8. General Business

Written questions received - Nil.

Questions from the floor: (not recorded verbatim, summary only)

8.1 - B Thompson

Question/Comment: Regarding the Beverley RSL Sub Branch, there are no members left or willing to run the branch. I am attending a meeting on 13 December 2025 with a view to handing the keys in as I can no longer look after it myself. Would the Shire be willing to take it on?

Response: Advised to attend the meeting and see if RSL WA have any suggestions to increase membership or to find out what would happen to the building (ie would the RSL sell it, gift to the Shire etc). The Shire could possibly manage bookings for the hall like they do the Amenities and Town Hall. The CEO has groups looking for places to hold meetings.

8.2 – M Whitney

Question/Comment: When will the swimming pool open and why has it been delayed?

Response: As it currently stands the pool will not open for the 25/26 season. Council is very disappointed with this outcome but do not have any confidence in selecting a date as the contractor has changed it three times already (16 October, 1 January and 26 January). Council is confident that when it does reopen, the community will be pleasantly surprised and should agree that it was worth the wait. The reasons for the delay: there was a delay in the supply of the pool liner which was a critical component, this has had a knock-on effect to the rest of the project. Also waiting for a power upgrade as there will be three pumps running instead of one.

8.3 - G Petchell

Question/Comment: Thank you for putting up the "Pedestrians Give Way to Vehicles" signage on Vincent Street.

Response: Noted

8.4 - G Petchell

Question/Comment: Why do we still not have any Christmas decorations? Every other regional town around has them, we have an upgraded street with no festive atmosphere. The Shire is very good at completing large projects but has forgotten about smaller things such as local events, decorations and the cemeteries, which are not looked after well. I believe the Community considers these just as important.

Response: The Shire has completed power upgrades in the gardens to allow decorations to be installed. At the last budget the decorations were not a priority due to the swimming pool project. Councillors and staff met with a company at the WALGA Convention that hire or sell decorations, the cost is approximately \$30,000.00. We also need to consider the quality and where we will store them. The order needs to be made almost 12 months in advance. Council will consider an appropriate budget allocation in the next budget.

8.5 - J Rayner

Question/Comment: The Community needs to start getting involved if they want decorations and activities. There was a business group that used to organise a Christmas Party in the main street and it was fantastic.

Response: The Beverley Station Arts do a Christmas Concert free to all the Community which the Shire supports. It would also be helpful if the businesses established a Chamber of Commerce to work together.

8.6 – K Murray

Question/Comment: What happened to the Business Group?

Response: We believe it went by the wayside.

8.7 – M Whitney

Question/Comment: regarding the Beverley Airshow, where will everyone park?

Response: The Airshow Committee have identified locations along Tip Road that will accommodate up to 3000 cars. The Shire works team will make these areas suitable for cars. The Shire is hoping to attract up to 10,000 patrons to the Airshow. The Committee, which includes the Beverley Soaring Society, have been working tirelessly to make this event successful.

8.8 **– K Murray**

Question/Comment: Is the Shire looking ahead or planning for housing land? The town needs to grow to retain services, including collecting more rates to be viable.

Response: Yes, the community consultation that took place for our Beverley 2035 rPPP grant funding will address this if our planning application is successful. It also includes an Intergenerational Centre for seniors and increasing Child Care opportunities. It would be great to utilise the Nurses Quarters. If Council doesn't get

the money, it will have to tackle each project individually, which of course will take longer.

The Shire is currently in the process of subdividing 12 blocks behind Hunt Road Village. The Shire intends to build 4 houses for workers accommodation which will leave 8 blocks available to be developed. The Shire is submitting a funding application to the State Government to build the four houses as we are shovel ready.

8.9 - J Rayner

Question/Comment: regarding the Nurses Quarters, what is happening? The outside lights are on very brightly every night and nothing is in there, it seems a waste. The men have a Mens Shed but what is there for women? This building could be in use.

Response: The Department of Planning Lands and Heritage are presenting the Draft Assessment to the State Heritage Council next week. The Community Health Survey conducted earlier in the year indicated that there needs to be a return of a place to hold HACC outings, of which Zoe Lear (WACHS) has been supportive of.

This led to a group discussion that perhaps the RSL could be a venue for HACC and Women's meetings (of various nature) and the potential opportunity to keep the RSL building functional.

8.10 – M Whitney (Appreciation)

On behalf of the Community, Mrs Whitney thanked the Shire of Beverley Staff and Councillors for their efforts over the last 12 months.

9. Meeting Closure

The Shire President concluded by encouraging Community Members to read the President's Report, CEO Report and the 2025/26 Key Strategic Activities in the 24/25 Annual Report for further information on Shire achievements and future projects.

As there were no further questions, the Shire President thanked everyone for their attendance and declared the meeting closed at 6:21pm.

STATUTORY ENVIRONMENT

Local Government Act 1995:

- 3.57 Tenders for providing goods or services
 - (1) A local government is required to invite tenders before it enters into a contract of a prescribed kind under which another person is to supply goods or services.
 - (2) Regulations may make provision about tenders.

Local Government Act (Functions and General) Regulations 1996, Division 2 — Tenders for providing goods or services (s. 3.57):

- (1) Tenders are to be publicly invited according to the requirements of this Division before a local government enters into a contract for another person to supply goods or services if the consideration under the contract is, or is expected to be, more, or worth more, than \$250 000 unless subregulation (2) states otherwise.
- (2) Tenders do not have to be publicly invited according to the requirements of this Division if
 - (a) the supply of the goods or services is to be obtained from expenditure authorised in an emergency under section 6.8(1)(c) of the Act; or
 - (aa) the supply of the goods or services is associated with a state of emergency or a COVID-19 declaration; or
 - (b) the supply of the goods or services is to be obtained through the WALGA Preferred Supplier Program; or
- 20. Variation of requirements before entry into contract
 - (1) If, after it has invited tenders for the supply of goods or services and chosen a successful tenderer but before it has entered into a contract for the supply of the goods or services required, the local government wishes to make a

minor variation in the goods or services required, it may, without again inviting tenders, enter into a contract with the chosen tenderer for the supply of the varied requirement subject to such variations in the tender as may be agreed with the tenderer.

- (2) If
 - (a) the chosen tenderer is unable or unwilling to enter into a contract to supply the varied requirement; or
 - (b) the local government and the chosen tenderer cannot agree on any other variation to be included in the contract as a result of the varied requirement,

that tenderer ceases to be the chosen tenderer and the local government may, instead of again inviting tenders, choose the tenderer, if any, whose tender the local government considered it would be the next most advantageous to it to accept.

(3) In subregulation (1) —

minor variation means a variation that the local government is satisfied is minor having regard to the total goods or services that tenderers were invited to supply.

21A. Varying a contract for the supply of goods or services

If a local government has entered into a contract for the supply of goods or services with a successful tenderer, the contract must not be varied unless —

- (a) the variation is necessary in order for the goods or services to be supplied and does not change the scope of the contract; or
- (b) the variation is a renewal or extension of the term of the contract as described in regulation 11(2)(j), (ja) or (jb).

FINANCIAL IMPLICATIONS

There is an allocation in the 2025/26 budget to purchase a new tandem truck for \$212,000.00 less a trade of \$60,000.00 being the changeover cost of \$152,000.00.

The shortfall of \$59,162.00 for this truck can be made up from the savings of other plant purchases and holding off replacing the turf tractor. The turf tractor is only used on the oval and can be deferred; it has 1,831 hours on it.

OFFICER'S RECOMMENDATION

That Council resolve to recommend to the Western Australian Planning Commission that application WAPC No. 202558 for the subdivision of 28 (Lot 3) Edwards Street, Beverley, be supported subject to the following conditions and advice notes:

Conditions:

- 1. A notification, pursuant to Section 70A of the *Transfer of Land Act 1893* is to be placed on the certificates of title of the proposed lots. Notice of this notification is to be included on the diagram or plan of survey (deposited plan). The notification is to state as follows:
 - "A reticulated sewerage service is not available to the lots. As such, an on-site secondary treatment and disposal system for sewage will be required. Therefore, the developable area of the lot is reduced. There are ongoing landowner obligations to ensure that the treatment and disposal system is regularly maintained in accordance with relevant health regulations. Contact the local government for further information."
- 2. Prior to the commencement of subdivisional works, the landowner/ applicant is to provide a site and soil evaluation to determine the type of on-site sewage treatment system required and the appropriate location for on-site sewage disposal.
- 3. The land being filled, stabilised, drained and/or graded as required to ensure that:
 - a) lots can accommodate their intended development; and
 - b) finished ground levels at the boundaries of the lot(s) the subject of this approval match or otherwise coordinate with the existing and/or proposed finished ground levels of the land abutting; and
 - c) stormwater is contained on-site, or appropriately treated and connected to the local drainage system.
- Suitable arrangements being made with the local government for the provision of vehicular crossovers to service the lots shown on the approved plan of subdivision.

Advice Note

- 1. The Commission's approval should not be construed as an approval for development on any of the lots proposed.
- 2. The size and location of sewage disposal areas are to be consistent with Government Sewerage Policy. Best practice is provided in AS/NZS 1547:2012 On-site domestic wastewater management

Dear Assessing Officer,

RE: PROPOSED SUBDIVISION - 28 EDWARDS STREET, BEVERLEY

This application is to subdivide Lot 3 on Diagram 26872 into two green title lots. The property is zoned R10/25 and we have applied the R10 coding to this application. The proposal meets the subdivision requirements for 1000m² average lot areas as the parent lot is 2026m². We are proposing a battleaxe configuration with proposed Lot 301 to be 954m² and proposed Lot 302 to be 1073m² with an effective area of 876m².

Water Corporation:

Edwards Street does not have access to a reticulated sewerage service therefore on-site sewage disposal will be required. A 70A notification will be placed on the Certificate of Title to advise future owners of the lots that there is no reticulated sewerage and an alternative method of sewage disposal will be required. A Site Soil Evaluation has been provided with this application.

Both lots will have direct water connections to the water main which is in Edwards Street.

Based on this, the lot meets standard Water Corporation servicing requirements for subdivision.

Western Power:

An application will be made for a new underground power supply to service the lots. The existing dwelling will be converted from overhead to underground power per Western Power requirements.

Based on this, the lot meets standard Western Power servicing requirements for subdivision.

Local Government:

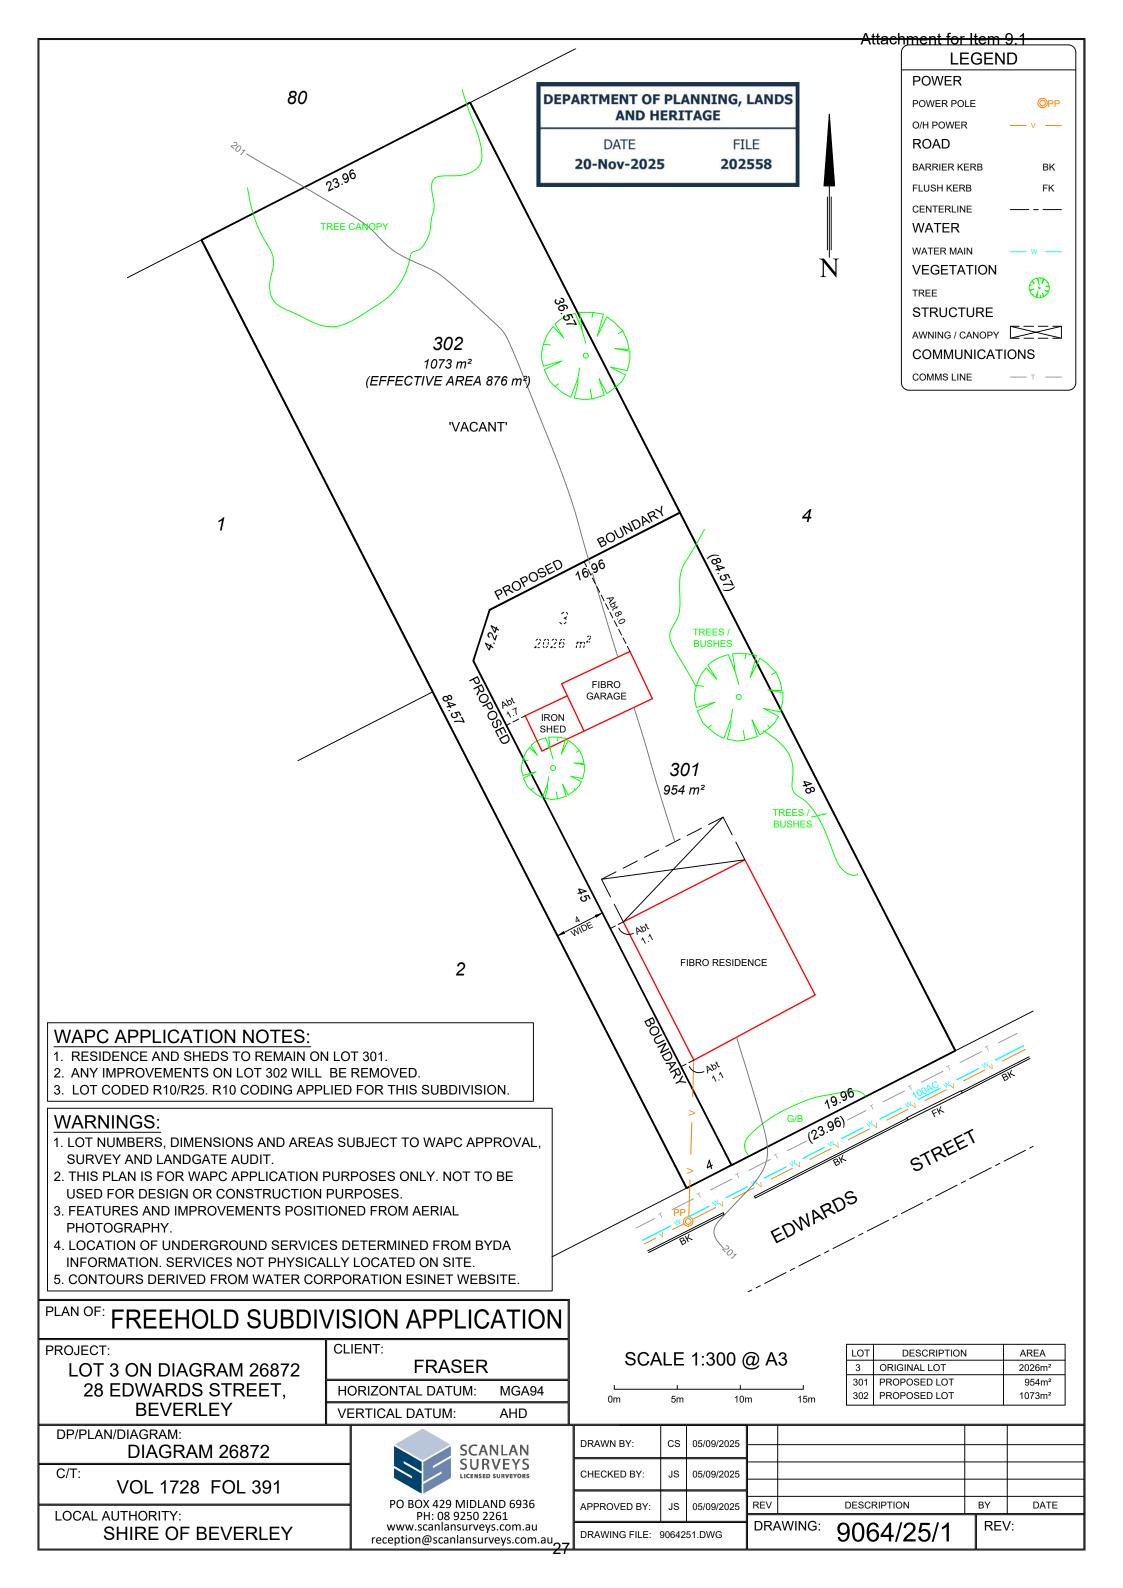

The existing residence and sheds are to be retained. Any structures and materials on proposed Lot 302 will be cleared. We understand this will be a standard condition on the list of conditions.

Please could our office be contacted with a list of draft conditions for review prior to determination.

If you have any queries, don't hesitate to contact our office.

Yours sincerely,

1.2 Report Summary

Structerre Consulting (Structerre) has been engaged to undertake a Site-and-Soil Evaluation (SSE) for 2 lot subdivision of approximately 2,026m² at Lot 4 (#28) Edward Street, Beverley WA comprising of:

- Lot 1 Existing residence to remain (970m²)
- Lot 2 Proposed 5 bedroom residence (1,056m²)

This report details an onsite sewage management system and is to accompany an application to install an Onsite Sewage System and submitted to the Shire of Beverley. This document provides information about the site and soil conditions. It also provides a detailed SSE for a 2,026m² Lot and includes a conceptual design for a suitable onsite sewage management system, including recommendations for monitoring and management requirements. As sufficient land area is available for effluent disposal, the recommendations of these findings are as follows:

Findings of site investigation:

- In accordance with PlanWA online mapping the subject site is NOT located within a sewage sensitive area (refer to Table 2).
- The site is NOT inside a public drinking water source area as per Public drinking water source areas (PDWSA) online mapping (refer to Table 2).
- In accordance with Water Corp. mapping, there are NO natural waterways that effect the Lot (refer to Table 2).
- Overall site slope calculated at <10% (refer to Table 2).
- The Lot is NOT affected by the 1%AEP Floodplain, in accordance with Western Australia Floodplain Mapping (Department of Water and Environmental Regulation) (refer to Table 2).
- There are no records or evidence of the 10%AEP surface inundation floodplain effecting the subject lot.
- The Perth Groundwater Atlas (Waters & Rivers Commission) has NO records for this Lot. Ground water was NOT encountered at 0.9m depth below ground level during site investigations conducted on 11.08.2025.
- Soil permeability has been carried out using Constant Head method in accordance with AS1547. An average daily permeability rate of 0.37m/day (refer to Table 4).
- The Department of Primary Industries and Regional Development (DPIRD) indicates a Phosphorus Export Hazard of 3 10% (high to extreme). Phosphorus Retention Index (PRI) testing has been carried out by an independent soil testing laboratory, resulting in a PRI range of 0.9 to 1.9 (refer to Table 2).

Based on the results of the site and soil assessment the proposed sewage system is able to be designed and installed to satisfactory meet the requirements of AS1547 and the Health Regulations 1974 (treatment of Sewage and Disposal of Effluent and Liquid Waste).

- To the proposed development, provide a secondary level treatment wastewater system with nutrient removal capabilities that discharges treated sewage with phosphorus and nitrogen concentrations of less than 1mg/L and 10mg/L respectively by a suitable Department of Health (DoH) approved treatment system. The effluent to be applied t Land Application Area (LAA) with a minimum area of 257m².
- The septic system for the existing residence on proposed Lot 1 shall remain operational and in place. 3. Site and Soil Assessment

3.1 Site Assessment

Structerre Consulting undertook the site investigation on 11.08.2025.

The assessment of the suitability of this site to retain on-site sewage and the recommendations in this report are based on on-site investigations and desktop study of available geological and topographic published sources relevant to the lot.

On-site investigation of the site including visual inspection, borehole sampling, percolation testing and soil identification. The desktop study involved the review of publically available publications from various government agencies relating to the geological setting, water table monitoring and topography of the site.

Based on the results of the site and soil assessment, the proposed sewage system is able to be designed and installed to satisfactorily meet the requirements of AS 1547 and the Health Regulations 1974 (treatment of Sewage and Disposal of Effluent and Liquid Waste) and Government Sewerage Policy 2019 requirements.

SITE KEY FEATURES

Table 2 summarises the key features of the site in relation to effluent management proposed for the site.

NOTE:

- The site is NOT in a sewage sensitive area as per PlanWA online mapping.
- There are NO Private bores within property.
- The site is NOT in a public drinking water source area as per Public drinking water source areas (PDWSA) online mapping.
- The Lot is NOT affected by the 1%AEP Floodplain as per online mapping.
- There are NO natural waterways that effect the Lot.
- The risk of effluent transport offsite is low.

Phosphorus Retention

The Department of Primary Industries and Regional Development (DPIRD) indicates a Phosphorus Export Hazard of 3-10% (high to extreme). The Phosphorus Retention Index (PRI) provides a unit of measurement that indicates the soils' ability to retain phosphorus. Based on Department of Water and Environment Regulation soil with a PRI <5 has a low/very low capacity to retain phosphorus.

Independent PRI testing has been carried out by CSBP Soil and Plant Analysis laboratory, resulting in a soil PRI range of 0.9 to 1.9. The following interpretation of PRI risk analysis is based on published papers from the Department of Water and Environment Regulation and Chem Centre Government of Western Australia.

3.2 Soil Assessment

A Geotechnical Site investigation was conducted across 2 x locations on 11.08.2025. A soil retrieval probe was used to sample the soil by bore holes up to 0.9m in depth. Constant Head permeability testing was carried out as per AS1547:2012. This was sufficient to adequately characterise the soils expected throughout the area of interest. Soil profile description for the boreholes are provided in the appendix. The site geotechnical assessment and percolation test results are consistent with soil permeability Category 4: Clay Loams – Weakly Structured as per AS1547-2012. Table 3 below provides as assessment of the characteristic of boreholes nearest to the proposed LAA. All supporting logs and documentation can be found in the appendix of this report.

4.2 Land Application System

Description of the effluent disposal system.

Effluent disposal systems shall be approved by the Department of Health for the application.

Sizing the disposal system

Sized, according for disposal of the calculated daily hydraulic load, the soil classification and quality of effluent being disposed.

- Estimated Daily Hydraulic Load
 - o 5 bedroom residence maximum 6 residents
 - Totalling 900L/day Hydraulic Load (from Health (Treatment of Sewage and Disposal of Effluent and Liquid Waste)1974)
- Soil Classification Category 4: Clay Loams Weakly Structured as per AS1547.
- Design Loading Rate (DLR) 20 for secondary treatment system.

Land Application Area (LAA) in accordance with Government Sewage Policy 2019 Table 2:

Secondary Wastewater Treatment System

Secondary treatment for Soil Category 4 – Clay Loams = 0.286

- = Hydraulic Loading x Secondary Treated Conversion Factor
- $= 900 \times 0.286$
- $= 257m^2$

Sizing of Leach Drains

The required total length of leach drain required is calculated on the approved filtrative area (m2/m) of the selected leach drain.

Approved DS Water Management Flatbed Leach Drain with a filtrative area 2.4m²/m.

Length of Leach Drain = L/day / DLR / IA

Where:

L/Day = 900 (daily hydraulic load)

DIR = 20

IA = Infiltration area for approved leach drain section

Length of Leach Drain = $L/day / DLR / IA (2.4m^2/m)$

= 900 / 20 / 2.4

= 18.75m

19m provided 2 x 9.5m Inverted Flatbed Leach Drains.

Note: Application for the new effluent system is to be sized in accordance with current governing regulations.

The property owner/developer has the responsibility for the final selection of the secondary treatment system and will include the details of it in the Onsite sewage system Approval to Install application form for Local Government approval.

Siting and configuration of the proposed disposal system

The effluent disposal system shall be located in a designated area to enhance evapotranspiration and its amenity and shall:

- Not be used for purposes that compromise the effectiveness of the system or access for future maintenance purposes.
- Be used only for effluent application.
- Have boundaries clearly delineated by appropriate vegetation or other type of border.
- Have no run-off or seepage of effluent beyond the designated area.

Buffer distances

Setback buffer distances from effluent land application areas and treatment systems are required to help prevent human contact, maintain public amenity and protect sensitive environments. The relevant buffer distances for this site are:

- The disposal system should maintain minimum horizontal setbacks of:
 - o 100m from high water mark of a reservoir or any bore used for public drinking, reservoir, waterways, significant wetlands and not within a waterway foreshore area or wetland buffer (the separation distance is to be measured from of riparian or wetland vegetation).
 - o 30m from potable private bore intended for consumption.
 - 1.8m downslope from property boundaries (may be dependent on local authority guidelines)
 - 1.2m from driveways and paved surfaces
 - o 6.0m from any stormwater drainage systems
 - 1.8m from building footings
- 0.6m vertical separation from the discharge point of the effluent disposal system.
- On completion of the proposed disposal area, appropriate landscaping should be undertaken (i.e. planting of shallow rooted grasses / shrubs).

Installation of the disposal system.

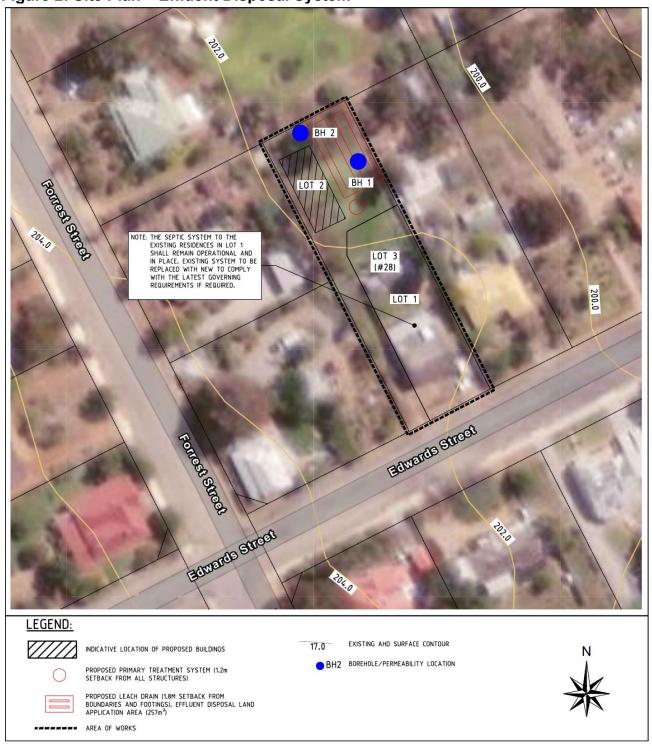

Installation of the disposal system must be carried out by a suitably qualified and licensed plumber or drainer experienced with onsite sewage disposal systems. Figure 2 shows the preliminary siting of the proposed wastewater disposal system in line with the required setbacks. This plan may differ based on the final number of occupants per building, dwelling location and any other intended developments on site.

5. Stormwater Management

The Land Application areas for the proposed Lot is located on the elevated section of the Lots, therefore Stormwater run-off is not expected to be a concern. It is expected that run-off from the developed site will be managed and maintained within the Lot.

Stormwater works to be designed to the Shire of Beverley requirements and approvals, with proposed criteria of 1 in 20-year ARI 5 minute duration event (subject to council approval) for proposed the development.

Note: Design of the stormwater drainage done by others.

6. Monitoring, Operation and Maintenance

Maintenance is to be carried out in accordance with the manufacturers instructions and to AS/NZS 1547-2012 Section 6, Appendix T & U. The treatment system will only function adequately if appropriately and regularly maintained.

To ensure the treatment system functions adequately, residents must:

- Scrape dishes and remove fats and solids before washing.
- Not dispose solids, sanitary napkins and other hygine products in the system.
- Not use a food waste disposal unit.
- Use household cleaning products that are suitable for ATU system.
- Keep as much fat and oil out of the system as possible.
- Conserve water (AAA rated fixtures and appliances are recommended).

To maintain adequate performance of the system, residents must ensure:

- Tanks and biosolids settling vessels undergo regular pump-out by licensed waste contractors to remove accumulated sediment.
- No structures and/or paths are constructed over the LAA, vehicles avoid access to the LAA to prevent damage.
- ATUs to undergo maintenance servicing by a provider approved by the Department of Health at minimum three-monthly intervals.

7. Conclusions

As a result of our investigations we conclude that a sustainable onsite sewage management system can be installed to meet the needs of Lot 3 (#28) Edward St, Beverley. Specifically, we recommend the following:

- The site is not in a sewage sensitive area as per PlanWA online mapping.
- For the proposed development, provide Secondary Treated Effluent system with nutrient removal capabilities that discharges treated sewage with phosphorus and nitrogen concentrations of less than 1mg/L and 10mg/L respetively, by a suitable DOHapproved treatment system of volume required for final calculated daily hydraulic load.
- The base of the Land Application Area (LAA) shall maintain a minimum of 0.6m vertical separation to the maximum recorded ground water level.
- Minimum 500mm of coarse free draining sand to be provided below effluent disposal system discharge point.
- The Perth Groundwater Atlas (Waters & Rivers Commission) has no records for this site. Seasonal ground/perched water was not encountered at 0.9m depth below ground level during site investigations conducted on 11.08.2025.
- The Soil Category for this lot is classified as "Category 4: Clay Loams Weakly Structured as per AS1547-2012".
- Positioning of LAA to be minimum 100m from adjacent waterways at all times.
- Operation and management of the treatment and disposal system in accordance with the manufacturers instructions and to AS/NZS 1547, the DOH Approval and the recommendations made in this report.

OFFICER'S RECOMMENDATION

That Council resolve to recommend to the Western Australian Planning Commission that application WAPC No. 202578 for the subdivision of lot 502 De Lisle Street, Beverley, be supported subject to the following conditions and advice notes:

Conditions:

- A notification, pursuant to Section 70A of the *Transfer of Land Act 1893* is to be placed on the certificates of title of the proposed lots. Notice of this notification is to be included on the diagram or plan of survey (deposited plan). The notification is to state as follows:
 - "A reticulated sewerage service is not available to the lots. As such, an on-site secondary treatment and disposal system for sewage will be required. Therefore, the developable area of the lot is reduced. There are ongoing landowner obligations to ensure that the treatment and disposal system is regularly maintained in accordance with relevant health regulations. Contact the local government for further information."
- 2. The land being filled, stabilised, drained and/or graded as required to ensure that:
 - a) lots can accommodate their intended development; and
 - b) finished ground levels at the boundaries of the lot(s) the subject of this approval match or otherwise coordinate with the existing and/or proposed finished ground levels of the land abutting; and
 - c) stormwater is contained on-site or appropriately treated and connected to the local drainage system.
- Suitable arrangements being made with the local government for the provision of vehicular crossovers to service the lots shown on the approved plan of subdivision.

Advice Note

- 1. The Commission's approval should not be construed as an approval for development on any of the lots proposed.
- The size and location of sewage disposal areas are to be consistent with Government Sewerage Policy.

Dear Sir or Madam,

Re: Proposed 3 Lot Greentitle Subdivision, Lot 502 Delisle St Beverely Additional information

Thank you for considering this application for subdivision. Please note that a soil evaluation has not been carried out as this lot already contains a notification on the title which can be carried forward stating that reticulated sewerage services is not available to the lots. This notification was a condition of a previous subdivision completed (WAPC approval Ref 152984).

This is an industrial subdivision which Brook and Marsh have been involved in since 2010 when Landcorp (now known as Development WA) were completing the industrial subdivision. I would appreciate it if you would waive the need for additional soil reports for onsite sewer disposal in this instance.

Additionally, we have not submitted a bushfire management plan in support of the application. This area is ruled general industrial with no increase proposed in any residential density and there is no restriction of vehicular ingress or egress in the event of emergency.

I am happy to provide any further information required and hope this letter provides sufficient explanation for absences of reports.

Yours faithfully

Kelly Lloyd Manager

9.3 Development Application: Home Store & Signage – 52 (Lot 138) Brooking Street, Beverley

Submission To: Ordinary Council Meeting 17 December 2025

Report Date: 9 December 2025

Applicant: Uta Utber File Reference: BRO 491

Author and Position: Stefan de Beer, Manager of Planning

Previously Before Council: No Disclosure(s) Of Interest: None

Attachments: Locality Map, Proposal Description and Site Plan

SUMMARY

An application was received for development approval for a *Home Store* at 52 (Lot 138) Brooking Street. The application will be recommended for approval.

BACKGROUND

The subject site is located at 52 (Lot 138) Brooking Street, Beverley, is 1.4113 ha in extent and zoned *Residential R5* pursuant to the *Shire of Beverley Local Planning Scheme No.* 3 (LPS3). It contains an existing Single House and Outbuildings. An application for a *Rural Pursuit (keeping of two horses)* was approved on the subject property by Council on 23 June 2020.

The applicant proposes to conduct a *Home Store* land use on the property for purposes of selling equestrian related merchandise – please refer to submitted application documentation.

A *Home Store* land use is an 'A' use as per Zoning Table 3 in LPS3, which means that the use is not permitted unless the local government has exercised its discretion by granting development approval after giving notice in accordance with clause 64 of the deemed provisions.

COMMENT

Pursuant to LPS3, a *Home Store* land use is defined as follows:

means a shop attached to a dwelling that —

- (a) has a net lettable area not exceeding 100 m²; and
- (b) is operated by a person residing in the dwelling.

It is considered that the proposal accords with the aims of LPS3 as long as it strictly keeps within the parameters of the definition of a *Home Store* as per LPS3. Should Council resolve to approve the application this will be recommended be made a Condition of Planning Approval. It will also be recommended that all customer parking be on-site only, and not on the street verge as proposed. Approval will be recommended be made applicant specific and not transferable to future owners of the lot.

It is not considered that the proposed use and signage will have any negative effect on the amenity of the surrounds and will be recommended for approval.

PUBLIC NOTIFICATION

The application was advertised to neighbours considered by the Shire Planner to be affected by the proposal. See table below:

Application - Approval to operate a Home Store at 52 Brooking Street, Beverley WA 6304.

I wish to submit an application to operate a Home Store from 52 Brooking Street under the Shire of Beverley Local Planning Scheme No. 3 – Part 3 (Zones and Use of Land) Dot point 17 (Zoning table).

USE AND DEVELOPMENT CLASS	Residential	Rural Residential	Rural Smallholdings	Rural	Rural Townsite	Light Industry	General Industry

Site Plan:

A Site Plan is attached to this application showing the areas that is proposed for the Home Store. On that plan is the location of the section of primary residence to be used as the Home Store and square metres of the room to be used. Also on the plan is the parking areas both off street and verge area (which is quite substantial also gets used during funerals being held at the cemetery opposite this area) identifying the square metres of available space.

Fenced along the driveway into the property to prevent the public from crossing over the grass area. Entry to the Home store at entrance of the veranda facing south/south east.

Home Store:

The Home Store proposal is based on the following:

- To open during weekends
- Between hours of 9am to 2pm
- Stock will comprise of Horse items some tack, horse health items, farrier equipment and country clothing for people as well some gift ware.

The area identified to accommodate the Home Store can be separated from the remainder of the dwelling by locking the adjoining door which restricts access to the private area of the residence. There is separate air conditioning and heating. All of this identifies it as the ideal location for this venture.

I have determined from research that, currently, in Beverley there are no shops available to rent that would be viable for me with the current situation of this proposal.

I believe there is a need for this type of business in Beverley and surrounding areas due to the amount of people with an interest in horses and horse activities within the district and would like to be able to offer the above mentioned at a local level. The products I hope to stock are WA produced and owned with some from the Eastern States.

9.4 Proposed Transfer of Land under the South West Native Title Settlement

Submission To: Ordinary Council Meeting 17 December 2025

Report Date: 9 December 2025

Applicant: Department of Planning, Lands and Heritage

File Reference: ADM 0011

Author and Position: Stefan de Beer, Manager of Planning

Previously Before Council: No Disclosure(s) Of Interest: Nil

Attachments: Land List Matrix with Proposed Referee Comments

SUMMARY

A request for comments has been received from the *Department of Planning, Lands and Heritage* (DPLH) regarding the transfer of land associated with the South West Native Title Settlement (Settlement). Staff comments have been provided which requires Council's consideration.

BACKGROUND

The following is an extract from an email received from Elise Wells, State Land Officer at the DPLH:

Background:

The South West Native Title Settlement (Settlement) is a landmark native title agreement reached between the State Government (State) and the six Noongar Agreement Groups. The Settlement is comprised of six Indigenous Land Use Agreements (ILUAs) that provide for a broad range of commitments to be delivered by the State Government to the Noongar Regional Corporations and the Trustee for the Noongar Boodja Trust (Trustee).

The Settlement recognises the Agreement Groups as the Traditional Owners of the south west of Western Australia, while resolving native title in exchange for a negotiated package of benefits. The area subject to the Settlement is depicted in the attached map.

The cornerstone commitment under the six ILUAs is the Noongar Land Estate, which will be a vast and diverse land holding. It will comprise:

- up to 300,000 hectares transferred in reserve or leasehold; and
- up to 20,000 hectares transferred in freehold.

All land will be held by a centralised Landholding Body, being the Noongar Boodja Land Sub Pty Ltd (Land Sub), a wholly owned subsidiary of the Trustee. The Trustee works consultatively with the Noongar Regional Corporations in determining land for possible inclusion in the Noongar Land Estate, including the preferred tenure of the land and the use / management / development of the land into the future. All land will be used and managed in line with Noongar cultural, social and economic aspirations for the benefit of generations to come.

Work to deliver the Noongar Land Estate commenced in March 2021, and a five year implementation timeframe applies.

Current Situation:

As the Noongar Land Estate will be predominantly drawn from the pool of unallocated Crown land (UCL) and unmanaged reserves (UMR), the Minister for Lands is responsible for delivering this outcome on behalf of the broader State Government. The Department of Planning, Lands and Heritage (Department) is the State Agency principally assisting the Minister for Lands. An agreed process for delivering the Noongar Land Estate was committed under the six ILUAs, being the Noongar Land Base Strategy (Strategy) at Annexure J to the ILUAs. Per the Strategy, the Department works in partnership with the Trustee to progress these significant land tenure outcomes.

Please be advised: land under management order, or owned in freehold, by a State Agency, service provider or local government can be included in the Noongar Land Estate at the discretion of the management body / landowner.

Referral details:

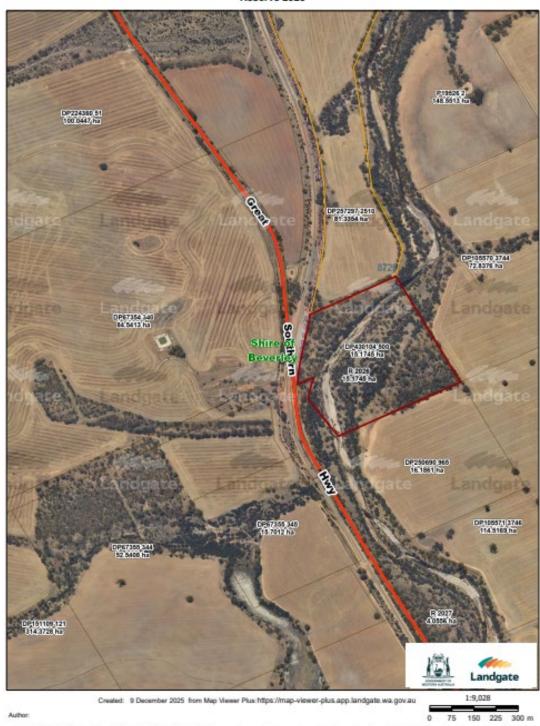

The Department works in accordance with the Land Administration Act 1997 (LAA), including the requirement under section 14 to consult with local governments. To that end, please find attached a spreadsheet comprising of land parcels identified for possible transfer, including detail of the tenure selected by the Trustee.

Please provide comments on each of the land parcels directly into the column labelled 'Referee Comments' in relation to the following:

- 1. Is the Shire supportive of the transfer of this land to the Noongar People under the Settlement?
- 2. Does the Shire have any interest in the land?
- 3. Does the Shire have existing or planned infrastructure within the land parcel that requires protection? If yes, please provide details and advise if access to this infrastructure will need to be maintained.
- 4. Is the land parcel subject to any mandatory connection to services?
- 5. Are any future proposals for the land identified? Please provide detail of what is proposed and in what timeframe?
- 6. Are there any future proposals for adjoining land that may affect the land identified in the spreadsheet? If so, in what timeframe?
- 7. Please advise of any proposed planning scheme amendments that may affect the zoning of this land at a State or Local government level. If a scheme amendment is to occur, what is the change proposed and when will it come into effect?
- 8. Please advise of any known land management issues such as site contamination, hazards, debris or rubbish dumping, unauthorised land use and environmental considerations (such as inundation or similar site constraints).
- 9. Please provide any additional comments on the proposed transfer of this land as part of the Settlement.

THE SUBJECT LAND:

Reserve 2026

COMMENT

Shire Planner assessed the land portion and have provided comments in the attached matrix for Council to consider. The Shire of Beverley recently requested the DPLH to extinguish the Management Order that the Shire held over the subject land. Subsequent planning and investigations by consultants for the Beverley-Narrogin Transport Trail however revealed that this Reserve might be required to accommodate a section of the proposed trail.

Council to note the following:

- Responses in the 'Referee Comments' cell in the matrix followed the convention required above, i.e. questions 1 – 9.

No consultation was deemed required as consultation is being done by the DPLH.

11.3 Determination of Meeting Attendance Fee for Independent Members

Submission To: Ordinary Council Meeting 17 December 2025

Report Date: 10 December 2025 Applicant: Shire of Beverley

SUMMARY

Council to determine the attendance fee, per meeting, for an Independent Committee member.

BACKGROUND

The Local Government Amendment Act 2024 (the Amendment Act) which amends the Local Government Act 1995 (the Act) to advance various reforms, advises Audit, Risk and Improvement Committees (ARIC's) are to be chaired by an independent person. This reform was assented in December 2024 and is expected to be commenced before the end of 2025.

"Audit committees will be revised as audit, risk and improvement committees (ARICs) and must have an independent presiding member to ensure a level of neutrality and impartial oversight in chairing these meetings. An independent presiding member must be a person who is not a council member of any local government or an employee of the local government. If a deputy presiding member is appointed, they must also be independent.

The introduction of an independent presiding member provides an opportunity for increased community confidence in a local government's financial and risk management. There may also be benefit to the local government through appointing an independent presiding member with risk and financial management expertise that may otherwise be unavailable.

This reform reflects modern governance practices in State Government authorities and agencies as well as private corporations.

Under the current provisions of the Act, an audit committee is required to be established comprising of 3 or more persons appointed by an absolute majority decision of the local government. The majority of the members must be council members. The CEO or a local government employee cannot be a member."

Audit, risk and improvement committee model

The Act provides for the following distinct committee member roles:

 Presiding Member — responsible for facilitating and chairing committee meetings (section 5.12).

Under section 87 of the Amendment Act, a local government will be required to appoint an independent person as presiding member of the ARIC.

Expressions of Interest (EOI) advertising for the position of an Independent Presiding Member for the Audit, Risk and Improvement Committee (ARIC) will take place in January 2026. The meeting attendance fee will need to be set prior.

COMMENT

The ARIC will meet at least twice a year with the selected presiding member required to run the meeting, meet with the auditors, review relevant meeting documentation and liaise with Shire Staff and Council.

The fee is bound by the *Salaries And Allowances Act 1975*, Determination of the Salaries and Allowances Tribunal for Local Government Chief Executive Officers and Elected Council Members, Pursuant to Section 7A and 7B which allows up to \$450 per meeting.

It will be recommended an attendance fee of \$250.00 per meeting be set.

	ADOPTED POLICY
Title:	RATES RECOVERY
Objective:	To collect all rates, annual charges and user charges due to Council in an efficient and effective manner. This policy is also to ensure that ratepayers who do not meet their obligations to Council will be treated in a fair and consistent manner by providing firm guidelines for the Rates Officer to follow.

Policy

Council authorises the Chief Executive Officer to make arrangements with ratepayers to clear debts and further Council authorises the Chief Executive Officer to take appropriate action to recover overdue Rates and Charges, ensuring the most cost effective method is used.

There will be no general distinction made for pensioners or any class of ratepayer, with each case being individually dealt with according to the circumstances. Council is aware that at different times ratepayers may experience genuine hardship in meeting rate payments and upon application suitable arrangements for the payment of rates will be considered.

The Shire of Beverley levies rates on an annual basis, with some exceptions. In accordance with legislation the ratepayer is given a minimum of 35 days, from the date of issue, to pay their rates. After this date, if an instalment option has not been chosen, rates are considered overdue and in arrears. Arrears are subject to a penalty interest, calculated daily.

- Where rates remain outstanding 14 days after the due date shown on the Rate Notice and the ratepayer has NOT elected to pay by the 4-instalment option, an Overdue Notice shall be issued requesting full payment within 7 days.
- Where rates still remain outstanding after the 7 days, a Final Notice shall be issued requesting immediate payment.
- Rates remaining unpaid after the expiry date on the Final Notice will be examined for the purpose of issuing a Notice of Intention to Summons.

- Where a payment still remains outstanding, despite the issue of a Notice of Summons, and the ratepayer has not entered into a payment arrangement a Claim (Summons) will be issued for recovery, provided the debt is greater than \$1,000.
- Where a Claim has been issued and remains unsatisfied, action will be taken to pursue that Claim by a Collection agency to secure payment of the debt.
- Following the issue of a Claim and addition of legal costs, a reasonable offer to discharge a rate account will
 not be refused.
- Payments by Special Arrangement' instalments will be calculated so that the minimum repayment will
 clear, or substantially reduce, the balance owing by the end of the current financial year, with a
 minimum repayment of \$50/week. A new arrangement must be entered into each financial year.
- Failure to adhere to a payment arrangement that has been put in place will result in legal action for recovery of unpaid rates and charges.
- Legal proceedings will continue until payment of rates imposed is secured. This includes the issue of a Property Seizure and Sale Order (PSSO) against goods and land if necessary.
- If a Property Seizure and Sale Order (PSSO) against land is proposed, to collect outstanding rates due, on a property where the **owner resides**, approval of Council shall be obtained before the PSSO is lodged.
- PSSO's against land will be used to collect outstanding amounts in respect to investment properties without a requirement that these be referred to Council.
- In cases where the owner of a leased or rented property, on which rates are outstanding, cannot be located, or refuses to settle rates owed, notice will be served on the lessee or tenant under the provisions of section 6.60 of the Local Government Act 1995, requiring the lessee or tenant to pay to Council the rent due under the lease/tenancy agreement as it becomes due, until the amount in arrears has been fully paid.
- Where the owner is registered for a pensioner rebate on rates and ESL (where the deferment option may be available) or where the owner is registered for a seniors rebate (25% & no deferment option); debt recovery may proceed for the collection of unpaid charges which are not subject to a rebate or deferment (eg: rubbish collection charges).
- Where a Rates and Charges debt remains outstanding for 3 years and legal proceedings have not been successful, Council will, under section 6.64 of the *Local Government Act 1995*:
 - Take possession of the land;
 - Lease the Land;
 - Transfer the land to the Crown; or
 - Sell the land.

ADOPTED POLICY	
Title:	PURCHASING AND PROCUREMENT
Objective:	To ensure consistency for all purchasing activities that occur within all the Shire of Beverley operational areas and to provide compliance with the Local Government Act 1995 and the Local Government (Functions and General) Regulations 1996.

Policy

INTENT

The intent of this policy is to provide clear direction to staff when carrying out purchasing of goods and services for the Shire of Beverley and to ensure that purchasing is undertaken in an efficient, effective, economical and sustainable manner that provides transparency and accountability of the procurement process. This policy:

- Provides the Shire of Beverley with an effective way of purchasing goods and services.
- Ensures that purchasing transactions are carried out in a fair and equitable manner.
- Strengthens integrity and confidence in the purchasing system.
- Ensures that the Shire of Beverley receives value for money in its purchasing.
- Provides for the Shire of Beverley to consider the environmental impact of the procurement process across the life cycle of goods and services.
- Ensures the Shire of Beverley is compliant with all regulatory obligations.
- Promotes effective governance and definition of roles and responsibilities.
- Apply purchasing practices that withstands probity.

ETHICS AND INTEGRITY

All officers and employees of the Shire of Beverley shall observe the highest standards of ethics and integrity in undertaking purchasing activity and act in an honest and professional manner that supports the good standing of the Shire of Beverley.

The following principles, standards and behaviours must be observed and enforced through all stages of the purchasing process to ensure the fair and equitable treatment of all parties;

- Full accountability shall be taken for all purchasing decisions and the efficient, effective and proper expenditure of public monies based on achieving value for money;
- All purchasing practices shall comply with relevant legislation, regulations, and requirements
 consistent with the Shire of Beverley policies and code of conduct;

- Purchasing is to be undertaken on a competitive basis in which all potential suppliers are treated impartially, honestly and consistently;
- All processes, evaluations and decisions shall be transparent, free from bias and documented in accordance with applicable policies and audit requirements;
- Any actual or perceived conflicts of interest are to be identified, disclosed and appropriately managed;
- Any information provided to the Shire of Beverley by a supplier shall be treated as commercial-inconfidence and should not be released unless authorised by the supplier or relevant legislation.

VALUE FOR MONEY

Value for money is an overarching principle governing purchasing that allows the best possible outcome to be achieved for the Shire of Beverley. It is important to note that compliance with the specification is more important than obtaining the lowest price, particularly taking into account user requirements, quality standards, sustainability, life cycle costing, and service benchmarks

An assessment of the best value for money outcome for any purchasing should consider:

- All relevant whole-of-life costs and benefits whole of life cycle costs (for goods) and whole of contract
 life costs (for services) including transaction costs associated with acquisition, delivery, distribution, as
 well as other costs such as but not limited to holding costs, consumables, deployment, maintenance
 and disposal.
- The technical merits of the goods or services being offered in terms of compliance with specifications, contractual terms and conditions and any relevant methods of assuring quality;
- Financial viability and capacity to supply without risk of default. (Competency of the prospective suppliers in terms of managerial and technical capabilities and compliance history); and
- Competition in the allocation of orders or the awarding of contracts. This is achieved by obtaining a sufficient number of competitive quotations wherever practicable.

Where a higher priced conforming offer is recommended, there should be demonstrable benefits over and above the lowest total priced, conforming offer.

SUSTAINABLE PROCUREMENT

Sustainable Procurement is defined as the procurement of goods and services that have less environmental and social impacts than competing products and services.

The Shire of Beverley is committed to sustainable procurement and where appropriate shall endeavour to design quotations and tenders to provide an advantage to goods, services and/or processes that minimise environmental and negative social impacts. Sustainable considerations must be balanced against value for money outcomes in accordance with any Shire of Beverley sustainability objectives.

PURCHASING THRESHOLD

Where the value of procurement (excluding GST) for the value of the contract over the full contract period (including options to extend) is, or is expected to be:

Amount of Purchase	Requirements
Up to \$5,000	Direct purchase from supplier at purchaser(s) discretion.
\$5,001 - \$29,999	One written quote.
\$30,000 - \$49,999	Obtain at least two written quotations.
\$50,000 - \$249,999	Obtain at least three written quotations containing price and specification of goods and services (with procurement decision based on all value for money considerations).
\$250,000 and above	Conduct a public tender process.

Where it is considered beneficial, tenders may be called in lieu of seeking quotations for purchases under the \$250,000 threshold (excluding GST). If a decision is made to seek public tenders for Contracts of less than

\$250,000, a Request for Tender process that entails all the procedures for tendering outlined in this policy must be followed in full.

The Chief Executive Officer may, where it is not possible to obtain the minimum quotations or in any other justifiable circumstances, waive the need to seek the required number of quotations prior to undertaking a purchase.

All parties providing quotations are to be notified if they are unsuccessful (note successful parties will be notified formally by issue of a purchase order).

The Shire of Beverley will compile and maintain a preferred list of suppliers if the Chief Executive Officer believes it is warranted. Only one quote, unless considered prudent to seek more, is required for prospective purchases made from a supplier listed on the Shire's preferred list of suppliers.

Up to \$5,000

Where the value of procurement of goods or services does not exceed \$5,000, direct purchase from the supplier may be made. However, it is recommended to use discretion and occasionally undertake market testing with a greater number or more formal forms of quotation to ensure best value is maintained.

This purchasing method is suitable where the purchase is relatively small and low risk.

Record keeping requirements must be maintained in accordance with record keeping policies.

\$5,001 to \$29,999

This category is for the procurement of goods or services where the value of such procurement ranges between \$5,001 and \$29,999.

A (one) written quotation is required.

The general principles for obtaining written quotations are:

- Ensure that the requirement/specification is clearly understood by the Shire of Beverley employee seeking the quotations;
- Ensure that the requirement is clearly, accurately and consistently communicated to each of the suppliers being invited to quote;

Record keeping requirements must be maintained in accordance with record keeping policies.

\$30,000 to \$49,999

For the procurement of goods or services where the value exceeds \$30,000 but is less than or equal to \$49,999, it is required to obtain at least two written quotes (commonly a sufficient number of quotes would be sought according to the type and nature of purchase).

The responsible officer is expected to demonstrate due diligence seeking quotes and to comply with any record keeping and audit requirements.

Record keeping requirements must be maintained in accordance with record keeping policies.

NOTES: The general principles relating to written quotations are:

- An appropriately detailed specification should communicate requirement(s) in a clear, concise and logical fashion.
- Invitations to quote should be issued simultaneously to ensure that all parties receive an equal opportunity to respond.
- Offer to all prospective suppliers at the same time any new information that is likely to change the requirements.
- Responses should be assessed for compliance, then value for money and all evaluations documented.
- Respondents should be advised as soon as possible after the final determination is made and approved.

\$50,000 to \$249,999

For the procurement of goods or services where the value exceeds \$50,000 but is less than or equal to \$249,999, it is required to obtain at least three written quotations containing price and a sufficient amount of information relating to the specification of goods and services being purchased.

For this procurement range, the selection should not be based on price alone, and it is recommended to consider some of the qualitative factors such as quality, stock availability, accreditation, time for completion or delivery, warranty conditions, technology, maintenance requirements, organisation's capability, previous relevant experience and any other relevant factors as part of the assessment of the quote.

REGULATORY COMPLIANCE

Tender Exemption

In the following instances public tenders or quotation procedures are not required (regardless of the value of expenditure):

- An emergency situation as defined by the Local Government Act 1995;
- The purchase is under a contract of WALGA (Preferred Supplier Arrangements), Department of Treasury and Finance (permitted Common Use Arrangements), Regional Council, or another Local Government;
- The purchase is under auction which has been authorised by Council;
- The contract is for petrol, oil, or other liquid or gas used for internal combustion engines; or
- Any of the other exclusions under Regulation 11 of the Functions and General Regulations apply.

Sole Source of Supply (Monopoly Suppliers)

The procurement of goods and/or services available from only one private sector source of supply (i.e. manufacturer, supplier or agency) is permitted without the need to call competitive quotations provided that there must genuinely be only one source of supply. Every endeavour to find alternative sources must be made. Written confirmation of this must be kept on file for later audit.

Note: The application of provision "sole source of supply" should only occur in limited cases and procurement experience indicates that generally more than one supplier is able to provide the requirements.

Anti-Avoidance

The Shire of Beverley shall not enter two or more contracts of a similar nature for the purpose of splitting the value of the contracts to take the value of consideration below the level of \$250,000, thereby avoiding the need to publicly tender

Tender Criteria

The Shire of Beverley shall, before tenders are publicly invited, determine in writing the criteria for deciding which tender should be accepted.

An evaluation panel shall be established prior to the advertising of a tender and include a mix of skills and experience relevant to the nature of the purchase.

Advertising Tenders

Tenders are to be advertised in a state-wide publication e.g. "The West Australian" newspaper, Local Government Tenders section, preferably on a Wednesday or Saturday.

The tender must remain open for at least 14 days after the date the tender is advertised.

The notice must include:

- a brief description of the goods or services required;
- information as to where and how tenders may be submitted;
- the date and time after which tenders cannot be submitted;
- particulars identifying a person from who more detailed information as to tendering may be obtained;

detailed information shall include:

- detailed specifications of the goods or services required;
- the criteria for deciding which (if any) tender should be accepted; and
- how tenders are to be submitted: by hand, post or other electronic means

Issuing Tender Documentation

Tenders will not be made available (counter, mail, internet, referral, or other means) without a robust process to ensure the recording of details of all parties who acquire the documentation.

This is essential as if clarifications, addendums or further communication is required prior to the close of tenders, all potential tenderers must have equal access to this information.

Tender Deadline

A tender that is not received in full in the required format by the advertised Tender Deadline shall be rejected.

Opening of Tenders

No tenders are to be removed from the tender box, or opened (read or evaluated) prior to the Tender Deadline.

Tenders are to be opened in the presence of the Chief Executive Officer's delegated nominee and preferably at least one other Council Officer. The details of all tenders received and opened shall be recorded in the Tenders Register.

Tenders are to be opened in accordance with the advertised time and place. There is no obligation to disclose or record tendered prices at the tender opening, and price information should be regarded as *commercial-in-confidence* to the Local Government. Members of the public are entitled to be present.

At least two Shire of Beverley Officers will be present at the opening of tenders. WALGA E-Quotes are an exeception and can be opened by one officer.

No Tenders Received

Where the Shire of Beverley has invited tenders, however no compliant submissions have been received, direct purchases can be arranged on the basis of the following:

- a sufficient number of quotations are obtained;
- the process follows the guidelines for seeking quotations between \$50,000 and \$249,999 (listed above);
- the specification for goods and/or services remains unchanged; and
- purchasing is arranged within 6 months of the closing date of the lapsed tender.

Tender Evaluation

Tenders that have not been rejected shall be assessed by the Shire of Beverley by means of a written evaluation against the pre-determined criteria. The tender evaluation panel shall assess each tender that has not been rejected to determine which tender is most advantageous.

Addendum to Tender

If, after the tender has been publicly advertised, any changes, variations or adjustments to the tender document and/or the conditions of tender are required, the Shire of Beverley may vary the initial information by taking reasonable steps to give each person who has sought copies of the tender documents notice of the variation.

Minor Variation

If after the tender has been publicly advertised and a successful tenderer has been chosen but before the Shire of Beverley and tenderer have entered into a Contract, a minor variation may be made by the Shire of Beverley.

A minor variation will not alter the nature of the goods and/or services procured, nor will it materially alter the specification or structure provided for by the initial tender.

Notification of Outcome

Each tenderer shall be notified of the outcome of the tender following Council resolution. Notification shall include:

The name of the successful tenderer.

The total value of consideration of the winning offer.

The details and total value of consideration for the winning offer must also be entered into the Tenders Register at the conclusion of the tender process.

Records Management

All records associated with the tender process or a direct purchase process must be recorded and retained. For a tender process this includes:

- Tender documentation;
- Internal documentation:
- Evaluation documentation;
- Enquiry and response documentation;
- Notification and award documentation.

For a direct purchasing process this includes:

- Quotation documentation;
- Internal documentation;
- Order forms and requisitions.

Record retention shall be in accordance with the minimum requirements of the State Records Act, and the Shire of Beverley internal records management policy.

OFFICERS AUTHORITY TO PURCHASE

1. No person shall acquire any goods and/or services without first having issued an order form to the relevant provider.

(In the case where multiple purchases are made from local businesses, order forms shall be given to the supplier at least every month.)

- 2. Only those persons authorised to sign purchase orders shall be permitted to acquire goods and/or services.

ADOPTED POLICY	
Title:	RATES EXEMPTION (NON-RATEABLE LAND)
Objective:	To Apply Rates Exemptions for Non-Rateable Land

Policy

This policy aims to provide guidance to Council and Council Staff when determining if rate exemption status applies to 'non-rateable land'.

Legislation

All land in an area is rateable unless it is exempt from rating. Rate exemptions may apply under specific circumstances for entities such as public benevolent institutions and public charities.

Rate Exemptions are legislative, and must be compliant. In accordance with the Local Government Act 1995 – 6.26. Rateable Land; (2) The following land is not rateable land -; (g) land used exclusively for charitable purposes.

Definition – Charitable Purpose

A charitable purpose is defined at common law, as it is not currently defined in the Local Government Act 1995. trusts for the relief of poverty; trusts for the advancement of education; trusts for the advancement of religion; or trusts for other purposes beneficial to the community.

Statement – The Shire of Beverley is committed in assisting Charitable Organisations based within the Shire who provide assistance to members of the public.

Organisations are required to evidence their right to an exemption, and demonstrate the land is used exclusively for charitable purposes.

Application of the Policy

General rules for application will include the following considerations.

Criteria -

An application for Charitable Rate Exemption status must be made in writing by completing a Request for Charitable Rate Exemption Form (Appendix A) and provide any supporting documentation according to the checklist on the application form.

The applicant applying for more than one property must submit a separate application for each property. This supports the principle that it is 'land use', not the applicant that is being assessed.

If the property is leased, a copy of the lease is required with the application.

Determination

Applicants will be notified in writing of the Council's decision, with correspondence to include details of:

The date the exemption applies from, the section of the LG Act applicable to the exemption, the review period (ie. 2 years); and the amount of general rates reversed.

Where exemption from rates is approved, the property will still be subject to the Emergency Services Levy and any other service charges (eg Rubbish collection charges, etc).

Objection

An objection should be made by the person named in the rate record as the owner of land or by the agent or attorney of the person. Where the property is leased, it should be by the leasee or by the agent or attorney of that person.

Where the application is refused, the applicant may object under s. 6.76 of the Local Government Act 1995, on the basis that the land or part of the land was not rateable land. The applicant has the right to appeal a decision made under s. 6.76 to the State Administrative Tribunal (SAT).

Reviews

All properties holding rate exemption status from rates will be subject to reviews at least every 2 years to ensure continued rating exemption.

Delegation of Authority

All properties holding rate exemption status applies. Council delegates authority to Chief Executive Officer to approve applications that meet all the eligibility criteria.

Roles and Responsibilities

The Chief Executive Officer shall be responsible for the application of delegations of authority in regards to the policy.

The Deputy Chief Executive Officer shall be responsible for referring matters to Council in regards to this policy. The Finance Officer, shall be responsible for the review and monitoring of the operation of the policy and be responsible for the day to day operations of the policy.

ADOPTED POLICY		
Title:	EMERGENCY FINANCIAL HARDSHIP POLICY (POLICY SUSPENDED)	
Objective:	To ensure that we offer fair, equitable, consistent and dignified support to ratepayers suffering hardship, while treating all members of the community with respect during a community emergency event (not personal emergency).	

Objective

To give effect to our commitment to support the whole community to meet the unprecedented challenges arising from a community wide emergency, the Shire of Beverley recognises that these challenges will result in financial hardship for some.

This Policy is intended to ensure that we offer fair, equitable, consistent and dignified support to ratepayers suffering hardship, while treating all members of the community with respect and understanding at this difficult time.

Scope

This policy applies to:

1. Rates and service charges levied.

It is a reasonable community expectation, as we deal with the effects of the pandemic that those with the capacity to pay rates will continue to do so. For this reason the Policy is not intended to provide rate relief to ratepayers who are not able to evidence financial hardship and the statutory provisions of the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996* will apply.

Statement

Payment difficulties, hardship and vulnerability***

Payment difficulties, or short term financial hardship, occur where a change in a person's circumstances result in an inability to pay a rates or service charge debt.

Financial hardship occurs where a person is unable to pay rates and service charges without affecting their ability to meet their basic living needs, or the basic living needs of their dependants.

The Shire of Beverley recognises the likelihood that an emergency will increase the occurrence of payment difficulties, financial hardship and vulnerability in our community. This policy is intended to apply to all ratepayers experiencing financial hardship regardless of their status, be they a property owner, tenant, business owner etc.

Anticipated Financial Hardship due to an Emergency

We recognise that many ratepayers are already experiencing financial hardship due to an emergency. We respect and anticipate the probability that additional financial difficulties will arise when their rates are received.

We will write to ratepayers at the time their account falls into arrears, to advise them of the terms of this policy and encourage eligible ratepayers to apply for hardship consideration. Where possible and appropriate, we will also provide contact information for a recognised financial counsellor and/or other relevant support services.

Financial Hardship Criteria

While evidence of hardship will be required, we recognise that not all circumstances are alike. We will take a flexible approach to a range of individual circumstances including, but not limited to, the following situations arising from an emergency situation.

- Recent unemployment or under-employment
- Sickness or recovery from sickness
- Low income or loss of income
- Unanticipated circumstances such as caring for and supporting extended family

Ratepayers are encouraged to provide any information about their individual circumstances that may be relevant for assessment. This may include demonstrating a capacity to make some payment and where possible, entering into a payment proposal. We will consider all circumstances, applying the principles of fairness, integrity and confidentiality whilst complying our statutory responsibilities.

The Chief Executive Officer will have delegated authority (and in consultation with the Rates Officer) to determine whether a hardship case exists or not based on the supporting documents and evidence provided by the applicant.

Supporting documents include:

2 months of payslips showing decrease in hours/pay due to the emergency;

Letter from previous employer stating employment termination due to the emergency;

Statutory Declaration from a person who is being cared for as a result of the emergency;

Medical Certificate noting inability to work/reduction in work ability due to the emergency.

Payment Arrangements

Payment arrangements facilitated in accordance with Section 6.49 of the Act are of an agreed frequency and amount. These arrangements will consider the following:

- That a ratepayer has made genuine effort to meet rate and service charge obligations in the past;
- The payment arrangement will establish a known end date that is realistic and achievable;
- The ratepayer will be responsible for informing the Shire of Beverley of any change in circumstance that jeopardises the agreed payment schedule.

In the case of severe financial hardship, we reserve the right to consider waiving additional charges or interest (excluding the late payment interest applicable to the Emergency Services Levy).

Interest Charges

A ratepayer that meets the Financial Hardship Criteria and enters into a payment arrangement may request a

suspension or waiver of interest charges. Applications will be assessed on a case by case basis.

Deferment of Rates

Deferment of rates may apply for ratepayers who have a Pensioner Card, State Concession Card or Seniors Card and Commonwealth Seniors Health Care Card registered on their property. The deferred rates balance:

- remains as a debt on the property until paid:
- becomes payable in full upon the passing of the pensioner or if the property is sold or if the pensioner ceases to reside in the property;
- may be paid at any time, BUT the concession will not apply when the rates debt is subsequently paid (deferral forfeits the right to any concession entitlement); and
- · does not incur penalty interest charges.

Debt recovery

We will suspend our debt recovery processes whilst negotiating a suitable payment arrangement with a debtor. Where a debtor is unable to make payments in accordance with the agreed payment plan and the debtor advises us and makes an alternative plan before defaulting on the 3rd due payment, then we will continue to suspend debt recovery processes.

Where a ratepayer has not reasonably adhered to the agreed payment plan, then for any Rates and Service Charge debts that remain outstanding, we will offer the ratepayer one further opportunity of adhering to a payment plan that will clear the total debt by the end of the financial year.

Rates and service charge debts that remain outstanding at the end of the financial year, will then be subject to the rates debt recovery procedures prescribed in the *Local Government Act 1995*.

Review

We will establish a mechanism for review of decisions made under this policy, and advise the applicant of their right to seek review and the procedure to be followed.

Communication and Confidentiality

We will maintain confidential communications at all times and we undertake to communicate with a nominated support person or other third party at your request.

We will advise ratepayers of this policy and its application, when communicating in any format (i.e. verbal or written) with a ratepayer that has an outstanding rates or service charge debt.

We recognise that applicants for hardship consideration are experiencing additional stressors, and may have complex needs. We will provide additional time to respond to communication and will communicate in alternative formats where appropriate. We will ensure all communication with applicants is clear and respectful.

Summary

In summary Council delegate the Chief Executive Officer authorisation to:

- consider offering, upon request, a waiving of interest on outstanding rates between emergency dates, where
 rates payment will be delayed for those businesses directly affected by Commonwealth and State
 Government's control measures;
- consider offering, upon request, a waiving of interest on outstanding rates between emergency dates for those individuals that can demonstrate hardship due to the emergency;

Policy Type:	Accounting and Finance

- 2. State Records Act 2000

Legal (Subsidiary):

1. Local Government (Functions and General) Regulations 1996 – Part 4A Regional price Preference.

ADOPTED POLICY	
Title:	REGIONAL PRICE PREFERENCE
Objective:	To promote and support local businesses and the community by giving preferential consideration to Regional Businesses and Regional Content when considering the provision of goods and services via tender and quotation.

Policy

Regional Business Preference

This preference enables businesses within the Prescribed Area to claim a price preference for their whole bid.

The preference will apply to all quotations of \$10,000 or greater, and all tenders invited by the Shire of Beverley.

To qualify as a Regional Business, a business must meet the following conditions:

- 1. A permanent office in the Prescribed Area for at least six (6) months prior to the closing date of tenders/quotations.
- 2. Permanent Staff based in the prescribed area.
- 3. The Regional Business is required to provide written evidence within the quotation/tender submission which demonstrates compliance with condition 1 and 2.

Regional Content Preference

This preference enables businesses not located within the Prescribed Area to claim a price preference for the goods and/or services purchased from within the Prescribed Area.

Note: Travel and accommodation costs associated with sending Staff/Sub Contractors from outside the Prescribed Area to work on a regional contract, are not considered regional content and are not eligible for the "Regional Content Preference".

The preference will apply to all quotations of a collective value of \$10,000 or greater, and all tenders invited by the Shire of Beverley. Businesses wishing to claim the Regional Content Preference are required to provide written evidence as described within the request for quotation/tender documentation. Businesses outside the Prescribed Area, who claim that they will use Regional Content in the delivery of the contract outcomes, will be required, as part of the contract conditions, to demonstrate that they have actually used them.

Price Preference

Preference will be given to a regional business by assessing their submission as if the price bids were reduced by:

- (a) 10% (up to a maximum price reduction of \$50,000) for goods and services; or
- (b) 5% (up to a maximum price reduction of \$50,000) for construction (building) services; or
- (c) 10% (up to a maximum of \$500,000) for goods or services including construction (building), if Council is seeking tenders for the provision of those goods or services for the first time, due to those goods or services having been, until then, undertaken by Council.

Value for Money

Whilst price is a competitive consideration in the provision of goods and services via quotation and/or tender, it is only one aspect of the evaluation process. Value for Money principles, as described within AF007 Purchasing and Procurement will be employed by assessing the price component in conjunction with the quotation/tender selection criteria and requirements.

Prescribed Area

The Prescribed area is the Wheatbelt sub-region of Avon. The Avon area is the Shires of Beverley, Cunderdin, Dowerin, Goomalling, Northam, Quairading, Tammin, Toodyay and York.

Responsibilities

The Shire of Beverley, where practicable will:

- 1. Ensure that the application of a local price preference is clearly identified within the quote or tender documentation to which the preference is to be applied.
- 2. Operate this policy in conjunction with the Shire of Beverley Purchasing and Procurement Policy AF007 for tenders and quotations when evaluating and awarding contracts.

Legislation

Local Government (Function and General) Regulations 1996 Part 4A were amended to allow non-metropolitan local governments to offer a price preference to regional suppliers when deciding which Tender to accept. A price preference can only be applied if a local government authority has advertised and adopted a regional price preference policy.

Title:	PUBLIC INTEREST DISCLOSURE	
Objective:	To comply with necessary obligations under the Public Interest Disclosure Act 2003.	

Policy

Support for Staff who make Public Interest Disclosures

The Shire of Beverley does not tolerate corrupt or other improper conduct, including mismanagement of public resources, in the exercise of the public functions of the Shire of Beverley and its officers, employees and contractors.

The Shire of Beverley is committed to the aims and objectives of the *Public Interest Disclosure Act 2003*. It recognises the value and importance of contributions of staff to enhance administrative and management practices and strongly supports disclosures being made by staff as to corrupt or other improper conduct.

The Shire of Beverley will take all reasonable steps to provide protection to staff that make *such* disclosures from any detrimental action in reprisal for the making of a public interest disclosure.

The Shire of Beverley does not tolerate any of its officers, employees or contractors *engaging* in acts of victimisation or reprisal against those who make public interest disclosures.

These internal procedures provide for the manner in which the Shire of Beverley will comply with its obligations under the *Public Interest Disclosure Act 2003*.

They provide for the manner in which:

- disclosures of public interest information shall be made to the Public Interest Disclosure Officer (PID Officer)
- the PID Officer shall investigate the information disclosed, or cause that information to be investigated.
- the PID Officer may take action following the completion of the investigation.
- the PID Officer shall report to the discloser as to the progress and outcome of that investigation and the action taken as a consequence.
- the confidentiality of the discloser, and any person who may be the subject of a public interest disclosure, shall be maintained.
- records as to public interest disclosures shall be maintained and reporting obligations complied with.

Object of the Act

The Public Interest Disclosure Act 2003 commenced operation on 1 July 2003. The object of the Act is to:

- facilitate the disclosure of public interest information;
- provide protection for those who make disclosures; and
- provide protection for those who are the subject of a disclosure.

This is achieved by:

- protecting the person making the disclosure from legal or other action;
- providing for the confidentiality of the identity of the person making the disclosure and a person who is the subject of a disclosure; and
- providing remedies for acts of reprisal and victimisation that occur substantially because the person has made a disclosure.

The rights and obligations created by the Act are described in Appendix 1 to these Procedures.

[Note for Public Authorities:

The text at Part I of these Guidelines should be reproduced as an Appendix to the Internal Procedures, for the information of PID Officers and staff and customers of the public authority]

Designation of Public Interest Disclosure (PID) Officer

The person from time to time holding or acting in the position of **Deputy Chief Executive Officer** is designated as the Public Interest Disclosure Officer, or PID Officer, of the Shire of Beverley. The PID Officer is responsible for receiving disclosures of public interest information relating to matters falling within the sphere of responsibility of the Shire of Beverley.

The contact details of the PID Officer are as follows:

Deputy Chief Executive Officer PO Box 20 BEVERLEY WA 6304

Phone: 9646 1200

dceo@beverley.wa.gov.au

After assuming or beginning to act in the position of **Deputy Chief Executive Officer** the person holding or acting in that position must forward a completed PID Officer's Declaration (see FORMS) to the Office of the Public Sector Standards Commissioner. A copy of the completed PID Officer's Declaration shall be retained on a file to be kept for that purpose.

The person holding or acting in the position of **Deputy Chief Executive Officer** at the commencement of these procedures shall forward a completed PID Officer's Declaration to the Office of the Public Sector Standards Commissioner as soon as is practicable. A copy of the completed PID Officer's Declaration shall be retained on a file to be kept for that purpose.

Corruption and Crime Commission

The Act also provides for the Corruption and Crime Commission to receive public interest disclosures of information relating to an offence under State law. Subsequent references in these procedures to the PID Officer shall be taken to include an employee or officer of the Commission who receives, on behalf of the Commission, information relating to an offence under State law.

Police

The Act also provides for any police officer to receive public interest disclosures of information relating to an offence under State law. Subsequent references in these procedures to the PID Officer shall be taken to include an officer who receives a public interest disclosure relating to an offence under State law.

Ombudsman

The Act also provides for the Ombudsman to receive public interest disclosures of information relating to matters of administration within the jurisdiction of the Ombudsman, and matters relating to most public officers. Subsequent references in these procedures to the PID Officer shall be taken to include an officer of the Ombudsman who receives, on behalf of the Ombudsman, information relating to these matters.

Auditor General

The Act also provides for the Auditor General to receive public interest disclosures of information relating to substantial unauthorised or irregular use of, or substantial mismanagement of, public resources. Subsequent references in these procedures to the PID Officer shall be taken to include a person appointed by the Auditor General who receives, on behalf of the Auditor General information relating to these matters.

Receiving Public Interest Disclosures

Advice to Disclosers

Before a discloser makes a public interest disclosure to a PID Officer, the PID Officer shall advise the discloser of the following matters:

If they choose to make a public interest disclosure they will not as a result

- incur any civil or criminal liability.
- be liable to any disciplinary action under State law.
- be liable to be dismissed or have his or her services dispensed with or otherwise terminated.
- be liable for any breach of a duty of secrecy or confidentiality or any other applicable restriction on disclosure.

If they choose to make a public interest disclosure they may have the right to take civil proceedings if they are subject to detrimental action as a result of making the disclosure.

If they choose to make a public interest disclosure then their identity will not be disclosed except in accordance with the Act (disclosure of their identity may be required in the course of the investigation or in taking action in some circumstances).

If they choose to make a public interest disclosure then they will have the right to be informed of the progress and outcome of the investigation and action taken as a result.

If they choose to make a public interest disclosure:

- They are only protected if they believe on reasonable grounds that the information to be disclosed is or may be true;
- They will commit an offence, and lose the protection of the Act, if they know the information to be false or misleading in a material particular or are reckless about whether the information is false or misleading in a material particular.
- They will forfeit the protection given by the Act if they disclose the information otherwise than under the Act (ie if they provide the information to the media or a person who is not a proper authority).

• They will forfeit the protection given by the Act if they fail, without reasonable excuse, to assist a person investigating the matter to which the information relates, by supplying any information requested.

They may commit an offence if they disclose information that might identify or tend to identify anyone as a person in respect of whom a disclosure of public interest information has been made.

The disclosure will only be protected if the PID Officer is the proper authority for receiving that kind of information, as indicated in the following table:

Proper Authorities for Receiving
Disclosures of Public Interest Information

When the disclosure relates to	the proper authority is
The sphere of responsibility of a public authority (eg matters about the public authority or its officers, or which the public authority has the function of investigating)	The Public Interest Disclosure Officer (PID Officer) of the Public Authority
Offences under State law.	A police officer or the Corruption and Crime Commission
Substantial unauthorised or irregular use of, or substantial mismanagement of, public resources	
Matters of administration affecting someone in their personal capacity falling within the jurisdiction of the Ombudsman	The PID Officer of the public authority concerned or the Ombudsman
A police officer	The Commissioner of Police or the Corruption and Crime Commission
A Member of the Legislative Council	The President of the Legislative Council
A Member of the Legislative Assembly	The Speaker of the Legislative Assembly
A judicial officer	The Chief Justice
A public officer who is not a member of Parliament, a Minister, a Judicial Officer or a Commissioned or other officer specified in schedule 1 of the Parliamentary Commissioner Act 1971	The PID Officer of the public authority concerned, the Ombudsman or the Commissioner for Public Sector Standards
A person or a matter of a prescribed class	A person declared by the regulations to be a proper authority

Important Note: In addition, the information disclosed must be public interest information as defined in the Act. Not all proper authorities to which a disclosure may be made will be required or have the power to investigate the information disclosed. In some cases it may be necessary for the discloser or information to be referred to another proper authority with power to investigate the information.

Assessing a Public Interest Disclosure

The PID Officer must, on receiving the information confirm that the discloser, after receiving the advice referred to in section 1, wishes to make a public interest disclosure under the Act. If they do the PID Officer must make an initial assessment of whether:

- the information disclosed relates to a public authority, a public officer or a public sector contractor.
- the information disclosed relates to the performance of a public function.
- the information disclosed tends to show improper conduct.
- the improper conduct is of the kind for which the PID Officer is the proper authority (see the table in section 1).
- the discloser believes on reasonable grounds that the information is or may be true.
- the information is not protected by legal professional privilege.

If the above questions are all answered "yes", then the disclosure of information is a public interest disclosure to which the Act will apply.

In assessing whether a disclosure is a public interest disclosure, the PID Officer should consider the *Flowchart for Receiving Disclosures* at Appendix 2, as well as complete Part 1 of the *Assessment Form Public Interest Disclosure* at Appendix 5.

Form of Public Interest Disclosure

If a disclosure is a public interest disclosure, the discloser and the PID Officer should complete the *Public Interest Disclosure Lodgement Form* (see FORMS). The PID Officer should also complete Part 2 of the *Assessment Form For Public Interest Disclosures* (see FORMS).

On completion of this form, the PID Officer should create a separate file for the Public Interest Disclosure, with the following text clearly marked on the front of the File.

"CONFIDENTIAL

The material in this file relates to a public interest disclosure made under the *Public Interest Disclosure Act* 2003

Disclosure of information that might identify or tend to identify either the discloser or a person in respect of whom the disclosure has been made is an offence, unless the disclosure occurs in accordance with the Act.

Penalty: \$24,000 or imprisonment for two years"

The making of the public interest disclosure should also be recorded in the Public Interest Disclosure Register, described in section J of these Procedures, for reporting to the Commissioner for Public Sector Standards.

- F. Investigating a Public Interest Disclosure
- 1. Determining whether the matter must be investigated

After receiving a disclosure, the PID Officer must consider whether:

- the disclosure relates to the Shire of Beverley, its officers or contractors.
- the disclosure relates to a matter or person that Shire of Beverley has a function or power to investigate.

If the answer to both of these questions is "no", the PID Officer is not required by the Act to investigate the matter.

Where the PID Officer considers that he or she lacks sufficient power to effectively investigate the matter, but the information received causes him or her to form the opinion that a public authority, public officer or public sector contractor may have engaged in improper conduct, the PID Officer should refer the matter to another appropriate investigative body. For example, an allegation of an offence supported by cogent evidence may need to be referred by a PID Officer to the Police for investigation.

The PID Officer must also consider whether:

- the matter is trivial.
- the disclosure is vexatious or frivolous.
- there is no reasonable prospect of obtaining sufficient evidence due to the time that has elapsed since the occurrence of the matter.
- the matter is being or has been adequately or properly investigated by another proper authority to which an appropriate disclosure of public interest information has been made under the Act.

If the answer to any of these questions is "yes", the PID Officer is not required by the Act to investigate the matter.

The questions to be considered in the initial assessment by the PID Officer are indicated in the *Flowchart for Investigating Information Disclosed* at Appendix 3, and Part 1 of the *Assessment Form for Public Interest Disclosures* (see FORMS) should be completed.

In assessing whether a public interest disclosure should be investigated, a PID Officer should consider the *Flowchart* for *Investigating Information Disclosed* (Appendix 3) and complete Part 3 of the *Assessment Form for Public Interest Disclosures* (see FORMS).

2. Investigating information received in a Public Interest Disclosure

Where the PID Officer determines that the disclosure is a public interest disclosure that should be investigated, the officer must investigate the disclosed matter himself or herself or engage another person to carry out the investigation.

In conducting an investigation, typical procedures could include:

- Drawing up terms of reference, which should clarify the key issues identified by the disclosure.
- Specifying a date by which the investigation should be completed.
- Ensuring the objectives of the investigation include collecting and collating information relating to the disclosure, considering the information collected and drawing conclusions objectively and impartially.
- Maintaining procedural fairness for the person who is the subject of the disclosure.
- Giving information to the person who is the subject of a disclosure about their rights and obligations under the Act, the Code of Conduct and Integrity, any agency code of conduct, and the law.
- The investigator making contemporaneous notes of discussions and interviews and, where practicable and appropriate, recording discussions and interviews on audio or videotape.
- Ensuring strict security with all investigations, so as to maintain the confidentiality requirements of the Act.

If a disclosure is withdrawn, a proper authority may still continue to investigate the issues raised.

Maintaining Confidentiality in an Investigation

The Act imposes strict confidentiality requirements in relation to the identity of the discloser and persons in respect of whom a public interest disclosure has been made. The disclosure of information which might identify or tend to identify these persons, except in accordance with the Act, is a serious offence, punishable with a maximum penalty of \$24,000 or two years imprisonment.

The confidentiality provisions of the Act do not apply to all information disclosed in a public interest disclosure, but only to information that might identify or tend to identify the discloser and persons in respect of whom a public interest disclosure has been made.

One of the circumstances in which identifying information may be disclosed is with the consent of the person concerned. It is important that this consent be recorded. The *Consent to Disclosure of Identifying Information* form should be used for this purpose (see FORMS).

Identifying information relating to a discloser may be disclosed without the discloser's consent where:

- it is necessary to do so, having regard to the rules of natural justice; or
- it is necessary to do so to enable the matter to be investigated effectively.

However, before information is disclosed for these reasons the person making the disclosure must take all reasonable steps to inform the person whose identity is to be disclosed:

- that the disclosure is being made; and
- the reasons for the disclosure being made.

This information should be given, where practicable, in the form for *Notification of Disclosure of Identifying Information* (see FORMS).

Where identifying information in relation to a discloser is conveyed to another person for these reasons, the other person should be warned that disclosure of the information to a third person may involve a serious offence.

Identifying information relating to a person in respect of whom a public interest disclosure has been made can be disclosed at the investigation stage where the disclosure:

- is necessary to enable the matter to be investigated effectively;
- there are reasonable grounds to believe that the disclosure of identifying information is necessary to prevent or minimise the risk of injury to any person or damage to any property.

In addition, disclosures made in accordance with section 152 or 153 of the *Corruption and Crime Commission Act* are exempt from these confidentiality requirements.

Particularly where a discloser works for the Shire of Beverley, protecting the identity of the discloser is an important part of protecting the discloser from reprisals and victimisation. Careful consideration must be given as to whether the disclosure of information that might identify or tend to identify a discloser is necessary for the effective investigation of the matter or having regard to the rules of natural justice.

Where a PID Officer appoints a third person to conduct an investigation in relation to the public interest disclosure, he or she must consider whether it is necessary to inform the investigator of the identity of the discloser. In some cases it may not be necessary to provide the investigator with the identity of the discloser. Where it is necessary, to enable an effective investigation, or having regard to the rules of natural justice, to provide identifying information to the investigating officer, then the discloser should be notified in the manner described above.

Recording the Outcome of an Investigation

The outcome of an investigation should be clearly and comprehensively recorded. In addition to any investigation report, the person conducting the investigation should complete part 4 of the *Assessment Form for Public Interest Disclosure* (see FORMS).

The result of the investigation should also be recorded in the Public Interest Disclosure Register, described in section J of these Procedures (sample Register is provided as Appendix 5). All reporting requirements to the Commissioner for Public Sector Standards required under the Act will be based on extracts from this Register.

- G. Taking Action Following an Investigation
- General

The PID Officer must take action where he or she forms the opinion that a person may be, or has been or may in the future be, involved in improper conduct. Action that may be taken includes:

- preventing the matter to which the disclosure relates from continuing or occurring
- referring the matter to the Police or other appropriate body, or
- taking disciplinary action against a person responsible for the matter.

Before taking any action, the person against whom the action is to be taken is to be given the opportunity to make written or oral submissions.

In taking that action the PID Officer remains limited by the powers and functions that are conferred by the legislation under which the Officer operates. The Act does not give the PID Officer additional powers to take action.

As well as being limited to matters within the functions and powers of the PID Officer, the action to be taken is guided by what is necessary and reasonable.

Maintaining Confidentiality when Taking Action

When taking action, the confidentiality of identifying information must be maintained, unless its disclosure is authorised by the Act.

The only additional exception, beyond those identified in relation to investigations, is where disclosure of the identity of a person who is the subject of a public interest disclosure is necessary in taking action following the investigation.

Recording Action Taken

In addition to keeping other records, the PID Officer shall complete Part 5 of the Assessment Form for Public Interest Disclosures (see FORMS) and record a summary of the action taken in the Public Interest Disclosure Register. All reporting requirements to the Commissioner for Public Sector Standards required under the Act will be based on extracts from this Register.

H. Reporting to a Discloser on the Progress and Outcome of an Investigation

Where the PID Officer decides not to investigate information disclosed under the Act, or discontinues an investigation, the Officer must give the person who made the disclosure reasons for doing so.

Within three months of the disclosure being made the PID Officer must notify the discloser of the action taken or proposed to be taken in relation to the disclosure.

A discloser may also request a progress report.

If an investigation is not complete, the PID Officer may provide to the discloser a progress report on the current status of the investigation.

If an investigation is complete, the PID Officer must provide a final report to the discloser, stating the outcome of the investigation and the reason for taking action following the investigation.

In providing information and reports to disclosers, the PID Officer must not give information that, in the officer's opinion, would be likely to adversely affect:

- any person's safety;
- the investigation of an offence or possible offence; or
- necessary confidentiality as to the existence or identity of another person who has made a disclosure of public interest information under the Act.

Protecting Disclosers

Victimisation and Reprisals

The Shire of Beverley will not tolerate any acts of victimisation or reprisal as a result of a person making, or proposing to make, a public interest disclosure.

Any victimisation or reprisals must be reported immediately to the Chief Executive Officer or the PID Officer, who must take immediate action to prevent the continuance of this unlawful conduct.

Where victimisation or reprisals are reported, a record of the report and the action taken must be placed on the file relating to the public interest disclosure.

Steps taken to prevent acts of victimisation or reprisal should be recorded in a manner that they will be accessible for reference, should legal action be taken against the Shire of Beverley.

Confidentiality

The confidentiality requirements in relation to information which might identify or tend to identify a discloser or a person in respect of whom a public interest disclosure has been made must be complied with at all times. As noted above, the disclosure of this identifying information, except in accordance with the Act, is an offence.

All files relating to a public interest disclosure, whether paper or electronic, must be secure and accessible only by authorised persons. Files should carry clear warnings that there are penalties for unauthorised divulgence of information concerning a disclosure.

It is strongly recommended that sensitive information is not emailed or faxed to machines with general or shared access.

Public Interest Disclosure Register

The Shire of Beverley shall maintain a Public Interest Disclosure Register recording a unique register number and key information for each disclosure.

- The register should include a summary of information relating to:
- The discloser
- Public authorities about which a disclosure is made
- People named in the disclosure
- The nature of the disclosure
- The investigation process and the action, if any, taken
- Communication with the discloser
- Disclosure of the discloser's identity, if applicable
- Disclosure of identity of persons named in the disclosure
- Claims of unlawful disclosure of discloser's identity or identity of persons named in the disclosure
- Claims of victimisation
- Key dates

A sample *Public Interest Disclosure Register* is provided at Appendix 5. An electronic version can be found on the website at *www.opssc.wa.gov.au/pid*. Additional information may also be recorded in the Register at the discretion of the public authority.

All reporting requirements to the Commissioner for Public Sector Standards required under the Act will be based on extracts from the fields shown in the sample Register.

Reporting Requirements

Under the Act public authorities will need to report to the Commissioner each year as outlined below.

Principal Executive Officer Report

Under section 23 (f) of the Act, the Shire of Beverley is required to report annually to the Commissioner for Public Sector Standards on:

- the number of public interest disclosures received over the report period;
- the results of any investigations conducted as a result of the disclosures; and
- the action, if any, taken as a result of each investigation.
- Commissioner's Compliance Report

Under section 19 and 22 of the Act, the Commissioner is required to monitor compliance with the Act, to assist public authorities to comply with the Act and the Code and to provide an Annual Report to Parliament.

Under section 27 of the Act the Minister will carry out a review of the Act in 2006.

To enable the Commissioner and the Minister to meet these obligations Shire of Beverley will provide a report each year on compliance with and administration of the Act as requested by the Commissioner.

Report Format and Submission

An electronic format for the Principal Executive Officer Report and the information for the Commissioner's Compliance Report will be provided each year by the Commissioner and both will be able to be submitted in a single electronic submission. The reports will cover the period 1 July in any year to 30 June in the subsequent year.

Where there has been no action on a disclosure in the reporting period the format of the report will provide for a simple nil return. Where action relating to one or more disclosures has occurred, all data required will be obtainable as a simple extract from the Public Interest Disclosure Register.

Making Information Available

These internal procedures shall be made available for access by all staff and members of the public. Copies of these internal procedures are available from the Public Interest Disclosure Officer and are to be kept at the:

Shire of Beverley Administration Building 136 Vincent Street BEVERLEY WA 6304

After the commencement of the Act all staff should be provided with the *Information for Staff* at Appendix 6. This information should also be provided to new staff on induction.

Where a person makes an allegation about improper conduct, but the person has not referred to the Act, the person should be advised that they might want to make a public interest disclosure under the Act. If they may wish to do so, they should be referred to the PID Officer for guidance on how to make a disclosure under the Act and on the implications of having done so.

ADOPTED POLICY	
Title:	HABITUAL OR VEXATIOUS COMPLAINTS
Objective:	To provide guidelines for employees to determine what is a habitual or vexatious complaint and how to deal with it.

Policy

Habitual or Vexatious Complainants

1. For the purpose of this policy, the following definition of habitual or vexatious complainants will be used:

The repeated and/or obsessive pursuit of:

- (i) Unreasonable complaints and/or unrealistic outcomes; and/or
- (ii) Reasonable complaints in an unreasonable manner.
- 2. Where complaints continue and have been identified as habitual or vexatious in accordance with the criteria set out in the attached document (Schedule A), the CEO, following discussions with the Senior Management Team, will seek agreement to treat the complainant as a habitual or vexatious complainant and for an appropriate course of action to be taken. The attached schedule (B) details the options
- 3. The CEO will notify complainants, in writing, of the reasons why their complaint has been treated as habitual or vexatious, and the action that will be taken. The CEO will also notify the Council Members that a constituent has been designated as a habitual or vexatious complainant.
- 4. Once a complainant has been determined to be habitual or vexatious, their status will be kept under review *after one year* and monitored by the CEO with reports being taken to Council as required. If a complainant subsequently demonstrates a more reasonable approach then their status will be reviewed.

Schedule A – Criteria for Determining Habitual or Vexatious Complaints

Complainants (and/or anyone acting on their behalf) may be deemed to be habitual or vexatious where previous or current contact with them shows how they meet one of the following criteria:

Where complainants:

- 1. Persist in pursuing a complaint where the Council's complaints process has been fully and properly implemented and exhausted.
- 2. Persistently change the substance of a complaint or continually raise new issues or seek to prolong contact by continually raising further concerns or questions whilst the complaint is being addressed. (Care must be taken, however, not to disregard new issues which are significantly different from the original complaint as they need to be addressed as separate complaints).
- 3. Are repeatedly unwilling to accept documented evidence given as being factual or deny receipt of an adequate response in spite of correspondence specifically answering their questions or do not accept that facts can sometimes be difficult to verify when a long period of time has elapsed.
- 4. Repeatedly do not clearly identify the precise issues which they wish to be investigated, despite reasonable efforts of the Council to help them specify their concerns, and/or where the concerns identified are not within the remit of the Council to investigate.
- 5. Regularly focus on a trivial matter to an extent which is out of proportion to its significance and continue to focus on this point. It is recognized that determining what is a trivial matter can be subjective and careful judgment will be used in applying this criteria.
- 6. Have threatened or used physical violence towards employees at any time. This will, in itself, cause personal contact with the complainant and/or their representative to be discontinued and the complaint will, thereafter, only be continued through written communication. The Council has determined that any complainant who threatens or uses actual physical violence towards employees will be regarded as a vexatious complainant. The complainant will be informed of this in writing together with notification of how future contact with the Council is to be made.
- 7. Have, in the course of addressing a registered complaint, had an excessive number of contacts with the Council placing unreasonable demands on employees. A contact may be in person, by telephone, letter, email or fax. Judgment will be used to determine excessive contact taking into account the specific circumstances of each individual case.
- 8. Have harassed or been verbally abusive on more than one occasion towards employees dealing with the complaint. Title:	AVONDALE AGRICULTURAL MUSEUM COLLECTION POLICY
Objective:	To provide guidelines on the development and management of the collection.

Background

The Avondale Agricultural Museum Collection is located at Avondale Farm, in the Shire of Beverley. Avondale farm is a 710ha property, located 6km west of the Town of Beverley on Waterhatch Road. The property comprises 520ha arable farming land and 190ha non arable land comprising a bush reserve (53.5ha), rocky grazing, treed water courses and a built heritage precinct.

Avondale farm was one of the earliest pastoral properties developed in the Beverley district in the 1830's. Avondale Farm is valued for its role in agricultural research and education. Established as a State Farm in 1919, Avondale Farm was held by the Agriculture Department of WA as a venue for agricultural research from 1924 until the 1990's and subsequently as a public education site until 2009, when the National Trust took over the management of the property.

The original Avondale Agricultural Museum Collection was comprised of items donated by farmers from around the State for the sesquicentenary celebrations in 1979. The exhibition concentrated on items of technological significance, much of which was restored by the Department of Agriculture's workshop. The collection was specifically put together to represent the historical equipment of all the processes in agricultural production and therefore tells the story of the development of farming in the Western Australian Wheatbelt.

The original museum building was constructed to house the donated farm machinery. The building was extended in the early 2000's to house the growing collection that represents some of Western Australia agricultural machinery dating back to the 1850's

The Shire of Beverley took over the collection from the Agriculture Department in 2009, at the same time management of the property was transferred to the National Trust.

Statement Of Purpose Or Mission Statement

The purpose of the Avondale Agricultural Museum Collection is to tell the story of the mechanisation and innovation in farming in the Western Australian Wheatbelt region from the early 1850's to 1979.

The Museum aims to provide an educational and tourism experience that is complementary to the interpretation of 'Avondale Farm' which tells the story of the development of Agriculture in WA, intertwining early European settlement, the culture and traditions of the Ballardong Aboriginal people and the natural environment.

The Museum will incorporate objects, history and stories associated with the development of Agriculture in Western Australia, the history of Avondale Farm and the significant contribution made to Agricultural from the research carried out at Avondale.

Purpose And Scope Of The Collection Policy

The collection policy will be the guiding document for the development and management of the collection.

The policy will guide the formation of a management structure, museum funding, a review of the existing collection and subsequent inclusion of items into the Avondale Agricultural Museum collection.

The collection management policy will guide the procedures by which the museum is managed and funded. The procedures developed to implement these policies will be outlined in a separate document.

Museum Management

The Shire of Beverley owns and is responsible for the Avondale Agriculture Museum Collection.

Museum governance, future planning and funding will be the responsibility of the Shire of Beverley.

The Shire of Beverley will be responsible for the operations of the Museum in accordance with the policies and procedures of the Museum.

What The Museum Will Collect

The key theme of the Avondale Agricultural Museum Collection is to tell the story of the mechanisation and innovation in farming in the Western Australian Wheatbelt region. The collection was put together to represent the historical equipment of all the processes in agricultural production and therefore is representative of a class of artefacts important to the development of farming in the Wheatbelt of WA.

The Museum will incorporate objects, history and stories associated with the development of Agriculture in Western Australia, the history of Avondale farm and the significant contribution made to Agricultural research at Avondale.

Contributing significantly to the value of the Museum Collection are the operational vehicles. A large number of the tractors and vehicles are operational, enabling demonstrations of farm practices and differentiating the collection from similar collections throughout WA.

The environs in which the Museum is located at Avondale also adds value to the museum collection and is another differentiating feature. Avondale Farm was an Agricultural research facility which made a significant contribution to agricultural research in the State and is still a working farm.

The collection dates from the 1850's to 1979.

The types of objects to be collected include agricultural machinery, agricultural implements, operating manuals for historical machinery, photographs and written and oral histories.

The objects will reflect the development of Agriculture in WA and could include

- equipment used in agricultural research;
- vehicles and machinery in working order or able to be restored to working order for the purpose of demonstrations:
- historical equipment that contributes to the processes in agricultural production; and
- objects important to the development of farming in the south of WA

The collection is available for viewing at Avondale Farm, 505 Waterhatch Road Beverley. Opening hours are determined by the Shire in consultation with the National Trust (WA) who manage Avondale Farm. Access may be provided for special events by arrangement. Access to Museum records will be provided by appointment only.

Temporary exhibitions may be installed and objects used in demonstrations at special events.

How the Museum Will Collect

Method of Acquisition

The Museum will acquire objects for the permanent collection by donation, bequest, purchase or transfer.

All decisions regarding the acquisition of objects for the museum will be made by the Acquisition Committee.

The museum will not accept conditional donations.

Loans will be considered on a case by case basis, and would normally only be considered where the object is rare and adds significant value to the current museum collection or it would enhance a temporary exhibition or event display. Decisions on items to acquire by loan will be made by the Acquisition committee.

Acquisition Committee

The Acquisition committee will be full Council for the Shire of Beverley. All recommendations made by the committee will be documented and retained in the Shire of Beverley Office.

Acquisition Criteria

The Committee will consider the following criteria before approving acquisition of an object:

Relevance

The museum only collects objects that relate to the museum's purpose and key collecting areas

Significance

Priority is given to objects which are significant for their historic, aesthetic, scientific/research or social/spiritual value.

Provenance and Documentation

Priority will be given to objects from Avondale Farm and surrounding Wheatbelt Shires and where the history of the object is known and associated documentation and support material can be provided. Items can be obtained from other areas where it enhances the understanding of the key themes within the collection.

· Condition, intactness, integrity

The condition of the object must be taken into consideration when acquiring material. Badly damaged material will not normally be accepted into the collection.

Interpretive Potential

Objects that tell a story that adds to the interpretation of museum themes will be prioritised.

Rarity

Objects may be prioritised if they are rare examples of a particular kind of object

Representativeness

Objects may be prioritised if they are an excellent representative example of a particular kind of object

Duplications

Objects that duplicate items already in the collection will not be accepted unless they are of superior condition and/or historic value. In such a case the duplicate may be considered for deaccessioning.

• Legal Requirements

The museum only accept objects where the donor/vendor has legal title to the object

Resource Implications

The museum will consider its responsibility in relation to items that have highly specialised conservation, storage and display needs and the ability of personnel to care for these items, including the financial resources required to safely house such items.

Legal / Ethical Obligations

Aboriginal Artefacts

Should objects that are traditional Aboriginal objects be offered to the museum for inclusion in its collection the Shire will comply with the Aboriginal Heritage Act 1972.

The Shire acknowledges that it has a mandatory obligations under the Aboriginal Heritage Act 1972 (WA) to provide notice in writing to the Minister of Aboriginal Affairs in relation to any object in its custody that may be classified as Aboriginal cultural material. The Shire shall give a description of that object and the manner in which it came to be in its custody or under its control.

Prohibited Weapons And Firearms

Should objects that could be considered to be prohibited or controlled weapons be offered to the Museum for inclusion in its collection, the Shire will comply with the Weapons Act 1999 and the Weapons Regulations 1999. Such weapons could include historical swords, blunt ceremonial swords, bayonets, batons, cat o'nine tails, and concealed weapons, firearms including longarms, pistols and handguns.

Storage & Conservation

The Museum aims to achieve high standards of collection care and storage based on the National Standards for Museum and Galleries v1.5.

Objects will be stored and conserved in accordance with the Collection Policy Procedures Manual.

Deaccessioning And Disposal Procedures

Criteria For Deaccessioning

Deaccessioning is the administrative process of removing an item from the collection.

An object can be deaccessioned from the Museum's collection if

- It does not comply with the current collection policy of the Museum.
- It is damaged beyond repair.
- The conservation and storage costs for it are beyond the means of the museum.
- It is a lessor quality duplicate of an object the museum already owns and it is not required for changeover, education or other purposes.
- It lacks any supporting information to enable proper identification or to establish its relevance to the collection.
- It has disputed ownership and a substantiated request for the return of the object to its original owner is received

Deaccession Procedures

To formally de-accession an object from the Museum collection the following procedure should be followed:

- The object identified for removal from the collection must come before the Acquisition Committee for consideration with close reference to the criteria stated above.
- The object identified above for deaccession must be held for a twelve month 'cooling off' period before it is finally disposed of.
- Staff, volunteers, committee members and their families are prohibited from purchasing, or otherwise obtaining, a deaccessioned object, except by public auction or open tender process.
- Any funds acquired from the sale of the de-accessioned item should be used for acquisition or care of the collections.

Disposal Procedures

Once a decision has been made by the Acquisition committee to deaccession an object, the object should be removed from the collection in the following priority order:

- 1. Returned to the donor or family. If after a thorough search this is impossible, the object should be;
- 2. Transferred to another appropriate institution:
- 3. Sold by public auction or open tender process, where appropriate;
- 4. Used as an education/interpretive tool;
- 5. Destroyed or recycled if appropriate

Winding-Up Procedures

In the event that the Museum is to be wound up, a resolution of the Beverley Shire Council is required.

The museum will be wound up in accordance with the National Standards for Australian Museums and Galleries v1.5 (in particular A1.1.3 and A1.1.4) or the equivalent standards at the time.

The Shire of Beverley disposal of assets policy will also apply.

LOANS

Loan Procedures

The Museum will consider the lending and borrowing of objects if by doing so it assists the Museum in meeting its purpose. The lending and borrowing of objects will be considered on a case by case basis, and would normally only be considered where the object is rare and adds significant value to the current museum collection or it would enhance a temporary exhibition or event display.

Decisions on items to acquire by loan will be made by the Acquisition committee who will consider the following:

- Permanent and long term loans will not be accepted by the Museum.
- The Museum will loan and borrow material to help meet its purpose.
- The Museum holds separate forms for inward and outward loans
- The maximum loan period is 12 months.

The procedure for inward and outward loans is contained within the Collection Procedures manual.

Oral History Policy

Oral histories form an important part of the Avondale Agricultural Machinery Museum. When collecting oral histories

- An Oral History Agreement is signed by the person interviewed, which clearly states the purpose and intended uses of the interviews and what copyright provisions apply.
- The Museum abides by the Guidelines of Ethical Practise of the Oral History Association of Australia.

Oral histories will be collected, used and made available to the public in accordance to the procedures outlines in the Collection Procedures Manual.

Access

The collection is accessible to the public through regular opening hours and by appointments. Use of the Museum for special events is by arrangement with the Shire of Beverley.

The collection records are accessible for research purposes by appointment.

Review Your Collection Policy

The museum collection policy will be reviewed annually as part of the Shire of Beverley Policy Manual annual review.

	ADOPTED POLICY
	Request for Purchase and Placement of Memorial Seats
Objective:	To recognise residents who have made a significant contribution to the Beverley Community and ensure applications are managed on a consistent basis.

SCOPE

This policy applies to the placement of memorial seats in the Shire of Beverley owned/managed parks, reserves, public open space and streetscapes (other than Vincent Street).

POLICY

The Shire of Beverley recognises that members of the community may wish to use public open space to commemorate a person/s through a memorial, which adds to the value of the well being of the community.

In order for the Shire to ensure its public open spaces continue to serve their purpose and are not transformed into places of mourning, and that its assets are not impacted negatively, applications for memorial seats in public open space will be limited to:

 recognising residents who have made a significant contribution to the Shire or Community over a minimum of 15 years.

Each application will be assessed on its individual merit, firstly meeting the basic criteria and subject to the conditions within this policy.

All applications must meet the following criteria:

- The application must be on the prescribed form.
- Memorial seats shall only commemorate a person no longer living.
- The deceased was a resident of Beverley for a minimum of 15 years.
- The deceased made a significant contribution to the community through volunteering, business, cultural, social or sporting aspects.
- Placement of the memorial would benefit the community in acknowledging the deceased.
- The applicant is to fund the purchase and installation of the memorial seat and plaque.

IMPLEMENTATION

- The application will be presented to Council for determination.
- The requested location will be considered, but final determination will be by the CEO or Manager of Works.
- The Shire will co-ordinate the selection, purchase, installation, and maintenance of the seat and plaque.
- All plaques will be to a standard size and be purchased through an approved bronze plaque foundry.
- Personal items are not to be fixed to the memorial seat or placed at the base of the seat.
- No ashes are to be placed in or near the seat.
- Additional plaques may be approved on memorial seats subject to approval from the original applicant or their immediate family.

Life of the Seat and Plaque

The seat and plaque remain the property of the Shire of Beverley. The memorial seat and plaque have a finite life. The Shire envisages that the seat/plaque will be located at the site for a period of not less than 10 years from the date of installation. Should a piece of memorial park furniture be damaged beyond repair, it will be deemed to be at the end of its useful life and the Shire will use reasonable endeavours to contact the applicant to inform them of this.

Cost

Applicants must meet the cost of the purchase and installation of furniture and plaque. Costs are determined on a case by case basis. Applicants will be advised the total cost prior to the application being presented to the CEO or Council for consideration. Applicants can advise at this stage if they do not wish to proceed with the application. Costs are to be paid in full before the Shire will undertake the purchase of the memorial.

Plaques

The memorial plaque can be no larger than 120mm x 80mm and be up to 20 words.

ADOPTED POLICY		
Title:	CHILD SAFE AWARENESS POLICY	
Objective:	To reduce the risk of harm and child sexual abuse in our community by encouraging child safe environments to be created and maintained.	

POLICY STATEMENT

The Shire of Beverley supports and values all children and young people. The Shire of Beverley makes a commitment to support the safety and wellbeing of all children and young people, including protection from abuse. This Child Safe Awareness policy is one of the ways the Shire of Beverley demonstrates its commitment to being child safe and a zero-tolerance approach to child abuse.

This policy aims to reduce the risk of harm and child sexual abuse in our communities by encouraging child safe environments to be created and maintained. The Shire of Beverley is committed to encouraging local organisations to be child safe and ensure children are safe and empowered.

This Child Safe Awareness policy has been developed in response to recommendation 6.12 of the Royal Commission into Institutional Responses to Child Sexual Abuse and recognises that the Shire of Beverley is uniquely placed within the local community to demonstrate leadership by supporting organisations to be child safe and to protect children and young people from harm and/or abuse. The Shire of Beverley will promote the safety and wellbeing of children across the community.

Consistent with the National Principles for Child Safe Organisations and Commonwealth Child Safe Framework, this policy provides a framework that outlines the role of the Shire of Beverley in supporting local organisations to be child safe through access to resources, awareness raising and sharing relevant information.

Scope

The safety and wellbeing of children is everyone's responsibility. This Child Safe Awareness policy applies to all, employees, volunteers, trainees, work experience students, interns, and anyone else who undertakes work on behalf of the Shire of Beverley, regardless of their work related to children or young people. It applies to occupants of the Shire of Beverley facilities and venues, including visitors, contractors and suppliers.

Definitions:

Abuse: Abuse is an act, or a failure to act, towards or on behalf of a child that may result in harm. It can occur on one occasion or multiple occasions. Sometimes the impact of multiple events leads to harm that becomes cumulative in nature. Types of abuse include physical, emotional and sexual abuse, and neglect.

Child/Children: Means a person under 18 years of age, and in the absence of positive evidence as to age, means a person who appears to be under 18 years of age.

Child Safe Organisation: is defined in the Royal Commission Final Report as one that:

- · creates an environment where children's safety and wellbeing are at the centre of thought, values, and actions
- · places emphasis on genuine engagement with and valuing of children and young people
- · creates conditions that reduce the likelihood of harm to children and young people
- · creates conditions that increase the likelihood of identifying any harm, and
- · responds to any concerns, disclosures, allegations, or suspicions of harm. Note: in the context of local governments, this would involve referring concerns to the Department of Communities or WA Police to respond as appropriate.

Implementation of the National Principles for Child Safe Organisations give effect to the above.

Child safe: For the purpose of this policy, child safe means protecting the rights of children and young people to be safe by taking actions that can help prevent harm and abuse.

Harm: Harm, in relation to a child, means any detrimental effect of a significant nature on the child's wellbeing, whether caused by a single act, omission or circumstance; or a series or combination of acts, omissions or circumstances.

Wellbeing: Wellbeing of children and young people includes the care, development, education, health and safety of children and young people.

Policy Principles

- The rights of children and young people are upheld.
- · Children and young people are respected, listened to, and informed about their rights.
- · Children and young people have the fundamental right to be safe and cared for.
- · Children and young people have the right to speak up, be heard and taken seriously without the threat of negative consequences.
- The safety and best interests of children and young people are a primary consideration when making decisions that concern them.
- · Access to trusted and reliable information, including the National Principles for Child Safe Organisations, helps support organisations to understand what they must do to help reduce the risk of harm and abuse.
- · Communities are informed and involved in promoting the safety and wellbeing of children and young people including protection from harm.
- · Collaboration with the community and our partners promotes the safety, participation and empowerment of all children and young people.

Policy Functions

The Shire of Beverley will ensure the following functions of this policy are resourced and assigned to the relevant officers for implementation.

- · Developing a process to deliver child safe messages (for example Agenda at Shire venues, grounds and facilities or events).
- · Connecting and supporting local community groups, organisations, and stakeholders to child safe resources (including culturally safe and inclusive resources).

Responsibilities

The Shire of Beverley has a leadership role in our community to support relevant organisations to be child safe and promote child safe practices.

Although the Shire of Beverley is not legally responsible for providing oversight of compliance with child safe practices, it will take any reasonable steps to engage with persons who utilise the Shire of Beverley facilities to operate in alignment with the Child Safe Awareness policy.

The Shire of Beverley will determine which roles across the organisation will directly support the implementation of the Child Safe Awareness policy.

3.20 Renewable Energy Projects - Community Benefit Scheme Fund

Policy Type:	Community	Policy No:	
Date Adopted:	25 June 2025	Date Last Reviewed:	

S020

Legal (Parent):

1. Local Government Act, 1995

Legal (Subsidiary):

1. Local Government (Financial Management) Regulations, 1996

ADOPTED POLICY		
Title:	RENEWABLE ENERGY PROJECTS - COMMUNITY BENEFIT SCHEME FUND	
Objective:	To establish a framework for proponents of such projects to share benefits with the host community, consistent with the Shire's strategic vision and best practices in Australia.	

POLICY

Purpose and Background

The Shire of Beverley is committed to ensuring that large-scale renewable energy developments (Wind Energy Facilities (WEFs) or farms, Solar Farms, and Battery Energy Storage Systems (BESS)) deliver lasting positive outcomes for the local community. This Renewable Energy Projects - Community Benefit Scheme Fund (CBS) Policy establishes a framework for proponents of such projects to share benefits with the host community, consistent with the Shire's strategic vision and best practices in Australia.

The Policy strives to align with the principle of maximising the benefits to the community and the environment from renewable projects.

As Western Australia transitions its energy sector towards net-zero emissions, the Shire is preparing for the implications of potential large scale renewable energy projects within its area of jurisdiction. This Policy aims to ensure that as renewable projects proceed, they do so in partnership with the community - through early engagement, benefit-sharing contributions, and transparent governance - leaving a positive legacy in line with the Shire's strategic planning objectives.

Scope

This Policy applies to all large-scale renewable energy facilities within the Shire of Beverley, including wind energy facilities (wind farms), utility-scale solar farms, and large battery storage projects (BESS), typically those with a nameplate capacity exceeding 5 MW.

It is intended for use by Shire staff, Council, and developers (proponents) of renewable energy projects during project planning, approval, and operational phases. The Policy sets out expectations and requirements for negotiating and establishing a Renewable Energy Projects Community Benefit Schemes Fund.

Definitions

Proponent – The developer, operator, or owner of a large-scale renewable energy project (wind, solar, and/or battery) in the Shire. This includes any company or entity seeking development approval for such projects.

Renewable Energy Projects Community Benefit Scheme Fund – A fund to which the proponent contributes financially, for the benefit of the local community. Contributions are typically made annually over the life of the project and are used to support community projects, services, and infrastructure in accordance with this Policy.

Nameplate Capacity – The rated output capacity of a generator (in megawatts for wind/solar, or in megawatt-hours for battery storage if applicable). This is used as the basis for calculating CBS contributions. For hybrid projects, capacity is considered by each component (e.g. MW of wind, MW of solar, MWh of standalone storage).

Life of the Project – The expected operational lifespan of the renewable energy facility, assumed to be approximately 30 years (unless otherwise defined in approvals). CBS contributions are made for the duration of the project's operation.

Social License – The ongoing acceptance and approval of a project by the local community and stakeholders, beyond formal regulatory or legal requirements. It's not a literal license, but rather a metaphorical one that reflects the level of trust, legitimacy, and support a project has from the public. Earning a social license involves proactive community engagement, benefit-sharing, and responsible practices by the proponent to build trust and goodwill.

Policy Statement

The Shire of Beverley requires that all large-scale renewable energy projects contribute to a Renewable Energy Projects Community Benefit Scheme Fund (CBS) to ensure the local community directly benefits from these developments. This Policy sets a consistent approach for negotiating, calculating, managing, and disbursing CBS contributions.

Key principles of the Policy include:

• Early Negotiation and Agreement:

Proponents must engage with the Shire at an early stage (e.g. during feasibility or prior to lodgement of a development application) to negotiate a CBS contribution agreement. The aim is to reach an inprinciple agreement on community contributions before commencement of construction, providing certainty to both the community and the proponent. Early negotiation aligns with best practice which calls for collaboration between councils and developers on benefit-sharing programs (Benefit-Sharing Guideline). The agreed contribution should be formalised via a legal instrument (such as a deed of agreement, or memorandum of understanding) at development approval stage, ensuring it is binding for the project's life.

• Contribution Formula (Per MW and Indexation):

The CBS contribution will be calculated based on the installed capacity of the project of each asset installed and located in the Shire of Beverley, using a rate per megawatt (MW) per annum (or per MWh for storage). As a minimum, the contribution shall be no less than the benchmark rates recommended in the New South Wales Government's 2023 *Benefit Sharing Guideline* for renewable energy projects, which are: \$1,050 per MW per annum for wind energy, \$850 per MW per annum for solar energy, and \$150 per MWh per annum for standalone battery projects, indexed annually to the Consumer Price Index

(CPI) (Benefit-Sharing Guideline).

The contribution amount agreed upon shall be indexed to CPI each year to maintain its real value over time, with the first year's rate typically based on the financial year of project commissioning (Benefit-Sharing Guideline). Contributions are expected on an annual basis for the full operational life of the project (indicatively 30 years), commencing from the start of commercial operations (or as otherwise negotiated). This long-term, CPI-indexed commitment ensures the fund grows over time and provides a reliable stream of community funding.

• Minimum Contribution Levels:

In all cases, the proponent's contribution must meet or exceed the Shire's minimum required level. The Shire will use the NSW guideline rates as a floor, not a ceiling (Benefit-Sharing Guideline). Proponents are encouraged to offer higher contributions or additional benefit-sharing measures where possible (especially if a project has higher impacts or to address specific community needs), but at a minimum the above rates per capacity apply. The Shire's preference is to calculate contributions on nameplate capacity; however, alternative formulas (such as a percentage of capital investment or revenue) may be considered if they deliver equal or greater community value over the project life. In the event that State policy or regulations (future State Planning Policy or legislation) mandate higher standard contributions, the greater requirement will prevail. This ensures that Beverley's community receives a fair share commensurate with projects in other regions and reflects the scale of development.

Administration and Governance – Shire-Managed Fund (Preferred):

The default and preferred model is for the CBS to be administered by the Shire of Beverley. Proponents will make annual payments to the Shire, to be held in a dedicated restricted cash reserve account established for the particular proponent's Community Benefit Scheme Fund. The Shire will manage and disburse the funds in accordance with the *Local Government Act 1995* and relevant financial management regulations and audit requirements. By having the local government manage the fund, the Shire leverages existing governance systems, transparency mechanisms, and community accountability measures. Local governments are best positioned to understand local needs, coordinate projects, exercise sound governance, and maximise returns on investment for community betterment. All CBS monies received will be accounted for in the Shire's annual budget (as restricted funds), and unspent funds will be carried forward in the reserve. Recognition protocols will be established so that the proponent's contribution is acknowledged in Shire publications and at project openings, ensuring the proponent is credited for their community investment (thus supporting their Environmental Social & Governance (ESG) and social license objectives).

Eligible Uses of Funds and Thematic Priorities:

CBS funds must be used for projects, programs, or initiatives that provide a public benefit and align with the Shire's strategic plans (such as the Strategic Community Plan, Corporate Business Plan, Long-Term Financial Plan, and other informing strategies). The overarching goal is to fund long-term sustainable and high-value initiatives that deliver lasting legacy outcomes for the community, rather than one-off short-lived spending. The Shire, in consultation with the community and the proponent, will identify priority themes for investment – for example: improvements to local sporting and recreation facilities, community health and wellbeing programs, education and training scholarships, environmental conservation or renewable energy initiatives, arts and cultural events, emergency services and disaster resilience, tourism development, and local infrastructure enhancement. These thematic areas echo those identified as best practice for reinvesting renewable benefits in host communities. Each year, specific projects or grant programs under these themes will be selected for funding. The Shire will ensure that funded projects are distributed fairly across the community and, where relevant, across different localities within the Shire, so that those most impacted by the development share in the benefits. Importantly, CBS funds are additional – they complement (but do not replace) normal government spending or other funding sources. Proponents are encouraged to

participate in launch events or media for funded projects as part of recognition, under agreed protocols.

- Suggested initial thematic approach areas of investment include:
 - Sport & Recreation: Enhancing sport & recreation facilities, the lifeblood of rural towns;
 - Health and Wellbeing: Enhancing health and wellbeing generally;
 - Education and Training: Scholarships and workforce development programs;
 - Environmental Initiatives: Promoting renewable adoption and conservation; Arts, Culture & Events: Fostering vibrant regional communities;
 - Disaster Resilience and Emergency Services: Strengthening emergency services; and
 - Tourism Development: Investing in attractions to drive economic growth.

Governance Structure (CBS Committee):

To oversee the distribution of CBS monies, the Shire will establish a CBS Committee or Advisory Group. The Committee would ideally comprise Shire representatives (elected members and/or officers), community members (including drawn from near neighbours or stakeholders), and a representative (and deputy) of the proponent company. The committee's role is to provide input on funding priorities, assess grant applications or project proposals, and make recommendations to Council on the allocation of funds each year. The committee will operate under clear terms of reference approved by Council, ensuring decisions are transparent, fair, and aligned with the fund's objectives. The proponent's presence on the committee (in a non-voting or advisory capacity) can help coordinate recognition and ensure their perspective is considered, while the majority community representation safeguards local interests. Meetings will be held at least annually (or as required) to plan and review fund distribution. Annual Reporting on the CBS will be undertaken: the Shire will publish a summary each year of the fund's contributions received, projects funded (with amounts), and outcomes achieved. This report will be provided to the proponent and made available to the community, reflecting the principle that benefitsharing arrangements should be transparent and publicly accessible (Benefit-Sharing Guideline). The fund's management and accounts will also be subject to the Shire's normal audit process, with results reported as part of annual financial statements.

Alignment with Shire Plans and Community Input:

All CBS-funded initiatives should support the broader development plans of the Shire. The proponent and the Shire will work together to ensure that the use of funds complements the Shire's long-term infrastructure and service planning. For example, if the Shire's Long-Term Financial Plan (LTFP) or Planning identifies critical community infrastructure needs (such as upgrades to community halls, recreation centres, or roads impacted by the project), the CBS can be directed to co-fund those projects. Similarly, initiatives in the Strategic Community Plan – such as improving youth services, economic development, or environmental sustainability – can be resourced through the CBS. By aligning expenditures with these plans, the fund delivers strategic value and avoids ad-hoc spending. Community input is vital in this process: the Shire may hold community workshops or invite submissions on how CBS money should be spent, ensuring the fund is responsive to local aspirations. This collaborative approach reflects that benefit-sharing must be community-focused and tailored to local needs (Benefit-Sharing Guideline). Where a proponent has its own corporate social responsibility themes (e.g. Science, Technology, Engineering, and Mathematics (STEM) education, community health), these can be coordinated with Shire priorities to maximise impact.

Option for Proponent-Administered Fund:

While the Shire-managed model is preferred, this Policy allows for an alternative arrangement where the

proponent administers the community fund directly - but only with the Shire's agreement and under specific conditions. If a proponent wishes to establish and run its own Community Benefit Scheme Fund or similar program (for instance, via a trust, community grants program, or a third-party foundation), the following must be ensured: (a) the level of funding provided by the proponent is at least equivalent to what would have been contributed under this Policy's formula (with the same CPI indexation); (b) the fund or programs run by the proponent are aligned with the Shire's strategic objectives and the needs of the Beverley community; (c) the proponent involves the Shire in the governance or decision-making process - for example, the Shire may have representation on the proponent's fund committee or a formal role in approving projects – and (d) there is full transparency and reporting of expenditures to the Shire and community. Essentially, the proponent-run fund must mirror the intent of the CBS in scope and rigor. The Shire will only endorse such an arrangement if it is satisfied that the outcomes will be equal or better for the community than the Shire-managed approach. If a proponent-administered model is adopted, an agreement (or memorandum) must be in place detailing how funds will be allocated, how the Shire will participate in project selection, and how reporting/recognition will occur. The proponent should also demonstrate how the fund ties into their ESG commitments. Regular check-ins (e.g. annual meetings) between the Shire and proponent will be required to review the fund's performance. Notably, even under a proponent-managed scheme, the Shire expects that key programs be coordinated with Council (for instance, if the proponent gives education scholarships or community grants, this should be communicated and celebrated jointly). This cooperative model follows the principle that benefit-sharing should be collaborative and centrally coordinated where possible (Benefit-Sharing Guideline), avoiding duplication or working at cross-purposes.

Financial Management and Reserves:

All CBS funds received by the Shire will be placed in a restricted cash-backed reserve specifically created for the Community Benefit Scheme Fund. This ensures the funds are quarantined for their intended purpose and not used for general expenditure. Interest earned on the reserve will be retained within the fund. Unexpended funds in any given year will be carried forward to future years, building a cumulative balance if appropriate. The Shire, in liaison with the proponent, may choose to accrue funds over multiple years for larger projects of significant community benefit, rather than disbursing all funds every year. However, a general guideline is that funds should be put to use in a timely manner to benefit the community that is hosting the renewable development (unless saving for a planned large project). The reserve will be managed in accordance with the Shire's financial policies and the *Local Government (Financial Management) Regulations 1996*, with annual reporting as noted. If the project terminates earlier than expected (e.g. decommissioning or sale), any remaining funds in the reserve will continue to be used for community benefit. In the case of project ownership transfer, the Shire will seek commitments that the contribution agreement is binding on successors. Should there be any dispute or default in payments, the Shire will refer to the agreement provisions for resolution, noting that consistent contributions are a core aspect of maintaining the project's social license in Beverley.

• Recognition and Communication:

The Shire will develop protocols to formally recognise the contributions made by renewable energy proponents through the CBS. This may include: signage at facilities or project sites acknowledging the proponent's community fund (e.g. "This project was funded by the Community Benefit Scheme Fund contributed by [Company Name]"), media releases and stories highlighting the community outcomes enabled by the fund, and invitations for the proponent's representatives to attend and be acknowledged at community events related to CBS-funded initiatives. Mutual recognition builds goodwill and encourages other developers to also contribute generously. Additionally, the Shire will periodically communicate to the broader public about how hosting renewable energy has directly benefited the community – reinforcing the positive narrative of renewable energy developments. This transparency and promotion are consistent with maintaining public support for the industry and demonstrating that local communities are better off as a result of these projects.

Through this Policy, the Shire of Beverley seeks to create a win-win outcome: proponents fulfill their corporate social responsibilities and gain community acceptance, while the community receives tangible and lasting benefits from the renewable energy transition. The Policy will be reviewed as needed (for example, if State Government introduces new guidelines or if improvements are identified in implementation) to remain aligned with best practices and community expectations.

Exclusion Clause – Neighbour Benefit Schemes (NBS) Not Constituting Community Benefit Scheme Fund Contributions

Nothing in this Policy shall be construed to imply or permit that Neighbour Benefit Schemes (NBS), Near Neighbour Payments, or similar arrangements between proponents and individual landholders or nearby residents constitute part of, or can be offset against, the required Renewable Energy Projects Community Benefit Scheme Fund contribution.

Such neighbour-specific payments are considered project-specific mitigation or social license costs incurred as part of the normal cost of gaining project approval and community acceptance, and are intended to compensate directly impacted individuals, not the broader community.

The purpose of the CBS is to deliver broader legacy benefits to the entire host community, beyond those properties or individuals most proximate to infrastructure. The CBS is a public-good mechanism to fund strategic, equitable, and transparent investments in community wellbeing, services, infrastructure, and sustainability outcomes - not compensation payments for localised amenity impacts.

Accordingly:

- The value or extent of any Neighbour Benefit Scheme implemented by a proponent shall not be deducted from or used to offset the agreed CBS contribution;
- The CBS shall be calculated independently, based solely on the nameplate capacity and CPI-indexed benchmarks outlined in this Policy;
- Proponents are encouraged to implement both NBS and the CBS as complementary but separate streams of community engagement and investment.

This distinction protects the integrity, equity and transparency of the CBS, and ensures that all residents - including those not in immediate proximity to infrastructure - share in the benefit of the renewable energy transition.

Appendix 1 – Community Benefit Scheme Fund (CBS) Procedural & Operational Guidelines

This appendix outlines the step-by-step process for establishing and operating a Community Benefit Scheme Fund in line with the Policy.

Step 1: Initial Engagement and Proposal Stage

- **Pre-lodgement Discussion:** When a proponent is considering a renewable energy development in the Shire, they should contact the Shire administration early to discuss the Community Benefit Scheme Fund expectations. The Shire will provide a copy of this Policy and any relevant information to inform the proponent's planning.
- Scoping the Contribution: The proponent and Shire will jointly scope the likely size of the CBS contribution based on the proposed capacity (e.g. MW of generation and/or MWh of storage). For example, a 100 MW wind farm would typically entail an annual contribution of about \$105,000 (indexed) under current guidelines, while a 50 MW solar farm would be about \$42,500/year (Benefit-Sharing Guideline). This early estimate helps all parties understand the scale of community investment.
- Community Needs Discussion: The Shire may share information on community needs or potential projects that a fund could support, and the proponent may share its initial ideas for benefit programs. Early brainstorming ensures both sides are aligned on the importance of community outcomes (e.g. the proponent might express interest in supporting local apprenticeships or environmental projects, which can be factored into the eventual fund usage).

Step 2: Negotiation of Terms

- Formal Negotiation: As the project details firm up (typically during project feasibility or once a development application is imminent), the Shire's representatives (e.g. CEO or delegated officer, and potentially Council's negotiating team) will meet with the proponent to negotiate the CBS agreement in detail. Key terms include: the annual contribution amount (based on the final capacity e.g., if the project plans 150 MW wind, then \$157,500/yr at \$1,050/MW, CPI indexed (Benefit-Sharing Guideline)), the duration of payments (e.g. 30 years from commissioning or until decommissioning), the indexation method (CPI All Groups, applied yearly), and the payment schedule (e.g. annual in advance, or quarterly). The parties will also discuss the administration model (Shire-managed by default, or any request for proponent-managed as per Policy) and associated governance (committee involvement, etc.).
- Documentation: The outcome of negotiations will be captured in a draft Community Benefit Agreement (see Appendix 3 for an example outline). This agreement may take the form of a stand-alone Deed between the Shire and proponent. The agreement will specify obligations on both parties. Shire Council approval is required to endorse the agreement.
- **Legal Review:** Both the Shire and proponent should seek any necessary legal review of the agreement to ensure it is robust. Important considerations include default provisions (e.g. what if payments are late), transfer of obligations to any new owner, and dispute resolution mechanisms.

Step 3: Development Approval and Agreement Execution

• Council Report: When the development application (DA) for the project is assessed by Council (or by a Joint Development Assessment Panel, JDAP, or State Development Assessment Unit (SDAU), if relevant), the existence or status of the CBS agreement will be noted. Ideally, the agreement (or a memorandum of understanding)

- is signed concurrently with development approval.
- **Finalising the Agreement:** The Shire President and CEO (on behalf of the Shire) and the proponent's authorised officers will execute the Community Benefit Scheme Fund agreement. It will come into effect upon execution or upon a specified trigger (such as upon the project commencement of construction, depending on what is negotiated).

Step 4: Establishment of the Fund and Governance

- Reserve Account Setup: The Shire's finance team will create a new restricted reserve account in its financial system titled "Community Benefit Scheme Fund [Project Name]" (or a consolidated fund for multiple projects, with sub-ledger tracking per project if needed). This ensures any incoming funds are sequestered.
- CBS Committee Formation: Council will establish the CBS Committee or Advisory Group by resolution, including appointing members (elected member representatives, community members, proponent rep, etc., as outlined in the Policy). Terms of Reference will be adopted, covering the committee's role, meeting frequency, quorum, decision process (recommendations), and reporting. Alternatively, if the fund will be small initially, the Council may choose to handle decisions directly and form the committee once significant funds accumulate.
- Public Communication: Once the fund is official, the Shire will announce the
 establishment of the CBS to the community. This could include a joint press release
 with the proponent, highlighting the contribution amount and the shared commitment
 to community development. It helps set expectations that funding will flow when the
 project commences operation.

Step 5: Payment and Indexation Process

- Invoicing: The Shire will issue an invoice to the proponent for the CBS contribution as per the agreed schedule. Commonly, payment will be annual. The first payment might be due either at the start of construction (if agreed) or upon commissioning. (For example, some agreements might stipulate a smaller construction-phase community contribution before full operations.) Typically, the first full annual payment is due within a set time after the project starts exporting power.
- **CPI Adjustment:** Each year, the Shire's invoice will adjust the contribution by the CPI. For instance, if Year 1 (2025) contribution for a solar farm is \$50,000 (based on capacity using \$850/MW (Benefit-Sharing Guideline)) and CPI for the year is 3%, then Year 2 invoice becomes \$51,500. The agreement will specify the CPI index (e.g. Perth Consumer Price Index, or a national CPI) and the reference quarter for calculations.
- Recordkeeping: The Shire records the payment receipt into the CBS reserve. If the
 project spans multiple decades, the Shire will maintain a schedule of expected
 payments and ensure the proponent is reminded of upcoming contributions. The
 proponent should similarly include the payments in their financial models and annual
 budget for the facility.

Step 6: Fund Allocation Planning

Annual Plan: Each financial year, the Shire (through the CBS Committee or relevant
officers) will develop a plan for how that year's available CBS funds (including any
carryover) could be allocated. This might involve: identifying priority projects in
consultation with community (e.g. this year focusing on upgrading a local sports
complex, plus a grants program for community groups); and reserving funds if a large
future project is targeted. The plan will consider the thematic priorities and any
guidance from the Strategic Community Plan or Council.

- Call for Proposals (if grants program): If part of the fund is to be distributed via community grants, the Shire will open an application process. Local community groups, clubs, schools, or not for profit enterprises might apply for CBS grants for their projects. Clear criteria will be published (such as alignment with the fund's themes, demonstrating community benefit, capacity to deliver the project, etc.). The proponent may be invited to help promote this opportunity to encourage a wide range of applications.
- Shire Initiated Projects: The Shire administration may also put forward proposals for using CBS money on Shire projects (for example, a co-funding opportunity with State/Federal grants where CBS money provides matching funds for a big infrastructure project). These proposals would also be tabled to the CBS Committee for consideration.

Step 7: Decision-Making and Approvals

- Committee Review: The CBS Committee (or Council if no committee) reviews all proposed uses of the funds. This could be done in a meeting where Shire staff present a summary of grant applications from the community and any Shire project proposals. The committee assesses each against the Policy objectives and available budget. The proponent's representative provides input, particularly if certain proposals resonate with the proponent's own community investment focus. The committee then forms recommendations e.g. which projects to fund and at what amounts.
- Council Approval: Because the funds are Shire-held, the final approval for expenditure lies with the Council (unless delegated). The committee's recommendations are reported to the Council meeting (this might be part of the Shire's budget adoption or a separate item). Council reviews and formally approves the disbursement from the reserve as recommended or with amendments. Council will ensure decisions are fair and within the scope of the Policy. Where a Council member has a conflict of interest (for example, if they are on the board of a community group applying for funds), they will exclude themselves per standard governance laws.

Step 8: Fund Disbursement

- Release of Funds: Following approval, the Shire's finance team arranges payments to the selected projects/recipients. If the Shire itself is delivering a project, the funds remain in the reserve until transferred to the municipal fund at the time of expenditure (with proper internal accounting). For grants to external groups, funding agreements or Memorandums of Understanding (MOUs) might be used to outline the use of funds and any reporting back needed from the recipient. Cheques/EFTs are issued to grant recipients with official letters.
- Acknowledgment: Along with the payment, the Shire will provide guidance on how the contribution should be acknowledged by recipients (e.g. "please acknowledge the Shire of Beverley Community Benefit Scheme Fund (supported by [Project Proponent]) in any publicity"). Joint press releases or events will be planned for all disbursements and major projects.

Step 9: Monitoring and Reporting

- **Project Monitoring:** The Shire (and possibly the proponent's community liaison, if they have one) will monitor the progress of funded projects. Recipients may be asked to provide a short report or presentation on the outcomes once completed. This ensures accountability and helps gather success stories.
- Annual Reporting: At the end of each financial year (or calendar year), a CBS Annual Report is prepared. It will include the total funds received from each proponent project, the list of projects funded (with brief descriptions and amounts), the carryover to next year, and any highlights or community feedback. This report is presented to the Council

- and also shared with the proponent. It may be published on the Shire's website or included in the Shire's Annual Report to residents. This transparent reporting aligns with best practice where benefit-sharing arrangements information is publicly available (Benefit-Sharing Guideline).
- Audit: The CBS transactions are subject to internal and external audit as part of the Shire's finances. The proponent may also request an audit statement or verification of how funds were used, which the Shire will provide to maintain trust.

Step 10: Ongoing Collaboration and Review

- Regular Meetings: The Shire will hold regular liaison meetings with the proponent (for example, annually or semi-annually) to discuss not only the fund but overall project-community relations. This provides an opportunity to adjust any aspect of the CBS program by mutual agreement. For instance, if after a few years both parties see a need to focus more funds on a particular issue (say, local road safety or a new community centre), the strategy can be tweaked.
- Review of Policy and Agreement: The CBS Policy and any specific CBS agreement
 may be reviewed after a certain period (e.g. every 5 years). Changes could include
 updating contribution rates if state guidelines change, or altering governance if
 needed. Any amendments to an agreement would require consent of both Shire and
 proponent. The Shire will also stay informed on any emerging State policies or
 legislation on community benefit funds to ensure this local approach remains in
 alignment or can be adapted.
- End of Project or Termination: If the project reaches its end of life (around 30 years or if decommissioned earlier), the proponent's obligation to contribute will cease as per the agreement. At that point, the Shire will plan for the use of any remaining funds ideally, to cap off with a lasting legacy project. If a project is repowered or extended, the agreement should be revisited to continue or renew contributions. In cases of project ownership transfer, the Shire will engage with the new owner to reaffirm the commitments (the agreement should bind successors, but proactive engagement helps ensure a smooth transition).

Appendix 2 – Community Benefit Scheme Fund (CBS) Contribution Modelling Examples

This appendix provides illustrative models for Community Benefit Scheme Fund (CBS) contributions based on project capacity, using both the NSW guideline rates and the Shire's advocated framework.

Standard Rates (2023 baseline): As per NSW Government's Benefit Sharing Guideline (Benefit-Sharing Guideline) and the Shire's policy, the base contribution rates are:

- Wind Energy Projects: \$1,050 per MW per year (indexed annually).
- Solar Energy Projects: \$850 per MW per year (indexed annually).
- Battery Energy Storage (Standalone BESS in rural zone): \$150 per MWh of storage capacity per year (indexed annually). (Note: For simplicity, the Shire may alternatively use \$250 per MW of battery power capacity as a guideline; however, if precise storage (MWh) is known, the NSW rate per MWh may be applied to ensure sufficient contribution.)

These figures are in 2023 dollars and are subject to CPI escalation each year going forward (Benefit-Sharing Guideline). The following examples demonstrate how contributions would be calculated:

- **Example 1: Mid-sized Wind Farm** A wind farm of 50 MW capacity. Using the wind rate: 50 MW X \$1,050 = **\$52,500 per annum** initially. If the project operates 30 years, and assuming an average inflation of 2% annually, by year 30 the annual contribution would grow to around \$95,000 and the cumulative contribution over 30 years would be approximately \$2.3 million (in nominal dollars).
- Example 2: Large Wind Farm A project spread over two local government areas: 300 MW of wind capacity in Shire of Beverley (for instance). Contribution: 300 MW * \$1,050 = \$315,000 per annum to Beverley (Benefit- Sharing Guideline). (If split with another Shire, each Shire's share could be proportional to number of turbines or capacity in each jurisdiction, as was done in the Sapphire Wind Farm agreement in NSW (Benefit-Sharing Guideline).) Over 25-30 years, this single project would inject in the order of \$8–9 million into the local community, creating substantial legacy benefits.
- Example 3: Solar Farm A 100 MW solar farm. Using the solar rate: 100 MW X \$850 = \$85,000 per annum. Indexed over 30 years, total contributions would exceed \$2.5 million. Even a smaller 10 MW solar farm would contribute \$8,500 per year, which could fund small community projects or accumulate for larger ones. Many solar projects also include battery components see hybrid example below.
- Example 4: Battery Storage Project (Standalone) A large standalone BESS of 200 MWh capacity (for example, 50 MW power with 4 hours storage = 200 MWh). Using the battery rate: 200 MWh X \$150 = \$30,000 per annum. If the BESS were instead calculated by MW: 50 MW X \$250 = \$12,500 however, since 50 MW 4-hr has significant storage, the higher \$30,000 (via MWh) ensures the contribution is proportional to the facility's usefulness and impact. As battery projects become larger, the guideline may adjust, but this policy secures a baseline contribution from any storage facility.
- Example 5: Hybrid Renewable Project A project combining 150 MW of wind, 50 MW of solar, and a 50 MWh battery on the same site. Contribution would be calculated for each component then summed: Wind: 150 X \$1,050 = \$157,500; Solar: 50 X \$850 = \$42,500; Battery: 50 MWh X \$150= \$7,500. Total = \$207,500 per annum. If the battery is integrated (not standalone), some guidelines suggest not double-counting it (Benefit-Sharing Guideline); however, the Shire's stance is that every component should contribute unless it's clearly part of the same capacity counted

- elsewhere. In any case, this example project would provide over \$200k/year, which could be transformational for local community funding.
- Alternative Capital Value Model: Using Capital Investment Value (CIV) calculation is another method. If a wind farm costs, say, \$2 million per MW to build, a 50 MW wind farm costs ~\$100 million. 1.5% of \$100m is \$1.5 million. Spread over 30 years, that averages \$50,000 per year which is in line with the \$52,500 per year from the per-MW model. Thus, the per-MW rates roughly correspond to ~1.5% of typical project capital cost, ensuring the community captures a small percentage of the project's value. The per-MW (or MWh) approach is more straightforward to administer and adjust with CPI, which is why it's used in this Policy.
- **Indexation Impact:** It's important to illustrate indexation. If inflation runs higher, the contributions will increase accordingly. For example, a \$100,000 annual contribution today at 3% inflation would be about \$242,000 in 30 years. This protects the community's benefit in real terms and avoids erosion of purchasing power.

These contributions, while significant, are generally a small fraction of a project's revenue or profit and are considered standard practice in other jurisdictions to ensure community support (Benefit-Sharing Guideline) (WA government's wind farm development policy lagging behind, councils say - ABC News). Developers in NSW, Victoria, and other states commonly enter into such agreements (sometimes called Voluntary Planning Agreements or Community Benefit Schemes) – for instance, some wind farms in NSW contribute around \$2,500 per turbine or \$1,000+ per MW per year into community funds, and many have delivered hundreds of thousands of dollars to local projects over time (Benefit-Sharing Guideline). The Shire of Beverley's policy ensures we are aligned with these best practices, neither disadvantaging our community nor placing unreasonable burdens on industry.

Allocation Example: Suppose in one year the Beverley CBS (combined from several projects) has \$300,000 available. As per this Policy this could be allocated to various community projects — e.g. \$150k for upgrading a regional recreation centre, \$20k for environmental conservation projects (perhaps leverage additional grants), \$30k for youth training scholarships, \$50k in community grants to local clubs, and retain \$50k for next year or a future big project. In subsequent years, projects would vary according to community needs, but over a decade one could imagine new playgrounds, health services expansions, tourism facilities, and educational programs all being part-funded by this stream. The cumulative effect lifts the social and economic well-being of the Shire significantly, validating the community's support for hosting renewable infrastructure.

Appendix 3 – Community Benefit Scheme Fund (CBS) Example Agreement (Heads of Terms)

This appendix provides a high-level outline of an example agreement that could be used to formalise the Community Benefit Scheme Fund contributions between the Shire of Beverley and a project proponent. This is a general guide and actual terms will be subject to negotiation and legal advice.

Title: Community Benefit Scheme Fund Agreement (Community Benefit Deed) between **Shire of Beverley** and [**Proponent Company**].

Parties:

- Shire of Beverley (the "Shire"), of 136 Vincent Street, Beverley WA, 6304.
- [Proponent Name] Pty Ltd (the "Proponent"), ACN [xxxxxx], registered address [xxxxx]. (This is the developer/operator of the [Name of Renewable Project]).

Background:

- The Proponent is developing the "[Project Name]" which is a [wind farm/solar farm/BESS/hybrid] with a capacity of [X MW] (and BESS capacity of Y MWh if applicable) located at [general area description] within the Shire.
- The Shire of Beverley has a policy requiring large renewable energy projects to provide community benefit contributions to ensure local communities share in the benefits of these projects. The Proponent, in the interest of being a good corporate citizen and maintaining a social license to operate, has agreed to contribute to a Community Benefit Scheme Fund for the benefit of the Shire's community.
- This Agreement outlines the terms and conditions of the Proponent's contributions and the Shire's obligations in managing those contributions. It is entered into in good faith alongside the development approval for the Project.

1. Commencement and Term:

This Agreement commences on the date of signing and continues for the operational life of the Project, estimated to be 30 years from the commencement of electricity generation. The term may be extended or revised by mutual agreement, for instance if the Project is repowered or its operational life is extended. If the Project is decommissioned earlier than 30 years, clause [X] on early termination will apply (generally requiring contributions up to the date of decommissioning and any final settlement of that year's amount pro-rata).

2. Contribution Amount:

The Proponent will provide an annual monetary contribution to the Shire's Community Benefit Scheme Fund. The contribution for the first year of the Project's operation is agreed to be \$[Amount], which is based on the formula of [\$1,050 per MW for wind / \$850 per MW for solar / \$150 per MWh for BESS] applied to the Project's capacity (noting the Project consists of [A] MW of wind, [B] MW of solar, [C] MWh of storage). This base amount is in 2023 Dollar value. For each subsequent year, the annual contribution will be adjusted by the CPI (All Groups, Perth) for the preceding year (or an equivalent index as agreed). The Shire will provide the Proponent with a calculation of the adjusted amount each year. If the Project's capacity is expanded, the contribution will be recalculated accordingly (subject to a reasonable notice and agreement on start of increased payments). The contribution is exclusive of any rates or taxes – it is a separate community benefit payment, not to offset rates or other charges.

3. Payment Schedule:

Unless otherwise agreed, the Proponent shall pay the annual contribution in one instalment each year. The first payment shall be due on [date, e.g. 1 July] after the Project commences commercial operations (or within 30 days of that milestone). Thereafter, each payment is due by [date] of each year. The Shire will issue a tax invoice for each contribution. The Proponent shall pay the invoice within 30 days of receipt. Alternatively, by mutual agreement, the annual contribution can be split into [quarterly/half-yearly] payments to facilitate cashflow (the indexation would be applied proportionally). Late payments shall accrue interest at [e.g. statutory interest rate for local govt charges] and persistent default (after notice and cure period) may trigger dispute resolution as per Clause 9.

4. Fund Management:

The Proponent's contributions will be held by the Shire in a dedicated reserve (the Community Benefit Scheme Fund). The Shire will be responsible for administering the fund and expending monies on eligible community projects, in line with the Shire's Community Benefit Scheme Fund Policy and this Agreement. The Shire will maintain separate accounting for all contributions and expenditures under this fund. The funds will be used solely for community benefit purposes and not for the Shire's general operational costs, except for minor administrative overheads directly related to managing the fund (if any, and ideally taken from interest earnings to avoid reducing community monies). Unspent funds will roll over each year and remain available for future community projects. The Shire may invest the funds in accordance with its investment policy and the Local Government Act, with any interest earned to be added to the fund. Both parties acknowledge that using the local government to manage the funds leverages existing prudent financial management structures.

5. Fund Governance and Consultation:

The Shire will establish a governance mechanism (e.g. a committee or panel as described in the Policy) to guide how funds are used. The Proponent will be invited to nominate a representative to join the committee in an advisory or observer role. The committee will also include community representatives and at least one elected member. The committee's function is to recommend projects and allocations for the fund. The Proponent and the Shire agree to cooperate in good faith in this process, recognising the Proponent's desire to see its contributions create positive outcomes, and the Shire's role in representing community interests. The Shire will consult with the Proponent on the strategic priorities for the fund, particularly if the Proponent has relevant expertise or programs (for example, if the Proponent runs a regional STEM education program, the Shire might allocate some funds to complementary local STEM scholarships). Final decisions on fund disbursement rest with the Shire (Council), but will take into account the committee's recommendations. In the event the Proponent chooses to directly administer certain community programs (as part of or in addition to the contributions), this will be done in coordination with the Shire to avoid duplication and ensure alignment with community plans (such arrangements can be detailed in a Schedule to this Agreement if applicable).

6. Eligible Projects and Use of Funds:

The Agreement reaffirms that funds will be applied to projects that benefit the community within the Shire of Beverley. A non-exhaustive list of eligible uses: community infrastructure (e.g. recreation facilities, community halls, local road safety improvements), health and wellbeing initiatives, educational and training programs (such as scholarships, apprenticeships for locals in renewables), environmental and sustainability projects (landcare, climate adaptation, etc.), arts and cultural heritage projects, events that foster community cohesion, and emergency services support. Both parties agree that funded projects should be non-controversial, broadly inclusive, and aligned with the themes set out in the Shire's strategic documents. The Proponent's branding or naming rights for facilities can be discussed on a case-by-case basis for major contributions (e.g. a "[Project Name] Community Sports Centre" refurbishment courtesy of the fund), subject to Council policies on sponsorship. The Shire will not use CBS money to cover costs that the Proponent is otherwise required to bear as a condition of development (e.g. road repairs directly caused by construction, which are dealt with via separate

agreements, or compliance monitoring costs). The CBS is intended for additional community value, not mitigation of direct impacts, which are managed under other legal frameworks.

Suggested initial thematic approach areas of investment include:

- Sport & Recreation: Enhancing sport & recreation facilities, the lifeblood of rural towns;
- Health and Wellbeing: Enhancing health and wellbeing generally;
- Education and Training: Scholarships and workforce development programs;
- Environmental Initiatives: Promoting renewable adoption and conservation;
- Arts, Culture & Events: Fostering vibrant regional communities;
- Disaster Resilience and Emergency Services: Strengthening emergency services; and
- Tourism Development: Investing in attractions to drive economic growth.

7. Transparency and Reporting:

The Shire will provide an Annual Report to the Proponent each year by [date, e.g. September 30] detailing: the amount of contribution received in the past year, the projects or initiatives funded (with brief description and amount allocated to each), the balance of any unspent funds, and plans for any major carryover projects. The report will also include testimonials or outcomes where available (e.g. "X number of people benefited from the new training program funded by the CBS"). The Shire will make this information available publicly (e.g. via Council meeting minutes or website) to maintain transparency with the community (Benefit-Sharing Guideline). The Proponent is encouraged to use the information in its own sustainability reporting or media releases to highlight the community benefits delivered. Representatives of the Proponent may be invited to annual public forums or committee meetings to discuss the fund's outcomes. If the Proponent administers any portion of the community benefits (outside this fund), it will likewise report those to the Shire annually for completeness. Both parties will communicate regularly about the fund's status, and any concerns or suggestions either party has regarding the fund's operation will be discussed in good faith.

8. Recognition:

The Shire shall ensure appropriate recognition of the Proponent's contribution in line with the Policy. This includes, but is not limited to: signage or plaques on infrastructure projects funded (where practical) acknowledging the Proponent's role (e.g. "Funded by the Community Benefit Scheme Fund from [Project Name]"

and Shire logos), acknowledging the Proponent in press releases or public announcements regarding the CBS-funded projects, and inviting the Proponent's representatives to ceremonies or events inaugurating projects. The intent is to publicly credit the Proponent for its community investment, reinforcing the positive relationship. The Proponent may also choose to co-brand certain programs (for example, "[Company Name] Beverley Community Scholarships" in partnership with the Shire). Any media produced by the Proponent referencing the fund should acknowledge the Shire's role (e.g. as administrator and partner). Both parties will agree on any signage wording or major publicity to ensure accuracy and appropriateness.

9. Default and Dispute Resolution:

If the Proponent fails to make a contribution by the due date, the Shire will notify the Proponent in writing and the Proponent must rectify the non-payment within [60] days. Failure to do so entitles the Shire to pursue legal remedies to enforce the payment (since this Agreement may be documented as a deed, it is legally enforceable). However, both parties acknowledge that maintaining a cooperative relationship is paramount. In the event of any dispute arising from this Agreement – whether about the interpretation of eligible fund uses, the adjustment of contributions, or any other matter – the parties agree to first meet and attempt to resolve the issue amicably. If needed, senior representatives (e.g. the Shire CEO and a Director of the Proponent) will engage in mediation. If a dispute cannot be resolved through negotiation or mediation within a reasonable time, either party may refer the matter to an independent arbiter or to

a court with jurisdiction, although formal litigation is a last resort. This dispute clause is aimed at ensuring any disagreements do not derail the overall purpose of the fund or the relationship between the community and the project.

10. Assignment and Successors:

This Agreement binds the successors and assigns of the Proponent. If the Project (or the operating entity) is sold or transferred, the Proponent will ensure as a condition of that sale/transfer that the new owner/operator enters into a deed of novation or equivalent to assume the obligations of this Agreement. The Proponent shall notify the Shire of any impending change in ownership. The Shire's rights and obligations under this Agreement will similarly bind any amalgamated local government or a scenario where responsibilities shift (though the Shire has no intention to assign its role except as required by law). This clause ensures continuity of the community benefits regardless of ownership changes in the project over its life.

11. Variation and Review:

Any variation to this Agreement must be made in writing with the consent of both parties. Both parties acknowledge that the contribution rates are set based on current policy and guidelines; if in future the State of WA introduces a mandatory scheme or the Shire updates its Policy, the parties may review the terms to ensure consistency. However, any reduction in the agreed benefit to the community would not be made without a compelling justification and mutual agreement. A formal review of this Agreement shall occur at the 5-year mark (and every 5 years thereafter) to discuss its effectiveness, with adjustments made by agreement to address any issues or changed circumstances (for example, if CPI indexing dramatically changes economic value, or if the project's capacity changes). The review will also consider community feedback on the fund's performance.

12. Miscellaneous:

Include standard legal clauses such as: Notices (how communications under the agreement are given to each party, e.g. addresses for service), Governing Law (State of Western Australia), Entire Agreement (this document constitutes the entire agreement on the subject of community contributions for this project, and supersedes any prior representations), and counterparts (if signing in multiple copies).

Execution:

Signed for and on behalf of Shire of Beverley by: Shire President & CEO Names, Shire President & CEO signatures, date and sealed if required. Signed by an authorised representative of [Proponent Company]: Director or CEO name(s), Director or CEO signature, date.

This example agreement is a template outline and will be tailored to the specific project and negotiations. It serves to illustrate the key commitments – namely, the proponent's promise to deliver ongoing community funding and the Shire's role in managing those funds for maximum local benefit, in a transparent and accountable way.

ADOPTED POLICY	
Title:	COUNCILLOR TRAINING AND PROFESSIONAL DEVELOPMENT POLICY
Objective:	To establish guidelines to enable Councillors to meet their statutory obligations in relation to Councillor Training and to promote professional development.

Objective

To establish guidelines to enable Councillors to meet their statutory obligations in relation to Councillor Training and to promote professional development to maintain and enhance their knowledge and skills in a sector that is fast changing and requires engagement from the Local Community to the Federal Government.

Scope

This policy applies to all Councillors. Part 5, Division 10 of the Local Government Act 1995 (the Act) describes provisions related to the universal training of Councillors:

- under section 5.126 of the Act, each Councillor must complete training in accordance with the Regulations;
- under section 5.128 of the Act, a local government must prepare and adopt a policy in relation to the continuing professional development of councillors.

Eligibility

Eligible training and development to which this policy applies will generally be limited to those coordinated and/or run by either:

- a) The Western Australian Local Government Association (WALGA).
- b) The major professional bodies associated with local government.
- c) Accredited organisations offering training relating to the role and responsibilities of Councillors.

Mandatory Training

- a) Councillors are required to complete the Council Member Essentials training modules prescribed by Regulation 35, Local Government (Administration) Regulations 1996 within the first 12 months of their election to Council.
- b) The cost of completing the training modules will be funded from the Councillors annual allocation for training activities.

Request and Approval for Attendance

- a) Any approval for conference, seminar or training program attendance is always subject to budgetary funds being available.
- b) The Chief Executive Officer may approve Councillors attending the WALGA Convention, the Council Member Essentials training modules, and a training request where there is a specific budget provision and all Councillors have been offered the opportunity to attend.

- c) Requests for course participation or conference attendance may be initiated by the Council Member and should be forwarded to the Chief Executive Officer in a reasonable time prior to enrolment or registration.
- d) Any request for training/development within three months of any election process for the seat held by the Councillor making the application will not be eligible for approval unless there are compelling reasons for attendance. This does not include the WALGA Local Government Convention.
- e) Any requests to attend interstate or overseas conferences, seminars or other professional development opportunities, or that will exceed the annual budget allocation will be considered by Council.

ADOPTED POLICY	
Title: Councillor Training Policy	
Objective:	To establish guidelines for appropriate disclosure and management of acceptance of invitations to events or functions, or other hospitality occasions, where elected members and employees are invited free of charge, whether as part of their official duties as council or Shire representatives or not.

Objective

To establish guidelines for appropriate disclosure and management of acceptance of invitations to events or functions, or other hospitality occasions, where elected members and employees are invited free of charge, whether as part of their official duties as council or Shire representatives or not.

Scope

This policy applies to all Councillors and all staff at the Shire of Beverley.

In accordance with section 5.90A of the Local Government Act, an event includes, but is not limited to the following:

- · a concert
- · a conference
- a function
- a sporting event
- occasions prescribed by the Local Government (Administration) Regulations 1996

Travel and accommodation excluded: This policy does not apply to tangible gifts or money, travel or accommodation. Any contribution to travel, subject to the exceptions in section 5.83 of the Local Government Act 1995 (the Act), must be disclosed in writing to the CEO within 10 days of receipt of the contribution.

Contributions to travel costs, whether financial or otherwise are now incorporated within the definition of gift. The following situations are specifically excluded where the event ticket (gift) is received from one of the following organisations:

- WALGA
- LGIS
- · Local Government Professionals Australia (WA)
- · Australian Local Government Association
- · A department of the public service
- · A government department of another State, a Territory or the Commonwealth
- · A local government or regional local government

The gift is still required to be recorded on the "gift register".

Statement

Elected members, the Chief Executive Officer and some Shire staff attend events to fulfil their leadership role in the community. Elected Members and/or the Chief Executive Officer will receive tickets or invitations to attend events to represent the Shire. The event may be a paid event or a ticket/invitation may be gifted in kind.

Attendance is approved for the following events by Elected Members and Shire of Beverley staff:

- Advocacy lobbying or Ministerial briefings
- Meetings of clubs or organisations within the Shire of Beverley
- Any free event held within the Shire of Beverley
- Australian or West Australian Local Government events
- Local Government Professionals Association (WA) events
- LGIS events
- Events hosted by Clubs or Not for Profit Organisations within the Shire of Beverley to which the Shire President, an Elected Member or the Chief Executive Officer or staff has been officially invited
- Shire hosted ceremonies and functions
- Shire hosted events with employees
- Shire run tournaments or events
- Shire sponsored functions or events
- Community art exhibitions
- Cultural events/festivals
- Events run by a Local, State or Federal Government
- Events run by schools and universities within the Shire of Beverley
- Major professional bodies associated with local government at a local, state and federal level
- Opening or launch of an event or facility within the Shire of Beverley
- Recognition of Service events
- RSL events
- Where Shire President, Elected Member or executive staff representation has been formally requested
- Free public events

All Elected Members and executive staff are entitled to attend a pre-approved event. If there is a fee associated with a pre-approved event, the fee, will be paid for by the Shire out of the Shire's budget by way of reimbursement, unless the event is a conference which is dealt with under an alternative Council Policy.

If there are more Elected Members than tickets provided, then the Shire President shall allocate the tickets.

If an elected member (or executive staff) is unable or does not wish to attend the event to which the invitation relates, the member is to advise the event organiser of their unavailability, or may distribute it to another elected member (or member of staff) of their choosing, if the event organiser agrees. Otherwise, it is at the sole discretion of the event organiser, whether the invitation, or tickets, can be redistributed.

Non Pre-Approved Events - Approval Process

Where an invitation is received to an event that is not pre-approved, it may be submitted for approval prior to the event as follows:

- Events for the Shire President may be approved by the Deputy Shire President or CEO
- · Events for Councillors may be approved by the Shire President or CEO
- Events for the Chief Executive Officer may be approved by the Shire President or Deputy President

Considerations

In considering whether a benefit such as an invitation to an event or hospitality given to an elected member or an employee is a gift for the purposes of the Act and Regulations, the key issues include:

- Who is a donor, the person/company who is offering or giving the benefit?
- · What is the value of the benefit?

- Any justification provided by the applicant when the event is submitted for approval
- The benefit to the Shire of the person attending
- · Alignment to the Shire's Strategic Community Plan
- Does the elected member or employee of the benefit contribute anything of value to the donor in return for the benefit such as formally opening or speaking at the event or presenting prizes/awards?
- If so, does the value of that contribution outweigh the value of the benefit?

If so, it will not be a gift for the purposes of the Act and Regulations.

Where an Elected Member has an event approved through this process, and there is a fee associated with the event, then the cost of the event, will be reimbursed on request. Where the Chief Executive

Officer has an event approved through this process, and there is a fee associated with the event, then the cost of the event is to be paid for out of the Shire's relevant budget allocation.

Non-Approved Events Payment

Any event that is not pre-approved, is not submitted through an approval process, or is received personally, is considered a non-approved event.

- If the event is ticketed and the Elected Member or Executive Staff pays the full ticketed price and does not seek reimbursement, then no action is required.
- If the event is ticketed and the Elected Member or Chief Executive Officer pays a discounted rate, or is provided with a free ticket(s), with a discount value, then the recipient must disclose receipt of the tickets (and any other associated hospitality) within 10 days to the Chief Executive Officer (or President if the CEO) if the discount or free value is greater than \$300 for Elected Members and the CEO.

Conflict

Event attendance may create a perceived or actual conflict, which may preclude council members participating or employees providing advice at a future meeting. If the amount of an event ticket (gift) is less than \$1,000, and relates to a matter before Council, under section 5.68 of the Act, Council may allow the disclosing council member to participate on the condition that the interest, the council's decision and the reasons for that decision are recorded in the minutes. If the amount gift is above \$1,000 the council or CEO must apply to the Minister for permission to allow the member or employee to participate.

Policy

Policy Statement

The **Shire of Beverley** and its employees are committed to providing a working environment where every employee is treated equally, fairly and without prejudice. For the purposes of this policy, the term "employee/s" will extend to cover contractors, volunteers and any person performing work for or with the **Shire of Beverley** in any capacity.

Unlawful Discrimination

The **Shire of Beverley** acknowledges its responsibilities and obligations pursuant to State and Federal equal opportunity and anti-discrimination laws.

The **Shire of Beverley** and its employees acknowledge they are subject to State and Federal equal opportunity and anti-discrimination legislation. The following is a non-exhaustive list of the grounds of discrimination for which it is unlawful to discriminate against an individual:

- Age;
- Family responsibility or status;
- Race or colour;
- Sex including gender identity, sexual orientation and intersex status;
- Physical or mental disability;
- Marital status;
- Political or religious conviction;
- Pregnancy;
- Criminal record;
- Breastfeeding;
- Gender history;
- Impairment;
- National extraction or social origin; and
- Trade union activity

Sexual Harassment

The Equal Opportunity Act 1984 (WA) and the Sex Discrimination Act 1984 (Cth) provide that it is unlawful to engage in sexual harassment. Sexual harassment can be defined as any unwelcome conduct of a sexual nature, such as an unwelcome sexual advance or an unwelcome request for sexual favours, in circumstances in which a reasonable person would anticipate that the person harassed would be offended, humiliated or intimidated.

Some examples of sexual harassment include, but are not limited to:

- Physical contact (touching, rubbing, patting, embracing, brushing up against etc.);
- Gestures of a sexual nature:
- Leering or staring;
- Offensive telephone calls, emails, text messages or notes;
- Sexual suggestive jokes or comments;
- Tales of sexual exploits;
- Repeated requests for a date;
- Unwelcome comments or questions about a person's sex life, appearance or dress; and
- Sexually graphic material (poster, calendars, cartoons, graffiti, messages, emails).

Bullying

Bullying is defined as repeated and unreasonable behaviour directed towards an employee or a group of employees that creates a risk to health and safety. Unreasonable behaviour amounts to behaviour that a reasonable person in the circumstances would see as unreasonable including behaviour that is victimising, humiliating, intimidating or threatening.

Bullying is also unlawful under the Occupational Safety and Health Act 1984 (WA) and the Occupational Safety and Health Regulations 1996 (WA).

Some examples of bullying include, but are not limited to:

- Loud, abusive or offensive language or comments;
- Yelling and screaming;
- Unjustified criticism and insults;
- Unjustified threats of dismissal or other disciplinary action;
- Acts of sabotaging another's work by withholding information which is required to fulfil tasks;
- Spreading malicious rumours or misinformation;
- Inappropriate comments about an employee's appearance, lifestyle of family;
- Deliberately excluding an employee from workplace meetings or activities;
- Hiding documents or equipment or withholding vital information required for effective work performance;
- Constantly changing targets or work guidelines;
- Overloading an employee with work and impossible deadlines;
- Setting tasks that are unreasonably below or beyond an employee's level of skill;
- Threats of assault or violence or actual violence;
- Teasing and practical jokes; and
- Isolating or ignoring an employee on a constant basis.

Where an employee makes a threat of violence or assaults another employee, the police should be called.

Reasonable Management Action

The **Shire of Beverley** has a right to take reasonable management action to direct the way in which work is conducted and to give employees lawful and reasonable directions to complete work in a certain manner. Reasonable management action is not workplace bullying.

Some examples of reasonable management action include, but are not limited to:

- The establishment and regular use of performance management systems;
- The setting of reasonable performance targets and deadlines;

- Providing employees with constructive feedback or counselling to assist workers to improve their work performance or the standard of their behaviour;
- Issuing a lawful and reasonable direction to an employee to complete a work task;
- Preparing and amending a roster for employees;
- Transferring an employee to a different work location for operational reasons;
- Implementing organisational change;
- Informing an employee about inappropriate behaviour in a confidential manner; and
- Taking disciplinary action against an employee.

Other Behaviours not Considered to be Bullying

Where two or more employees have a difference of opinion and disagree on an issue, this is not usually considered to be workplace bullying. However, where conflict escalates and is repeated, it may meet the definition of workplace bullying.

Additionally, bullying does not occur where bullying behaviour is a one off occurrence and if that behaviour does not create a risk to health or safety,

What are the Ways in which Bullying can Occur?

There are a variety of ways bullying behaviour can occur in the workplace such as verbally, through email or text message or via social media. Bullying can be directed at an individual employee or a group of employees, and can be carried out by one or more employees. Bullying can occur between employees, downwards from managers to employees or upwards from employees to supervisors or managers.

What to do if you think you are being Discriminated Against, Sexually Harassed or Bullied?

Refer to the Grievance Policy and Grievance Procedure for steps to take if you think you are being discriminated against, sexually harassed or bullied, or if you suspect another employee is experiencing any of those things.

Roles & Responsibilities

To ensure the intent of this policy is realised, various roles within the **Shire of Beverley** must assume certain responsibilities.

Complainant - An employee who raises a complaint about a matter regarding the workplace.

Respondent – An employee who is alleged to have acted in a manner which caused the complainant to raise a complaint.

Support Person – A Complainant and/or a Respondent may choose to bring a Support Person with them to a meeting, where practicable. The role of a Support Person is not to advocate on behalf of anyone, but to simply provide emotional support.

Witness – A person (including an employee) who is requested by the Local Government to assist the process by providing relevant information regarding the complaint.

What to do if you have a Complaint?

If an employee (Complainant) is the victim of behaviour of another employee (Respondent) which is inconsistent with the Local Government's policies, procedures or guidelines (Policies), the Complainant should, where reasonable or practicable, first approach the Respondent for an informal discussion. If the nature of the complaint is deemed to be sufficiently serious, the complainant should contact their Manager directly.

If the inappropriate behaviour continues, the Complainant is encouraged to make a formal complaint to their direct manager. If the direct manager is the Respondent in the matter or if the employee feels uncomfortable approaching their manager, the Complainant should approach the Deputy Chief Executive Officer.

The employee who receives the complaint must contact their Manager and decide upon the most appropriate way to take the matter forward, whether it is an informal discussion with the Complainant and/or the Respondent, or the commencement of a formal investigation of the complaint.

Key Principles in the Complaint Resolution Process

The following principles are necessary for the fair investigation and resolution of a complaint:

Confidential – Only the employees directly investigating or addressing the complaint will have access to the information about the complaint. The **Shire of Beverley** may inform or appoint a third party to investigate or advise on the investigation. All parties involved in dealing with a complaint are required to keep the matter confidential. Information will only be placed on an employee's personal file if they are disciplined as a result of the complaint;

Impartial (fair/unbiased) – Both parties will have an opportunity to put their case forward. No assumptions are made and no action will be taken until available and relevant information has been collected and considered;

Sensitive – The employees who assist in responding to complaints should be specifically trained or equipped to treat all complaints sensitively and ensure the process is free of coercion or intimidation;

Timely – The **Shire of Beverley** aims to deal with all complaints as quickly as possible and in accordance with any legislative requirements;

Documented – All complaints and investigations must be documented. In formal grievance processes, records must be kept of all documents collected and/or drafted as part of that process. For more informal processes, a file note or note in a diary may be sufficient;

Natural Justice - The principles of natural justice provide that:

A Respondent against whom allegations are made as part of a grievance process has the right to respond to the allegations before any determination is made;

Key Principles in the Complaint Resolution Process (Continued):

- A Respondent against whom an allegation is made has the right to be told (where possible and appropriate) who made the allegation;
- anyone involved in the investigation should be unbiased and declare any conflict of interest;
- decisions must be based on objective considerations and substantiated facts; and
- the Complainant and the Respondent have the right to have a support person present at any meetings where practicable.

Procedural Fairness - The principles of procedural fairness provide that:

- the Respondent is advised of the details (as precisely and specifically as possible) of any allegations when reasonably practicable;
- A Respondent is entitled to receive verbal or written communication from the Shire of Beverley of the
 potential consequences of given forms of conduct, as applicable to the situation;
- The Respondent is given an opportunity to respond to any allegations made against them by a Complainant;
- Any mitigating circumstances presented to the Shire of Beverley through the grievance process are investigated and considered;
- the Respondent has the right to have an appropriate support person present during any inquiry or investigation process where practicable or necessary;
- any witnesses who can reasonably be expected to help with any inquiry or investigation process should be interviewed: and
- All interviews of witnesses are conducted separately and confidentially.

Outcome of Making a Complaint

If a complaint is substantiated, there are a number of possible outcomes. If the complaint involves a performance issue, the manager of the Respondent may:

- commence a formal or informal performance management process with the Respondent or elect to discipline the Respondent.
- If the complaint involves a breach of a Policy or any other behaviour that is inconsistent with the employment relationship, the manager of the Respondent, in consultation with the Chief Executive Officer, may elect to discipline the Respondent in accordance with the Disciplinary Policy.

Vexatious or Malicious Complaints

Where a Complainant has deliberately made a vexatious or malicious complaint, that Complainant may be subject to disciplinary action, including but not limited to, termination of employment.

Victimisation of Complainant

A Complainant must not be victimised by the Respondent or any other employee of the **Shire of Beverley** for making a complaint. Anyone responsible for victimising a Complainant may be subject to disciplinary action, including but not limited to, termination of employment.

Variation to This Policy

This policy may be cancelled or varied from time to time. All the **Shire of Beverley**'s employees will be notified of any variation to this policy by the normal correspondence method.

The Individual's Responsibility

Under the *Work Health and Safety Act 2020* (the WHS Act), workers must take reasonable care of their own safety and health and not endanger the safety and health of others at the workplace. The consumption of alcohol and/or drugs while at work is unacceptable, except in relation to any authorised and responsible use of alcohol at workplace social functions. Employees are required to present themselves for work and remain, while at work, capable of performing their work duties safely. An employee who is under the influence of alcohol and/or drugs at the workplace, or is impaired, will face disciplinary action including termination of employment.

Tolerance Level

The Shire of Beverley has a 'zero' tolerance on both Drug and Alcohol Consumption.

Reporting Requirements

Employees must report to their employer any situation where they genuinely believe that an employee may be affected by alcohol and/or other drugs.

Drug Use on the Premises

Employees who buy, take, or sell drugs on Shire of Beverley's premises, may be found to have engaged in serious misconduct. Such behaviour shall result in disciplinary action up to and including dismissal. Pre-Employment Medical Tests

As part of the recruitment selection criteria, preferred candidates for employment positions may be required to attend a medical assessment which includes drug and alcohol testing.

Identification of Impairment and Testing

If the Shire of Beverley has reasonable grounds to believe that an employee is affected by drugs and/or alcohol it will take steps to address the issue.

Reasonable grounds may include (but are not limited to), where an employee's coordination appears affected, has red or bloodshot eyes or dilated pupils, smells of alcohol, acts contrary to their normal behaviour, or otherwise appears to be affected by drugs and/or alcohol.

Random testing may also be conducted. Random testing may utilise a variety of methods for randomly selecting names such as software, lottery of selection through coloured marbles in a bag drawn by each employee. All staff on site must participate in the random selection.

- require that an employee undergo drug and alcohol testing administered by a representative of Shire of Beverley; and/or
- direct an employee to go home.

A medical assessment may include a drug and/or alcohol test. Testing shall be conducted in accordance with the Australian Standard AS/NZS 4760 - Procedures for specimen collection and the detection and quantitation of drugs in oral fluid and/or the Australian Standard AS/NZS 4308 - Procedures for specimen collection and the detection and quantitation of drugs of abuse in urine.

In circumstances where an employee indicates the consumption of prescription or pharmacy drugs, the Shire of Beverley can request further information from the medical practitioner conducting the assessment about the effects and proper usage of the prescription or pharmacy drugs being taken. The Shire of Beverley may direct the employee to go home following the medical assessment until it can be established that they are fit to undertake their duties.

If an employee refuses to attend a medical examination or refuses to submit to an alcohol or drug test, the employee will be immediately directed to go home.
