cross Health Service – Devlyn Constructions
- Moora Health Service – Firm Construction
- Beverley Health Service - BGC

Acting Regional Director Wheatbelt, Sean Conlan, said the builders would be moving on site around the end of November to early December and that residents would start to see construction underway shortly after that time.

“This is good news for local residents who are looking forward to seeing improvements made to their local health services,” Mr Conlan said.

“Investment in regional healthcare is a priority and refurbishments such as these help to provide people with the care they need, closer to home.” Mr Conlan said there would be no disruption to services during the refurbishments.

Beverley Health Service will receive a redeveloped Emergency Department including two new treatment bays and x-ray area, three new multipurpose consultation rooms, a refurbished ensuite in the aged care ward, a refurbished kitchen, an enhanced staff station and new driveway including parking for mobility scooters.

The health service refurbishments were all funded by the State Government’s Royalties for Regions as part of the half a billion dollar Southern Inland Health Initiative being delivered by the WA Country Health Service.

The Southern Inland Health Initiative’s \$300 million capital works program is more extensive and complex than any project previously undertaken by the WA Country Health Service, with new builds and upgrades to 37 hospitals and health services in the Great Southern, Wheatbelt, South West and Midwest.

In the Wheatbelt, Merredin, Northam and Narrogin hospitals are being redeveloped as well as upgrades to 23 small hospitals and health centres across the region. To find out more, go to www.health.wa.gov.au/southerninland.

Borers are back!

February 2017

With the onset of hotter weather, adult borers are coming out of the woodwork. The larvae, having munched their way through wood for months, even years, have pupated in their wooden nurseries and, as adults, are emerging to enter the mating stage of their lifecycle.

Most borers are the larvae (immature stages) of certain moths and beetles, and in Western Australia (WA) we have a mixture of native and non-native species.

While the emphasis is often on European house borer (EHB), you are more likely to see native longicorn beetles, auger beetles and weevils in your garden or trees. These are the most commonly reported borers to our Pest and Disease Information Service (PaDIS) at present.

EHB is a destructive pest that can cause major structural damage to homes built with untreated pinewood. Damage is caused by the larvae making tunnels through pinewood, weakening its structural integrity. In WA, EHB can live undetected as larvae for 2 to 5 years before emerging from the timber as an adult beetle. These beetles then lay eggs in the same piece of timber from which they have emerged to begin the life cycle again.

EHB is only found in dry pinewood such as dead branches on living pine trees, furniture, structural and non-structural timber, crates and pallets. EHB does not damage living (green) timber. If the tree is not pine, it is not EHB. For more information visit agric.wa.gov.au and search 'EHB'.

The native eucalyptus longicorn beetle, *Phoracantha semipunctata*, lays eggs under bark or in cracks of the host tree. They target native trees such as *Eucalyptus* species. Eggs are laid singly or in small batches by the adult beetles, and the larvae hatch and bore into the tree. The life cycle from egg to adult is approximately two to three years.

The common auger beetle, *Xylopsocus gibbicollis*, is a native borer that attacks mostly grapevines, while the native larger auger beetle, *Bostrychopsis jesuita* is often reported emerging from backyard fruit trees.

miller@reachnet.com.au

The elephant weevil, *Orthorhinus cylindrirostris*, is a brown grey weevil with a long slender snout and long forelegs. Adults and larvae feed on eucalypts and a variety of other native and ornamental plants. They are also a pest of cultivated vine crops.

Other insect borers include fig longicorn beetle, *Acalolepta vastator*, vine weevil, *Orthorhinus klugi*, fruit-tree borer moth, *Maroga melanostigma*, and vine borer moth, *Echiomima* species.

Borers rarely infest healthy plants growing in their preferred environments. However, when trees or shrubs are transplanted, or stressed from drought, soil compaction, sun scald, or injuries, this can weaken them and make them more susceptible to attack. For this reason borers are generally considered a secondary problem and effort should be made to keep the plant as healthy as possible so it can resist borer attack.

Early signs of borer infestation can include wilting terminal shoots and branch or crown dieback, while more obvious signs include exit holes with sawdust-like frass in the trunk or limb of the plant.

Treatment

Take the best care of the plant you can, as healthy plants can often withstand some borer attack. Correct identification of the type of borer will also help guide any treatment options.

Sadly, in most cases systemic insecticides, whether applied as injections or as soil treatments, will have little effect, and while pushing a piece of wire into borer exit holes may sometimes kill an adult beetle or larva intersecting that tunnel, it will not provide effective control. Look after your plants as best you can and report unfamiliar insects to help guide your treatment options.

Please report

To maintain surveillance for new and damaging borers to WA, please take photos of both the insect and any damage to the plant, and report via the options below:

Lyme Disease Senate Inquiry

There are 12 recommendations around testing and patient support tabled for the inquiry into the growing evidence of an emerging tick-borne disease that causes a Lyme like illness.

These can be found on the Lyme Disease Association of Australia web site or in Hansard on Australian Government website. We hope this will go some way to changing the way in which Lyme and Lyme like illness patients in Australia are treated.

Remains to be seen what will happen from here with the installation of a new Health Minister.

Permaculture Earthworks Course

For the first time in WA, join Ross Mars and Don Woodcock for three days of teaching and learning about water harvesting strategies for rural properties.

April 8 – 10, 2017 (Saturday to Monday)

Held at Westdale - northeast of Brookton (about 1 hr from Perth metro)

Course covers:

Day One

- Surveying techniques – using dumpy and laser levels, abney level and more to survey and peg out swales, drains, dams.
- Catchment assessment, measurements and calculations on possible water capture for both paddock and house.
- Basics of keyline design, types of dams, swales and drains.
- Introduction to the types of machinery used in rural applications – their limitations and capabilities.
- Reading maps – for estimations of slope, dam locations, water movement, location of valleys and ridges.
- Dam construction.
- Soil testing – dispersion test for clay, pH, percentage clay and fines, soil structure.
- Water testing – pH, salinity, water quality.

Day Two

- Machinery will be site to: Construct dams, clean drains and make swales.
- Building of silt trap for main dam, earthworks to repair existing erosion problem at dam entry.
- Rebuild spillway.

(Participants will be mainly observing these tasks while helping with machinery supervision and operation).

Day Three

- Second dam build.
- Building of drains into dams.
- Observation of construction of large steel-liner rainwater tank and assist with pipework from house.

Cost \$200 (includes meals). Bring your swag or mattress and sleeping bag for accommodation in rooms of house.

You can participate in only the weekend, but we will assume everyone is there for all three days.

To participate: email Ross or Don with your details. We will provide you with our bank details to make a deposit to secure your place in the course, and directions to the farm.

Station Gallery & Platform Theatre News

The Station garden is available for public use at any time;
just open the gates and enjoy!

Station Gallery

HAPPY NEW YEAR EVERYONE!

Well, January is all but gone and we move into the second month of 2017. The Gallery was closed all January and with that closure came the packing up of the shop and in its place we now have an office. With the necessity of storage space for paper work and more time being spent at the Station doing admin tasks it was decided make way for an office. At the moment the gallery walls are still hung with paintings from the Shire collection which tell the story *Summer*. Come February and it will be a completely different story when our French Artists-in-Residence display their installation work. You'll have to make time to come and see what it's all about! Please keep an eye on the *Bulletin* for a date of their exhibition opening.

Easter Art Exhibition

It's that time of the year when the BSA exhibition secretary is busy sending out entry forms for the Annual Art Purchase Exhibition. Easter 2017 will be 49th exhibition which includes the *Beverley Art Prize* valued at \$5000! Besides this overall prize the town's renowned 2D media art show, there are six other sections with prizes of \$1000 each. Other sections include a category for children so if you haven't done it during the summer holiday, best get those pencils and paintbrushes out now kids! Anyone wishing to enter works of art into Easter Art Exhibition can pick up entry forms at either the Shire offices, the Station Gallery, the Newsagency, or contact Exhibition Secretary Kathryn McLean, ph 0427464050 or wk.mclean@bigpond.com

Artist-in-Residence

We welcome Thibaud Guichard and Nathalie Gelard to the Station for the month of February and this is what they have to say about themselves:

"We are Nathalie and Thibaud, and together we are -h-, a French artistic duo. Through our work, we are interested in different kinds of knowledge, seeking to observe the intersection of various points of view, cultures and disciplines. We attempt to observe the reality, and explore its alternative story. We question the writing of History, and the way we live in a set of narratives produced by specialists who shape our vision of the world. We investigate, observe, and play with the data to question our era and the seedlings of the possible futures it contains.

During this time at the Beverley Station Arts we are going to work on our project Recall, which is why we came to Australia a year ago. *Recall* is for us the opportunity to wonder about the link between humanity and Mars, through the observation of the parallels between the Red Planet and Australia. We met people, we heard and read facts, stories, hypotheses. We collected objects, stones and pictures. And now the time has come to get all those things together. "

For all information on residencies check with Artist in Residence Coordinator Marylou Hutchinson on 96471027 / 0427085511 or email: hutchinson@wn.com.au

ALSO COMING SOON!

Beverley Station Arts presents another night of musical comedy under the stars at the Platform Theatre:

← As seen in Perth at the Fringe in January, but with even more songs and material from Robert Hoffmann and co-star Penny Shaw! 🍷

CABARET & DINER en BLANC

Desperately Young At Heart is a must-see raucous and raunchy high energy cabaret of burly baritone turned delicious diva **Robert Hoffmann** with the true DivaLicious soprano **Penny Shaw** and featuring **Tomasso Pollio** perfection on piano. Hoffmann presents a whirlwind of characters clad in sequins and leather, in an energetic blend of visual humour, spicy stand-up, and poignant performances peppered with operatic perfection and original pop.

A *Diner en Blanc* evening - not strictly Diner en Blanc as the location is not a best kept secret - but upholding the Diner en Blanc tradition, participants are asked to wear head-to-toe white attire and bring their own white table cloth and napkins, tableware (cutlery, stemmed glassware, white dinner ware) and gourmet meals (for pre-purchased gourmet picnics phone 0419040063 for details).

Besides the cabaret show, the evening is filled with visually breathtaking moments including the waving of a cloth napkin to mark the beginning of the dinner and the lighting of sparklers to let guests know they are now free to mingle and dance. A trumpet sounds end of the evening.

Visiting your GP... Tips for the average bloke!

We often talk to blokes about the importance of visiting their GP for a routine service visit or 'check-up' regardless of whether they feel unwell or not. These visits help you to stay health aware and if you do have particular risk factors, such as a family history of a certain disease, then regular check-ups may help your doctor pick up early warning signs. For example, high blood pressure may be an early warning sign of cardiovascular disease. I recently had my check up and I guess having a medical background puts me at a bit of an advantage when it comes to this sort of stuff, but for a lot of blokes it can be a bit of a daunting and at times confusing process.

First and foremost I think there are a lot of benefits in having a regular doctor and practice that you visit. This gives you the opportunity to build a relationship over time, to the point where you are more comfortable talking openly about things. Your doctor gets to know you and will have a better understanding of your health needs and concerns. Your medical history also stays under the one roof making it easier to keep things up to date.

With the average GP consultation time being around 10 to 15 minutes it's important that you have a fairly clear idea of what you want to talk about (write a check list starting with the most concerning issue). Usually for two or more health issues you will need to book a longer consultation time. Be prepared! For a general health check, your doctor will want to talk to you about a range of stuff including your medical history, your family's history, your lifestyle, diet, weight and how much you exercise. Be honest about your health and your concerns and most of all, don't worry too much about being embarrassed. Doctors are usually very difficult people to shock and more than likely have seen or heard it all before.

We all need to take responsibility for our own health and wellbeing. A lot of guys I talk to have no idea of what their blood pressure is normally or what it means for that matter. Get to know your normal parameters and other things like your cholesterol and PSA (Prostate specific antigen) blood tests so you can engage in conversation with your GP about them. It often helps to keep your own record of results and a list of any medications you may be on and what they are for.

As we get older we inevitably encounter the increased risk of developing particular health issues such as prostate issues (over 45 years). Most GPs are pretty good at prompting us when needed but we still need to be an active participant. Don't feel intimidated, you have the right to request certain tests and question things the doctor suggests. After all, this is about you and your GP working together.

So when visiting your GP be prepared (take a checklist) and be involved, it's your health, you are the expert on you.

T.M. Hair Design

We look forward to being of service to you at Beverley's only hairdressing salon.

Plans for a big year in front of us with our four highly trained stylists. Their skills are kept up to date with our Sydney based technician visiting regularly with the latest product information & latest on trend hairdressing news. We have great pleasure in introducing the new "Play" range of hair care. Incorporating a full range of Shampoos, Conditioners, Treatments & Styling products. These products work well with our Beverley water and give results in the look & feel of your hair. Feel free to discuss with your hair dresser which products would best suit your needs. Bookings are essential Tuesday to Saturday. Marj is happy to offer a 'no appointment necessary' walk in service for haircuts on Thursdays.

*We are happy to continue with our special haircuts for senior gents in 2017.
Ask your hairdresser about this service.*

At Secrets... Have you seen our summer range? So comfy & really well priced. No more available from our supplier so don't delay as our stocks won't last. Our new European jewellery is just so delightful & so different. Made in villages in Greece & France & not available elsewhere in WA. Our diverse range of beaded jewellery is sourced from a variety of suppliers & is ever changing. Bath towels in new season colours are now in & are well priced & good quality. Top quality sheet sets in all sizes. These sheets are a little more expensive but they last for years & years, which means they are excellent value in the long run. The elastic lasts and sheets are made from good quality sheeting so no pilling. Made locally in Perth, not many things are these days! There are some great outfits available in our clothing boutique.

Don't delay as stocks are running low and as always repeats are avoided.

We welcome browsing even if you go elsewhere for your hairdressing needs.

Call in to 100 Vincent St; Or Phone 9646 1122.

Beverley District High School

Independent Public School

For more information about the school, visit our website!

Welcome Back to the 2017 School Year

We welcome new and returning families to our school. School begins for students on **Wednesday 1 February** and our school is delighted to be starting the year as an independent public school.

Director-General of Education Sharyn O'Neill and Minister for Education Peter Collier congratulate Beverley DHS Principal Wendy Moore and School Council Chair Brendan McLean on achieving Independent Public School status.

New School Board

As an independent public school, our new school board will play an integral part in our school planning and in the monitoring of outcomes. We welcome our elected parent representatives Damien Murray, Carly Veitch, Brendan McLean and Ros Mellick. Our staff representatives are Wendy Moore, Angela Sims and Kellie Shaw. We thank retiring School Council members Karen Wansbrough, Scott Morrell and Julian Roche for their valuable contributions.

School programs for 2017

We are pleased to have an excellent group of experienced teachers working with us who will provide our students with strong skills and the opportunity to enjoy a range of extension activities in the arts, science and digital technologies. We welcome Mrs Davey, who will share the Year 5/6 class with Mrs Aynsley, and Mrs De Groot, who will teach primary Art.

We are excited about the secondary programs on offer this year. We welcome Mrs Morrell back to our secondary Maths and Science classes after her long service leave and recuperation, and welcome Shirley Julie-Wallis to our school. Mrs Julie-Wallis will teach English, Humanities and Social Sciences to our secondary students. She is an experienced secondary teacher who has been working at Central Midlands SHS and Dalwallinu DHS. We also look forward to a strengthened and expanded vocational program for our secondary students, led by Mr Ellison.

We wish Mrs Wansbrough a wonderful and well deserved long service for Semester 1 of 2017. We wish Ms Brennan well as she takes up a new position for Term 1, and hope to see her back with us in the not-too-

distant future. We have greatly appreciated her contribution to our school over the last two years.

2017 Student Leadership Team

Congratulations to our newly elected student leaders. We have confidence that they will provide their peers with terrific support and will drive excellent initiatives for the benefit of the school community.

Windows 10 “Anniversary Edition”

In the August Blarney I explained about Windows 10 Updates. My clients are still having difficulties with updates particularly the recent Windows 10 “Anniversary Edition” – this update is huge!

The new Microsoft update policy.

In the past there were a number of different Windows operating systems: XP; Vista; 7; 8 etc. Microsoft seemed to interleave good systems with bad systems e.g.: XP and 7 were very good and lasted a long time; Vista and 8 failed and were soon replaced. Because of the huge failure of Windows 8, Microsoft have changed their update policy. Microsoft will not be issuing new operating systems, but instead will be continuously upgrading Windows 10. The “Anniversary Edition” is the first of these major updates and is effectively a new operating system.

The “Anniversary Edition”

The “Anniversary Edition” is a new system and is being rolled out progressively to all Windows 10 PCs. The update is called “**Feature update to Windows 10, version 1607**”. It is very large – 7 Gigabytes! :

- It takes a long time to download
- It can bust your monthly download limit
- If it continuously retries to download or is interrupted during installation it can corrupt the operating system.

Long time to download.

Because updates are automatic, many people are unaware updates are in progress, so often shut down the PC during an update. Windows 10 is supposed to cope with this situation, but often it doesn't and updates fail. When you turn your PC back on Windows 10 starts the update(s) again (and again!), consuming download capacity. During download the PC can be slow and many people think this is caused by viruses. I have recently rebuilt several PCs that were corrupted during the “Anniversary Edition” update and would not start.

Slow or limited Internet connection.

If you have a limited download allowance or a poor Internet connection, e.g. using a 3G mobile connection, it is possible to provide some control over updates. Go to <Settings + Network & Internet + WiFi + Advanced Options> and turn on <Set as a metered connection>. This only works on a WiFi connection. Make sure you download all updates manually. The “Anniversary Edition” is so large you may need to take the PC to family or a friend that has a fast, reliable internet connection with plenty of spare download allowance.

Avoiding interruptions.

Before shutting down go to <Settings + Update & Security + Windows Update>. If updates are in progress, keep the PC on until the updates have downloaded and installed. Make sure that you have enough Internet download allowance to cope with updates. You may also need to set your WiFi connection to “Connect Automatically”, keep the power on, and in the “Power options” change your plan settings to “Never” put your PC to sleep or hibernate while plugged in.

BEVERLEY BOWLING CLUB

The Beverley Bowling and Croquet club hope their members and supporters had a great Christmas and a wonderful new year.

It was great to see so many people welcome in the New Year and there were 40 players for the Elders Mixed New Year's Celebration.

On January 06, 07 and 08 we hosted the Inter League Round Robin. So many people to thank: John and Helen Shier for donating the meat for our dinner, Glenys Collins for organising the kitchen and umpiring, Kim Moulton, David Bell, Geoff Bremner and Peter Fleay for keeping the greens rolling fantastic (I've not seen the greens rolled so many times hehe), Chris Pepper for donating a spare cool room and Glenys and Mark Petchell (is there nothing he can't do?) who donated the Scotch Raffle, was the weekend taxi and maintained the score board for the weekend. Many thanks to everyone else involved it certainly helped make the weekend a huge success. Thankyou to Boekeman Machinery, for their sponsorship of the event and thankyou to the supporters who came down and got to watch some very impressive bowls.

Congratulations to our very own Greg Barrett-Lennard and Geoff Bremner who represented the Avon Valley league which took out the KW Baxter Shield.

We wish Peter Fleay a speedy recovery from a knee injury; we hope to see him out on the greens soon.

Twilight bowls have seen lots of keen new bowlers and it's been fantastic to see so much fun being had. Good luck to those competing in Country Week.

Time flies when you're having fun and there only a few pennant games left before finals. As well as a few *Championship events*:

BEVERLEY FOOTBALL CLUB

The Beverley football club is pleased to announce the appointment of Clint Rudd as our League Coach for the 2017 season! Clint joins us from the East Perth Football Club where he served in roles such as League Team Runner, Senior Assistant of the League Team and as the Forwards Coach and Reserves Coach for two seasons. We look

forward to Clint's contribution in this role and he is excited by the challenges and opportunities ahead.

The Beverley Football Club Social Committee requires the services of an enthusiastic Coordinator to manage and facilitate the operation of our Canteen for our seven home games in season 2017. The Social Committee acts as one of our Club's strongest resources and it is our wish with your valued assistance that this continues to be successful. Please contact Jezz Barrett-Lennard on 0417 966 249.

Pre-season football training is underway every Wednesday and Friday nights from 6pm at the town oval. Anyone is welcome to come down and join the club as we prep for the season ahead. We look forward to seeing new and current players on the track.

Fixtures for the coming season are being finalized over the coming weeks and will be available in the coming weeks. The club will again be hosting fish night this year. Dates and details will be available in the next Blarney notes.

2017 UPCOMING HOCKEY SEASON

The 2017 Hockey Season will be upon us before we know it! Now is the time to start thinking about whether you would like to join our team.

Everyone is welcome – experienced and beginners. Hockey is a fun sport, which is played either on a Friday night or Saturday (depending on venue). We compete in the Avon Association against York, Northam & Jennacubbine. Even if you have never played, why not give it a try, we teach you everything you need to know! The season start at the end of April/start of May until finals in August/September. Training will commence in March, dates to be confirmed.

If you are interested in playing hockey this year, please contact our Secretary Kelly Mann to express your interest or find out more information.

What is WIFE ?

The roles of women on farms are significant and varied. Professional support and training to fulfill all of these roles is often unavailable, because courses, can't usually offer what is required, or it is unattainable due to the distance and time needed to attend. This is where WIFE steps up.

WIFE's essence is to tap into the wealth of knowledge that is your neighbour, your friend, your friends friend, the lady up the road, the new girl in town or the wing attack on your local netball team and if the expert required isn't available locally they simply truck them in!

There is great benefit in discussing issues between local ladies, to help each other improve and excel in the many tasks we all take on within our farming enterprises. Meetings would often be in the form of organised discussions between local members. There would also be chances to run workshops and events with guest speakers or experts, if topics of interest are identified by the group.

Any queries or if you are interested but can't attend, call Kelly Mann 0428 779 234
